WASHINGTON, D. C.

Another statement contradicted—Salaries of Postmasters—W. H. Seward and party—The South improving.

WASHINGTON, 6.—There is absolutely no truth in the recently published Washington special stating that Gen. Sickles has notified the Spanish government that the question of restoring the sequestered estates of American citizens in Cuba must be settled or force would be employed to compel it. These very claims are referred, with all matters in dispute, for settlement by the convention recently concluded. The idea of force, therefore, is preposterous. The Secretary of State himself is authority for the statement that Fish is not to be one of the arbitrators in the case of the *Alabama* claims.

The salaries of postmasters throughout the country are to be re-adjusted on a basis of the office receipts during July and August of this year, and the new schedule of salaries will go into effect on July 1st, 1872.

Mr. Harlelj lately received letters from his daughter, stating that Mr. Seward and party were at Suez on the 5th of May, and were going thence through Egypt. They have already traveled over thirty thousand miles.

Reports received at the Internal Revenue Bureau, from officers in the South, are more favorable than they have been for several months past. No opposition is now made to the collectors of taxes in the regions where there was the greatest trouble formerly.

NEW YORK.

The New York Central tax case.

NEW YORK.—The *Tribune's* Washington special dispatch says the report that the Attorney general will decline to recommend an appeal or compromise in the case of the New York Central scrip dividend tax, is incorrect. The case has not been submitted to the Attorney General, but to the Solicitor of the Treasury department, and he will not act on it until his return from California. The New York Central R. R. Company has engaged the services of Caleb Cushing to argue the appeal, and he has applied to Commissioner Pleasanton for certain papers filed with him by the counsel of the road. Pleasanton has refused to give these up, on the grounds that upon them he based his decision, and that the public service requires him to retain possession of them. If ordered by the Court to produce them he will allow them to be used in evidence, without, however, letting them entirely out of his possession.

NEW YORK, 6.—Gen. J. C. Breckenridge is in this city.

The *Herald's* Long Branch correspondent says that General Grant, in an interview, stated that Bancroft, minister to Berlin, desires to resign and go to Italy to live, but as he is well posted on the San Juan question, to relieve him now would be injudicious. Before October has arrived, the treaty will be fixed all right, and as Bancroft has asked to be allowed to resign then, he can do so without injury to our interests.

In speaking of Gen. Sherman in connection with the Presidency, Grant said he and Sherman were warm friends; he was not authorized to speak for him, but he was pretty certain Sherman would not stand on the Democratic platform. Sherman is no Democrat and never was.

The Presidency is satisfied with Boutwell and his policy, and saw no necessity for a change.

LOUSIANA.

News of the flood.

NEW ORLEANS.—Twenty-five hundred houses have their ground floors under water, and more than that number of families are homeless and destitute. The canal runs from the heart of the city to Lake Pontchartrain. There is always a navigable channel, ten or twelve feet in depth, and the river steamers and schooners perpetually pass and repass. The damage done by the flood is estimated at five hundred thousand dollars.

NEW ORLEANS, 5.—The water in the lake and canals is receding slowly. The canal crevasse has been closed. The water in the city has receded an inch. The people in the overflowed districts have suffered much and collections are being taken for their relief.

MASSACHUSETTS.

Drowned.

BOSTON, 6.—Samuel Allen, John Wagstaff, William Alvey, John Warscroft and Wm. Bumford, all young men, were drowned yesterday at North Andover while fishing.

NEW HAMPSHIRE.

Murder and attempted suicide.

CONCORD.—Louis Ayer shot and killed his wife at Manchester last night, and then shot himself. He may recover. The cause was jealousy.

The Legislature convenes to-morrow. All but ten of 268 Representatives are calculated upon as the Democratic party strength for the present. The Democrats are claiming an organization of the House by ten majority. The Senate vacancies will not be filled until after the convention for counting the Governor's vote, as the Senate will not organize if the Democrats are successful.

PORTSMOUTH, 6.—Mayor Adams of this city was to-day taken to the insane asylum.

