Not a Drop of Blood Shed-Precautions Were Taken to Guard Against Any Outbreak.

St. Petersburg, May 15, 12:30 a. m ---The widely heralded May day demonstrations in St. Petersburg were a complete flasco, and reports from Moscow and the provinces indicate that order reigned on Sunday generally throughout the entire extent of Russia. Minor disorders are reported at Reval, Kishineff and one or two other places, but up to midnight no reports of serious tumults or loss of life have been received. and the attempt of the Social Democrats and Social Revolutionists to signalize May day by great anti-govern-ment demonstrations appears to have

the workmen observed the day as a holiday; that the shops were closed and that quiet was not disturbed. In St. Petersburg the day was passed in almost perfect quiet, and, happly, without a drop of blood being shed. The revolutionaries found it impossible to execute the program of demonstrations and bomb throwing which they so widely advertised, the working men deciming to sacrifice themselves to ad-vance the propoganda of their self-constituted leaders, and the advertised insettings were attended chiefly by spec-tators. Gov.-Gen. Trepoff handled the situation firmly, but with a view to avoiding collisions, and made his dis-positions skillfully. Squads of Cos-sticks patrolled the streets, reserve be-ing held out of sight in courtyards, and ng held out of sight in courtyards, and the guard regiments were retained un-

The prestige of the social democrats The prestige of the social democrats and revolutionists has suffered greatly by Sunday's failure, though they were trying last night to retrieve it by issu-ing a manifesto attributing their in-ability to carry out the program to the overwhelming force of military and proclaimed a general strike today. The leaders were so confident of success in advance of eevents that they pre-pared a number of informal hospitals or bandaging stations in the neighbor-hood of the various advertised meeting places to render first aid to the viehood of the various advertueed meeting places to render first aid to the vic-tims of the expected rioting. Next to the actual bacteria of dis-ease, the mosquitos and flies are the most dangerous enemies of man. The mosquito with its bite injects into our veins malaria, yellow fever, and other fatal troubles. The fly, with spongy feet, collects the invisible germs of diseases, spreads them over our food and poisons us with typhoid, cholers and other plagues of the human race. Dr. Pierce, the eminent physician of haf-falo, N. officially reported that the Russian fleet had entirely departed from Kam-ranh bay on April 22, but on April 23 there still remained in the bay one cruiser, one torpedo boat destroyer and 15 transports of the Russian fleet. On April 24 the entire Russian fleet resen-tered Kamranh bay and rode at an-chor until April 26, when a majority of the warships sailed, leaving behind four converted cruisers and one torpedo boat destroyer. These latter vessels took supplies of coal and provisions. "April 26, toward evening, these ves-sels stopped and examined the German steamer Loo Sok and the Norwegian steamer Providence, which passed out-side of the bay. On April 27 more than 30 Russian vessels anchored at Hon-kohe, and at 5 clock in the afternoon they stopped and examined the British steamer Stettin, which was passing. "According to the French official re-port, Vice Admiral Rojestivensky prom-ised Admiral de Jonguieres that ho would leave Honkohe on May 3. It is evident, however, that the Russians were anchored at Honkohe on May 8. "The latest telegrams from Indo-China indicate the presence at Honkohe on May 12 of seven Russian battleships, seven cruisers, two torpedo boat de-stroyers and four converted eruisers. "Since the appearance of the Russian feet in the far east Saigon has become a base for the transportation of mili-tary supplies for Vice Admiral Rojest-vensity's fleet.
