The indications are that it will not ba. The making of a system of reci city treaties does not appear to have the elements of eternal life." In discussing the trade conditions in

China and the necessity for gathering information concerning commercial troubles there, Mr. Root said:

"There is no occasion for sending a mmission to China. Our ministers and consuls at the treaty ports of Chithe are commissioned now. If these gentlemen will come up here I will bury them in papers so that they could not dig out for a week. We have bushels and bushels of reports from perfectly frustworthy American witnesses as to what have been happening in China, and as to the cause thereof. The trouble now is not ignorance as to what the suite has a phorabee as to what the conditions are; it is in applying the guite plain and simple remedy. There have been two troubles: One arising from the fact that the law, the Chinese exclusion act, contains some provisions which experience has shown to be fil-advised and the other is that the law administered in a harsh and considerate way.

"The president has remedied the administration, I think, just as far as the law permits him to do, and the thing As permits him to do, and the thins to be done now is for you to change the law in some respects; not so as to permit the Chinese laborers to come in, but so that the Chinese laborer can be kept out without insult and indignity and hardship to the Chinese merchants. and scholars, and the men who occupy the same position in the Chinese community as the people in this room oc-cupy in ours. EXCURSION NORTH.

Arrangements' Completed for Outing On Wednesday Next.

The Manufacturers & Merchants' association today completed arrangements for the get acquainted excursion to Logan Wednesday next. The most important change in the preliminary plans has been to make the stop at Og-den in the evening instead of in the morning. This will enable the excur-sionists to break the journey home-ward and to spend an evening in a gen-

eral good time at the Junction city. On the way north a stop will be made at Ogden, however, long enough to take on the Ogden delegation, which it is

promised will number nearly 300. Letters have been received by Manager Place of the association from the Weber club, extending a hearty invita-tion to meet there in the evening, from Mayor Robinson of Logan, and from Mayor Holst of Brigham city, offering the courtesies of these cities to the visi-tors, and assuring them of a hearty welcome. M. J. Ballard of the Logan Commercial club has written to in-quire what will be the hours to be spent in Logan, and how many will come. He also states that the Commercial club has appointed a committee to act with the mayor's committee in entertaining the visitors.

The ladies' auxiliary of the associa-tion, at a meeting of its directors yes. terday, voted that it would not par-ticipate in this excursion on account of the general inclemency of the weather, and its length. They will, however, take one of the southern trips with the association.
