

## CAR OF POWDER KILLS TWO MEN.

Ran Away and Collided with a  
Train and Caused Terrible and  
Fatal Explosion.

## TORE UP THE RAILWAY TRACK.

Injured Two Men Very Severely—People  
Ran from Their Homes, Fear-  
ing an Earthquake.

Eldorado, Kan., Sept. 11.—A carload  
of powder, set on a "frisco" siding near  
Beaumont by a freight crew which did  
not want to handle it while switching,  
got beyond control and ran several  
miles on a branch line towards Win-  
nifield, colliding with a train which had  
left that station shortly before and  
exploded, killing two and injuring two  
more.

THE DEAD.  
Milton Pennekot, fireman, Enid,  
O. T.  
J. N. Holt, brakeman, Enid, O. T.

THE INJURED.  
A. H. Merrill, Atlanta, Kan., will die.  
Fred Orr, Alta, Kan.

TORE UP TRACK.  
The explosion tore up several rods of  
track and damaged a locomotive. The  
shock of the explosion shook the  
ground for miles around. People in El-  
dorado ran from their homes fearing  
that an earthquake had come, and that  
buildings would collapse. Other towns  
in the vicinity were also shaken up.

## IRRIGATES BY PUMPS.

Texas Tells How His People Water  
Their Farms—Prosperous Times.

"Texas is not worrying so much about  
politics as she did; times are too good."  
That was the way W. M. Robertson of  
Marshall, Harrison county, in the Lone  
Star state, put it today. He chatted  
about Texas. Mr. Robertson came here  
a month ago from Texas to study ir-  
rigation methods. He has traveled over  
the state extensively and gained much  
knowledge of irrigation from his in-  
spection of the ditches of Colorado, says  
the Denver Post.

"Texas will bloom as the rose when  
she gets irrigation down here. And we  
are learning fast from Colorado ranch-  
ers. In our state we irrigate fully as  
much as you do in Colorado, as far as  
area is concerned. We would do more,  
but many of our people do not know  
how it is done or the value of it. From  
the Panhandle south to Beaumont,  
where the rice fields are, is a great  
stretch of country with irrigated places  
here and there. Along the Pecos river  
is another strip. This strip extends as  
far north as Roswell, N. M.

"We irrigate a great deal by pumping.  
We have no mountain streams as you  
have here and we must put in current  
pumps and do the best we can. The  
best is pretty good, though. I have  
seen a ranch of 2,500 acres all irrigated  
by current pumps and doing as well as  
any field under ditches.

"In the Beaumont rice fields we use  
the pumps altogether, but on the Pecos  
river we have a fall that permits the  
water to go to waste as the ranchers do  
in Colorado.

"The irrigation has been going on in  
Texas for about 10 years. I learned  
it from Colorado. We raise cotton, corn,  
alfalfa, fruit and vegetables by ir-  
rigation.

"Our cotton crop is good this year. We  
will have about 2,250,000 bales of cotton  
in the state. The average crop for us is  
about 3,000,000 bales. We raise one-third  
of the cotton produced in the country.  
It is sent to Galveston and New Orleans  
to market. The price in these markets  
will be better than last year. September  
cotton is now selling for 11 1/2 cents. Last  
year it was away up. July cotton sold  
for 12 and 14 cents. The corner on the  
market run by Sullivan was the cause.  
Cotton in New Orleans and New York  
was bought at 15 cents flat at times.

"Texas is prosperous. The corn crop  
is good and so is the range and the  
cattle range. The country for 100 miles  
in each direction from Dallas cannot  
be beat anywhere. There is lots of  
irrigation to that section of the state.  
The eastern part of the state is the ag-  
ricultural region and the west is devoted  
principally to grazing. We will ir-  
rigate the whole state in time and it will  
be the greatest country ever known.  
The future of Texas under irrigation is  
dazzling bright.

## GORMAN TEXANS' CHOICE.

"Our politics is not what they used  
to be. We will likely go to the Demo-  
cratic convention asking for the nomi-  
nation of Senator Arthur Pue Gorman  
of Maryland for president. W. J. Bryan  
is not so well esteemed now as he was.  
We will not follow him away from the  
Democratic party if he decides to op-  
pose Gorman."

## EUREKA.

Teachers Assigned and School Opened—  
Jackies on a Furlough.

