Utah Central Railroad.

Passenger Trains Arrive in Salt Lake, daily as follows:

FRANCIS COPE; General Freight and Passenger Agt.

THE CREAT ROCK ISLAND ROUTE Guarantees its patrons that sense of personal security afforded by a colid, thoroughly balkasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as aroman axill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at connecting points in Union Depots, and the unsurpassed comforts and humines of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely uphoistered Day Coaches, Magnificent Pullman Palace Sisepers of the latest design, and sumptuous Dining Cars, in which claborately cooked meals are leisurely eaten. "good Digestion waiting on Appetite, and Health on both." Between Chicago and Kansus City and Archison, are also run the Calebrated Reclining Chair Cars.

THE FAMOUS ALBERT LEA ROUTE The direct and favorite line between Chicago and Minneapolis and St. Paul.
Where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of lowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still and let Direct Line, via Seneca and Kankakee, has been opened between Newport News, Richmond, Cincinnati, Indianapolis, and Lefayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

For detailed information see Maps and Folders, obtainable, as well as Dickets, at all principal Ticket Offices in the United States and Canada; or by addressing R. R. CABLE.

EVENING NEWS

May 8, 1886

TERRITORIAL ITEMS:

CULLED FROM LATEST EXCHANGES. —A little girl by the name of Taylor was seriously burned in Spanish Fork cañon, just about Jones' kilns a few days slace. Having ventured too close to some burning grass, her clothes caught fire. Two men happened to be near by and put out the flames. Joseph Everill, of Farmington, had a tumor upon one side of his head, which had been growing many years, and was about the size of a hen's egg, cut out entire by Dr. Ormsby a few days since. Mr. Everill bore the operation, which lasted about half an hour, with considerable fortitude, no chloroform being administered.

—A few day since a ten-year-old son of Alma Guiding was driving a small herd of cows along near the bank of Logan river, at the mouth of the cañon; when endeavoring to head the cows, by some mischance he slipped and fell over a steep bank between 20 and 25 feet high. His left leg was broken near the thigh, the knee was cut open, and severely injured, and the right ankle was bruised and seriously hurt.

On Sunday evening iast Mr. Kirby, of Hyde Park, Utah, was driving home, between Logan and that place, having with him in the wagon a thirteen-year-old daughter. Suddenly one of the wheels of the wagon went down in a rat hole, and the girl was thrown out and badly bruised. Her right ear was cut seriously, a deep gash was cut under her right eye, and her right arm fractured near the shoulder.

-Under the auspices of the Utah County Teachers a summer school for teachers will be held in Provo, Utah teachers will be held in Provo, Utah County, commencing June 14, 1886, and continuing four weeks. The ooject of the enterprise is to place within the reach of teachers the best principles of pedagogics and training. Among the instructors already secured are Prof. K. G. Maeser, Jas. E. Talmage and B Cluff, Jr., of the B. Y. Academy, and Prof. J. H. Paul of the Descret University.

Holand, of the Third Ward, Logan, was turning a colt loose, which he had had tied up, when it turned and kicked him, the hoof striking him square upon the face, inflicting a serious wound. A deep gash was cut in the upper part of the nose, and below the right eye, while the eye was badly hurt, and will, in all probability, be entirely destroyed. Dr. Ornisby attended the bruise, and succeeded in putting the nose in a good condition. The blood yessels of the eye are crushed and vessels of the eye are crushed and bursted and the organ itself was sev-erely injured. This is a serious mis-fortune to the young man, who has met other accidents during his life.

On Tuesday last, while F. Burke and his partners were at work on the Mc-Lean mining ditch, near Eagle Rock, idaho, blasting and taking out rock with a derrick, they got hold of one that was too heavy for them, the consequence being the derrick gave away, and Mr. Barke, who was the hearest to the foot of it, shouted to the others to look out for themselves, which they did. He was not so fortunate himself, however. In attempting to get out of the way be got under the heaviest portion of it as it fell, which struck they have the his head, knocking him senseless, and then on his right leg, breaking it about half way between the hip and knee.

should like to take it with me to the next world when I come to die."

Yes, "said she, "it would be well to take it with you, for you may need a fan when you get there!"

A "laughing plant" grows in Arabla, with seeds producing effects like those of laughing gas. The flowers are of bright yellow, and the seed-pods are soft and wooly, while the seeds resemble black beans, and only two or three grow in a ped. The natives dry and pulverize them, and the powder, if taken in small doses makes the severest person behave like a circus clown or a mad-man; for he will dance, and laugh and cut the most fan. his partners were at work on the Mc-

The Secretary of State has sent communications to Governor Warren and U. S. Attorney Campbell, of Wyoming, requesting of them that they investigate the authenticity of the claims of 150 Chinese, who ask repayments of amounts, ranging from \$15 to \$100 each, which they claim to have lost through the undue haste in which they believed it processors to logge they believed it necessary to leave Almy for their health. The fact is set forth that all of these Mongolian suffer-ers from the ruthless despoliations of a,body of white men were, and are, true and loyal Chinese subjects; that they were engaged in lawful and peaceful pursuits, and that they left "all their goods and chattels" in order that they might seek safety by flight.

The Cheyenne Leader gives the fol-towing explanation of the recent strike on the U. P.

"It is well known that several weeks ago the Union Pacific authorities reduced the wages of its employees, cs-pecially of brakemen, so that since that time this class of employes have been receiving but little more than \$50 per month. Conductors were also materially affected by the reduction. Since that time the railroad employes have been endeavoring to obtain better terms, and some three weeks ago, a delegation of conductors visited Omaha, to see what could be done, and Omaha, to see what could be done, and lately a delegation of brakemen have also gone down the road on the same mission. The company agreed to give them an answer to their demands (an increase of compensation which will amount to \$65 per month) by April 25, but did not do so. A conference is now being held at Grand Island on the subject and it is hoped that all differences of opinion may be amicably settled."

—On Wednesday last, at Devil's Gate Weber County, Deputy Marshal Steele arrested Hyrum Halford, of Uintah, charged with perjury, alleged to have been committed before the last grand jury of the First District Court in Ogden, when Halford testified to the throwing of a rock at one Mrs. Farettle who had testified in the David M. Stuart case. She was said to have Stuart case. She was said to have been struck in the stomach and badly hurt, it was supposed, by revengeful "Mormons." Hallord is said to have testified before the grand jury that he heard one Mrs. Statis and Mrs. Stuart concocting the scheme to commit the offense, etc. The grand jury have evidently had avident The grand jury have evidently had evidence since that he lied, and after theroughly investigating the matter indicted Halford for perjury. He was taken into court on Monday and placed under bonds of \$4,000 to

appear for trial at this term of court. —On Monday last orders were received at Logan for all the machinery of the railroad shops located there to be shipped immediately to points north. Work was begun at once, in this direction. The stationary boiler was loaded on a flat car, followed by almost every wheel, belt, tool etc., and now scarcely a vestige of the machinery is left to show that it had ever existed here. The men will be provided with work at Battle Creek, Shoshone, Eagle Rock and other points. Outside of the few clerks in the office, only six men will be employed

side of the few cierks in the office, only six men will be employed here. These men will be paid perhaps, four hundred dollars monthly, and thus it is plainly seen to what an extent Logan's income of money has dwindled away, and what is being returned for the amount which is paid to the company. The depot presents an appearance so solemn and still that one is impressed with the idea that the one is impressed with the idea that the shops and roundhouse are mourning for the bustling days of five years ago. A gloom seems to have been cast over the men who will have to leave their the entire community, when it is real-zed that the Logan shops have gone

FROM THE FOUR WINDS.

maid, remarked philosophically that perhaps it was just as well as it was.

"And how does Charley like going to school?" kindly inquired a good man of a six-year-old boy. "I like goin' well enough," replied the embryo statesman ingeniously, "but I don't like staying after I get there,"

LUCERN SEED

Little Brown (a horrid bore): "Do you believe in a man's sighs, Miss Robinson?" Miss Robinson—"A man's size? Yes, certainly I do. I think no man ought to be less than six feet in height." (Collapse of little Brown.)

"Pray," said an army officer, who had been on guard duty in Washington seventeen years, of Miss Cleveland, "what do ladies find to think about be-sides dresses and parties" "The heroic deeds of our modern army officers," replied Miss Cleveland.

all? I'm to be hanged just the same as he is.

Keeper—That's all right, Forty. You only killed one man. Number Fortyone butchered a whole family.

A Chicago man who had been appoint-A Chicago man who had been appointed receiver for a certain firm, went to a lawyer and asked: "Out of about \$20,000 passing through his hands, how much ought a receiver to profit?" "Well, about \$18,000," was the reply. The receiver looked disappointed, and the lawyer asked if he had expected more. "Why, I can't possibly see what business anyone else has with the other \$2,000" he replied.

"Father," he asked, in his childish "Father," he asked, in his childish way, "supposing you owned a silver mine way out in Nevada, and you was afraid it was going to spoil in hot weather?" "Spoil! How?" "Well, I don't know how, but the boys all say you had to use sait to carry it through, and I was going to ask—" "That's enough, sir. It's already four minutes past your bed time. You go to bed and let the boys say on."

