LOCAL AND OTHER MATTERS.

PRESIDENT AND PARTY.—A dispatch by Deseret Telegraph line says that President Young and party arrived at Seipio at 4-15 o'clock yesterday afternoon; meeting was held which was addressed by President Young and Elders B. Young, Jr., Lorenzo D. Young and Jos. W. Young. The company left at 9 this morning. They will hold meeting at Cedar Springs and will stay at Billmore to-night.

DEMISE OF ELDER JABEZ WOODARD.—By letter from Elder G. W. Thurston, dated Milton, Morgan county, March 2nd, we regret to learn of the death of Elder Jabez Woodard, under more than ordinarily painful circumstances. Brother Woodard has resided at the house of Brother Thurston during this winter, and he died there at 9 o'clock a.m., on the above date. The following is the account furnished of the circumstances which led to his death.

"A little more than three weeks ago, while away from home a few days, he had the misfortune to freeze one of his feet pretty badly; it was however well attended to and although he lost the ends of all the toes, he was doing very well indeed. But under some other ailment he gradually wasted away and finally died. During his illness one of his eyes swelled, ulcerated, burst and ran out. Doctor Corbit who attended him thinks he died of dropsy of the brain and was delirious for several days previous to his death and in his wanderings frequently talked of his wife and family who are in Dixie. He never complained of pain during his illness, although his sufferings must have been excruciating. We hoped he would come to his right mind long enough to be able to send his dying message to his bereaved family but he did not."

Bro. Woodard, we believe, was a native of London, England, and has been a member of the Church considerably over twenty years. He labored considerably, several years ago, in Continental Europe, having twice presided over the Swiss and Italian mission. He was a talented writer and poet; some of the sweetest of Zion's songs were of his composition. He has been faithful to the work of God, and died, as he lived, true to his integrity. His death while away from his family will be more severely felt by them than it would if he had died in their midst, and we feel to mourn with them in their heavy affliction.

THE LAST NIGHT.—There was an exceedingly pleasant party at the Theatre last night, though the unpleasant weather had an influence in preventing numbers, who would otherwise have attended, from participating in the enjoyments of the occasion. The dancing was kept up with spirit until all present were satisfied with the terpsichorean exercise. The music, as usual, was good; the floor managers genial and heartily aided in the pleasures of the evening; and all present manifested a buoyant and good humor, which made the affair very agreeable. We have before alluded to the excellent arrangements made for supper in the basement of the Theatre, under the superintendence of Mr. J. K. Clawson, and consider that last night it was one of the features of the party, all could enjoy a good repast without having to wade through the mud in the streets in going for it.

OLD BULL'S CONCERTS.—This renowned violinist has made arrangements for giving a couple of concerts in the Theatre on Tuesday and Wednesday evenings next. The career of this great artist has been one of continued romance. Brave as a lion he fought through one or two revolutions, and has ever been found willing to give material aid and personal assistance to the struggles for liberty in every land. But through all his devotion to his art, his shone conspicuous, and the musical talent and the public generally of two continents have cordially awarded him a prominence above all contemporaries, as the great violinist of the age. It is the first time that our citizens have had the opportunity of hearing such a devoted and thrilling harmony that a truly master hand and genius can draw from the violin.

THE CALIFORNIA EARTHQUAKES.—The Sacramento Union contains the following in reference to the earthquakes in California:

"Exciting as was the late earthquake shock in San Francisco, it is said to have been far more so in the Coast Range and Santa Cruz mountains. A correspondent of the Bulletin happened to be in the last named locality, and from his description the effect and sensation could not be described by words. He says the mountains heaved and rocked, and the earth trembled, as if the whole universe was passing through the throes of dissolution. The rocks stirred in their beds of centuries, and the mighty forests, whose roots struck deep and whose tops strained high towards heaven, bowed their heads and swayed to and fro like rushes smitten with the whirlwind. Their trunks were wrenched and twisted like the stems of willows. A roar like the ocean surf passed over the mountain, and died away in the valley below."

THE "KEEPAITCHININ."—If anything is the matter with this issue, the public generally can lay the blame on the Keepatchin, the first number of which is just published. If it has not demoralized the entire town, everybody knows the crush that has been everywhere of excited people wanting copies of the coveted paper. The vast crowds blocking the streets near the news-stands, where it was on sale; and the immense numbers of excited individuals crawling over the heads of the masses to secure copies before the issue was exhausted, tell so forcibly of its popularity that we subside in quietness, listening to the faint cries of "Vies Keepatchin!" rising from weaned and maltreated throats outside.