Special Correspondence.  
Eureka, Sept. 10.—The public schools  
open on Monday next. There will be  
about 600 pupils enrolled this year. The  
following is the list of teachers em-  
ployed for the coming term:  
A. C. Carlson, superintendent.  
Beginners—Miss Lou Murphy, of  
Denver.  
First Grade—Miss C. Brown.  
Second Grade—Miss Eliza Bonner.  
Third Grade—Miss Lucy B. Finley,  
Ogden, Ill.  
Fourth Grade—Miss Clara Stott.  
Fifth Grade—Miss Mary Gallagher.  
Sixth Grade—Miss Jennie Wimmer of  
Payson.  
Seventh Grade—Miss Jennie Owen of  
Kenney, Neb.  
Eighth Grade—Miss Iva Thomas.  
High School—Miss Mattie E. Ingolds-  
by of Newman Grove, Neb.  
High School—Special course, Miss  
Annie Pike of Provo.  
Miss Kate Cronin will teach the  
school at Knightville.

## OUT ON CRUTCHES.

Harry McPate, who had his leg  
broken by a cave-in at the Bullion-  
Beck mine about three weeks ago, is  
able to be around with the aid of a pair  
of crutches.

HOME ON A FURLOUGH.  
Joseph DeLong, Henry N. Nugent,  
John Dallin and Ernest Mangum, Eu-  
reka boys who enlisted in the U. S.  
navy about a year ago, arrived home  
from San Francisco Thursday night on  
a short furlough. After a brief visit with  
relatives, they will leave for Brook-  
lyn, N. Y., where they will report for  
duty on Sept. 28.

## BRIEFS AND PERSONALS.

The infant son of Mr. and Mrs. Hy-

## Worry And Overwork Caused Nervous Prostration—Com- pletely Worn Out.

Dr. Miles' Nervine Cured  
Me.

Dr. Miles' Nervine will cure nervous pros-  
tration. It will bring sweet sleep and rest  
it will relieve the mind of the tendency to  
worry; it will make the nerves strong and  
the patient well. It has cured thousands.  
It will cure you. Try it to-day.

"Some years ago I was stricken with nerv-  
ous prostration caused by overwork and  
worry. I was in such a weakened, exhausted,  
run down condition that I was unable to do  
my household work. I felt too weak and tired  
to even make calls on my neighbors. Fre-  
quently when out driving I would become so  
exhausted that it seemed that I would die  
before I reached home. I was also troubled  
with sinking spells at night which left me so  
weak that I thought I could not live until  
morning. I was in this deplorable condition  
when one day Dr. Miles' Nervine was  
brought to my notice. I had little faith in  
proprietary remedies but determined to give  
the Nervine a trial. After the second dose  
of the Restorative Nervine I was able to sit  
at the table and eat a meal, something I had  
been unable to do for many days. I have  
since taken a number of bottles of Nervine.  
I consider myself cured. I am doing my  
own work and give Dr. Miles' Nervine credit  
for my general good health. My object in  
writing this is to recommend your medicine  
but I cannot write as strongly as I feel."  
Miss ABIGAIL B. VARNER, 405 E. Marion St.,  
Guthrie, Oklahoma.

All druggists sell and guarantee first bot-  
tle Dr. Miles' Remedies. Send for free book  
on Nervous and Heart Diseases. Address  
Dr. Miles Medical Co., Elkhart, Ind.

run Gardner died this morning. The  
remains were shipped to Goshen by  
"Underhill" and Wallace for interment  
in the family lot.

William Goodman, who has been as-  
sistant to Agent J. D. Slack at the San  
Pedro depot, was transferred to Mil-  
ford, Utah, to succeed his predecessor  
here is Mr. Chester Moffat, a telegraph-  
er from Colorado Springs, Colo.

Attorney Samuel King of Provo was  
in Eureka yesterday on mining busi-  
ness. He was accompanied by J. E.  
Ayon of the same place.

## TABOR, CANADA.

A NEW TOWN ESTABLISHED.

An Odd Section Wanted—Good Water  
Found—Sunday Schools.

Special Correspondence.

Tabor, Alberta, Canada, N. W. T.,  
Sept. 4.—A few issues back there ap-  
peared in your columns a line of news  
regarding a new town, or settlement, that  
was said to have been commenced in this  
vicinity called "Bellevue." That  
portion referring to the number of  
houses, improvements, etc., was cor-  
rect; but the name had not at that  
time been decided upon. Since the com-  
munication referred to was written, a  
postoffice and railroad siding, or switch,  
has been established here, and the  
name "Tabor" selected, and officially  
acknowledged by the C. P. Ry. Co.