A cow cannot produce something from nothing. The elements of good milk are contained only in good food, and this she must have, in such quanand this sne must have, in such quantities as her digestive organs can healthfully assimilate, in order to produce a full flow of good milk. A yariety is very essential. The same food will not produce a like effect upon two cows. The dairyman must test every cow in order to feed intelligently and aconomically ly and economically.

Dr. Holmes says that "On horsebac a man's system becomes clarified, be-cause his liver goes up and down like the handle of a churn." The doctor has the handle of a churn." The doctor has evidently taken a deck passage upon a Texas broncho some time during his existence, but is diffident about telling the whole truth. Liver, lights, stomach, lungs, heart and even feet go up and down, and, if a man's system is not clarified, a portion of it is generally scarified, and when the operation is concluded invariably acknowledges that he is "well off."—Flatonia (Tex).

Cheap, but dangerous. "Hum," said Mrs. Sombre, looking at a newspaper illustration of a crematory, beside which stoods coffin. "I thought the expense of a coffin was dispensed with when the body was incinerated. "Well, so it is," replied the husband; "the coffin is not burned; it is returned, and come is not burned; it is returned, and used to convey the next corpse to the furnace. "Ugh!" shuddered Mrs. Sombre, "that settles it. I will never be cremated. Just think of being put in a collin in which a person who has died of smallpox or some other contagious disease has lain! Why, I might catch it."

They were at a party, had been dancing and were carrying on a little firtation in a room adjoining the conservatory. While inhaling the perfume of the sweetest flowers and listening to the most charming music, he tried to say something bright. She had a lovely fan which he took from her hand for a

moment.
"What a lovely fan," said he. "It is so beautiful, especially after having been touched by your fair hand, that I should like to take it with me to the next world when I come to die."

"Yes," said she, "it would be well to take it with you, for you may need a fan when you get there!"

sing and laugh, and cut the most fan-tastic capers, and be in an uproarious-ly ridiculous condition for about an hour. When the excitement ceases the exhausted exhibitor of these antics falls asleep, and when he awakes he has not the slightest remembrance of his frisky doings.—The Cook.

Industrial schools are demanded in all quarters now-a-days. The demand is a reasonable one and should be granted. It is not to be denied by any granted. It is not to be defined by any intelligent, competent observer that, the public school system of to-day good though it be so far as it goes, is inefficient in the very important matter of fitting boys to earn their living. Something more is needed. Much of the time and labor and money expended n teaching boys and girls as mattering of numbers, language, history and sciences, too often resulting in imparting the dangerous idea that education is to take the place of labor, might be more profitably employed in teaching the boys the elements of carpentry, blacksmithing and other manual occupations and the girls the manual occupations and the girls the elements of work suitable for women Education not practical tends to sestheticism and makes underpaid and overworked clerks of men who, under proper training and inspiration of in-dustrial schools, might become in-ventorsor highly successful mechanics.

The expertness of the ancient en-gineers is attested by the remains ex-ant. The Pools of Solomon still contant. The Pools of Solomon still continue to furnish water to Jerusalem. They are three in number. The upper is 160 feet above the middle one, the latter 248 feet above the lower. The first was supplied by pipes from springs, and when full emptied into the second, and that into the lower one. The water was used for irrigating Selomon's gardens and supplying ing Selomon's gardens and supplying his temple. The lower pool held about 31,442,425 gailons, the middle about 12,289,913 and the upper one contained 13,778,772—a grand total of 57,511,109 gallons or nearly six lained 13,778,772—a grand total of 57,511,109 gallons, or nearly six times as much as the Kansas City reservoir, which is estimated at 10,-000,000 gallons. These pools were solid rock and masonry, lined with cement, and had steps leading to the bottom. One historian says that Nebuchadnezzar wishing to brick the bottom of the Euphrates, which flowed through the center of Rabylon, caused a reservoir forty miles square to be dug, so as to allow his masons a dry river-bed. Another historian writes that Nitecris, a daughter of Nebuchadnezzar, is said to have dug a reservoir 420 stadia in circumference, lined with stone, for the waters of the Euphrates, in order that the river-bed at Babylon should be dry, so that she could build piers for a bridge. A stadium being 625 feet, it would make this circumference forty miles.

The pain from chapped hands and thilblains is at once removed by St. facobs Oil.