The two sons of John Reynolds, aged 17 and 19 years, residing near St. Albans, Vt., were drowned in the Lamoille river.

PENNSYLVANIA.

Destructive fire.

PHILADELPHIA, 6.—The printing office of Spangler & Davis, the paper and rag warehouse of Percival Collins, and the gas fixture establishment of C. Jeffair, were burned this morning; loss, $7,000.

CALIFORNIA.

Reception of Irish Exiles—The Methodists' big tent on its way to Utah.

SAN FRANCISCO, 6.—On the arrival of the Fenian exiles at the Lick House last night, the audience gathered in front and filled Montgomery St., for three blocks as closely as they could stand; the number present could hardly have been less than fifteen thousand. Lubby and Gen. Burke made short but spirited addresses from the balcony, stating that the object of their visit to California was to reorganize the Irishmen for the liberation of Ireland, and that they never for a moment doubted their ultimate success.

Four or five women fainted in the crush in front of Lick House at the Irish exiles' reception last night.

Harvesting grain with headers commenced yesterday at Watkins' ranch, near Antioch, the first wheat harvesting in the State this season. The crop is very light, but a few weeks since there was no prospect even of making hay on an entire 2,000 acre field.

This afternoon is one of the hottest ever seen in San Francisco.

Nothing has yet been heard of the British screw steamer *City of Melbourne*, now over due from Australia and New Zealand.

A number of California Methodists have gone to Utah with the big tent and the Eastern preachers, to aid in the conversion of the Saints.

There is an announcement to-day of a dividend from Crown Point, the first since September 1863, which has caused a decided advance in that stock, and checked a weakening tendency of the whole market.

FOREIGN NEWS.

GREAT BRITAIN.

The Orleanist Princes decline their seats.

LONDON, 5.—A special dispatch to the *Times*, from Versailles, says it is the intention of the Orleanist princes to decline the seats to which they have been elected in the Assembly.

M. Auguste Vermairel, the well known radical journalist of Paris, is dead.

Members of the diplomatic corps are returning to Paris.

A French loan of 100,000,000 pounds is proposed.

The *Times* welcomes Minister Schenck to England.

ITALY.

ROME, 6.—By order of the Pope, mass was said for the French priests murdered in Paris.

Several officials under the empire will become candidates at the supplementary elections. Verite thinks the ministers of the fourth of September will leave the Cabinet. He opposes a plebiscite.

The *Debats* praises the English course during the war.

The proposed fortresses, located at Montmartre, Chaumont and Eugmiers are commenced.

FRANCE.

The murderer of Lecompte and Thomas arrested.

VERSAILLES, 6.—The prefect of the Seine has left as ambassador to St. Petersburg. The supplementary elections will not be fixed until tranquility reigns. The *Constitutionel* says the Assembly's first duty is to fill a hundred and twenty vacant seats, the next to assume constituent power, and finally a plebiscite. A letter from Guisot advocates the validation of the elections of Aumale and Joinville, and the settlement of a form of government by a vote of the nation.

Schumacker, the murderer of Generals Lecompte and Thomas, is arrested.

The trial of Rochefort is postponed.

Wires have been discovered in the sewers destined to blow up Paris.

Gambetta is still at St. Sebastian.

IT HAS NO EQUAL!

☞ Price Reduced to a Gold Basis.

This Machine is the harvest gathering of twenty years' experience in the manufacture of Agricultural Machinery, and takes rank with the Printing Press, Engine, Lath and Locomotive in the qualities of precision, stanchness and durability.

Its foundation is a single piece of solid iron, of shape to resist all possible strains.

Its gearing is stamped to standard gauge, and each cut out of solid iron, with mathematical exactness.

The working parts are permanently fixed and fully protected from weather, grass and all obstruction or external causes of disturbance.

By these means, we reduce friction to the lowest point, stop the self-destruction common to all rough cast machines, avoid breakages in harvest, and do away with the same drudgery which pertains to cut gear in other kinds of machinery. The WORLD has been tested four years in the hands of the most intelligent and reliable farmers in the land, who unite in declaring that, comparatively,

"There is no other Harvester."
