

More Weddings.—Yesterday was quite a day for marriages. At least eight couples from Utah County alone, were wedded at the Endowment House. Among these was the union of Mr. B. W. Driggs, Jr., son of our esteemed friend and occasional correspondent, B. W. Driggs, Sen., of Pleasant Grove, and Miss Olive Harrington, daughter of Hon. L. E. Harrington, of American Fork. The groom is the eldest grandson of the late Apostle Parley P. Pratt. Another marriage was that of Mr. William Freeman, of Fort Herriman, and Miss Mamie Winters, of Pleasant Grove. Both pairs are well mated and are as happy as happy could be. This morning they left for American Fork, where the dual wedding will be appropriately celebrated, and tomorrow evening will hold another reception at Pleasant Grove, the home of Mr. Driggs and the lady newly made Mrs. Freeman. Our best wishes go with them.

FROM SATURDAY'S DAILY, NOV. 27.

Sisters' Conference.—Sisters S. M. Kimball, E. B. Wells and E. Howard have been attending the Ladies' Conference at Provo, held yesterday. The latter two returned last evening. The meeting, which was well attended and very interesting, was presided over by Sister Mary Johns, in the absence of Sister M. T. Smoot, who was suffering from a severe cold and could not be present.

Utah Stake Conference.—The quarterly conference of Utah Stake convened at Provo, this morning, at 10 o'clock, and will continue over to-morrow.

President Joseph F. Smith and Apostle John Henry Smith will leave for Provo by the morning train.

Apostle F. M. Lyman is attending the Millard Stake Conference in Fillmore.

Home Again.—President Angus M. Cannon returned to this city from his trip to St. George, Thursday evening, having been gone since the 29th of October. Thanksgiving Day he spent at his farm near the Point of the Mountain, and came to the city the same night. He is looking and feeling first rate and expresses himself as having enjoyed his brief visit better than any other period of his life of equal length. We bid him welcome home.

Cold Weather.—Brother S. P. Richards, of Montpelier, Idaho, writes on the 20th to this effect:

Winter seems to have set in in good earnest. Yesterday and to-day snow has fallen to the depth of six inches and is still coming down.

We had fine weather all the way home (from Salt Lake) but storm and severe cold commenced soon after our arrival home. The past week has shown about as cold weather as any experienced last winter, except when the hard winds blew. All well.

Accident.—In the 19th Ward at 10 o'clock yesterday morning, Frank Benzon, aged seven years, was amusing himself by picking a giant powder cap with a pin. It exploded, blowing the finger and thumb off the left hand and also injured the right. The boy's face was also scorched by the blaze of the powder. Dr. Benzon, the father of the boy, came down from Ogden on a special engine, but finding the injury was not dangerous, went back soon after arrival. Dr. Joseph Richards is the physician in attendance, under whose treatment the patient is doing well.

A Poisonous Bite.—Two men named Edward Wells and Alexander Jacobson got into a scrimmage at Park City several days ago, during which the former bit his opponent on the cheek. Jacobson was brought to this city for treatment, as the bite was discovered to be poisonous, and erysipelas had set in as a consequence. The case had gone so far that nothing could be done to cure him, and he died on Wednesday last. Wells was charged with manslaughter; the brother of the deceased swearing out a complaint to that effect, and Marshal Shaughnessy was directed to make the arrest. It was found, however, that Wells had absconded from Park City and nothing further of him could be learned. He is still being sought for, and will doubtless come to light before long.

Dead.—Dr. William Ferguson, of this city, husband of Sister Ellen B. Ferguson, died at 10 o'clock this morning. Deceased was quite aged

and for a long time had been feeble in body as well as in mind. Several times in the past few years he has been mentally deranged. He has been ailing for about a week with pneumonia, and gradually succumbed to the disease. He was born March 11th, 1801, in Dockfern House, near Inverness, Scotland. He was for forty years a minister of the Congregational Church, was educated at the University of Edinburgh and graduated in the medical profession, intending to devote his life to foreign missionary work. He emigrated to America in 1860, and during the late war edited a democratic paper in the State of Ohio. He came to Utah in 1876 and took up his abode in this city, residing at the time of his death in the 21st ward.

The funeral will be held at late residence on Tuesday morning, at 11 o'clock.

FROM MONDAY'S DAILY, NOV. 29.

Postmaster Appointed.—Patrick Cusick has been appointed postmaster at Eureka, Juab County, Utah.