All trains stop here now, and in addi-  
tion to the C. P. Ry. Co. there is now  
a mercantile house conducted by James  
Hull, formerly from Ogden, Utah, a  
lumber yard and farm implement  
house, under the firm name of Johnson  
& Russell, established from Springfield  
and Ogden, Utah.

## AN ODD SECTION WANTED.

We have at present very meager  
hotel accommodations and also need  
good blacksmith and other mechanics  
as a petition has been sent to the Domi-  
nion government for an odd section of  
land near by on which to build a town.  
When this is granted building will be-  
gin in earnest as many have their ma-  
terials piled ready to erect dwellings on  
lots within proposed site.

## GOOD WATER FOUND.

Number of wells, with excellent  
water at depths from four to seven feet,  
have been dug and good water found.

The C. P. Ry. Co. or Crow's Nest Ry.  
crosses the proposed townsite, and the  
large river nearby abounds in many  
varieties of fish, and runs parallel with  
and about two miles from the railway.

## COAL AND SANDSTONE.

Great quantities of coal and red sand-  
stone are within four miles, and the  
ground is a rich sandy loam, covered  
with an abundance of the best varieties  
of grass.

## SUNDAY SCHOOLS RUNNING.

Sunday school classes have been con-  
ducted and entertainments given un-  
der the management of Mrs. Clark  
Sherwood. There is no church organi-  
zation here at present, although there  
is the greatest number of people to  
people to guarantee the same.

## NOTES.

Weather has been delightful during  
past season; plenty of rain, but not too  
much. People busily engaged tending  
over the sad, and preparing for win-  
ter. A rush of people onto their home-  
steads, these parts will soon be on  
and our town will be known. Good  
health prevails and all people are happy.

## Dastardly Burglars.

Wabash, Ind., Sept. 11.—Burglars ear-  
ly today chloroformed the family of  
Chris Harnish, a farmer living near  
Dora. They ransacked the house, se-  
curing considerable money and jew-  
elry. As a result of the chloroform  
Miss Lulu Harnish, a daughter, is in  
a critical condition and the other mem-  
bers of the family are suffering.

## A FACT

Good Coffee Just as Harmful as the  
Cheap Grades.

Those who defend coffee often say it  
is only the cheap grades that hurt one  
but it is a fact that the highest priced  
coffee on the market is just as injurious  
to those with whom coffee acts as a  
poison as a cheap grade.

## BRITISHERS WILL SHOW US SHIPS

Home Squadron to be Sent to  
America to Return Admiral  
Cotton's Recent Courtesy.

## POWERFUL FLEET IS COMING.

It Includes Seven First-class Battle-  
ships, Second-class Battleship  
And Five Cruisers.

London, Sept. 11.—The press associa-  
tion today announces that the British  
home squadron will be sent to the United  
States on a courtesy visit in return  
for the American action in sending a  
squadron to Portsmouth.

The home squadron, which is com-  
manded by Vice Admiral Sir Arthur K.  
Wilson, has just returned from a suc-  
cessful participation in the naval man-  
euvers and will sail Sept. 16 for a six  
weeks' cruise around Scotland. Short-  
ly afterward, according to the an-  
nouncement, the squadron will sail for  
America.

The British home squadron consists  
of the first class battleships Benbow,  
Barrow, India, Hood, Revenge, Royal  
Oak, Royal Sovereign and Sans Par-  
cell, the second class battleship Anson,  
the first class cruisers Edgar and Hawke,  
the second class cruisers Dido,  
Mercey and Venus and several other  
powerful cruisers.

## Movements of Steamers.

New York, Sept. 10.—Arrived: Princess  
Irere from Genoa.

Liverpool, Sept. 10.—Arrived: Teutonic  
and Carpathia from New York.

Glasgow, Sept. 10.—Arrived: Ethiopia  
from New York.

Havre, Sept. 10.—Arrived: La Lorraine  
from New York.

Hamburg, Sept. 10.—Arrived: Patricia  
from New York.

## Looks for Union of Churches.

Denver, Colo., Sept. 11.—Rev. Dr. R. F.  
Coyle, moderator of the general as-  
sembly of the Presbyterian church, who  
has just returned to his home in this  
city from a lecture tour in the east, be-  
lieves that the time is not far distant  
when the 12 different Presbyterian  
churches in the United States will be-  
come one. This probability, he says, is  
due to the re-constructing of the creed  
of his denomination which took place  
last May. Calvinistic and Armenian  
lines which have so long kept his and  
the Cumberland Presbyterian churches  
separated have now, he says, been ef-  
faced, and at present no distinction,  
other than ceremonial, separate the  
two great religious orders that began  
as one in the days of Cromwell.

