Wired from Washington

WASHINGTON, 14. — Although Secretary Folger is still confined to his bed, he is considered much better to-day.

The Malagasay Envoys took official leave of the President this afternoon. They leave to-morrow for New York.

While the President is somewhat indisposed, he is attending to his official duties as usual.

The work of the geological survey will be resumed this spring on a larger scale than ever before. Important scientific researches and surveys have heretofore been confined to the Territories. At the last session, Congress authorized the officers to extend their operations into the States; and the work will now be prosecuted upon a much broader and more comprehensive plan. The object of the survey is to make accurate history of the topographical, geological mineralogical and other resources of the United States. To perform this work correctly, explorations in the older States as well as in the Territories are necessary. In States where local geographical surveys have been made, the labors of the government scientists will be greatly lessened. Congress appropriated $280,000 for the work this year, and operations will be begun in California, Colorado, Nevada, Minnesota, Virginia, North Carolina, Tennessee, Kentucky, Arkansas and Texas. The operations in California will be upon a large scale.

G. B. Goode, of the National Museum, is selected to take charge of the fishery exhibit at London.

In the Star route trial this morning, Wilson called Wm. H. Turner to the stand, the only defendant who was acquitted as a result of the first trial. Other witnesses followed and the usual acrimonious debate.

The Catalogues of Crime.

MANKATO, Minn., 14. — This morning Carl Winter, of St. Paul, shot Lizzie Levi, of Mankato, and then shot himself. The wounds to Miss Levi are not dangerous, but those to Winter are considered fatal. The opposition of Miss Levi's father to the marriage is said to be the cause.

Montreal, 14.—E. A. Duchane, broker, extradited to Belgium for swindling his clients, is sentenced to ten years imprisonment. His wife received the same punishment as his accomplice.

Pittsburg, 14. — Verdict in the Dukes murder trial at Uniontown, acquittal.

Uniontown, Pa., 14.—When the jury stated its verdict, Judge Wilson looked amazed and said: "Gentlemen of the jury, I suppose the verdict is one you thought you should render under your oaths; but it is one that gives dissatisfaction to the court, because we thought the evidence sufficient to justify a different verdict. If you have committed an error it is one we cannot avoid; but only express our condemnation in this mild way. The prisoner is discharged."

Dukes then left the court room amidst great excitement and indignation.

9.30 p.m.—The indignation over the verdict is terrific. An excited crowd has just started toward the court house, where Dukes is in charge of the sheriff, carrying a stuffed effigy of Dukes. They are also bearing effigies of the jurymen, and violence is momentarily expected.

9.45 p.m.—The crowd reached McClelland's house, a few doors from Duke's room, and suspended his effigy across the street. They are singing, "We will hang Duke's body on a sour apple tree." Everybody is on the street.

Placards calling an indignation meeting to-morrow on account of the acquittal of Dukes are being posted up.

St. Paul, 14—Four men tried to drive Martin Palm from his claim near Edinburgh, Dakota. Palm fired on them and killed one man, name unknown.

Montreal, 14.—Jas. E. Grimes, Allentown, Ohio, forger, is discharged.

Little Rock, 14.—It is considered almost a certainty that three of the desperadoes who stopped the Fort Smith railway passenger train, at Mulberry, a week ago to-night, murdered conductor Cain and wounded Lanter, brakeman, will be captured to-morrow. There were four in the party, one of whom, McDonald, was captured the morning after the crime, having been shot by one of his companions, who mistook him in the excitement. McDonald gave the story to an officer who personated a fellow prisoner, and offers to conduct the officers to the cave where they were to rendezvous, if they will permit him to turn State's evidence. The attorneys decline to do this, believing they have evidence enough, having McDonald already. A special says the other three robbers are surrounded in the mountains and good bounds are sent from Morrill to drive them out. Rewards on the heads of the men $7,000

Chicago, 14.—To the charge of embezzling $5,500 in money and goods, preferred against W. C. Green, by the Ferry Clock Co., Pittsfield, Mass., of which Green is agent here, Green says that the action is brought in malice, because he would not break his contract and let the company put up the price on a clock of which the company has the monopoly.

Columbia, S. C., 14. — The managers of the election at Bennettsville, and four other democrats of Marlboro County were arrested yesterday, charged with conspiracy at at the last general election. Several United States Marshals left this city to-day for Chester, to make further arrests of democrats for alleged election frauds.

Omaha, 14.—At 2½ o'clock this morning five masked burglars entered the residence of Eugene O'Neill and subdued and robbed the inmates of $60, a watch and jewelry valued at $300. Three of the burglars had a fight with Mr. Rusch and his two boys, but finally overpowered them, but not until Mr. Rusch had been slightly wounded in the forehead with a revolver shot. While this fight was going on, Mr. O'Neill, wife and sister, Miss Jones, were under guard of two burglars down stairs. The robbers escaped. Three suspicious characters have been arrested.