Found Guilty.—Cole, the Ogden seducer, was found guilty on Friday afternoon. Sentence was reserved until to-day.

The Bigamy Case.—The case of Frederick Chandler, charged with bigamy, will resume at 3 o'clock to-morrow afternoon, before United States Commissioner Sprague.

Hand Blown Off.—A man at Alta, the other day, while putting a cap on a giant powder candle, by an accidental explosion had his left hand blown clean off. Dr. Benedict amputated two inches of the shattered stump, and the patient is progressing favorably.

More Manti Fossils.—By the courtesy of Brother Junius F. Wells some specimens of the fossil remains of reptiles and ganoids, from Manti, have been received at the Museum. They were found by Brother Joseph J. Taylor, near the place where the great fossil saurian was found, which is now on exhibition at the Deseret Museum.

Information Wanted.—Of Angus McKellar, formerly of Oban, Argyleshire, Scotland. He left that place 20 years ago for Utah. His sister at Oban, and another at Newcastle, wish very much to hear from him. He can obtain further particulars respecting them by communicating with Peter Reid, 16th Ward, this city.

Kind Words.—Woman's Words, a paper published in Philadelphia, has the following kindly notice of the literary production of a Utah writer:

"Fugitive Poems," by Mary J. Tanner, is the title of a volume of 128 pages that comes to us from Salt Lake, we have read that with much interest. While these little verses do not claim any deeper inspiration than that afforded by home and the domestic altar, they yet give evidence of a fidelity to admonitions of the heart, and a true woman's feelings and all that concerns the struggle of life. Many of them are touching and tender, while others are hopeful, and nearly all are good, although some of them of a personal character could have been spared to the advantage of the volume. It is printed on handsome paper in readable type, and bound in morocco—a very substantial and pleasant gift for a friend. Published by J. C. Graham & Co., Salt Lake, Utah. Price \$1.00.

For the East.—Hon. George Q. Cannon, Utah's Delegate to Congress, expects to leave by the morning train for Washington, to begin his political duties at the nation's capital, for the coming session of Congress which commences on Monday the 6th inst.

He will be accompanied part of the way by President A. O. Smoot, of Utah Stake, who goes to visit his old home in Owen County, Kentucky, where he was born. One of his main objects, besides preaching the gospel, is to gather genealogical data of his family relations, who were among the first settlers of Kentucky. Owen County derives its name from an ancestor of Brother Smoot's, Col. Owen, who was killed at the battle of Tippecanoe. From him, also, Brother Smoot takes the name of Abraham Owen. He will also visit Virginia, the State where his forefathers settled on first arriving in America. He will be absent for several months. He will also have for a travelling companion Elder John

W. Taylor, son of President Taylor, for several years connected with the business department of the DESERET NEWS Office, and one of the presiding officers of the Stake organization of Y. M. M. I. A. This will be his first mission away from home. He is a young man well known and highly respected for sterling worth and integrity, and his efforts for the gospel's sake, directed by the Spirit of God, cannot but result in much good to His cause.

We wish all of the brethren a pleasant and prosperous experience while away—Brother Cannon in the political arena, Brothers Smoot and Taylor in the missionary field—and an eventual safe return to their homes and families in the mountains of Utah. Brother Smoot's address, while absent, will be, care of W. R. Minish, Gratz, Owen County, Kentucky.

It is estimated that Montana will produce 50,000,000 pounds of wool this year. Texas, which commenced wool-raising in 1845, has now 4,000,000 sheep.

Charcoal, laid flat while cold, on a burn, causes the pain to abate immediately; by leaving it on for an hour the burn seems almost healed, when the burn is superficial.

Moody and Sankey are still drawing crowded houses in San Francisco. Sankey sings the same hymns and Moody repeats the same discourses, anecdotes, illustrations, occasional tremulous tones and all, with which he regaled the Salt Lake people, and which he has done more times than any actor we know of has said over the lines of a popular play. The press reports of them are very familiar.

We learn from Captain John A. Bailey, land agent of this city, that Congress has passed a law under which any and all persons, who made their original homestead entries prior to June 15, 1880, can make final proof for their land without publication, residence or cultivation, by paying the government price therefor, and get credit for the fees and commissions paid at date of original entry, which is \$16 for each 160 acres. Also, persons whose homestead, desert, or timber culture entries have been cancelled on account of conflict or other sufficient cause, can obtain repayment of the money paid on their entries. Further information will be given free, to any person interested, who will write to Captain Bailey and enclose stamp.

