certs were given last season under the society's anspices, by Lillian Blauvelt and by Harold Bauer, the expenses amounting to \$700. There was a deficit of \$50, which was met by 25 cent subscriptions and voluntary contributions.

The state university athletes have made a request upon General Man-ager Campbell of the Utah Light & Rallway company for a switch to the athlelic grounds from the neighboring Foot Doubles throw the neighboring Fort Douglas line, so as to accommo-date the crowds that gather at the grounds on the occasion of games. Mr. Campbell did not think this advisable. as the college boys would be sure to overcrowd cars beyond their brake capacity, and on the Fifth South street hill this would make the operation of

cars there attended with great danger. The new park which has ben created by the county commissioners on the south East Temple street drive has been named Roosevelt park. The park extends from the southern limits of the city, south one and one-eighth miles to Templet bouth and has the temptotece here.

S. F. Fenton has returned from a month's absence in the south, where he attended the annual convention of the Old Time Telegraphers at Atlania. Mr. Fenton met Jim Shields, the well known traveling man, in Chicago, and Jim spoke of the new "American" party that has bloomed out in this city. He expressed his opinion that the movement would hurt the state in business as well as in politics, although it was beginning to be better understood in the east that the movement was really Kearns' part, He said people were cotching on to the fact that Kearns was attacking the "Mormon" Church because he could not use it for his own personal ends.

President W. W. Riter of the Deseret Savings bank, and Bishop Romney, have returned from the east. Mr. Riter attended the Bankers' convention in New York, and remarks that one of the most interesting features of the occasion was the address made by the col-ored banker from Atlanta, Ga. This colored man "brought down the house" when he declared that the \*discredit brought on the colored rate was to its loafers and disreputable element generally; and the discredit brought on the white race was due to the acbrought on the colored race was due fact the colored men received more ap plause than any other one of the speak-Mr. Riter was greatly pleased ers. with his trip.

### Its School for the Deaf. Dumb and Blind Carries Off Grand Prize.

In the exhibits at the world's fair of schools for the deaf, dumb and blind, the grand prize for the best general educational exhibit was awarded to the Utah school yesterday. In addition to sam-

ples of drawing, manual training, and sewing, Supt. F. M. Driggs, of the Ogden school, sent a class of six pupils to the fair, three of them blind and three deaf and dumb. They were chosen from the third grade instead of from a higher grade, on account of the fact that Mr. Driggs has had charge of the school for only three years, and these students represent his methods, which they have learned from the beginning. The apartment devoted to the schools for deaf, dumb and blind at the fair was one of the interesting features. Classes were present from most of the irHI:cSIH miBisbetr trexhibiting 32 schools exhibiting, and demonstrated their methods of learning before the

well known traveling man who visits the drug trade says he has often leard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Cham-berlain's Corgh Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and roup it is unsurpassed. ### Permanent Muscular Strength.

There is this to be borne in mind inthese days when so many young men are giving so much attention to physical development, in gymnastic and athletic exercises, that there cannot be permanetit muscular strength where there is not blood strength.
