LOOKING TO THE UNITED STATES

Many Cubans Hope Great Republic Will Restore Tranquility To Their Island

THROUGH ITS GOOD OFFICES.

London Press Thinks America Has No Desire to Intervene, as Would Mean Annexation.

Pino Guerrera Leaves San Juan de Martinez-Battle With the Rebels Now Being Fought.

Havana, Aug. 23 .- In this hour of the government's uncertainty many eyes are turned instinctively to the United States, not in the expectation of armed intervention, which the better informed realize would, except in the doubtful contingency that the American interests were jeopardized, be quite impossible, but with the hope that the good offices of her big neighbor may through suggestion or influence be used to restore tranquility in the republic. The part that the United States played in bringing about an end of hostilities in the far east, and more recently in the happy termination of the squabble between Guatemala and San Salvador, has made a lasting impression upon the Cuban mind.

The large American commercial interests in the island are expected to exert a strong moral force in support of and order,

Mantime, confusion exists as to where the lines may be drawn between the friends of the government and the malcontents. The most serious phase of the situation is the attempt of the disturbers to make the revolt a party affair. They claim to represent the sentiment of the Liberal party which in turn maintains that it numbers a majority of the Cuban people. If these ontentions are substantiated, the affair will assume a graver aspect. In this contention the admitted luke-warmness of the rank and file toward the government, is significant.

It is believed that a battle will be fought near Pinar del Rio, capital of the province, today, if Pino Guerrera, leader of the insurgents in that vicinity carries out his evident intentions of marching on that city. Encouraged by his bloodless successes at San Luis and San Juan Guerrera is reported to be gathering recruits and threatening the capital. The government has hurried troops to Pinar del Rio and will, it is believed, take the offensive, forcing a fight with Guerrera if he approaches the city. A decisive engagement is possible before night.

PLATT AMENDMENT.

Manchester, N. H., Aug. 24.—United States Senator Henry K. Burnham, chairman of the Cuban relations committee of the senate, when asked for an opinion on the situation in Cuba, said that he had received no official advices regarding the insurrection. He had read the dispatches in the newspapers but had been unable to form an opinion as to the exact condition on the

The Platt amendment as the legislation which defined the conditions on which the United States should withdraw from Cuba and turn the island over to the control of the Cuban people was known, provided that a part of the new republic's constitution should contain certain provisions concerning the future relations of the United States with Cuba. The third of these provisions was as follows:

That the government of Cuba consents that the United States may exercise the right to intervene for the the maintenance of a government adequate for the protection of life, properindividual liberty discharging the obligations with respect to Cuba imposed by the treaty of Paris on the United States, now to be assumed and undertaken by the government of Cuba.

LONDON PRESS VIEW.

London, Aug. 24.—The newspapers this morning print editorials on the situation in Cuba and speculate as to the probability of the United States being obliged to intervene to restore order. However, it is generally admit-ted that the American government has desire to take such a step, as it vould mean the annexation of the is-

The Daily Telegraph says that intervention would create something like ferment throughout the South Amerian republics and would be exceedingly malapropes so soon after the inter-national American congress, but that America's interests in the Island are so great that malapropos or not, publi pinion in the United States certainly will not tolerate a prolonged and aim-less rebellion which would stuitify all the good work accomplished there under American influence.

The Morning Post, in arriving at a similar conclusion thinks the position suggests that the difficulty of the Spaniards in dealing with "the turbunt islanders" was greater than the Americans were originally inclined to

The Daily Mail thinks it a mistake to suppose the rising can be easily or swiftly suppressed and that the United States will be obliged to intervene.

From a British standpoint, however," the paper says, "there is no cause for dread of American annexation. British financial interests there are larger and the island has become the field for Canadian investment and once a stable and orderly government established. Cuba will speedily attain undreamed of prosperity.