Louisville, 14. — Clarence Hite, one of the James gang, recently pardoned by Governor Crittenden, of Missouri, died in Logan County, Kentucky, on Monday.

New York, 14.—A cable to the Maritime Association states Manuel Pinchelr, one of the large rubber receivers at Para, identified with the rubber corner, has committed suicide. The Para rubber market is excited in consequence, his holdings being thrown on the market.

Lager Bier For Mexico.

NEW YORK, 15.—The *Herald* says: Besides the agents employed by Prince Bismarck in London to negotiate for the purchase of 1,000,000 acres of land in Mexico, it has been learned that the Prime Minister has also a very active representative engaged in the same business. So many Germans are annually emigrating to the New World that the German government desires to purchase land for the purpose of settling a colony in order to keep German emigrants as much as possible under the supervision of the government and in the control of German laws. Negotiations pending for other 9,000,000 acres some of which are located on the coast of the Gulf of Mexico. Dr. Bidlack will sail for Europe, on the *Arizona*, on Tuesday next, in order further to consummate his plans. A syndicate of English capitalists are interested in the scheme.

The Floods.

MEMPHIS, 14. — Laconia Circle is inundated from the break Saturday.

Helena, Ark., 14.—Three inches fall in the river the last 24 hours. Island No 64 has almost disappeared; only a dot remains. Backwater from White River uniting with the overflow from Hubbard and Old Town breaks submerged a large region of country in the Beaver bayou and lower Big Creek section, never before known to be inundated, owing to these hitherto high points having always withstood the overflow. No stock is driven out; the consequence is the absolute annihilation of every kind of live stock, together with a large number of deer and other game. Two cabins occupied, one by white and the other by colored families, suddenly disappeared from near South Bayou during a night last week; no tidings of the occupants since.

Decline one inch during the night. A line of skiffs is put on between this point, Jonestown and Clarksdale, Miss. Flat boats are delivering goods back through the country inaccessible to steamers. Business is generally resuming. For the first time in many years there is a swift current coming down the shore, indicating a disposition on the part of the river to change its channel.

British Briefs.

LONDON, 14.—Three thousand laborers in Huddersfield district struck work owing to a disagreement with the masters regarding wages.

There is strong difference of opinion among the liberal members of Parliament on the Transvaal question. Many of them believe England is morally bound to protect Bechuana.

In the Commons, to-day, Parnell moved the second reading of his bill to amend the land act. He said the agitation in Ireland must continue and increase until the act is amended.

Gladstone strongly denounced Parnell's statement that the courts imposed rack rents. He insisted that tennants were willing to pay the rents fixed by the courts. He hoped Parnell would give assurance that the new crusade would be conducted in a strictly legal manner.

Dublin, 14.—The secret inquiry at Dublin Castle to hear the evidence of informers continues daily. As no details are made public, no intelligence can be gained of the evidence thus far adduced, but the star-chamber manner in which the proceedings are being conducted has given rise to some ugly suspicions.

The men in Kilmainham prison charged with conspiracy and murder continue in good health, with the exception of Patrick Delaney, charged with attempting to murder Judge Lawson. He is kept in solitary confinement, with the exception of two hours every day, when they are marched around the yard at a certain distance from each other. Even when one of them is allowed to see his legal advisor, a large table separates them, and a warden is present at the interview besides the police. The jail is guarded both by day and night by soldiers.

It is stated Joe Brady, conspiracy prisoner, confessed he murdered Lord Frederick Cavendish and Burke.

General Items.

Paris, 14.—The report that President Grevy contemplates resigning is pronounced a malicious invention, intended to encourage Orleanist intrigues. The cabinet has resolved to instruct the prosecution of any one at a public meeting inciting murder and pillage.

In the Senate last night, Count de St. Vallier questioned Challemel Lacour, minister of foreign affairs, as to the situation in the French colonies, especially Tonquin. England, Germany and America, he said, had absorbed the extreme East. He urged the occupation of Tonquin in order to accelerate the occupation of Cochin China. Lacour in reply said the government intended neither to abandon nor to conquer Tonquin, but to occupy it at certain points in order to demonstrate that France proposed to remain there.

The statement that the Cabinet had met with refusal at Berlin and Vienna, was untrue. He said there was a manifest conformity in the action between Italy, Germany and Austria.

If a liberal, progressive man is nominated, I am in favor of putting out no Republican candidate but as a rule the colored leaders desire an election. They have no fear of it, and if the question was left to the colored politicians, there would be an election for all officers of the State every month."
