TELEGRAPHIC.

SILVER COMMISSION.

The Members Appointed by President McKinley.

WOLCOTT, PAYNE AND STEVENSON.

Their Mission is to Labor for the Promotion of International Bimetallism.

WASHINGTON, April 12.—The President tonight announced the appointment of Edward O. Wolcott of Colorado, Hon. Charles J. Paine of Boston, and ex-Vice President Adlai E. Stevenson as commissioners to an international monetary conference. These appointments are made under an act approved March 3rd last, "for the promotion of an international agreement for bimetallism," and by its provisions they do not require confirmation by the Senate.

It has been generally conceded that Senator Wolcott would be made a member of the committee. He has been an active leader in the movement for a monetary agreement and widely known as an advocate of the silver cause. His trip to Europe last summer was generally supposed to be at least semi-official as the representative of the new administration. His influence extended over several months and impressed the leading European statesmen. He had audiences with the more noted financiers and ministers, and it is believed he then laid the foundation for the international conference which the commissioners appointed tonight will endeavor to bring to a conclusion.

Ex-Vice President Stevenson, though generally known as an advocate of bimetallism, was a staunch supporter of Mr. Bryan and the Chicago platform. He and Senator Wolcott, however, are said to be in accord on the financial question. Gen. Charles J. Paine, who may be termed the minority member, is a Republican and was a McKinley man. He is one of the most prominent business men of Massachusetts and is said to be a deep student of the financial question. While he is classed as a supporter of bimetallism based on international agreement, he is regarded as allied with the "sound money" faction. He is a graduate of Harvard, a charter member of the class of '53. Gen. Paine is largely identified with railroads and other corporations, being a director of the Chicago, Burlington & Quincy railroad and other large concerns, and a director of the Boston Institute of Technology, and was an intimate friend and associate of Prof. Walker, the financial author and authority. He is a man of large wealth and probably better known as the public at large as one of a syndicate of gentlemen who built the cop-dwelling yachts Puritan, Mayflower and Volunteer.

It is a fact not generally known that Gen. Paine accompanied Senator Wolcott on his European trip last summer and assisted him in his researches. It is believed that he went abroad with Senator Wolcott with the understanding that he was to be made a member of the commission.

It is not yet known when the commissioners will meet and organize. When an organization is effected, however, it is believed that Senator Wolcott will be made president. It is authoritatively stated that the commissioners will not go abroad before May 1st, by which time the new incumbents will be at their posts and realize the special duties the assistance necessary in the consummation of their mission.

DEMOCRATIC CLUBS.

First Meeting of the Executive Committee Well Attended.

WASHINGTON, April 12.—The first meeting of the executive committee of the National Association of Democratic clubs took place here today at the Ebbitt house. Those present included the following:

Hon. Chauncey F. Black of Pennsylvania, Hon. Joseph C. Sibley of Pennsylvania, Senator Faulkner of West Virginia, Representative Benton McMillin of Tennessee, Representative M. E. Benton of Missouri, proxy for Rev. Sione; Hon. George Fred Williams of Massachusetts, Hon. W. J. Bryan of Nebraska, proxy for Junius C. Dahlman; Representative Maguire of California, proxy for Senator White of the same state; Representative J. H. Lewis of Washington state, Senator Clinton of Texas, proxy for Gov. Hogg, and W. H. McKenna, secretary. Mr. McMillin was elected to preside over the deliberations of the committee.

The members of the committee say the meeting was more fully attended and the interest displayed was greater than at any previous gathering of the committee after defeat in a presidential campaign. The report of the officers showed a very satisfactory condition of the affairs of the association.

During the campaign there were to exercises 15,000 Democratic clubs, 9,000 of which were formed during the campaign, and which lapsed after the election. There are approximately 6,000 clubs still in existence.

The report of the treasury showed a small indebtedness, which was promptly provided for and a new fund for carrying on the work in hand was created.

A committee consisting of Messrs. Black, McMillin and Maguire was appointed to prepare an address to the Democratic Voters of the country which the committee unanimously accepted.

A Greek Proclamation.

LONDON, April 12.—The Daily Chronicle's correspondent at Athens says that the main body of irregulars expected to fight a decisive battle at Grevena. Following is the text of last proclamation:

"Brothers and soldiers of Christian liberty:—We hoist the flag of liberty for the Greek countries. Under its shadows let us unite, with the watchword 'liberty or death.' The Christian countries of Europe, the justice of our cause is recognized by all true people. Blest by God, let us push onward, brother Greeks."

THE SULTAN ALARMED

He Hears of War Preparations in Bulgaria and Servia.

LONDON, April 12.—A dispatch to the Standard from Constantinople says that twenty-two millions of reserves which have been stationed on the Bulgarian frontier will now be sent to the front, and 15,000 volunteers at Kossivo will be forwarded to Janina.

