

FIND PIOUS MONK IS VERY BAD MAN

Holy Ways and Words Were a
Cloak for Debauchery
And Murder.

Verkhovny, Perm-Russia, Feb. 27.—The circuit court today met out partial justice to a monk named Fedotoff who whose criminal and iniquitous life was revealed last fall, by sentencing him to penal servitude for 15 years. Fedotoff came to Verkhovny about two years ago and set up a shrine in a neighboring forest, where he lived as a hermit. He soon attracted a great reputation for marvelous cures and his little chapel in the solitude of the woods became the objective for pilgrimages from all parts of the province. The monk enjoyed a great reputation for sanctity but when the revelations came it was learned that his holy ways and words were a cloak for debauchery of every kind. The repeated disappearance of female pilgrims who visited the monk's chapel attracted the attention of the authorities and investigation disclosed the bodies of no less than 20 victims, whom Fedotoff had assaulted and whom he had then buried in the cellar of his house. The charge of sacrilege in that he had stolen the sacramental vessels from the church and that he had established a false shrine was also established against him.

Heany, of York, Pa., an inventor, were today indicted by the grand jury and arrested on a charge of destroying public records. Bail was fixed at \$10,000.

The indictment charges that the three "with intent to steal and destroy" carried away from the patent office letters, specifications and amendments, and unlawfully and willfully destroyed them.

JAPAN'S MONEY MATTERS CLAIMED TO BE SOUND

Tokio, Feb. 28.—Special cablegrams from New York and London published in the Tokyo newspapers have created astonishment in financial circles, because it is evident that certain influences have determined to misrepresent and exaggerate existing conditions in Japan. These special cablegrams say that the decline of Japanese securities is due to a financial panic.

The use of the word "panic" as representing the present situation is entirely unwarranted.

CURE BY CUTICURA AT CITY MISSION

Young Woman Found in Awful Condition with Scabies—Body a Mass of Sores from Scratching—Tried Many Remedies for Seven Weeks—Result Was Discouraging, But

ITCHING TORTURES YIELDED TO CUTICURA

"While I was doing missionary work in the lower portion of several cities I found it necessary to know a little of the efficacy of a few medicines and after a while I found that a little knowledge of Cuticura was about all I needed. One of the very bad cases I had to deal with was that of a young woman who had come to us not only broken in spirit but in a most awful condition physically. Our doctor examined her and told us that she had scabies (the itch), incipient paresis, rheumatism, etc. brought on from exposure and the effects of her ragged-edged life. Her poor body was a mass of sores from scratching and she was not able to retain solid food. We tried many things, a good tonic was prescribed and baths with a rubbing of lard and sulphur. We worked hard for seven weeks and you can imagine how discouraged we were when, after all that time, we could see so little improvement. One day I happened to see a Cuticura advertisement telling how a little baby had been cured of a bad case of skin eruption, and although I had but ninety-seven cents with me, I bought a cake of Cuticura Soap and a bottle of Cuticura Resolvent. When I reached home I was like a child with a new toy, and we bathed our patient well and gave her a full dose of the Resolvent. She slept that night better than she had since she had been with us and the next day I located the price of a box of Cuticura Ointment. I am not exaggerating when I say that in exactly five weeks this young woman was able to look for a position, being strong enough to work and full of ambition. In another month she left the home, and now has a good position in a nice family where she is respected and is strong and well. You may refer any one you wish to me personally. Laura Jane Bates, 85 Fifth Ave., New York, N. Y., Mar. 11, 1907."

HUGHES IS ASKED TO OUST JEROME

Petition Cites Twenty-Two Specific Charges Against District Attorney.

New York, Feb. 27.—Twenty-two specific charges are made in a petition praying for the removal of William T. Jerome as district attorney of the county of New York, which was sent to Gov. Hughes at Albany today by a committee of stockholders of the Metropolitan Street Railway company through their chairman, William F. King.

The petition alleged that Jerome failed to properly prosecute charges of alleged "jury fixing" and the giving of false testimony in street railway cases; that the prosecution of violations of the criminal law by the life insurance companies of New York, as disclosed by the Armstrong committee, had been delayed; that an alleged criminal conspiracy to divert the property of the Metropolitan Street Railway company or New York into the hands of a few men was allowed by Mr. Jerome to go and hundreds of stockholders robbed of their money; and that no attempt was made to punish men alleged to have committed other frauds in connection with New York City traction deals.

Mr. Jerome's statements as to judges are alleged to have been not only improper, but scandalous in their nature, and to have tended to destroy the confidence of people in the integrity of their courts.

SOME OTHER CHARGES.
The committee also charges that the district attorney misadvised himself in failing to indict and seek to convict some one of the officials of the New York Central Railroad company in connection with the collision in that company's tunnel in 1902, when 17 persons were killed. Various other cases of alleged failure of the district attorney to perform his duty are cited in the complaint.

The petition also charges that contributions to the campaign to elect Mr. Jerome's assistants from men connected with large corporations seeking favors from the district attorney, and that the sum, the amount of which is unknown, was upward of \$50,000. Among these contributors, it is alleged, was the attorney for James H. Hyde, who contributed \$5,000. It is also alleged that the assistant who received these funds and who has since resigned, entered law practice, has undue influence with the district attorney.

"I'm not worried," was Dist. Atty. Jerome's comment when told of the charges and request for his removal sent to Gov. Hughes today.