PERMANENT REDUCTION - IN -Photographs at Fox & Symons.

least idea but that one nall is as safe as another to fasten the shoe. Quite the reverse is true, which can be easily shown. The foot of the horse is not like a block of wood, but a live, sensitive member. To drive into it cheap cut and rolled nails is dangerous as well as hurtful. Dangerous because they are liable to sliver in driving and thus send a splinter into the quick, and hurtful as they are stiff and unyielding, with rough edges, thereby tearing the hoof. Cheap cold cut nalls can be distinguished by the sheared edge near its point. edge near its point.

The Putnam is Hot Forged and Hammer Pointed and will not sliver as it receives over sixty quick sharp blows while the iron is at a wielding heat.

SUMMONS.

n the Probate Court, in and for Salt Lake County, Utah Territory. Margaret Jones, Plaintiff, John Jones, Defendant.

The People of the Territory of Utah send To John Jones, Defendant.

YOU ARE HEREBY REQUIRED TO appear in an action brought against you by the above named plaintiff, in the Probate court, of the county of Salt Lake, Territory of Utah, and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of summons—if served within this county, or, if served out of this county, but in this district, within twenty days; otherwise within forty days.

The said action is brought to obtain a decree from this court dissolving the marriage contract existing between said plaintiff and you, on the ground of wilful desertion of plaintiff by defendant and failure to provide for plaintiff the common necessaries of life. To John Jones, Defendant.

And you are hereby notified hat if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to this court for the relief prayed for and cost of suit.

Witness, the Hon. Elias A.
Smith, Judge, and the Seal
of the Probate Court, of Salt
Lake County, Territory of
Utah, this 23d day of March,
in the year of our Lord
one thousand eight hundred and eighty-six. JOHN C. CUTLER, Clerk. By H. S.CUTLER, Deputy Clerk.

LEGAL NOTICE.

In the Probate Court, in and for Salt Lake County, Territory of Utah. the matter of the Estate of Susan Paxman deceased.

Order appointing time and place for settle-ment final account and to hear petition for distribution. ON READING AND FILING THE PEtition of Aurelius Miner, Executor of the Last Will and Testament of Susan Paximan, deceased, setting forth that he has filed his final account of his administration upon said estate in this Court; that all the debts have been fully paid, and that a portion of said estate remains to be divided among the heirs of said deceased, and praying among other things for an order allowing the final account and of distribution of the residue of said estate among the persons entitled.

of the residue of said estate among the persons entitled.

It is ordered that all persons interested in the estate of Suam Faxman, dreesed, be and appear before the Probate Court of the County of Sait Lake, at the Court Room of said Court, in the County Court House, on the 12th day of May, 1886, at 11 o'clock a. m., then and there to show cause why an order allowing the final account and of distribution should not be made of the residue of said estate among the heirs and devisees of the said Susan Paxman, deceased, according to law. or the said Susan Faxman, deceased, according to law.

It is further ordered that the Clerk cause cypies of this order to be posted in three places in Sait Lake County and published in the Deserre News, a newspaper published in Sait Lake County three successive weeks in Sait Lake County three successive weeks

id 12th day of May, 1888. ELIAS A. SMITH, Probate Judge. County of Salt Lake,

I John C. Cutler, Clerk of the Probate Court in and for the County of Salt Lake, in the Territory of Utah, do hereby certify that the foregoing is a full, true and correct copy of order appointing time and place for settlement final account and distribution in the matter of the Estate of Susan Paxman, deceased, as appears of record in my office.

In Witness whereof, I have hereunto act my hand and affixed the seal of said Court, this 10th day of April, A. D. 1886. JOHN C. CUTLER, Probate Clerk. d118 4w

UNACQUAINTED WITH THE CEOGRAPHY OF THIS COUNTRY, WILL

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilities as travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the favorite and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Book Island system includes in its main line and branches, Chicago, Jonet, Ottawa, La Salle, Peoris, Geneseo, Moine and Rock Island, in Illinois, Davenport, Muscatine, Washington, Fairfield, Offumwa, Oskalcosa, West Liberty, Iowa City, Des Moines, Indianols, Winterset, Atlantic, Knorville, Endubon, Harlan, Guthrie Centre and Council Elinfis, in Iowa: Gallatin, Trenton, Oameron and Kansas City, in Missouri; Leavenworth and Atchison, & Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations.

E. ST. JOHN. Gonzral Ticket and Passenger Agent, Chicago.

"What would you do in time of war if you had the suffrage?" asked Horace Greeley of Mrs. Stanton. "Just what you have done, Mr. Greeley; stay at home and urge the others to go and fight," replied the lady.
