LOCAL AND OTHER MATTERS.

Sothern.—Sothern, the celebrated actor, who is now playing in San Francisco, is engaged to appear in this city for one night only, on Saturday, the 31st of April.

High Council.—The members of the High Council are requested to meet at the Council House on Thursday evening the 25th inst., at 7 o'clock.

WM. W. TAYLOR, Clerk.

No Spring.—It looks very much as though we were to have no spring this year. Hardly have we emerged from the snow and frost of winter, than the dust of summer is being blown into our faces.

Wanted.—Painters are wanted for the Assembly Hall. It is desirable that the seats be painted and dried for use at the coming conference. Brother Goddard, of the committee, wishes the Bishops to be kind enough to send on some painters at once.

St. George "Footlights."—The first and second numbers of the St. George Footlights are at hand, dated the 12th and 18th inst., respectively. The paper contains the theatrical news of the capital city of "Dixie," which particular line of amusement seems to be "booming" there just now.

Change of Base.—The Co-op. Drug department is now installed in the old Ranshoff building, just south of the former stand, where it will carry on a more complete and extensive business than ever.

The late drug store is being refitted for the clothing department of the popular firm of William Jennings & Sons, who effected the exchange of property with Z. C. M. L., for the purpose of enlarging their establishment.

"Saxey" as an Editor.—We are told by the Junction that Hon. J. C. Rich, of Bear Lake, formerly a resident of Salt Lake, and well known to numerous circles by the euphonious title of "Saxey," is about to begin the publication of a newspaper in Southern Idaho. Politically, the prospective journal will be Democratic, and in a literary way—well, everybody knows what "Saxey's" inimitable style is, and what will be the character of his paper. Success, friend Joseph.

"Junction" Jots.—M. De Lesepe and family took breakfast this morning at the Union Depot Hotel, then went on east.

The U. P. pay car arrived shortly after noon to-day, and is now engaged in paying out its treasures to those having just claims against the company.

Judge Emerson made his appearance in Ogden yesterday, and will shortly take up his abode here, having succeeded in obtaining a suitable residence—that of Mr. T. J. Stayer, on Pearl Street.

Police Court.—The man who was arrested yesterday afternoon, for inciting two young boys to fight, was fined \$20 this morning. The evidence was heard relating to the fight, but owing to one of the boys being absent, through a sudden attack of diphtheria, the belligerents were not dealt with. The case is not yet finished.

A case of drunkenness and disturbance was fined \$10.

A man named Cantlin was arrested for disturbance. The case is set for to-morrow, at 10 a.m.

A Delicate Operation.—Mr. J. J. Toms, gunsmith, of this city, has been undergoing a very delicate surgical operation. Drs. Benedict, Thompson, Pike, Smith and Williamson have been attending the patient to-day, why is now in St. Mary's Hospital. The necessity for the operation grew out of a rupture near the groin, and has since developed into a disorder of the most complicated character. The operation should have been performed sooner, so the surgeons say. What the result will be is not certain.

A Manifesto.—As much has been said, and is being said, in relation to the proposed borrowing of money to enable the city to construct the Jordan and Salt Lake City Canal, the Council last evening appointed a special committee to prepare a manifesto expressing the views and intentions of the City Council regarding the canal enterprise, and explaining matters connected therewith to the people, many of whom seem to know but very little of the real facts in the case. It is to be hoped the Council's explanation will effectively silence the voices of those who assume to know so much of a matter of which they know nothing, and who are creating confusion and dissatisfaction among the people by their unwarranted utterances.

City Council.—Proceedings at the City Council on Tuesday evening, March 23, 1892. Mayor Latta presiding.

A petition was received, signed by George Triplet and 565 others, residents of the northern portion of the Eighteenth Ward, petitioning for the first Ward, setting forth that they were without water either for culinary or irrigating purposes, and that the surplus water from Red Butte Canyon, heretofore allowed them, was totally insufficient to supply their necessities. The petitioners therefore asked that they be also allowed the surplus water of City Creek. Referred to committee on irrigation.

A petition, signed by Robert Patrick and six others, was received representing that the residents of the Eighteenth Bishop's Ward were about to erect a meeting house for religious worship on Garden Street, west of Walnut Street. They therefore asked that Garden Street be opened from Walnut Street to the road leading up from City Creek Canyon. Referred to committee on streets and alleys.

Lathimer, Taylor & Co., by petition, asked the privilege of using a portion of the water of First South Street, between East and West Temple Streets, on which to place materials for building, for a period of 30 days. Granted, under the usual restrictions.

Mr. L. D. Young presented a verbal petition, asking that a committee be appointed to examine his land at the mouth of Red Butte Canyon, for the purpose of affording him some protection from probable high waters this spring. Referred to the committee on irrigation.