"This is another one, I suppose. They file them up there every week or so against me. The governor has never asked me to explain. If he does, then we will take cognizance of them."

LILLY WANTS TO KNOW ALL ABOUT SUBMARINES

Washington, Feb. 27.—Representative Lilley of Connecticut today introduced a resolution calling on the secretary of the navy to inform the house of representatives of the physical condition at the present time of the various submarine torpedo boats owned by the United States government, together with full information of reports relating to the performance of each submarine, accidents thereto and repairs thereon.

Mr. Lilley said: "I introduced the resolution with the idea of declaring last night."

"I am a Catholic and had gone to the church to pray. I didn't go there to receive the sacrament. While I was kneeling, the priest came along and put the sacrament in my mouth. It is against the rules of the Catholic church to take the host without first having been to confession, so I spat it out. The priest fell back and I heard him say, 'The Lord is a strange man.'"

STILL ANOTHER STORY FROM ANARCHIST'S LIPS

Denver, Feb. 28.—Giuseppe Alio, the player of Father L. Widdicombe, counsel appointed by the court to conduct his defense, has repudiated the original statement made by him in jail at Colorado Springs as well as all his other confessions.

"I didn't kill the priest, he fell dead," Alio declared last night. "I am a Catholic and had gone to the church to pray. I didn't go there to receive the sacrament. While I was kneeling, the priest came along and put the sacrament in my mouth. It is against the rules of the Catholic church to take the host without first having been to confession, so I spat it out. The priest fell back and I heard him say, 'The Lord is a strange man.'"

Public School a Weapon In Fight with Disease.

The public school is to be used as a weapon in the fight to prevent the spread of tuberculosis. A movement has been started to establish an adequate system for protecting the countless army of school children from the White Plague. Among other innovations, children suffering with tuberculosis in a contagious form will be segregated, and provision made for their special education.

Parents should be very careful to act promptly in checking a cough or cold. The strain on the respiratory organs from coughing leaves them sore and susceptible to the tubercular germ. To break up a cold quickly and cure any cough that is curable, the mixture of two ounces of glycerine with a half ounce of Virgin Oil of Pine and half ounce of good whiskey, given in doses of a teaspoonful every four hours, is most effective. Five ounces of tincture of Cinchona compound can be used instead of whiskey with the same effect.

The ingredients are inexpensive and can be purchased without trouble at any good drug store. To avoid substitution of some inferior pine product for the Virgin Oil of Pine, it is better to purchase each separately and mix them at home.

The genuine Virgin Oil of Pine is put up for dispensing, only 1/2-ounce vials, each vial securely sealed in a round wooden case with an engraved wrapper showing plainly the name—Virgin Oil of Pine compound pure, guaranteed under the Food and Drugs Act of June 30, 1906, Serial No. 461, prepared only by Leach Chemical Co., Cincinnati, Ohio. Be sure to get the genuine, as the oil sold in bulk and cheap imitations put out to resemble Virgin Oil of Pine in name and style of package are ineffective, being largely composed of a distillation of pine needles, or leaves, instead of from the pure tree proper.

These pine needle oils are not intended for internal use, and when taken internally usually cause nausea. Their use is mainly confined to the manufacture of soap and similar purposes.

idea of putting the house in possession of the actual facts relating to the submarine boats built for the government by the Holland Boat company, and its successor, the Electric Boat company, so that when the time comes the members of the house may vote intelligently on my report for appointment of a special committee to investigate the methods used by the company to procure legislation.

"I am informed that the dozen or so submarines purchased from the Holland Boat company by the government are practically all sick and broken and tied up at wharves, out of commission, and that the Otisop which outstripped its competitors in the trials of Newport last year, is in such a state of dilapidation that acceptance by the navy department has been refused."

He will spend three months in the study of the islanders, and possibly may go to inland China, where the Lolo, another mysterious white race, exist.

For many years it has been one of Prof. Starr's ambitions to go to China and live among the Lolo, who are savages of a low type. No one has dared to go among them.

Prof. Starr said he would carry no firearms during his visit to the mysterious races. He, however, will take with him several graphophones with which he will record the new languages.

**FEARING IMPRISONMENT.
HIDES ROBBER HE KILLED**

New York, Feb. 28.—In a desperate battle with four men who attempted to rob him as he was about to close his saloon in East Twenty-fourth street early today, Thomas Craven shot one of the robbers dead and put the others to flight. Then, in a panic of fear lest the killing might mean a long term of imprisonment for him, Craven concealed the body of the dead robber in a hallway outside the saloon and hurried to his home without notifying the police. When the officers took him into custody less than an hour later, he at first denied all knowledge of the killing, but finally made a full statement.

The three men who escaped from the saloon after their companion had been killed also are under arrest. The man who was killed was known only as "Bully" Kelly. He is said to have been the leader of a gang known to the police as "the Forty Thieves," the members of which are believed to have been responsible for much crime on the East Side.

One day I picked up a paper and the first thing that met my eye was an advertisement of Dr. Miles' Nerveine. I concluded to try it and let the doctor go, and I did so. After taking two bottles I could dress myself. Then I began taking Dr. Miles' Heart Cure and now I can work and go out, and have told many the benefit I have received from these remedies and several of them have been cured by it since. I am fifty-nine years old and pretty good yet."