"Another step," said Dr. Coyle, "that  
our church took at the last general as-  
sembly in May, and one that tends to  
ward the unity idea is to emphasize  
the Christian education, with intellectual  
development many sordid distinctions  
that tend to keep churches separated  
will be obliterated.

"Our church has now an educational  
committee and upon it has been im-  
posed the duty of raising \$12,000,000 for  
educational purposes. Most of this  
money will be spent upon schools in the  
west for our institutions of learning in  
the east are in good shape financially."

## To the Famous Battleground.

Oyster Bay, L. I., Sept. 11.—Arrange-  
ments for President Roosevelt's trip to  
the battlefield of Antietam next Thurs-  
day are almost completed. The presi-  
dential party, accompanied by Governor  
Murphy and other prominent officials  
of New Jersey, will arrive at the bat-  
tleground about 9 o'clock in the morning.  
The ceremony of dedicating the dedi-  
cation of the monument erected to the  
memory of the New Jersey soldiers will  
take place soon afterwards. These will  
include addresses by President Roose-  
velt and Governor Murphy and music  
by a band. The return trip of the  
presidential party will begin early in  
the afternoon of Thursday.

No formal callers were received by  
the president today.

## IDAHO.

### Weekly Crop Bulletin.

Weekly Crop Bulletin for week end-  
ing Monday, Sept. 7, 1903.

### WEATHER.

Boise, Ida., Sept. 8.—The week opened  
with a period of bright warm weather,  
the temperature remaining above the  
normal till the 5th, on the 4th and 5th  
the weather was threatening, with a  
light shower of rain, but in some  
instances accompanied by hail, and in  
nearly all cases by high winds. After  
this time the weather became cooler,  
and at the close of the week the av-  
erage temperature was below the normal.

### CROPS.

Fruit—Some fruit was blown from  
the trees in the orchards during the  
week, and branches were broken from  
some of the trees by high gusts of  
wind; otherwise conditions have fa-  
vored the fruit crop, resulting in rapid  
development. Fall varieties of apples  
are maturing, as are later varieties of  
peaches, markets are well supplied  
with free-stone peaches and Bartlett  
pears; shipments of pears and prunes  
are in progress. In the northern part  
of the state, wherever fruit is grown in  
commercial quantities, the crop is  
heavy; in other sections it is generally  
nearly equal to the average.

Grain—Threshing of grain is practi-  
cally complete in some western lo-  
calities, and is making rapid progress  
in other parts of the state; grain is  
yielding well, most sections have ex-  
cept where there has been a shortage of  
water. Where corn is grown the crop  
is above the average.

Grass—Cutting of the second crop of  
alfalfa is approaching completion in  
all but the most elevated sections, and  
except in a few localities where there  
has been damage from hail, or from  
lack of water, the crop is a good one;  
third crop alfalfa is growing well in  
southwestern counties, though some-  
what lodged in places by high wind;  
the second crop of clover and timothy  
is being harvested in favored localities.  
Some of the ranges are improving due  
to recent rains.

Stocks—As a result of slightly im-  
proved ranges, the condition of stock is  
somewhat better; however, some lo-  
calities rains have not been suffi-  
cient to be of lasting benefit to  
ranges, and stock is falling in flesh;  
where there are favorable lands near the  
ranches, cattle are causing some trou-  
ble by breaking into fields and grow-  
ing crops. As a result of excessively  
close cropping, necessitated by short-  
age of grass in many areas, in Bannock  
county have been killed by eating  
poisonous roots.

## SURPRISE FOR CHOIR MEMBERS

Prof. Stephens Springs One on His  
Singers at Last Night's  
Rehearsal.

## GOLD WATCH FOR MRS. EDWARD

Then All Are Taken to His New Home  
On State Street Where They Feast on  
Watermelon and Fruit.

In response to the invitation of Prof.  
Stephens to be present at rehearsal last  
night, the members of the Tabernacle  
choir turned out en masse at the ap-  
pointed hour, filling the seats and aisles  
of the choir section of the big building  
in a manner not equaled for some time.  
Among those present was Mrs. Lizzie  
Thomas Edward who is about to leave  
for the east, and who was given a heart-  
ily greeting by her associates and show-  
ered with good wishes for her success  
musically while away. Mrs. Edward,  
accompanied by the choir, sang the "In-  
flammatus" after which Prof. Stephens,  
in his characteristically happy vein, and  
in behalf of the members of the choir,  
presented the gifted singer with a beau-  
tiful gold watch, telling Mrs. Edward  
that he did so for the choir desired to  
keep close "watch" on her during her  
absence and hoped that she would lose  
no "time" while pursuing her musical  
studies in the east. Although some-  
what overcome by the pleasing incident,  
Mrs. Edward expressed her acceptance  
and hoped she would be able to retain  
the good fellowship of her associates in  
the big choir.