The Daily Mail says it thinks the tuation in Cuba should be a warning situation in Cuba should be a warning to Great Britain to go slowly in the

A special correspondent at Pinor

del Rio reports that Pino Guerrera with 5,000 men is waiting for the ar-rival of more troops before attacking the city. Two thousand more rebels are marching to join him, and when they arrive, he will attack the city from all sides,

Guerrera is in full possession of San Luis and San Juan. He has not dis-turbed these municipalities and permitted 80 rural guards to march out

of the latter place.
With the artillery, which was forwarded last night, the government expects to have 900 men at Pinar off Rio today when a decisive battle is expected. It is thought that Pino Guer-

GEN GREELEY'S REPORT CRITICISING DIVISIONS.

Washington. Aug. 24.—The report of Ma.-Gen. Greeley, commanding the department of the Pacific, criticising the present arrangement of divisions and departments of the army, has caused considerable discussion in the war department and officers are wondering what will be the effect when Congress takes up the subject again. It is said that the report emphasizes the point several times made, that with six major-generals of the line and 15 brigadier-generals of the line, there is great difficulty in finding places for them commensurate with their rank. One reason for creating four divisions was to give places for major-generals, the departments being commanded by brigadiers. Gen. Greeley makes it appear that there is no necessity for such dual commands, as the departments how report direct to the war department and the division commanders do not know what is done. It is also said that extra staff officers are required who might well be dispensed with should the old department mentons be resumed. Under present conditions there are two major-generals at stationed at Governor's Island. There is a major-general and brigadier-general at San Francisco. Naturally it seems the duties are not such as to require two general officers at the place, with a full set of officers, such as is attached to every division and every department.

President Roosevelt Announces He Has Adopted the Carnegie Reform Spelling.

INSTRUCTS PUBLIC PRINTER

ments, Including Messages, into That Orthography.

Oyster Bay, Aug. 24.-President Roosevelt has endorsed the Carnegie spelling reform movement. He issued orders today to public Printer Stillings that hereafter all message and documents emanating from the White House shall be printed in accordance with the recommendations of the spelling reform committee headed by Brander Matthews, professor of English at Columbia university. This committee has published a list of 300 words in which the spelling is reformed. This contains such words as "thru" and "tho," as the spelling for through" and "though,"

The president's official sanction of this reform movement is regarded as the most effective and speedlest methd of inaugurating the new system of spelling throughout the country. Not only will the printed documents, eman-sting from the president utilize the reform spelling but his correspondence also will be spelled in the new style. Secy. Loeb has sent for the list of 309 words which have been reformed and apon its arrival will immediately order il correspondence of the president and of the executive force of the White House spelled in accordance therewith, As the spelling reform committee shall opt new reforms those will be added to the presidents list and also that of

the public printer While the order to the printer today does not contemplate an immediate reform in the spelling of official documents from the executive departments in Washington, it is rgarded as more than likely that the respective heads of the departments will fall in line president's ideas and have their official documents printed in the

THE SALTON SEA.

Southern Pacific Expects to Turn the Colorado Into Old Channel Soon.

San Francisco, Aug. 24.-Southers Pacific officials state that the Salton sea in the Colorado desert is rising less than an inch a day now, and they exrect in a few weeks to begin work on a plan by which the Colorado river will be once again restored to its old channel. This will probably cost the company \$700,000. A large force of men-and teams is to be employed to con-struct heavy embankments where the river water is flowing into old channels and thence into the Salton basin, which 262 feet below the level of the sea. Engineers in the employ of the rall-

road state that once the river is sent back into its old channel, the water in the so-called Salton sea, notwithstand-ing it is 30 feet deep in many places, will, through percolation and rapid evaporation under the terrific heat of the desert, all disappear within two or three years.

SENSIBLE ENGLISHMAN.

Decided to Become an American and Join the Elks.

An Englishman with mining interests in this state catled at the Elles' club this morning, to express his admiration of the order, and his desire. to join it. He said he had met many Elks in the course of his travels and always found them to be pretty good fellows, so he thought it would be pleasant to be one of them. "Are you an American citizen?" the secretary asked. The Englishman replied that The was still a subject of Edward VII.
"Then I'm afraid we can not do anything for you," was the reply. The visitor then and there declared his intention to get out his first papers at the earliest opportunity and in time become an Elk.
