Mull's Grape Tonic Curos Constipation.

When the bowels move irregularly the entire bodily system must suffer. Constipation more frequently occurs among women and it mani-fests itself in provoking profuse leucorhea and other serious female diseases. Regular bowels will result in a complete cure when you use Mull's Grape Tonic. Unlike pills and ordinary cathartics, this remedy is a mild, gentle laxative in addition to being a greater flesh-builder, blood-maker and strength-eiver gentle laxative in addition to being a greater flesh-builder, blood-maker and strength-giver than cod liver oil or any other preparation recommended for that purpose. Mulf's Grape Tonic will permanently cure the most obstin-ate case of constipation, and the numerous afflictions that invariably follow in its wake. No matter if it is piles, liver complaint, kidney disorder, vertigo, palpitation of the heart, diarrhea or the self-poisoning which follows of remains in the howels where it purposes and

ing its fair proportion. Considerable guano is yet found in the Taracopa Island, the Lobos and Guenope group, the Vieja Islands of Independence bay, the Lobillo and Huonillo groups in Cheopana bay, and others at Punta Alba and Pabellion de Pica. The best of them, however, in-cluding all the workings of Padeilion, Limos and Huanellof, now go to the railroad bond-holders, under the Grace Dononghmore contract.

The legitimate guano bird is a kind of tern. Its bill and legs are red; the top of the head and tip of the tail and wings are black, while the lower part of the head in the source part ensities and the second tablets, which pos-sesses, among other interesting wrecks of departed glory, a high altar, most eleborately carved and heavily gilded. For many years its cloisters have been deserted, its halls empty and its pleasure grounds, with their long lines of olive trees, allowed to run wild with weeds and thistles. The records tell us that this ancient garden was intended for a place of religious contemplation, wherethe remnants of the shells, and also with the decayed flesh and bones of thousands of seals. It is asserted, but with what truth, I do not know, that when a seal is about to die it will in-variably climb to the highest point on the nearest rock. At any rate, the Chincha Islands are covered with their remains, although they have been so much hunted hereabouts during recent years that they now add little to the denosit which makes the grance oil the place of religious contemplation, wherein the pious monks might enjoy communion with nature as well as with their own social and combine pleasant exercise with their evening prayers. leposit, which makes the guano all the beiter for commercial purposes, that of Bahia de Ferrol being so fuil of seal bones as to be worthless for export.
