MANY OPPOSE WATER FRANCHISE

High Insurance Rates and Exorbitant
Prices of Lumber Considered
—News Notes.

Ogden, Aug. 2.—Although the franchise, recently prepared and submitted to the Ogden city council, and passed by that body granting to the Ogden City Waterworks company a fifty-year franchise, has been submitted to Mayor Conroy for his approval and signature, it has not yet become an ordinance. There is considerable opposition to the franchise, which has come from the dealers in real estate, who are almost a unit against its being passed, as it now stands, and have sent a committee to Mayor Conroy to lay before him their objections. It is the opinion of some that the schedule of rates set forth in the ordinance is too high in many instances, and should be reduced considerably. The opinion of many is also that the people, and especially the taxpayers and water users, should have an opportunity to carefully consider the ordinance before it receives the mayor's signature, as they are the ones who are directly interested in the rates to be charged. The argument put forth is that while at the present time it would be a saving to Ogden City of \$31,000 in the reduction of judgments, etc., held by the water company against the city, that in the fifty-year time, the proposed life of the franchise, that amount would be many times paid to the company in extra rates.

REAL ESTATE AGENTS MEET.

Deplore High Insurance Rates and Advanced Prices of Lumber.

Ogden, Aug. 2.—At the meeting of the Real Estate Men's association last night, the matter of the high prices being charged by all the lumber companies of the city for all kinds of lumber was discussed at length, and an effort will be made by the members to have that condition remedied, as it is claimed that it is retarding greatly the building of new residences and places of business in the city. A communication was also received from Karl A. Schneid, manager of the board of fire underwriters for Utah, wherein he sets forth reasons why the insurance rates in Ogden were increased and cannot be reduced until certain conditions are remedied. He calls attention to the low water pres-

sure which during certain hours in the day is as low as 50 pounds and he advises an increase of pressure at all times to from 80 to 100 pounds. He also states that the building laws are being flagrantly violated by the construction of frame buildings within the thickly built and populated portions of the city and advises that the building laws be amended and made more stringent. He states further that the impression prevails that the recent serious fire which visited Ogden was not properly handled, and that an investigating committee had been appointed to look into the same, and urged that they make an immediate report on the same so that if the fire department is weak or incompetent it can be improved.

WRONG MAN DETAINED AS AN ALLEGED BIGAMIST.

Portland, Maine, Aug. 1.—Instead of having in custody an American bigamist known as "Lord Douglas," wanted by the authorities of many states as a first suspect, the Portland police, it is thought, have detained Lord Sholto Douglas, third son of the late Marquis of Queensberry. Several days ago a Portland detective was requested by the police of Asheville, N. C., to arrest a man who rented a cottage on the shore of Sebago lake in May. The officer went to the lake yesterday and detained a man known at the lake resorts as S. G. Douglas. The Asheville police were notified of the detention of the man, but the local authorities suspected from the first that a mistake had been made and they refrained from making public the occurrence.

The suspect regarded the arrest humorously and told the officer who called on him that he was Lord Sholto Douglas. With him were two persons who, he said, were Lady Douglas and their son. So convincing was his story that the local police notified the Asheville officers today that in their opinion the man was what he claimed to be, and they advised them to order his release. The police here state that the description of the bigamist beyond a slight resemblance does not correspond to that of the Englishman.

Tonight the police sent a cablegram to Scotland Yard, London, asking for information. If the reply which is expected tomorrow, is favorable to the man under detention, he will be released, regardless of the detention of the man from Asheville. The prisoner states that the health of his wife had not been good and that he decided to stay in Maine for the summer. They selected a cottage on the shore of Sebago lake so that they might have seclusion, and in order to avoid publicity they were known as Mr. and Mrs. S. G. Douglas. Lord Sholto Douglas married Miss Loretta Adkins, and for several years resided in California.

SENIOR DRAGO PLEADED WITH ROOT'S VISIT.

Buenos Ayres, Aug. 1.—Senior M. Louis Drago, formerly minister of foreign affairs of Argentina and author of the Drago doctrine, in an interview today with a representative of the Associated Press, expressed the most lively satisfaction with the approaching visit to Argentina of Secy. Root and said he believed this visit would result in closer friendship and an extension of commercial relations between the two countries. He said his appointment by the government to the presidency of the committee to welcome Secy. Root indicated that whatever political issues might ultimately arise, the magnificent entertainments to be offered the distinguished visitor from the north could be regarded as reflecting the respect and admiration which the government, no less than himself and the Argentine people, entertained for President Roosevelt, Secy. Root and the people of the great northern republic.

The festivities being organized here in behalf of the government for Secy. Root are on a scale of great splendor. Leading citizens of all nationalities and representatives of the banking and commercial communities are co-operating to insure their complete success.

Hall, then United States district attorney in 1900 and in 1902, Clark E. Loomis, a special agent who is now under indictment. Jacksonville, Fla., Aug. 1.—Prosecutions of the alleged ice trust was brought to an end today by the ice manufacturers entering into an agreement with the prosecuting attorney whereby they promise to dissolve at once the Jacksonville Ice Delivery company, the alleged combination of manufacturers in restraint of trade, and the giving of a written guarantee that they will sell ice to consumers at a maximum of 25 cents for 100 pounds. The pending case is continued, with the understanding that it shall be pushed again if the ice manufacturers break this agreement.
