Who Blew Up the House at the Bullion-Bank Murd?

The question as to who perpetrated the outrage at Lunan, in blowing up the house, is now per, being the officers. There are people in the town who want to make it appear all avoid, caused by carelessly having a gun pointed at the house, but the view of the affair is generally looked upon as a suggestion to relieve the officers from being expected of participation in the deed than anything else. The officers say the shooting, but not design to investigate the matter, they are waiting for any crime that will lead to the development of the outrage, but this has with little show of success. An investigation in connection with the Lunan trouble is the statement made by W. A. Pinkerton when he was here a few days ago, that there were of Lunan, several of the noted persons, "Mollie Maguire," and that if the same persons were not connected with the case, would cause their serious trouble by destroying property and possibly the lives of some of the Lunan employees. Just how Mr. Pinkerton learned of the presence here of members of the underground gang which his father broke up a quarter of a century ago he did not state, but to make the statement in positive language.

William Oakley, a union miner who assisted in the case, was arrested in May 1913, has been required to pay a fine of \$25. Oakley called Pinkerton a scoundrel, and applied the epithet to him and suggested him in various ways. Pinkerton returned the insult, when Oakley called him a scoundrel and would have used it and he had been prevented by some of his associates. "No one was at hand to arrest him, he was arrested a few days later, and was released by a deputy marshal on the charge of assault.

Governor West received a letter yesterday afternoon, from the mayor of Lunan, regarding the situation there. It reads as follows:

ETHELKA, Utah, June 6, 1933.

To His Excellency, C. W. West, Governor of Utah, Salt Lake City:
