

the gain, and has expressed himself as feeling better in every way.

WASHINGTON, 10.—Chas. F. Clerk, of the office of Commissioner of Railroads, Interior Department, who is now west making an examination into the affairs of the Pacific railroads, will go over the Central Pacific, and will submit a report supplemental to that made up and submitted by Auditor French before the latter resigned. French's report omitted a number of details regarding the Central Pacific affairs which the Interior Department wants to file. French covered the finances and operation of the road, but probably Clerk will thoroughly re-examine and review French's report. Since French's report was submitted the Central Pacific has paid in \$144,000 toward the sinking fund.

SAN FRANCISCO, 10.—A dispatch from Tombstone, Arizona, says: The following telegram was received here to-day by Acting Governor Gosper:

Wilcox, Sept. 8. Application has been made for arms to be sent from Benicia, Arizona, at once to Fort Lowell, Bowie, Grant, McDowell and Wilcox stations for sale to settlers. The war has so far been confined to the smallest possible limits, but I hope advantage will be taken of the emergency by the civil authorities to place the Territory in a state of self-defense, and I advise the organization of minute men and military companies everywhere, that they may be called upon when needed. The arms question is not in my hands, and for the few at the posts the officers are peculiarly responsible, and most of the officers are now absent in the field. The Secretary of War and the Ordnance Department control thousands of arms and millions of cartridges lying in arsenals, obtainable, however, only under the laws of Congress. Acting Governor Gosper concurs with General Wilcox in this matter, and recommends an organization at the exposed points, to co-operate with military. The Governor is doing all in his power to obtain arms and ammunition, to put the Territory in a state of defense. He goes immediately to General Wilcox's headquarters to consult with him on the state of affairs.

Gov. Gosper received the following from Anderson, at Prescott, to-day: The Indians killed four men 15 miles beyond Flagstaff, and one in Verde Valley, and also one on Ash Creek. Mayor Keeley has applied for 50 stand of arms and ammunition for the town. He will give bonds for all arms from the Fort. We are left without weapons to defend this section of the country. He also received a dispatch from Gen. Arnold, at Wilcox, saying that the company stationed at Fort Grant would have to be withdrawn, and asking to organize a company of volunteers for self-defense. This, he says, was arranged for on the 8th of September.

The Governor received a dispatch from Florence, saying the San Carlos Indians have broken out. He has organized a company of 75 men. ST. LOUIS, 10.—John Ryan, Samuel Wilkinson and John Hand, have been arrested to-day in western counties on suspicion of being train robbers. Wilkinson is in jail at Kansas City, the others at Independence. Ryan is a brother of one of the Glendale robbers. John Bugler, arrested last night, is a son of the sheriff who was killed lately in defending the jail against a mob. The Chapmans, Ryan and Hand emphatically deny any hand in the transaction. The officers claim to have good evidence.

COLUMBUS, 10.—The extreme south is beginning to be seriously hit in this locality, and sparks from locomotives have destroyed miles of prairie and done considerable damage to grass and other crops.

DETROIT, 10.—About five weeks ago Thomas Green let his home, saying he would destroy himself. Yesterday his body was found hanging 30 feet high in a tree. His body was discovered by fragments dropped from the depredations of birds that had been eating it. The cause of suicide was probably family difficulties. He leaves 10 children.

ELBERON, 11. 3 p.m.—The President has passed a quiet day, although his temperature has been somewhat higher and his pulse more frequent than during the previous 24 hours. At the evening dressing quite a large slough of connective tissue was removed from the region of the parotid gland. He continues to take a sufficient quantity of nourishment, and enjoyed it. At the noon examination his temperature was 100, pulse 110, respiration 20. At the evening dressing his temperature was 100.6, pulse 110, respiration 20.

Signed by attending surgeons.

Blaine to Lowell:

Blaine sent the following to Lowell at half-past ten:

Long Branch, 10.30 p.m., 11.

The President had an increase of fever last night, and was very restless until five a.m. During the day he has been somewhat better, but his pulse, temperature and respiration have been higher for the entire 24 hours than on any preceding day since he reached Long Branch. His other symptoms are not reassuring, and his general condition gives rise to anxiety.

ELBERON, N. J., 9 a.m., 12.—The President has passed an unusually good night, his sleeping uninterrupted, except occasionally to take nourishment. Supperation from the parotid gland has almost ceased, and the opening from which the pus discharged is rapidly healing. The cough is less and expectoration materially diminished. Temperature is 98.4, pulse 100, respiration 18.