THE WEATHER. yesterday, received per Deseret Telegraph line this morning:

Franklin, fine overhead, but very muddy; Logan mild and cloudy, no snow, very muddy; Brigham, very disagreeable under foot, about two inches of snow; Kaysville, warm and pleasant, it snowed a little this morning; Cedar City, the roads are dry and the weather is warm and pleasant; Panguan, roads very muddy, fine and sun out nice, very little snow; Beaver, clear and pleasant, snowed about an inch last night, roads drying fast; Cove Creek, clear and pleasant, roads bad; Fillmore, snow four inches deep, very hard frost last night, pleasant; Mant, a few scattering clouds, quite warm, roads very muddy; Spanish Fork, warm and pleasant, four inches of snow; pleasant, roads bad.

DISGRACEFUL CRUELTY.—We heard last evening of instances of cruelty to dumb animals inflicted by boys here, which would be far more becoming the frequenters of the New York rat or dog pits than residents of Salt Lake City. The source whence our information was derived is of the most unquestionable character or we should not have given it the slightest credence. The brutality which we are about to expose occurred in the Sixth Ward, and was inflicted upon cats, the poor animals being tied up securely and then pelted and abused in the most shameful and inhuman manner until they were dead. The young ruffians who have been guilty of this conduct deserve three months solitary confinement and to be fed on bread and water. Their names are known, but we withhold them on this occasion, out of consideration for their parents who we cannot but believe, are ignorant of such conduct on the part of their boys. If we hear of a recurrence of such conduct we will publish names and call the attention of the civil authorities to the offenders. If cats or other dumb animals must be killed it can be done without the infliction of unnecessary or wanton barbarity.

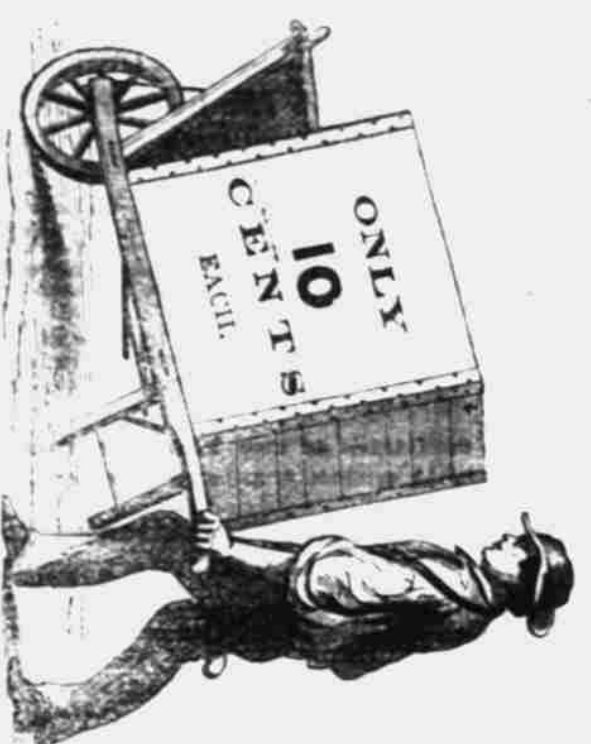

"SATANELLISM."—"Satanella," the New York correspondent of the San Francisco Morning Call, in a letter which appears in that paper of the 26th ult., under the above heading, uses enough dirty slang to disgrace the columns of any respectable paper, in giving an account of the success of the "Mormon" missionaries in Brooklyn. He seems to be terribly annoyed over the fact that the chief of the "Mormon" converts in his locality are "handsome women." Such a fellow as "Satanella" evidently is, is utterly incapable of forming any correct idea in regard to "Mormonism" or the motives of those who embrace it. "Mormonism" is a system of eternal truth, and nineteen out of every twenty of those who embrace it do so for the love of truth, hence "Satanella's" indignation and disgust are easily accounted for.

FLORENCE

SEWING MACHINE

In point of labor, there is the same difference between thrashing with a flail, or using a Thrashing Machine, that there is between sewing by hand or using a good Sewing Machine.

Inventive Genius gave to man Things pleasing to the sight, And such as man has often wished Would make his labors light: Then turned to woman with a smile, And made her heart rejoice, For she in every household sings Its praises with her voice.

'Tis the song, 'Tis the song, In every house wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.

When woman toiled for daily bread, From early morn till eve, How many hearts were dimmed with tears, How many hearts did grieve! But now she has her "household pet," And one to which she clings, For labor is a pleasure now, And she can toil and sing.

'Tis the song, 'Tis the song, In every house wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.

In every home, in every land, Her praise is sung aloud, It works alike for rich and poor, The humble and the proud; It is the pride of every heart, And every woman's care, "God bless the Florence Company," Is in every woman's prayer.

'Tis the song, 'Tis the song, In every house wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.
