By Telegraph.

THE WESTERN UNION TELEGRAPH LINE.

CONGRESSIONAL.

SENATE.

WASHINGTON, 2.—The Senate remained in session till 4 15 this a. m., and then took a recess till 7 p. m.

The rivers and harbor appropriation bill was amended and passed.

The Texas Pacific railroad bill was passed.

The Senate met at 7 in the evening.

A resolution tendering the congratulation of the United States to the people of Spain was passed.

The Senate reassembled at seven o'clock this morning and passed a bill to provide for the payment of the judgments of the Southern Claims Commission.

A number of pension bills were passed.

Ingalls's resolution for an enquiry as to the conduct of the army officers in South Carolina, passed by to remove the political disabilities of D. F. Leake of Virginia, was passed.

Cole from the committee on appropriations reported the deficiency appropriation bill, and the Senate soon after went into executive session and adjourned.

A resolution relieving Spinner, treasurer of the United States, for the defalcation of certain subordinates in his office was objected to by Trumbull until it had been considered by the committee on finance.

Anthony from the committee on printing, reported a resolution to print fifty thousand copies of the agricultural report, to be sold by the commissioner at 50 cents each; agreed to. A resolution to print 2,500 copies of the report of the United States centennial commission was also passed.

Morrill, from the committee on public buildings, reported that the Senate and House committees were unable to agree upon the acceptance of any of the models offered for a statue to Farragut, none being entirely worthy of the subject.

The sundry civil service appropriation bill was up, and an appropriation of nearly a million for the Washington board of public works was agreed to.

Sherman, on behalf of the finance committee, offered an amendment for the establishment of a sub-treasurer in Cincinnati and Chicago, but ...e objected.

HOUSE.

The legislative, executive and ...icial appropriation bill was taken ... and the House, by a vote of 66 ...95, refused to table Butler's mo... to reconsider the vote defeat... ...is proposition for an increase ...alaries.

...rgent moved an amendment fix... ...e members' salaries at $6,500 ...ieu of all other pay; agreed to. ...Butler's amendment, as thus ...ended, was then agreed to, yeas ..., nays 97.

The increase applies to the present Congressmen, but does not affect the President until the 4th of March. The vote was taken amid great excitement. Speaker Blaine insisted, however, that the increase would apply hereafter in the case of the Speaker.

The House rejected the amendment suspending the payment of judgments in the court of claims in favor of disloyal persons.

A substitute in reference to the withdrawing by the government of the charges for transportation from the Pacific railroads was agreed to.

A bill to sue the Credit Mobilier Company was agreed to.

On motion of Banks a joint resolution was passed congratulatory to Spain.

EASTERN.

WASHINGTON, 2.—The committee of conference is in session to-day on the amendments to several of the general appropriations and the Geneva award.

The Senate has yet to act on the House deficiency bill. Business is in such a state of forwardness that it is now anticipated there will be no necessity for an extra session of Congress for legislative purposes. The Senate has more business than the House.

The Senate Utah bill has yet to be acted on by the House.

The railroad and car builders are stirred up by the action of the Senate committee on patents in reporting in favor of extending the Atwood patent on car wheels, which ...died nearly five years ago.

The owners of the Tanner patent brake are lobbying for an extension; the Hodge brake is also in line of extension, but a strong effort will be made to defeat these projects.

The Postmaster-General denies the report that files of his department show that Colfax was an attorney or lobbyist for Nesbitt. He says that finding the Nesbitt contract for stamped envelopes has been extended by his predecessor without advertising for competition, he referred the question of its legality to the Attorney-General, who decided that it was without the sanction of law, and that the department should terminate the same on reasonable notice, and issue proposals for a new contract, which was done. In the meantime a question arose as to a temporary supply until the new supply should commence, and this temporary supply Colfax urged that the heirs of Nesbitt, having the necessary buildings, machinery and materials, and not having forfeited the contract by any malfeasance, should have the opportunity to work up until the new contract was let, or that they be allowed to present an argument as to the validity of their contract, as extended.

The public debt is reduced five millions.

EASTERN.

NEW YORK.—A fire this evening in the window blind manufactory of D. Purdy & Sons, Water street, Brooklyn, almost destroyed the building. Loss $40,000.

WASHINGTON.—It is stated on what seems to be reliable authority that the investigation committee will to-morrow report that the charges against Senator Pomeroy are not proven; it is also understood that the delay in the presentation of the report is owing to the efforts of Pomeroy's friends, which are still in progress, to induce the committee to include in their report some expression of opinion adverse to the validity of Ingalls' election, on the ground that it was affected by the merely pretended exposure.

TOLEDO, 1.—At Findlay, Ohio, on Thursday, Nicholas Berginger, an old man who was jealous of his young wife and H. J. Gartie, a young man working and boarding with the family, enticed Gartie from the house and shot and killed him. Benginger confessed the crime and was placed in jail.

NEW YORK.—The bank statement shows an increase in specie of $1,323,600.

WESTERN.

SAN FRANCISCO, 2.—The steamer *Moses Taylor* arrived to-night from Honolulu, bringing dates to February 15th. The *Hawaiian Gazette* of February 15th says a strong effort is being made to revive the project for a reciprocity treaty with the United States, as at the present time a large portion of the sugar crop, which would otherwise go to California, goes to New Zealand and British Columbia, breaking up the trade with San Francisco.

There was a report that the Hawaiian government is willing to cede a large section of land near Pearl Bay to the United States on condition that we establish a coaling station at that point.

