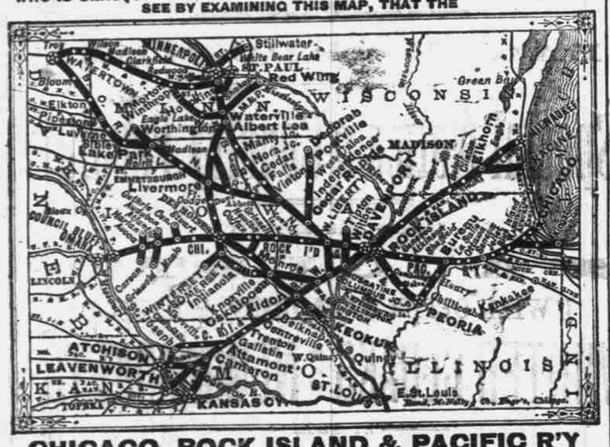
A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE.

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and —between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

FULL WEIGHT PURE

Dr. PRICE'S CREAM BAKING POWDER

MOST PERFECT MADE

Its superior excellence proven in millions of homes for more than a quarter of a century. It is used by the United States Government. Endorsed by the heads of the Great Universities as the Strongest, Purest, and most Healthful. Dr. Price's the only Baking Powder that does not contain Ammonia, Lime, or Alum. Sold only in Cans.

PRICE BAKING POWDER CO.
NEW YORK. CHICAGO. ST. LOUIS.

$1 000 REWARD for any medicine in the world that will cure as bad a case of Itching, Ulcerated and Bleeding Piles as will one fifty-cent box of Dr. Emall's Magic Balm of Healing Ointment. It acts as a soothing lubricator, absorbs the tumors and allays the intense itching at once as nothing else will. No pile cure ever acquired so large a sale in so short a time. Sold at every drug store, or sent by mail. Address Zion's Co-operative Mercantile Institution, Salt Lake City. ☞ Cleveland, Ohio, January 21, 1887—Send me five gross Emall's Magic Balm soon as possible. This will make nearly one hundred and fifty dozen I have bought since July 15, 1884. I now sell more of your Balm, or Ointment at retail over my counter than of all other balms and ointments combined. It sells better than any medicine I have in my store.—S. P. Church, 30 Euclid avenue. d&w (1)

CRITICAL ANALYSIS.

UNIVERSITY OF DESERET,
Salt Lake City, June 8th, 1887.

By carefully examining DeLand's Chemical Baking Powder with the microscope and with chemical reagents, I find that it is free from **Alum, Starch, Flour, Bone Ash, Ammonia and White Earth**; and that it consists essentially of Cream of Tartar and Bi-Carbonate of Soda.

The Baking Powder examined I purchased at Barnes & Davis, in this city.

J. T. KINGSBURY, Chemist.

MANUFACTURERS, CHEMISTS, GOVERNMENTS, PRINCIPALITIES OR POWERS

are unable to disprove the Statement on every can of DeLand's Chemical Baking Powder "**Made of Pure Grape Cream Tartar and Bi-Carb. Soda only. No filling whatever.**"

☞ CAUTION—Use one-fourth less of this Baking Powder, and one-half less shortening with all recipes than with other Brands. d

EVENING NEWS.

Wednesday, - - August 17, 1887.

THE GOLDEN SIDE.

"There is many a rose in the path of life,
If we would but stop to take it;
And many a tone from the better land,
If the querulous heart would make it.
To the sunny soul that is full of hope,
And whose beautiful trust ne'er faileth,
The grass is green and the flowers bright,
Though the winter storm prevaileth.

Better to hope, though clouds hang low,
And to keep the eyes still lifted,
For the sweet, blue sky will soon peep through,
When the ominous clouds are rifted.
There never is night, without a day,
Nor an evening without a morning,
And the darkest hour (so the proverb goes)
Is the hour before the dawning.

There is many a gem in the path of life,
Which we pass, in our idle pleasure,
That is richer, by far, than the jeweled crown,
Or the miser's gilded treasure.
It may be the love of a little child,
Or a mother's prayer to heaven,
Or only a beggar's grateful thanks,
For a cup of water given.

'Tis better to weave in the web of life
A bright and golden filling,
And to do God's work with a ready heart,
And hands that are prompt and willing,
Than to snap the delicate, minute threads
Of our curious lives asunder,
And then blame heaven for the tangled ends,
And sit, and grieve, and wonder."

TRAINING HANDS AND HEAD.

WHAT IS BEING ACCOMPLISHED AMONG THE YOUTHS OF HAMPTON INSTITUTE.

These negro and Indian youths come with no good background to exercise its unconscious but most potent influence in shaping their lives—rather the reverse is true. This whole life must be reformatory, an uplifting out of dark and undesirable conditions and tendencies. There must be reform, not for conscious misdoing, but for circumstancing, of misfortune, and not of fault. Gen. Armstrong's pupils are up at 5:30 in the morning, put in ten solid hours of work, manuel and with books, and go to bed at 9:30. Each hour has its duty, its occupation, or its responsibility—and the vast machine is distinctly a success.