CALL at the Deseret News Office and examine their stock of Wedding Goods. Just the thing to complete your happiness.

For sale by all druggists.

A Man Walks from Newark, N. J. to New York.

Some weeks since, a man came into the store, No. 7 Sixth Avenue, New York, inquiring for Mr. Crittenton, to whom he was shown. He appeared to be very much excited, and immediately commenced to tell a story of how his wife had suffered from an affection of the lungs, and, in fact, had been given up by the physicians to die. Through some friend she was induced, as a last resort, to try Hale's Honey of Horehound and Tar, and, using here her husband's language, he said: "Before she had used one bottle she could breathe with more ease; and by the time she had used six bottles she was up and around the house, able to do her own work." The man took the pains to come in person and thank the present proprietor of this popular article for a perfect cure of his wife. Hale's Honey of Horehound and Tar is for sale by all druggists at 50 cents and \$1. Large size the most economical. Depot, Crittenton's, 7 Sixth Avenue, New York City.

RESCUED FROM DEATH.

The following statement of Wm. J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a violent BLEEDING OF THE LUNGS followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all other medicines I have taken since my sickness. My cough has almost entirely disappeared and I shall soon be able to go to work. Sold by all druggists.

Five Hundred Thousand Strong.

In the past few months there have been more than 500,000 bottles of SHILOH'S CURE sold. Out of the vast number of people who have used it, more than 2,000 cases of consumption have been cured. All coughs, croup, asthma and bronchitis yield at once, hence it is that everybody speaks in its praise. To those who have not used it, let us say, if you have a cough, or your child the croup, and you value life, don't fail to try it. For Lane Back Side or Chest, use Shiloh's Porous Plaster. Sold by Z. C. M. I. Drug Department, Wholesale and Retail, Salt Lake City, Utah. 1 ds w

By Universal Accord,

AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by Physicians in their practice, and by all civilized nations, proves them the best and most effective purgative pill that medical science can devise. Being purely vegetable, no harm can arise from their use. In intrinsic value and curative powers no other pills can be compared with them, and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild, but effectual cathartic is required. 4ds w

BAKER'S PAIN PANACEA cures pain in Man and Beast. For use externally and internally.

Testimonial.

FOUNTAIN GREEN, Sanpete Co., Nov. 23, 1880.

Dr. E. L. Plant:

Dear Sir.—As you required a testimony from me in relation to a Tape Worm that my daughter had been troubled with for over two years, according to our knowledge, we feel safe at the present time to give that testimony. We have seen no signs or appearance of Tape Worm since we gave your medicine. On the 22nd of April last your medicine arrived; we used it according to your directions and within twelve hours brought forth a Tape Worm in a dilapidated form from our daughter, who had been troubled with it for over two years. I feel to award credit to Dr. E. L. Plant, whose skill in that line of complaint can be relied on, for his medicine acted according to his directions. If this testimony will do any good, you can publish it.

Yours respectfully,
JAMES J. ANDERSON.

Sewing machines closing out cheap. Only 50 left. Call at Calder's musical warerooms and get a bargain.

Its Economy to buy the Best.

The vain attempts to imitate the "Royal Baking Powder" by other manufacturers during the past fifteen years, has proved wholly abortive. It is claimed for every new brand that it is just as good as the Royal, while they are cheapened with flour, or drugged with the hurtful alum. The pure grape cream tartar from which Royal Baking Powder is made, is imported expressly for it from the wine district of France. Manufacturers of this brand, with a far seeing eye, have always used the best and most wholesome materials, and are said to be the largest users of cream of tartar in the world. d&w

"Nothing but Compound Oxygen Saved Me."

"Compound Oxygen has certainly done wonders in my case," writes a gentleman from Eufaula, Indian Territory. "Before I commenced taking the Oxygen I had taken in the way of medicine about everything that was recommended for Consumption to no effect. I had been sick in bed for about thirty-eight months in all, and in less than three months from the time I began taking the Oxygen I was up and getting about. Had been given up by the doctors to die time and again; but I still live, and believe that nothing else but Compound Oxygen saved me." A letter received five months later from a brother of this gentleman, says: "Your Compound Oxygen has in the case of my brother performed such a miraculous cure—for we attribute it to nothing else—that I have concluded to test it myself." A Treatise on Compound Oxygen, its Nature, Action, and Results, sent free by Drs. STARKEY & PALEN, 1109 and 1111 Girard St. Philada. wlt
