That is one of the best copies of these sermons for which that firm had the sole and exclusive contract, and to furnish plates to other newspaper concerns at the same time. The piratical concern is known as the A. N. This firm was warned that their surreptitious doings were known, but the trick was still kept up and the secret of its manipulation remained undiscovered. But an alleged Talmage sermon, pur-

THE OUTLOOK. What is the outlook as to the consequences of marshalling these immense military forces? Considering the moderu improvements in destructive weapons it is quite moderate to esti-

mate that a general European war will cost at least 10,000,000 lives before it is concluded. Besides the agonies of the slain and wounded on the fields of battle, this means at least 5,000,000 widows, 25,000,000 orphans, millions of helpiess cripples, ruined cities, deso-lated homes, ravaged fields, and all the ravishing, burning, cruelty, wanton destruction, famine, pestilence, poverty

What a commentary on modern so-called civilization! This is the Devil's way of settling quarrels among his dupes. This is a specimen of his dupes. This is a specimen of his methods of governing. The emblem of his kingdom is force. The characteristic of God's is love. But, at present, the power of self-assertion and oppression is preferred to that of self-sacrifice and love. Well, says one, there is nothing new in
