There were many grizzled veterans attendance upon the reunion of the sociation of Veteran Artillerymen of he Nauvoo Legion, held in the Thircenth ward assembly rooms last night. The hall was scrupulously clean, but o decorations appeared except the flag of the association and the Stars and Stripes, with now and then a gaycolored badge upon the breast of a rember. The good old faces of the good old times were sufficient ornamentation for that or any other oceasion. There were many young people, children, grandchildren and great tchildren of the principals of the

# Hasn't all been done if you have not cleansed and set things to rights in your system. There are those humors that make you break out and feel tired, that take away your appetite, too.

· You'll have those dull headaches, those bilious turns, fits of indigestion, that tired feeling and that eruption, until you get rid of those unhealthy accumulations.

That's certain.

Hood's Sarsaparilla cleanses the system, sets things to rights in it, makes the blood pure and rich, strengthens all the organs and functions.

That's why so many take it every Spring.

"Last Spring I decided to take Hood's Sarsaparilla, and for the first time for many years I was able to pass through the Spring months without experiencing the depression which usually accompanies that changeable season. I took several bottles and was benefited from the start. I heartily recommend it." HENRY DE HOUDT, 80 Wall Street, New York, N. Y.

## FOREIGNERS IN BRAZIL.

Consul General Seegur Makes R eport to Stat Department.

Germans Number 300,000; the Itallans, 1,300,000; North Amer-Icans Only 5,000.

New York, May 11 .- A special to the Herald from Washington says: Three hundred thousand Germans have located in Brazil according to a report received at the state department from Consul General Eugene Seegur, stationed at Rio Janeiro. This report is in answer to a letter sent by the department last summer directing him to ubinit a statement regarding foreign population in Brazil. He submits the following report showing the number of foreigners in

Brazil Italians, 1,350,000; Portuguese, 800,000; Germans, 300,000; Spanish, 100,000; Poles, 80,000; French, 10,000; English, 5,000; North Americans, 5,000; ether

nationalities, 100,000. One of the best of the foreign seltlements of Brazil, Mr. Seegur says, is that of the Germans at Bluemenau, in the state of Santa Catharina. In spite of liberal inducements this colouy received only 10,000 immigrants during the last fifty years.

Under the monarchy, Mr. Seegur re-ports, strong efforts were made by the national government to obtain colon-ists from Europe, especially from Ger-many. It cannot be said that these efforts were conspicuously successful The German government prohibited immigration to Brazil until 1896, when the prohibition was removed. Besides the province of Santa Catharina there are many German subjects in Rio Grande do Sul. Mr. Seegur closes his report by saying that as a rule only a very small percentage of the colonists. one or two per cent, preserve their original nationality.

becomes a festering sore, tiny pimples grow to be boils, swollen joints and inflamed glands often break out into offensive, slow healing sores. A polluted blood is always a menace to health ; not only does it keep the skin in a chronic state of inflammation, but every organ and fibre of the body suffers from an impure and sluggish circulation. You never feel well, you are not and never can be well until the system is relieved of its terrible load of impurities. With the blood so contaminated, so deeply poisoned, ulcers, boils and sores of every kind are apt to become chronic and often develop into Cancer.

Sores and ulcers are most often caused by poverty of the blood and a weak and slow circulation, brought on by long continued sickness, malarial poisoning, torpid liver, the use of mercury, or whatever is calculated to destroy the vitality of the blood and break down the constitution. These old chronic sores Lot sometimes for years, eat-ing into the flesh, muscles, tissues, and even down into
