NEW LIQUOR ORDINANCE.
OGDEN, Sept. 14.—Considerable minor routine business was transacted in the city council session last night. There was also introduced a new liquor ordinance by Councilmen Peery and Humphrey, providing for the controlling of the selling and manufacturing of intoxicating liquor. The new ordinance is in many respects similar to the one tabled by the council some months ago until after election.

In addition to the sections relating to the regulation of the liquor traffic in Ogden, it provides for the following increase of license: Retail dealers, from \$250 to \$300; wholesale dealers, from \$50 to \$100; manufacturers, from \$100 to \$150; and retail dealer in one establishment, from \$150 to \$200 per quarter.

In addition to these licenses, a quarterly license of \$200 is required from retail dealers in malt liquors only, and \$50 for manufacturers' agents or distributors. After the first reading of the ordinance, it was passed to its second reading by a vote of 10 to 2, and was referred to the license committee for report. A resolution tendering to the family of the late Edward H. Harrison the sympathy and condolences of the mayor and the members of the city council was offered by Councilman Horace Peery and passed unanimously. The city council also organized a committee to investigate the case of the city council and to send a copy to the family of the deceased railroad engineer.

THOMAS FAIR ROBBED.
OGDEN, Sept. 14.—The police are holding for the police a man named Thomas Fair, who was robbed of a watch and a gold chain of about \$300 in cash and

\$300 dollars in checks. Four men were taken into the affair and a good description has been furnished the officers who have hopes of apprehending the thieves soon. Two of the quartet drove the proprietor into a rear room in the pretense of examining some baled hay and the other men quickly emptied the contents of the till into their pockets and made good their escape. The law was not discovered until closing time when Mr. Fair began checking up his day's business and found the empty till.

The attendance was not as large yesterday as the management would have liked, owing to the sudden drop in temperature of the weather, but the closing day was a repetition of all preceding days as far as the success of the fair was concerned. This morning all exhibitors moved their belongings and nothing remains, except the traces, to remind one of the festive appearance of the buildings and grounds.