A communication from the watermaster was read, submitting the following names for assistant watermasters for the present year: James Malin, R. J. Cadell, Oren Woolley, Helaman Pratt and Robert Smyth. Received and nominations confirmed.

Mr. Thomas Jones, a resident of the extreme western portion of the city, verbally petitioned the Council to allow his fence, which encloses the sidewalk around his premises on First South Street, to remain as it now stands until next fall, at which time the gentleman promised to have it removed. On motion, Mr. Jones was allowed until November 1st, 1892, to remove his fence.

The committee on finance, to whom was referred the quarterly report of the watermaster, reported that they had examined the same and found the work performed was necessary and the charges reasonable. They therefore recommended that the expenditures be approved.

The committee on public grounds, to whom was referred the petition of Edward Morgan, administrator of the estate of Francis Birch, deceased, asking \$500 for a certain piece of land situated in Spring Hollow, and east of the insane asylum, which the petitioner claimed was vacated several years ago by the city, and for which he reported favorably thereon and made certain recommendations for compensating the heirs of said estate for the land and the trouble expended. After thorough explanation of such facts connected with the case as the Council was in possession of, it was moved and carried that the recommendations of the committee on public grounds be adopted.

The committee on irrigation, to whom was referred the petition of Thomas Lathimer and others, asking for the appointment of a watermaster to distribute the waters for people living on the north bench and around them as the law provides, reported that said petition had been duly considered by them, and recommended that the prayer of the petition be granted on the following conditions: That the water in reference shall be surplus water, over and above that claimed by lawful owners; that said water shall be under the control of the city watermaster and his deputies; that each applicant for water shall sign an acknowledgment prepared by the city attorney, to the effect that said applicant has no original water claims; the watermaster to be authorized to withhold water certificates from those who refuse to sign such acknowledgment. Adopted.

The committee on municipal laws reported two bills for ordinances, which were laid over to come up in their order.

The committee on streets and alleys, to whom was referred the petition of N. Grossbeck and eight others in relation to grading the south sidewalk on Second South Street, between Marquette's building and Main Street, reported that they had examined the petition and recommended that the grade be raised at the intersection of First East Street, six or eight inches or so much as will not interfere with persons having horses, and so on.

The committee on streets and alleys, to whom was referred the petition of N. Grossbeck and eight others in relation to grading the south sidewalk on Second South Street, between Marquette's building and Main Street, reported that they had examined the petition and recommended that the grade be raised at the intersection of First East Street, six or eight inches or so much as will not interfere with persons having horses, and so on.

The street supervisor submitted his report of expenditures on road and street account for the quarter ending February 28, 1892. The amount expended, \$5,382.36; 444 days of prison labor at \$1 per day. Referred to committee on claims.

An appropriation of \$250 was made to pay interest for three months on a corporation note of \$10,000.

Adjourned till Friday.—The City Council, last evening, in view of several important matters requiring immediate attention, took an adjournment until Friday evening, the 25th inst., at 7 o'clock.

An Old Acquaintance.—W. H. Harrington, Esq., formerly connected with the editorial staff of our morning contemporary, the Herald, arrived in Salt Lake last evening from Chicago. We welcome the gentleman back to his former home, and trust his visit will be an exceedingly pleasant one.

A Grand Smash-Up.—The runaway season is upon us, and while the face of the news gatherer is wreathed in smiles as he hears of an accident of this kind, his eyes are ever ready to mingle tears with the unfortunate losers by the catastrophe. His anxiety to find out such items, and the evident relish with which he writes them up, cannot therefore be taken as an indication of his personal feelings. The reporter is a creature of strange impulses and contradictory attributes. Let the one uncharitable, pro-bono public, failing, a desire to get news at anybody's expense, be taken away, and the much abused local found to be the most sympathetic of mortals.

With this introduction, the following is presented: Last evening the horse and buggy of Major W. W. Woods was left standing for a few moments at the door of his residence. Some member of the family, feeling that the horse might as well while doing nothing else, took off the bridle and laid a measure of oats before the hungry beast. The animal after dispatching his food began making significant motions, indicative of a desire to be mowing. A lady of the household here attempted to check the wandering instincts of the steed, and with momentary success. But again a start was made and this time the lady, horse and vehicle traversed the distance of nearly a furlong at a lively rate. The former was thrown down and run over and bruised by the two latter, which continued their united career a short distance further. At Mr. H. B. Clawson's corner the maddened equine took a fond farewell of the buggy, which was by this time badly disabled, and with flying colors pursued its victorious career along First South Street and thence to the California Stables, where it was afterwards secured.

Pieces of harness were scattered to the four winds, but the tags and bread-stap, which were believed to be uninjured, will be thankfully received for the owner at Wallin & Picard's harness store. Of the actors in the performance, the unconscious phalanx was used worst, it being thoroughly smashed. The lady was only slightly injured, and the horse—well it got no worse than it deserved.
