IN THE SENATE.

Several Important Measures Introduced: The Alaska Seal Fisheries Question.

VERY DESTRUCTIVE STORMS IN OREGON.

CONGRESS.

Introduction of New and Important Bills—General Business.

WASHINGTON, Jan. 6.—In the Senate today Platt presented a copy of the constitution adopted at Boise City for the proposed State of Idaho. Referred.

Among the bills introduced and referred were the following:

By Frye, to promote the ocean mail service between the United States and foreign ports, and to promote commerce.

By Reagan, to promote the transportation of merchandise in bond from ports in the United States into the Republic of Mexico, and to restore that privilege when the same *ibra* along the boundary between the two countries is abolished.

By Cullom (by request), authorizing the Secretary of the Treasury to loan money to farmers at 2 per cent.

Plumb offered a resolution, which was agreed to, directing the managers of national soldiers' homes to consider and report upon the advisability of establishing a hospital at Hot Springs, Arkansas, to which all disabled ex-Union soldiers shall be admitted

UNDER PROPER RECOMMENDATIONS.

Plumb also offered a resolution regarding the lease of the Alaska seal fisheries, which was laid on the table for further action. It provides that the Secretary of the Treasury be requested not to make a new lease of the islands until further action by Congress, or until the latest period made necessary by the existing law, and that meanwhile he make a full report to the Senate as to the manner in which the Alaska Commercial Company has discharged its duties and obligations under the present lease, and also what additional legislation, if any, is necessary in the interest of the government and of the natives and citizens of Alaska, in order that they may be more fully protected.

Call offered a long preamble and resolution in regard to the Island of Cuba. It states there is reason to believe that German bankers have secured control of the Cuban debt of $124,000,000. This is secured by customs mortgages on the revenues of the Island; that this effects a peaceful alliance between Germany and Spain for the purpose of perpetuating the control of Cuba by Spain; that this is contrary to the spirit of the Monroe doctrine and the best interests of the United States, and must be protested against. The resolution calls on the President for such information on the subject as may be in possession of the State Department. Referred.

CHANDLER OFFERED A BILL

proposing an amendment to the Constitution so that if any State fail to enact or effectually enforce laws against murder and other felonies, Congress may provide for punishing those crimes within such State.

Dawson offered a resolution, which was agreed to, calling on the Postmaster General for information as to the progress of a connection of the Postoffice Department with telegraph companies, and as to the probable cost of an erection by the government of independent telegraph lines between Philadelphia and New York.

The Senate then took up the bill to amend the census act by increasing the pay of the supervisors from $500 to $1000, and Stewart proceeded to make a speech on the silver question, after which the bill passed.

The bill to increase to $72 per month the pensions of certain soldiers and sailors, totally helpless from injuries received or from diseases contracted while in the service of the United States, was passed.

Adjourned.

House.

WASHINGTON, Jan. 6.—Among the bills introduced and referred were: Requesting the Executive Department to change the extradition treaties with Great Britain so that persons charged with grand larceny, embezzlement and other crimes may be extradited from Canada.

By Lane of Illinois, to prevent a contraction of the currency; also, for a graduated income tax; also, to tax trusts; also, to ascertain the amount of the mortgage indebtedness of the farmers of the United States.

By Springer of Illinois, for the admission of Arizona, Idaho, New Mexico and Wyoming into the Union.

By Perkins of Kansas, for the creation of the office of congressional correspondence and departmental business. This provides for an office in connection with the House, with clerks, whose duty it shall be to attend to the departmental

BUSINESS OF MEMBERS.

By Cutcheon of Michigan, to encourage re-enlistment in the army and to prevent desertions; also, for a reorganization of the artillery force; also, to increase the efficiency of the signal corps; also, to extend the general land laws over the Territory of Alaska.

By Bland of Missouri, looking to the imposition of an income tax for the payment of pensions; also, for the free coinage of silver; also, limiting the coinage of the double eagle.

By Smith, of Arizona, for the admission of Arizona; also, for the reclamation of desert lands.

The following appointments were announced by the Speaker: Butterworth, Lodge and Wheeler, regents of the Smithsonian Institute; Hill and Hemphill, members of the board of directors of the Columbia Institute for the deaf and dumb.

Adjourned.

The Portuguese Quarrel.

LONDON, Jan. 6.—The *Times* Lisbon correspondent says: Another note from Lord Salisbury was delivered today. It is believed the note threatens, unless prompt satisfaction for Pinto's action, that there will be a rupture of diplomatic relations. The Cabinet was immediately convened.