The sugar market was much depressed on account of the low prices in the United States, particularly in California; it has not been as greatly depressed since 1868.

The *Commercial Advertizer* of February 15th, discusses the question of annexation, to the United States, and strongly opposes the proposition.

At a meeting of the Chamber of Commerce of Honolulu, held February 12th, a resolution was adopted to appoint a committee to confer with the Government to see if a treaty of reciprocity can be entered into with the United States. A committee of five were appointed.

M. Raplee, director of the Government press, died February 15.

His Majesty had visited Hilo in the United States steamer *Benicia*.

LOS ANGELES, 2.—The *Arizona Miner*, of Feb. 22, has the following: "General Crook returned to headquarters on the 17th, and left for camp at Date Creek shortly after. The army in the field and its Indian allies are in excellent health and discipline." He considers the backbone of the Indian war broken; has little faith in Cochise's promises to keep the peace.

The snow fall this month, up to Friday, is 22½ inches.

The mining prospects are favorable. News from Fort Defiance says that numerous parties of diamond hunters are in that vicinity.

MILLS SEMINARY, Cal., 2.—The balloon from Woodwards, this p.m. landed about one and a half miles from this place, at 5:30 p.m., all right. The greatest altitude attained, was three miles.

MARTINEZ, 2.—Daniel Dunn has been arrested by Col. H. Finnegoss, a secret service detective, for passing counterfeit coin on J. E. Shaw, of Nortonville, and will be taken to San Francisco to-morrow.

Engineers are now engaged in making an estimate of the cost of construction of the Martinez and San Ramon Valley narrow guage R. R., they will make a final report to the Contra Costa Farmers' Club, at Walnut creek, on the 22nd of March.

Charles Brugand, who was assaulted by an Indian on Dr. Streizel's place, is still alive, but his brains are oozing out of the wound and there is little hope of his recovery.

EUROPEAN.

LONDON, 3.—A discovery has just been made of frauds on a gigantic scale on the bank of England, committed by one Warren *alias* Horton, an American, through a series of skillful forgeries on the Rothschilds and another great financial house. A reward of a thousand pounds is offered for his apprehension. The police are searching with hopes of success.

The ship *Chacabuco*, from San Francisco for Liverpool, ran into the ship *Torch* in the Irish channel. The *Chacabuco* sank a few minutes after the collision and twenty-four of her company were drowned. The *Torch* also went down, but all an board were saved.

DUBLIN.—A large tar manufactory in this city was destroyed by fire to-day. Loss estimated at $50,000.

LONDON, 1.—At a meeting of the Liverpool Peace Society, last night, General Fairchild, U. S. consul, spoke in favor of international conventions as a means of settling disputes, he, however, justified the recent civil war in the United States.

BAYONNE.—The Carlists in Catalonia, Alicant and Murcia are increasing in numbers and becoming more daring in action.

The Infante Alphonzo and wife, with a large staff and a body guard of two hundred young men, spent Monday last at San Quires. The Prince and Princess held receptions, during which the bells rang and bands played. The peasants flocked into the town from the neighborhood to pay their respects to the Infante.

PARIS.—The republican and Radical journals bitterly attack Dufaure for his recent speech in the Assembly, and warn President Thiers against carrying his strategy to an excess. The moderate left has resolved to oppose certain clauses in the constitutional project unless the government consents to modify them.

LONDON, 1.—A Liverpool dispatch reports that an unknown steamer was foundered in the Mersey, below the city, this morning; all on board were supposed to have perished.

The bark *Boyne*, for Falmouth, was recked in Mountese bay, on the southwest coast of England; 15 of the crew were lost.

BERLIN, 1.—The cab drivers have struck.

Minister Bancroft gives a grand dinner on Tuesday next, in honor of the inauguration of Grant. Bismark will be among the distinguished guests.

DEPOT Opposite Seventies' Hall. d43 1y] JOHN MILBURN.

UNION

SAFETY LAMP

IS conceded by all who have seen it to be possessed of great merit, and to be altogether the best thing of the kind ever put in the market.

The lamp is constructed with two tubes, the outside one intended only for the attachment of the burner, and the inside one to contain oil and receive the wick. As there is no connection between these tubes it will be evident that there is no possibility of communicating any heat to the oil, and as long as the oil in a lamp can be kept perfectly cool there is, of course, no chance for an explosion.

The Lamp is strongly and well made, attractive in appearance, and something entirely new and novel. It will burn kerosene adapted to any burner. With all of these advantages it combines cheapness, and from present indications it is destined to become very popular.

In case of accident, the Lamp falling or thrown over, by which many explosions occur, is the cause of the oil rushing to the flame. In this Lamp it is not so; it can be thrown over and cannot send the oil to the flame; it will run from it, so there is no danger of catching fire.

The public may rest assured that the Lamp is all that we claim for it, and we cordially invite the most critical to examine the same, and we feel confident the verdict will be the same as that of the most scientific men of the Eastern States—that it is superior to all LAMPS that have yet come to public notice.

This Lamp can be filled from the fount, on the top of which is a screw.

This Lamp can be attached to any Chandelier or Bracket made.

ALSO A LARGE STOCK OF

GLASS AND METAL LAMPS,

LATEST IMPROVED BURNERS, CHANDELIERS, BRACKETS, KEROSENE OILS AND PETROLEUM FLUIDS,

By the Case, Barrel or Car Load, lower than can be had elsewhere, at