The morning bulletin had the effect of allaying somewhat the apprehensions of last night; but whether the lung trouble will pass away or develop into abscess, cannot yet be predicted.

Long Branch, 12, noon.—General Swain said a short time before noon, that the President slept from 10 to 2 o'clock last night. He then awoke and took nourishment and immediately fell asleep and did not awake till 4 a.m. At this hour he was sponged off and in the course of a few minutes fell asleep again and did not awake until 7 o'clock, at which time he was apparently refreshed and rested. Col. Rockwell says the President's sleep last night was the best he had since he was shot. The Colonel considers the President stronger, the cough better to-day, and he expectorates freely and without much effort. The Colonel compares the expectation with that of a bad cold, to-day. It is very similar to that of a cold that has become loose and is passing off. It should be borne in mind, said Col. Rockwell, that when an improvement in the President's case occurs it is not a great improvement but rather a slight gain. His better days are only a slight improvement over his more favorable days and oftentimes I take his general condition as my guide and can plainly see an aggregate improvement, while it would be almost impossible to point out any particular symptom which had materially changed. There has been great improvement since last night.

FOREIGN.

ST. PETERSBURG, 8.—The *Journal de St. Petersburg* says: The meeting of the Emperors was not unforeseen. It is merely a natural consequence of the sentiments of the two sovereigns having become close in consequence of events of the 31st of March last. The proposed interview is a proof of the amicable relations of the two countries, and ought to be a guarantee of pacific development and security of the nations. The interview will only last a few hours. Bismarck came to salute the Czar for the first time since his accession to the throne.

LONDON, 8.—It said after the Italian military maneuvers, the Minister of War will inspect the forts on the French frontier. The French have arrived at Piedmont to purchase horses for the army. Several Italian papers urge the Government to prohibit their exportation.

VIENNA, 8.—One hundred Jews escaped from Russia. They are on their way to America. At the Kieff tobacco factory 554 Jewish workmen have been ordered to quit the town within a fortnight.

PARIS, 8.—The Perfect of Constantine, Algeria, received a dispatch that 62 people were burned to death in one day in the recent forest fires, and many wounded. Six hundred and eighty-two dwellings were burned.

DANTZIG, 9.—The Emperor William has arrived. He was enthusiastically received.

Emperor William of Germany, Crown Prince Frederick William and Grand Duke Mecklenburg, wearing the Russian uniform, left here at noon to-day, for Nufahavasser to meet the Emperor of Russia. Bismarck, who had an hour's visit with Emperor William during the morning, followed immediately. The route to the railway station

was lined by students and numbers of the Imperial guard, who cheered enthusiastically. The Emperors will dine together on board the *Hohenzollern*. The Russian ship came in sight at 11.30 this morning. It was said in the presence of Bismarck and the Russian foreign minister, Giers, that the meeting of the Emperors can but confirm the favorable impression caused by the proposed meeting, as it is considered a guarantee that even the few hours which the two statesmen pass together will be spent in the interests of peace, and contribute to the consolidation of the political situation.

TUNIS, 9.—It is reported that a severe engagement took place on Wednesday between French troops occupying Hammamet and Arabs, during which the town of Hammamet was entirely destroyed. No details have been received. All communication with the Capital has been severed.

CAIRO, 9.—Four thousand soldiers with 30 pieces of artillery, have surrounded the Khedive's residence. They ask for the assembling of notables and the dismissal of all the Khedive's ministers. No hostile intentions are entertained against Europeans.

LONDON, 9.—A telegram from Westport, County Mayo, states the British man-of-war *Merlin* returned there with a hundred police who assisted in the eviction of 120 persons, inhabitants of Innesturk.

The Jewish *World* states that Russia is at last taking active steps to suppress vigorously and further outrage on the Jews.

GENEVA, 9.—The village of Vechenbach, in Berne, Oberland, is almost destroyed by a fall of stone.

PARIS, 9.—Five hundred thousand francs will be distributed among the Algerians, threatened with famine during the drought.

DANTZIG, 10.—E. peror William, Crown Prince Frederick William and Bismarck reached Neufahrwauer at one o'clock this afternoon, and were much cheered. The Emperor William proceeded on board the imperial yacht *Hohenzollern*, which steamed out of the harbor and was met by the Russian yacht with the Czar on board. The ironclad squadron fired a salute and the two yachts were run alongside of each other. At two o'clock in the afternoon the Czar went on board the *Hohenzollern*, and was cordially welcomed. The Czar's yacht was accompanied by two small men-of-war. At three o'clock the Emperors drove into Danzig amid the pealing of bells, salutes of artillery and great cheers.

