

## OGDEN.

Ogden, Utah. - June 24, 1895.

## On Sunday.

Yesterday was a very warm day, large numbers of people sought pleasure in the shade of trees or in the coolness of their houses. At the temple in the afternoon Elder J. N. Allen and Bishop McElroy spoke on the simplicity and efficacy of prayer.

## Court Items.

Emma Lundgren has entered suit with Clara H. Peery for divorce from her husband, Peter Lundgren, cause, desertion.

Elliot Keene wants to be divorced from his husband, Michael Keene, on the grounds of desertion.

Thomas Clemons, traveling through Weber County, at a point where the road runs very close to the river. He alleges that an engine ran into his wagon, injuring him, and unseating his wagon and horses. He wants to have the engine and its owner, W. L. Allen and the other owners of the Union Pacific railway for \$500 damages.

## Notes.

The Rev. C. Schlesbach, from Marion Junction, Iowa, was received at Ogden on June 22. Two men by the name of White and Belmont were arrested for the offense, and the reverent gentleman had the pleasure of a Sabbath stopover in Ogden.

Captains from the Eastern looking over the city with a view of purchasing supplies. Secretary Hayes of the chamber of commerce was present in charge.

Judge Rhodes has returned from his trip to Canada. He delighted with the children of Brigham. After Augie left him and his household will dwell with them.

## LOGAN.

Logan, Utah. - June 24, 1895.

## A Critical Operation.

Mrs. Florence Ross, wife of Horace Ross, of Second Ward, and daughter of Abram Wolf, of Hyde Park, was operated on by Dr. C. G. Jones, of Ogden, at the residence of her parents, for the removal of a large tumor from her right breast. She has critical with friends and present indications are in her favor.

## The Lost Mine.

The recently discovered shaft of the "Lost Treasure" mine, in Blacksmith Fork canyon, has been pronounced unsafe by a mining expert, therefore the discoverers, Fugner and Hansen, dare not proceed with the proposed exploration. Tradition has it that a vein of fabulous richness was discovered just before the original miners were compelled to flee, and that they buried it in the earth. The experts will probably be compelled to proceed to warrant the sinking of a new shaft, as both of the discoverers are poor and can ill afford the expense of a new shaft. This does not mean that the miners who were lost believe as such are indications, trustworthy mentioned in the News, that go far toward making the old story appear extremely probable.

## Accidents.

W. H., the three year old son of H. A. Hendrickson, of Richmon, fell from the loft of the barn and struck the ground, twelve feet below, on his head. A three-inch fracture of the skull resulted and although the best medical attention was secured, he died two days later.

Simpson Webb, also of Richmon, was leading a bull which was once wild and gentle, when the animal struck the ground and ran away, striking the horns of the bull. One of the horns cut and gored and stamped him. His spinal bone was broken in three places and he was badly maimed.

A. Mrs. Orey, of Parleys, her husband, and father's body, were buried in the cemetery while on the way to Brigham City. While going down a steep hill a stampede and the horse ran away. At a point in the road the buggy was overturned and all were thrown out.

## Notes and Personal.

A gang of hoodlums living in the neighborhood of the depot here have made a practice of breaking stones at the windows. One night a window, barely missing a lady's face, there is no red in pink for these naive youths.

Mrs. Miss Thatcher, W. H. Provo, A. G. Baxter and John Dill left Logan for a trip to Salt Lake City.

About 800 acres of wheat were ruined by the severe frost on the night of the 19th, at Avon, on the west side of

the valley, and will have to be cut for feed.

The presence of myriads of young grasshoppers in different parts of the valley caused serious apprehension for last year's crop. They have done considerable damage in the past, and it is to be hoped that the extreme south end of the valley.

Mr. and Mrs. Earl Farley are receiving sympathy and congratulations of friends on the recent birth of a beautiful infant, which died on Tuesday after a postmortem.

Mr. Hyrum Edmonson, druggist, has moved into town. As Mr. Moxham has moved into town, Edmonson now has two druggists in the business.

Miss Lundgren has entered suit with Clara H. Peery for divorce from her husband, Peter Lundgren, cause, desertion.

Elliot Keene wants to be divorced from his husband, Michael Keene, on the grounds of desertion.

Thomas Clemons, traveling through Weber County, at a point where the road runs very close to the river. He alleges that an engine ran into his wagon, injuring him, and unseating his wagon and horses. Mrs. Florence Ross, wife of Horace Ross, of Second Ward, and daughter of Abram Wolf, of Hyde Park, was operated on by Dr. C. G. Jones, of Ogden, at the residence of her parents, for the removal of a large tumor from her right breast. She has critical with friends and present indications are in her favor.

We have had some very heavy winds and storms here lately, which have done some damage to crops and especially to fruits and gardens.

The Saints had a good time together in their conference. The speakers were pleased with the spirit of the conference, and the members of our church were gratified to encourage the people to live up to the laws and requirements, in observing the Word of Wisdom. In most of the wards the number of saints decreased a little through families leaving more through the world, but we have an account of the family of crops we had for three or four years and just now nearly all the flour consumed in the state has to be imported, besides other necessities.

It is a great calamity to us to have very bad crops, perhaps the best we have ever been. The water supply is lower, the natural streams being up higher, and also by the natural moving both north and south, the water supply is lower than it was last year, which greatly increased our water supply, but we still need more irrigation.