As the negroes and Indians work side by side on the farm and in the shops their natural traits are conspicuously illustrated. The Indian is the quicker, the more agile on a spurt; but his black brother has vastly more staying power. The Indian has the more able and nimble legs, but the negro is better developed in the chest and arms—all because of very obvious reasons. Gen. Armstrong says his best students are those who work all day and have only two hours for study at night. The same thing made manhood more robust in the fine type of men who worked their way through college and are to-day rather impatient that all boys are not put to the school of adversity which they remember with pride.

Work and an atmosphere of moral refinement are doing much for these picked representatives of the red and black, and it is interesting to discover that the day scholars—those who live outside the institution—do not turn out so well. One side of their life lets them down too much.

The home farm employs 13 students all day, with a detail of 45 who average one and a half days a week; its products are 10 acres of early peas, 10 of Irish potatoes, 90 of sweet potatoes, 15 of oats, 2 of cabbage and onions, 2 of spinach and kale; 44 acres are seeded to clover, 166 to corn fodder, 46 to rye, and 110 acres are under cultivation in garden and orchard. The Hemenway farm, about five miles distant, has 112 acres in corn, 43 in wheat, 106 in oats, 80 in clover and 200 in pasture.

The Huntington industrial works—saw mill and wood working shop—where 15,000,000 feet of pine, poplar and oak, brought in rafts through the canal of the Dismal Swamp from the forests of North Carolina and Virginia, have been worked up in the year; the department of household work, the caring for this great family of 600, which offers a field for training that housewives will appreciate; the dressmaking and tailoring departments, where uniforms, dresses and shirts are made; the printing office and bindery, which has created a demand for colored printers that cannot be supplied—and where four years are required for mastering the art of bookmaking; the knitting room with its Lamb knitters, that afford means of self-support, and stimulate the quickness that piece work always begets; the engineer's department, the Indian training shops, eight in all, giving instructions in as many trades—wood working, carving, carpentering, harness making, shoemaking, tinsmithing, the greenhouse and the garden—these all attract and instruct the visitor.—*Springfield Republican.*

Getting Ready for War.

Curious and ingenius methods are being introduced to increase the efficiency of the European armies. In France pigeons are being trained to carry messages backward and forward between two given points on the following clever plan: The carrier pigeon will naturally fly back to its cote; but being kept there without grain or water the bird will return to the point whence it came in order to procure food. Thus in case of a city being beleaguered the pigeon would traverse the lines twice in a day, eating at one point away in the country and domesticating at the other within the walls, thus supplying an invaluable line of communication. In Germany the infantry are supplied with intelligent watchdogs for the outposts, who scent and detect danger long before the sentry is aware of it, while the cavalry are trained to swim streams, leading their horses by the bridles, the latter carrying the soldier's arms and accoutrements.

The latest idea, however, comes from Russia, where the minister of war has ordered that in all the infantry and cavalry corps a certain number of officers and men shall in future employ part of their time in shooting and hunting game. The object is explained to be to combine this with reconnoitering work, thus enabling the troops to acquire a practical knowledge of the districts in which they may be stationed, and gradually training a class of men specially fitted to undertake dangerous and difficult personal expeditions in time of war.—*San Francisco Chronicle.*

To Get Rid of Small Red Ants.

Mrs. L. C. D., Norfolk Co., Mass., writes as follows to the secretary of the H. I. Club: I want to tell the ladies how I got rid of small red ants. They troubled me greatly for several years, in spite of all "remedies," until within a short time. I mixed some rough on rats in molasses, and poured a small quantity on a shelf in the cellar where the ants were pretty numerous, and invited them to the feast. In an hour I went down and they were holding high carnival; at night not one was seen. The next morning I put some of the mixture upon the floors of the store-room and shed near where they came in. At first there were but very few, but in half an hour they came in droves. It was interesting to watch the two lines of the procession, one going and the other coming. In four hours not one was visible, nor have I seen any since. Perhaps others may come, if so I shall make another feast.

SIMMONS LIVER REGULATOR

DYSPEPSIA

Up to a few weeks ago I considered myself the champion Dyspeptic of America. During the years that I have been afflicted I have tried almost everything claimed to be a specific for Dyspepsia in the hope of finding something that would afford permanent relief. I had about made up my mind to abandon all medicines when I noticed an endorsement of **Simmons Liver Regulator** by a prominent Georgian, a jurist whom I knew, and concluded to try its effects in my case. I have used but two bottles, and am satisfied that I have struck the right thing at last. I felt its beneficial effects almost immediately. Unlike all other preparations of a similar kind, no special instructions are required as to what one shall or shall not eat. This fact alone ought to commend it to all troubled with Dyspepsia.

NOTICE OF ASSESSMENT.

UTAH AND SALT LAKE CANAL COMPANY.
Office 123 W. North Temple Street,
SALT LAKE CITY, Aug. 6, 1887.

Notice is hereby given that at a meeting of the Directors, held on the 30th day of July, 1887, an assessment of two dollars per share was levied on the capital stock of the Corporation, payable to the Secretary, at the General Office of the Company, 123 W. North Temple street, Salt Lake City, on the 24th day of September next. Any stock upon which this assessment may remain unpaid on the said 24th of September, will be delinquent and advertised for sale at public auction; and unless payment is made before, will be sold on the 19th day of November, 1887, to pay the delinquent assessment, together with the cost of advertising and expense of sale.

d&s 4w E. SMITH, Secretary.
