Modern Women. It is a fact and a commentary upon our boasted civilization that the women of our times have degenerated in health and physique until they are usually a race of invalids—pale, nervous, feeble and back-sidy with only here and there a few noble exceptions in the persons of the robust, buxom ladies characteristic of the sex in days gone by. But a very large experience, covering a period of years, and embracing the treatment of many thousands of cases of those various peculiarities of Women, Dr. Pierce, of the World's Dispensary, Buffalo, N. Y., has perfected, by the combination of certain vegetable extracts, a natural specific, which he does not extol as a cure-all, but one which admirably fulfills the singleness of purpose, being a most positive and reliable remedy for those weaknesses and complaints that afflict the women of the present day. This natural specific compound is called Dr. Pierce's Favorite Prescription. The following are among those diseases in which this wonderful medicine has worked cures as if by magic and with a certainty never before attained by any medicine: Weak back, nervous and general debility, falling and other displacements of internal organs resulting from debility and lack of strength in natural supports, internal fever, congestion, inflammation and ulceration and very many other chronic diseases incident to women not proper to mention here, in which, as well as in the cases that have been enumerated, the Favorite Prescription effects cures—the marvel of the world. It will not do harm in any state or condition of the system, and by adopting its use the invalid lady may avoid the severe ordeals—the consulting of a family physician. Favorite Prescription is sold by dealers in medicines generally.

Nashville was greeted with an outburst of hearty and spontaneous applause from the gratified audience, who also tendered to him a vote of thanks for his services in so ably interesting and entertaining them.

"The Messiah."—We understand that an organization composed of the best musical talent in Salt Lake City has been formed, and among other objects it is purposed by this association to go into the practice of that most soul-stirring and masterly production, Handel's "Oratorio of the Messiah," with a view to its rendition in public.

We have heard that masterly consummation of the great composer's skill given by the musical combinations of the "Old World," and, when well executed, it is a piece that no intelligent person with a sensitive ear and a soul can listen to unmoved. Its production here would be almost certain to draw the whole of the music-loving public to hear it. We have the impression that there is musical talent sufficient in extent and quality in Salt Lake City to do good justice.

Working Under Difficulties.—The street supervisor and his men are laboring under difficulties in constructing a water tank for fire purposes, on West Temple Street, a block south of the residence of Warren Hussey, Esq. When a depth of only three feet had been attained a strong stream of water was struck, which has been flowing into the excavation ever since, making it necessary to bring a pump into requisition, which has to be kept in constant operation, night and day to keep the excavation from filling, and the men who do the digging have to wear rubber boots.

That must be a good place to have a tank, so far as the insuring of a competent supply of water is concerned, but the abundance of the aqueous fluid makes the work of excavation and construction very difficult and disagreeable. A depth of eight feet has already been reached.
