## GREEK YOUTH COMMITS SUICIDE

Despondent Over Ill Health and Financial Matters Takes His Own Life.

## RAILROAD COMPANIES SUED.

For Obstructing Traffic on Twenty-Fourth St.—Railroad Mishap—Airlship Surprises People.

Ogden, Sept. 23.—A Greek who had been a resident of Ogden only a few days, committed suicide about 5 o'clock yesterday afternoon by shooting himself in the mouth. He gave his name as Stamatios Baras, and claimed to have come to Ogden from Montana. When he arrived here a week ago he rented a room at the McCast rooming house, 124 Twenty-fifth street. He was not well and consulted Dr. G. W. Baker who gave him medicine that seemed to be benefiting him. Yesterday he was around as usual and up to a few minutes before he ended his life he was playing cards with several of his fellow countrymen, and to them gave no indication of his intention to commit suicide. Mrs. McCast heard the report of a revolver and called to several Greeks in the place who, on investigation, found his lifeless form in a pool of blood in his room and the revolver lying by his side. The police were notified and had the body removed to Larkins & Sons' morgue. On the dresser in the room was a letter addressed to his mother, and a note which read: "Good bye, friends, I am going to the next world. This is Sunday. Good bye, friends. Mail this letter for me. Look in my valise and you will find something." It is said by several who knew him that he was despondent over ill health and financial matters. Judge Murphy will decide today whether to hold an inquest or not. Baras was about 25 years of age, and was well dressed. His relatives are all at Envia, Alivori, Greece.

## DRIVING RODS BROKEN.

O. S. L. Passenger Engine Disabled—Fireman Clarence Meyers Hurt.

Ogden, Sept. 23.—The breaking of the drive rods on the locomotive pulling Oregon Short Line passenger train No. 8, resulted in considerable damage to the engine, and Fireman Clarence Meyers was badly injured about the head and body. The train was southbound and was traveling at the rate of about 40 miles an hour. When a couple of miles north of Brigham City both drive rods broke at almost the same time and began pounding in the side of the engine cab. Engineer Berenstein quickly reversed the engine, while Fireman Meyers jumped to avoid being struck with the rods. He struck on his face and shoulder, terribly cutting and bruising him. The engine was soon brought to a standstill, but not until it had battered in the side of the locomotive cab. Fireman Meyers was found along side the engine in an unconscious condition. Word of the accident was soon taken to Brigham City and a locomotive was sent to bring the train to Ogden. It arrived about four hours later. A year was taken to the hospital for medical treatment. The damage done, considering the way the accident occurred, was very small.

## RAILROAD COMPANIES SUED.

For Obstructing Traffic and Endangering Lives on Crossing.

Ogden, Sept. 23.—Saturday afternoon County Atty. N. J. Harris filed suit against the railroad companies, charging them with violating the laws by permitting their cars and engines to block the Twenty-fourth street crossing for considerable length of time. Several persons have lost their lives at the numerous railway tracks at the lower part of Twenty-fourth street, and daily hundreds of lives are endangered. It is believed that the action of the county attorney will have the desired effect of compelling the railroad company to erect a viaduct over the numerous tracks.

Special Correspondence.

Vernal, Utah, Sept. 19.—A sad accident occurred near Vernal today. The two oldest boys of F. M. Caldwell and Willis L. Johnson, with other boys were shooting birds with a .22 rifle and a shotgun. The boys are about 12 to 14 years of age. The Caldwell boy was sitting down handling the shotgun. "He didn't know it was loaded" when it was discharged and only a few feet in front of Caldwell young Johnson was standing and he received the entire load in the face, nearly blowing his head off, killing him instantly.

The father Mr. Johnson had just left this morning for his cattle ranch in Colorado, but has been sent for. The families are well and the Caldwell family is well and the Caldwell family is well and the Caldwell family is well.

## COURT SESSION.

Vernal, Utah Co., Sept. 19.—During the past week Judge J. E. Booth has been holding court and is not through yet. The principal cases have been the following:

The state vs. J. J. Cook for the shooting of his neighbor rancher, Pettit, near White Rocks. The case was continued until next term and Cook was put under \$3,000 bond, which he furnished.

The case of the state vs. Ed Hirsch for embezzlement. The jury returned a verdict of guilty and Hirsch was sentenced to 15 months in the state prison. Hirsch has considerable sympathy from the general public for he is well understood that he was drawn into card games by local gamblers of whom Vernal has too many. Hirsch is a rather easy-going Jew and he soon found himself stripped of his money, and the old story, he took his employer's money to gamble with, and when it got too warm for him he helped himself and tried to leave the country, but was brought back.

The case of Robert Marshall vs. John T. Pope for the recovery of money obtained by Pope under a gar-

charge of incoercibility. During his confinement he has been a comparatively good inmate, and his death brought sorrow to the other inmates of the institution. The funeral services over his remains were conducted this afternoon at the school chapel, Rev. J. E. Carver officiating. Burial was made in the Ogden city cemetery.

## PASSING OF AN AIR SHIP.

Dirigible Aerial Craft Causes Surprise In Junction City.

Ogden, Sept. 23.—To see an airship hovering above Ogden for a half hour yesterday brought no little surprise to many people who happened to observe it. The ship was seen to come from the northwest and when it got just over Ogden it moved around for a considerable time just above the most thickly populated district, then took a southern direction and disappeared. Some people thought it had come down near Utah and they drove out that way but could find no trace of it. With a good pair of glasses it was possible to see two men on the ship, and everything seemed to indicate they had perfect control of their craft.

### HAND CART VETERANS.

Serious Accidents—Failure of Wheat And Potato Crop—News Notes.

Special Correspondence.

Peoa, Summit Co., Sept. 20.—In a recent issue of the "News" a list of the veterans of the hand cart companies was given, along with a notice of the reunion which will be held in Salt Lake City during conference week. Another veteran, who it seems, was overlooked in making up the list, is Mrs. Elizabeth McCaulin Maxwell, who came across the plains in Capt. Daniel McArthur's hand cart company in 1856. Mrs. Maxwell and her husband, Arthur Maxwell, brought an orphan child, four years old, all the way across the plains on their hand cart. The old lady—she is now 75 years of age—has many pleasant recollections of the journey, and speaks in the highest term of the captain of the company, Daniel McArthur, who was a good man, kind and true, who did all that was in his power to make the journey as pleasant as possible under the conditions. Mrs. Maxwell has a great desire to attend the reunion of the veterans.

The name of Ellen Russell "Maxfield" of Cowley, Wyo., was published as one of Capt. McArthur's company. There is an error in the name; it should have been Ellen Russell Maxwell; the lady lived in Peoa for over 35 years, and is the wife of John Maxwell.

## FAILURE OF WHEAT AND POTATOES.

The 19th of this month was a cold, disagreeable day and snow fell in the mountains east of town. The wheat and potato crop has been an entire failure this season, owing to the severe frost of Aug. 11. The hay crop is good, while the oats will turn out fairly well. Henry B. Williams, an old and respected citizen of this place, has been dangerously ill for some weeks past.

The bone of his neck was dislocated, and he has been in a critical condition; he has been unable to move his arms and legs for over three weeks, but is now some better, and there is hope of a complete recovery from the accident.

Oscar Wilkins was severely hurt a short time ago by being run over by a wagon load of hay; the gentleman is now able to be around again. Arthur Maxwell, M. H. Bleazard and others have purchased a steam saw mill and have all arrangements made for starting up business. The mill is located on the divide between the Weber and four rivers and about 30 miles northwest of Peoa.
