## DESERET EVENING NEWS THURSDAY JANUARY 24 1907

usurpers carried the case to the United States circuit court and under the de-cision handed down by Judge Gilbert the property is given to its original Systematic developing on the Golcon-da mine has at last revealed the ore shoot in place at the 200-foot level. Gen. Mgr. E. H. Pearl of the Search-light Free Gold Mining company is preparing for the thorough develop-ment of his company's properties cast of the Philadelphia Searchlight com-pany's estate. The company owns the the States group, consisting of the Maine. New Jersey, Iowa and Georgie lode mining claims. The new strikes on the "flat" to the west of Searchlight continue to be the sensation of the camp, as they are proving up better every round of shots fired. On the Adolph claim of the Searchlight Mammoth, the vertical prospecting shaft passed through eight feet. Systematic developing on the Golcon-

 close to the surface, several leases have been taken. John Anderson has given two leases on his Jumper mine, situated at Nob hill, and active work has com-menced. On the Jumper lease, four feet of high grade silver ore has been struck.
 Work on the Scarchlight Treasurer is progressing in a very systematic manner, two shifts drifting on the vein at the 175-foot level. The streak of high grade ore recently encountered on the hanging wall of the vein still con-tinues in the shaft, and the ore body gives every indication of permanency. Charles Vanina has resumed devel-opment work on the Eddy mine, which has been in litigation for the past three years. This property, situated in the heart of the proven mineral belt ad-joining the Duplex mine, was jumped, and after the assessmant work had been done and recorded. Despite these evi-dences of compliance with the law, the usurpers carried the case to the United
 ple and is being systematically devel-opend. In this connection it is only fair to add that the three last named proper-ties were all exploited and placed by a syndicate of Sait Lake hustlers, viz.: C. D. and J. W. Rookledge, Geo. Wilson and P. M. Macgregor. Next in order is the Rosebud-Rattler. This property has the most pronounced to L. L. Mushett and associates, of Tonopah. and active work upon the some la now fairly under way. The Some Beauty group lays between the Brown Palace, Dreamland and Rosebud-Nevada properties and is the most promising property in the district vet remaining to the ty in the district The Powhatten Fractions have been bonded to Tonopah people represented by Mr. C. H. Mace. The Some Beauty group lays between the Brown Palace, Dreamland and Rosebud-Nevada properties and is the most promising property in the district yet remaining in the hands of the orig-inal owners. And there are others, Mill City, about 35 miles to the east, is the present point of disembarkation yet remaining in the hands of the orig-inal owners. And there are others, Mill City, about 35 miles to the east, is the present point of disembarkation from the Southern Pacific, but Hum-boldt, some eight miles nearer, is evi-dentity destined to be the passenger and freighting point until the Western Pa-cific, the surveyed line of which is only five miles to the north, is built and op-erated. The construction of a telegraph-tele-phone line from Humboldt, is now un-der way. The poles have been planted and wires strung more than half the distance and the whole line will be in operation within the next 15 days. Winnemucca people have recently se-cured a lease of the railroad company's hotel at Humboldt, and in connection with establishing a first-class hostelry will also inaugurate an auto line be-tween that place and Rosebud. This would seemingly make Humboldt the gateway to the Rosebud district. Within the past week a very promis-ing strike was made about seven miles to the northeast, and since then a veri-table stampede has been in progress to the new diggings and everything in sight is said to have been monumented. The general character of the rock brought down is virtually the same as that of the Rosebud district, proper; silver values seem to predominate. In the country milway between the scene of this new strike and Rosebud, some very promising properties are being developed by H. T. Absteh, John church and J. E. Truwin. Rosebud and the contiguous territory is indeed great.

man, burled an infant son at noon to-day. The child was born Sunday even-ing, and died shortly before 9 o'clock last night. appointed general manager of Nipissing Mining company. West Quincy operations continu-good shape, though the managen of this as of numerous other "com properties desire to say but little a there is something really startling good for the public to know. The y is propressing however, and condition is progressing, however, and condi-are encouraging enough to assure continuation of prospecting.-Park Record.

#### UNLISTED STOCK SALES.

There were several of the unlisted stocks handled on the open board. Federal Ely was the favorite. Some 6,000 shares of this stock sold at from 97 to 99 cents. A few orders on Cop-per Glance were filled at 27 cents, and Standard Copper brought \$1.20. Two lots of Ohio Kentucky sold at 4.50.

## IMPORTANT NEVADA LAW.

tirety

week.

.

#### Foreign Corporations Required to Publish Statement of Business,

There is a law in force in Nevada relative to forcign mining corpora-tions of which a great many interest-ed in Nevada mining camps know very little. In order that the laws of the state

may be properly compiled with it is necessary to publish in a daily paper for the period of one week, a sinte-ment of the business done by the vari-

is indeed great.