Advices from Athens show that everything there is ready for war to case it breaks out. Telegraphic communications and others like them have caused considerable alarm at the Yildiz Kiosk. It is also reported that the grand vizier in his interviews with the sultan has been deposing the commands, and has advised the nullification of Turkey in the ministerial crisis.

SURPRISED AND DISAPPOINTED.

At the Prospective Reopening of the Silver Question.

LONDON, April 12.—The Washington correspondent of the Times says that the appointment of John W. Foster and Charles S. Hamlin to cooperate in behalf of the American treasury experiment in the settlement of the international currency question indicate the immediate opening of the vexed Bering sea question. It is possible that Mr. Foster will request a new modus operandi with Sir Julian Pauncefote upon Canadian activity. The Times, commenting editorially upon this situation, says:

"The movement to reopen this question will be met with surprise and disappointment. It appears premature if not unnecessary to start a bimetallic campaign six months before the stipulated time for re-examination has arrived. To demand that the awards shall now be set aside is to scarcely less with the contention of one party to the controversy would strike a very serious blow at the principle of arbitration.

There doesn't seem to be very much the matter with your child. He doesn't actually lose weight, but there is no gain. He belongs to that large class of children that don't seem to prosper. You look at him a little more thoughtfully than you do at the rest and say "He is not doing well." Failure to gain in weight in a child is a danger signal. Scott's Emulsion should be taken at once. It puts on fat where health demands it, strengthening the digestion.

San Francisco. 251

Yet it appears that not only powerful influences were failing in the United States to impeach the award on perhaps the most important practical point, but also that those influences were in certain amount in accordance with the executive at Washington. It must be remembered that the British government is a trustee of the rights of the Canadian government. To allow these rights to be whittled away in the teeth of the award would arouse a very natural and justifiable indignation in Canada.

"We are forced to conclude, relying upon our correspondent, that a strong anti-silver feeling exists in America against Canada, and Mr. Foster, who is an expert in the art, is using the press to create an attitude. Possibly he is counting on the fact that relations between the two governments are now more strained than usual. Canada has been left out by the Americans in the new tariff law, and has shown herself ready to act back. The American judges are going to prove that they can stultify themselves. We do not say, however, why the British government should help them by consenting to unsettle the results arrived at by arbitration. Less than ever is it bound by exhibiting an objectionable contempt of the feeling of our colonial fellow subjects."

Kansas Bribery Investigation.

TOPEKA, Kan., April 12.—Further evidence of bribery was developed before the legislative investigating committee this afternoon. Senator Campbell of Lincoln county said he had been approached in the senate cloak room by a man who offered him several hundred dollars to vote for Senator Hanna's anti-trust bill. He refused to give the man's name. Asked if it was not Legislator Walters of Lincoln county, Campbell said he would not say. He said he would come out later. He was willing to say that State Senator Hanna had sent a note to a member of the senate asking him to vote for Hanna's anti-trust bill. Senator Hanna (Campbell) said urge him to vote for the Hanna bill. At another time he had been approached by one Corning, but nothing definite came of it.

Dr. Mains from Jefferson county said he was approached by two men and that one of them said that if he (Mains) would vote for the Hanna senatorial committee, would look on the task with favor he would be given $2,000.

D. J. Hanna, a brother of State Senator Hanna, said the statements made last week by Representative Minier and reflecting on him. Hanna said that Minier had told him he was ready to be bought over by railroads and asked Hanna to look out for any chance to pick up $500 or $600.

CHARGES AGAINST HUNTER.

Witnesses Examined But No Indictments Found.

FRANKFORT, Ky., April 12.—The local grand jury is going deeply into the bribery charges against Hunter and his lieutenants. Not only were the nominee and Mr. Finnes and ex-Congressman Wilson before the body today, but late this evening half a dozen senators and members, including all those who contended that Dr. Hunter was in his room on the night of April 1st, were summoned and examined. Later Captain Gaines testified that Dr. Hunter came to his house on the night mentioned, was recalled, and afterward his wife went into the jury room. A part of Hunter's testimony was a reiteration of a public statement that he had never seen Gaines and never was in his home in his life.

The jury adjourned for the day without bringing in any indictments or any report.

ENGLAND AND TRANSVAAL.

War Now Openly Talked About in the Street.

LONDON, April 12.—The speech of the first lord of the admiralty, George Goschen, at the farewell banquet tendered on Saturday to Sir Alfred Milner, the newly-appointed high commissioner of Great Britain in South Africa, has produced a great sensation and the imminence of war between Great Britain and the Transvaal is the common talk of the street. Referring to the presence of British blue jackets and marines in South Africa, Mr. Goschen said:

"They are to represent to Sir Alfred Milner British power in Africa. They are the guarantee to him and to our colonists, to the loyal men who support British rule, that the country is understood to maintain its power in these quarters and it will back its high commissioner with the power of the British empire."