Professor Stephens then outlined to  
his singers the work he had in hand for  
the ensuing year and stated that there  
was now in transit from the east the  
music to be sung at the Nordic con-  
cert, which occurs in the Tabernacle  
October 14 and 15.

Then came the surprising part of the  
evening's program, the members of the  
choir being notified by Prof. Stephens  
that there were cars in waiting for them  
at the south gate of the Tabernacle  
which would convey them to his new  
home on south State street, where he  
desired them to be for a special treat  
short time. Filling out of the big build-  
ing, the members were soon on their  
way to the Stephens' home, the cars be-  
ing kindly furnished by Supt. Read of  
the Tabernacle. Arriving at the home  
of the professor the singers found the  
grounds strewn with luscious wa-  
termelons and fruit of which they were  
bidden to eat heartily. This they did  
with decided relish and at frequent in-  
tervals sweet music was furnished by a  
select quartet. After spending about  
two hours in this manner, the singers  
bade their host good night and at 10:20  
took their way for their respective homes,  
the ladies voting Prof. Stephens one of  
the jolliest men that ever lived.

## While There is Life There is Hope.

I WAS afflicted with catarrh; could  
neither taste nor smell and could hear  
but little. Ely's Cream Balm cured it.  
—MARCUS G. SHULTZ, Rahway, N. J.  
CREAM BALM reached me safely  
and the effect is surprising. I have  
seen the first application gave decided  
relief. Respectfully, Mrs. Franklin  
Freeman, Dover, N. H.

## WESTERN MARKET LETTER.

Special Correspondence.  
Kansas City, Mo., Monday, Sept. 7.—  
Receipts at Kansas City last week were  
5,831 cattle and 7,392 calves, against  
5,631 cattle and 8,235 calves the same  
week last year. Proportion of quar-  
antine was light, helping market for  
cattle, on a native side. Fat  
steers sold well all week, and made  
a small gain. Top fat steers brought  
\$5.60. Good cows sold 10 to 20 cents  
higher, but shelly carcasses remain low.  
Veal calves are still at the high point.  
All kinds of stockers and feeders above  
the common grades had a good week,  
and prices stiffened up notably on the  
demand of the season. 725 cars  
went out to country feed lots. Atten-  
dance of country buyers was excellent,  
and an assured corn crop of from 60 to  
100 per cent in all the western states.  
City territory supports a firm market.  
Choice feeders gained 15 to 25 cents.  
Majority of sales are from \$3.25 to \$3.75  
for westerns. Today's run is 20,000 head,  
and prices are steady to 10 cents lower.  
Best fat cattle are steady, cows are  
lower, and stockers and feeders are  
about steady, being supported by the  
usual good Monday's demand from  
speculators.

Sheep run last week was the best of  
the season at 39,563 head, against 35,128  
head same week last year. Liberal or-  
ders for feeding sheep and lambs helped  
the market, and all grades of sheep  
were steady. Lambs gained 10 to 15  
cents for weights over 60 pounds, but  
others were weak. The Austen lambs,  
from Heber, sold at \$5.00 on various  
days last week. Idaho weather, from  
Soda Springs, sold at \$3.40 for the kill-  
ing end, and feeding end brought \$3.30.  
Feeding lambs brought \$4.10, and breed-  
ing ewes of good quality continue high-  
er than fat ewes, the latter selling  
\$2.00, and breeding ewes \$2.25. Feeding  
buyers took about 18,000 head of the  
run last week, or nearly half, indicat-  
ing the strength they lend to the gen-  
eral market.

Trade in horses last week was mostly  
in ranchers, 50 head being sold here at  
retail, principally for country points.  
Quality was ordinary, generally, and  
prices were from \$25 to \$35. The largest  
sale of range horses of the season at  
Kansas City will be held today, when  
800 to 1,000 head will be disposed of at  
auction. A good line of buyers is in at-  
tendance.

The long and short of it is this,  
in every 8 and 16 oz. package of  
Tree Tea you satisfy your palate,