The meeting of the Emperors was most affectionate. They appeared to be deeply moved, and kissed each other several times. The greeting between the Czar and the Crown Prince was very warm. The Czar conversed with Bismarck for some time; the royal party then lunched. The movements of the Emperors throughout the day were enveloped in uncertainty. The Russian secret police were in the streets on the arrival of the Emperor.

CONSTANTINOPLE, 11.—Much satisfaction has been caused by the attitude of Russia towards negotiations for the settlement of the Turkish debt. It is understood that Russia intends calling attention to the convention, which prescribes that the expenses of the Russian occupation of Bulgaria must be paid before the Bulgarian tribute is diverted to any other purpose, and moreover Russia is opposed in principle to the Bulgarian tribute being assigned to Turkish bondholders before the settlement of the Russian war indemnity.

CARLO, 10.—The Khedive made a speech accepting the demands of the troops appointing Cherub Pasha, President of the Council. The troops then cheered the Khedive and withdrew. It is thought in Cairo that the foreign occupation of the Gonnons will be found imperative.

TUNIS, 10.—The insurgents again successfully attacked, 20 miles from Tunis, baggage wagons destined to provision the camps of Ali Bey, carrying away everything. The Arabs have resolved to intercept Ali Bey if he attempts to retreat to Tunis. There is reported to have been an engagement between the French garrison of Hammel and the Arabs holding the village of Birbaia, which was destroyed. The report of the destruction of Hammel was probably exaggerated.

BROWN'S VEGETABLE LIVER PILLS

Are a sure cure for Liver Complaint, Constipation and Biliousness. For sale by all Druggists in Utah.

MITCHELL SPRING WAGONS

Two cars of the celebrated Mitchell Four Spring Wagons, just arrived; the finest assortment in the market. L. B. MATTISON, Half block south of Theatre.

NEVER RETURN.

It is said that one out of every four real invalids who go to Denver, Col., to recover health never return to the East or South except as a corpse. The undertakers, next to the hotel keepers, have the most profitable business. This excessive mortality may be prevented and patients served and cured under the care of friends and loved ones at home if they will but use Hop Bitters in time.

No Remedy of the Age is achieving more successful and widely appreciated results than Glenn's Sulphur Soap. It is confessedly the best specific for diseases of the skin, and by the feminine portion of the community it is recognized as an incomparable beautifier of the complexion. Those who have neither experienced or witnessed its effects have been convinced in the most practical way that it is genuinely efficacious. It has largely superseded the use of Sulphur Baths, which are among the best known of medicinal agencies, simply for the reason that it is quite as fruitful of curative results in cases of skin disease, gout and rheumatism, and does its work at far lighter cost. The cuticle through its influence acquires unwonted purity and smoothness, a consideration of no small importance to ladies troubled with complexional defects. Scalds, burns, cuts, sores, bruises and sprains are cured by it, and the pain which they cause is speedily alleviated. Dandruff is dispelled by its use; a fact of moment to persons whose hair is prematurely falling out in consequence of the proper want of moisture in the scalp, a deficiency amply compensated for by Glenn's Sulphur Soap, which opens the pores and so keeps the scalp cool and moist. When clothing or linen becomes infected it may be easily disinfected by thoroughly washing and rinsing with the Soap, which for bleaching purposes is unrivaled, imparting to woolen, cotton and linen fabrics the whiteness of snow. Of obnoxious diseases caused by contact with the person it is an infallible preventive as well as an excellent remedy. Those diseases of the skin for which "Sulphur Ointments" were long and erroneously regarded as the only efficient remedy, are now eradicated with far greater certainty by Glenn's Sulphur Soap, which instead of soil-

ing the linen like the compounds alluded to is eminently conservative of cleanliness as well as health. It is an article without a drawback, and with many and unmistakable points of superiority.

Sold by druggists. Price 25 cents per cake. 1 box (3 cakes) 75 cents, sent by mail, prepaid on receipt of price. C. N. CRITTENTON, Prop'r, 115 Fulton Street, New York.

HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c. d & w.

Wherever coughs, colds and consumption exist, Ayer's Cherry Pectoral ought to be known and used. There never existed a sentiment so universal among all classes in favor of any other medicine, as is entertained the world over in regard to Ayer's Cherry Pectoral. The humblest patient in the pioneer's cabin, and the proudest dame in the metropolis, alike use it, appreciate it, and speak its praises. d & w