In the Army.

WASHINGTON, D. C., April 12.—First Lieut. J. S. Oyster, First artillery, has been ordered before a retiring board headed by Brig. Gen. J. Forsyth, at San Francisco.

First Lieut. W. L. Bedeck, Twentieth infantry, has been detailed as military instructor at St. John's military academy, Delafield, Wis.

Commodore A. Kautz has been detailed as president of the naval retiring board in place of Commodore C. S. Norton.

Killed by an Indian.

MOJAVE, Cal., April 12.—Varying rumors come from Panamint, a mining camp in the desert 125 miles east of Mojave, regarding a triple murder there. The report from Garlock, the most western station from which telegraphic communication can be had by mail, gave information that three men had been killed by "Pancamint Tom," an old Indian scout. Later reports verify the killing of two men named Langton of Los Angeles, and the fatal wounding of two others, men whose names could not be learned. The quarrel arose over mining property claimed by the Indian and which the white men had jumped.

Mr. Bryan's Condition.

WASHINGTON, April 12.—Wm. J. Bryan returned to Washington today from Florida. He is still suffering a result of the accident at St. Augustine, but is considerably relieved. The worst injury is to the left side, which pains him greatly when going sound.

The force of the fall can be judged from the fact that a silver watch-case which Mr. Bryan carried in his vest pocket was crushed completely out of shape.

Tonight, at the invitation of the law class of Columbian university, Mr. Bryan delivered an address to the students and a large number of invited visitors. His general theme was good government and the equality of people before the law. The lecturer was given a warm welcome. Judge Jere Wilson introduced Mr. Bryan, who was given a reception by the Virginia Democratic association at the Metropolitan hotel.

Preferred Death to a Dungeon.

SPOKANE, Wash., April 11.—Office Officer McPhee lies in a critical condition with a bullet wound in his neck. The dead body of Arthur Chappelle, who shot the officer, lies in the city morgue.

McPhee had Chappelle under arrest and was taking him to the station on a charge of burglary, when the prisoner sprang back and fired a revolver at the officer. The bullet went into the officer's neck and went through the body. Dying near the veterans, Chappelle lives near Dayton, Washington, where he had a wife and five children. After shooting McPhee he fled through the city several blocks and concealed himself in an outhouse. He was pursued by Deputy Sheriff Virginia and a posse of angry citizens. As the deputy pulled the door open a shot was fired inside and the officer, thinking he was being fired upon, fired into the room, killing Chappelle fell to the floor dead. It was then seen that Chappelle had shot himself through the head.

Failure to Sue Francisco.

SAN FRANCISCO, April 12.—Caldwell, Pike & Co., wholesale liquor dealers at 313 Battery street, have failed, with liabilities of $100,000. The firm was composed of the late Joseph Caldwell and of Burt D. Pike. Nominally the assets exceed the liabilities, but the stock will be closed out and the failure only after the expert appointed by the creditors shall have submitted his statement.

DETAILS OF THE FIGHT.

The Encounter Between Greeks and Turks on the Frontier.

LONDON, April 12.—A correspondent of the Daily News, who accompanied the Greeks, will say tomorrow: On Friday, April 2nd, we heard from them that the Turks were very strong at the point where we intended to cross the frontier. Mylonas ordered the cavalry to march to Kalamaki, and returned to Kalamaka. On Tuesday we encamped at the gorge of Kokkinia. A council of war was held, during which Mylonas and Prince Davids and Brimas with 800 men quietly started about midnight across the frontier, going through the pass near the Turkish camp. Before daybreak, when the scouts passing the frontier about an hour ahead the first. The column of Mylonas engaged the Turkish scouts, who fled, and the regular fight with a sharp discharge of musketry. Mylonas declined to storm the position, which was done gallantly. The two columns now converged, Mylonas on flanks, a small village of about thirty houses three miles down the hilly slope. Another column of infantry were constantly harassed by a fusillade from the Turkish posts along the line, to which the Greek outposts replied vigorously, about 1,500 yards from the village the enemy opened a heavy fire, the bullets whistling about our ears. The Turks made a desperate resistance.

Meanwhile Davelis was storming several Turkish stations, the garrisons of which were compelled to fly to Halidovo with heavy loss. Halidovo on a small elevated spur, so the Greeks were able to approach quite near beneath the Turkish line of fire, and soon commenced shelling the government houses, from which poured a sharp fire. The Turkish force occupied a large two-story house in the center of the village, and their fire from the point continued for some time. Finally Mylonas sent a Turkish prisoner to urge the Turks to surrender. The Turkish officer replied that he would fight to the last. Thereupon Mylonas ordered his men to cease firing, intending to blow up the palace with dynamite.

Nightfall came and a heavy hailstorm set in. The Greeks were drenched to the skin, but they held their ground and repulsed three sorties of the Turkish garrison with heavy loss.