A dispatch to the *Standard* says the Portuguese government has employed German engineers to lay torpedoes on the Tagus, in view of possible action by the British fleet.

Storms and Their Results.

PORTLAND, Or., Jan. 6.—Storms have caused great damage to the Oregon Railway & Navigation Company's road. Three accidents, each attended with fatal results, are reported. Fireman Cross was seriously scalded at Head River yesterday, and Fireman Orvis was killed in a collision between a freight and passenger near Willows. It is rumored that two men were killed and thirteen persons injured on the same road at Riparia, but this is unconfirmed. The first train from Spokane in five days arrived today. The heaviest snow storm in years is prevailing and the thermometer is below zero.

A Bad Blizzard in Kansas.

EMPORIA, Kas., Jan. 6.—The worst blizzard of the season struck this place yesterday afternoon and has been in progress ever since, with a fierce northwest wind, accompanied by snow. The thermometer fell 52 degrees in a few hours and this morning was 24 degrees below freezing. Snow still continues this evening, and it is feared the railroad trains will be delayed.

KANSAS CITY, Jan. 6.—Dispatches from Kansas and Missouri say a blizzard of considerable severity prevails throughout those two States tonight. The temperature is generally near the zero point and the snow is drifting badly.

Rescued. Alas!

MACON, Ga., Jan. 6.—William Wallace, a notorious outlaw of Harris county, was rescued from jail in Hamilton yesterday morning by a large number of men. The party rode into town on a gallop, three out guards on every road leading into Hamilton, battered down the doors and released the prisoner. The rescuers also took with them a negro from jail named Dan Tatum. It is supposed Tatum recognized some of the men. If this be so, there is no doubt he was killed.

Juvenile Murderer.

HUNTINGTON, W. Va., Jan. 6.—Edward Church, a 17-year old boy living with his father near this place, is charged with poisoning the entire family by putting poison in their bread. One little girl is dead and four others of the family are in a critical condition. The young murderer confessed to a friend and then fled. He has not been apprehended.

Election in Mississippi.

NEW ORLEANS, Jan. 6.—A special to the Associated Press from Jackson, Miss., at 10 a. m. says: Voting is progressing slowly and quietly. Thus far no negroes have made application to vote, and as long as such is the case trouble is not likely to occur. It is intimated that an attempt will be made to vote them en masse, at least in the Fourth Ward, where McGill, candidate for mayor, has a fair chance of election. If such is the case, difficulty can hardly be avoided. Many negroes favor the Henry ticket or are neutral.

Times-Democrat's Jackson, Miss., special says: "The municipal election passed off quietly. Gen. Henry, democratic candidate for mayor, and all the democratic aldermen are elected. Fifteen or twenty negroes presented themselves at the polls, but on being told this was a peaceable election and that their voting might cause trouble, they quietly withdrew. There were a great many strangers in town, many coming here purposely to assist the democrats, and it is believed their presence had the desired effect of preventing trouble."

The New Discovery.

You have heard your friends and neighbors talking about it. You may be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any Throat, Lung or Chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial Bottles free at A. C. Smith & Co.'s Drug Store. 6

The First Step.

Perhaps you are run down, can't eat, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning—you are taking the first step into Nervous Prostration. You need the Nerve Tonic and in Electric Bitters you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great Nerve Tonic and Alterative. Your appetite returns, good digestion is restored, and the Liver and Kidneys resume healthy action. For sale at A. C. Smith & Co.'s drug store. 6

CHARTER OAK RANGES

OPINION OF AN EXPERT.

Mrs. Mary B. Welch, Teacher of Domestic Economy at State University of Iowa.

"My deliberate judgment is that the oven of the Range, as compared with others, is not only more equally heated in every part—front as well as rear—but as a result of its superior ventilation the food placed therein is better cooked, while retaining a sweeter flavor, and a larger proportion of its best juices. I have found, also, that the consumption of fuel in this Range for a given amount of work, is much less than any other." MRS. MARY B. WELCH

CEMENT PAINT.

It will resist the action of water immediately after application, wholly distinguishes it from all other paints. It is the Best and Cheapest paint known, taking into consideration its covering capacity, durability, and powers of resistance to Fire, Cold, Frost and Dampness. It does not peel, blister or crack off and produces a hard, glossy surface.
