

ATTORNEYS MUST SECURE AN ORDER

Lawyers in Future Will Not be
Allowed to Carry Away
Court Files.

JUDGES SIT DOWN ON HABIT.

Owing to Papers Being Lost by Care-
less Counsel an Edict Issues
Today.

On account of the large number of
files in cases being taken out of the
clerk's office by attorneys and on ac-
count of so many of them being lost,
the judges of the district court this
morning issued the following order,
which will help to remedy the evil:

"The undersigned, judges of the
Third judicial district court, in and
for Salt Lake county, state of Utah,
having found that sufficient necessity
exists therefore, now make the following
order, the same to remain in effect un-
til further order by the judges of this
court:

"None of the files or papers in any
case shall be taken from the office of
the clerk of this court by any person
except upon a special order made there-
for by the court or one of the judges
thereof, and such files shall not be re-
tained by the person permitted to take
the same longer than the time fixed in
such order.

W. C. HALL,
S. W. STEWART,
C. W. MORRIS,
T. D. LEWIS,
Judges."

Attest: (Seal) JOHN JAMES, Clerk.

dian ad litem, S. H. Moyes, against the
Ogden Sewer Pipe & Clay company,

ages for the loss of his left arm, sus-
tained while he was employed by de-
fendant company on March 13, 1903.
This judgment is affirmed in an op-
inion written by Justice McCauley and
concurred in by Chief Justice Baughn
and Justice Barth.

adjourned session yesterday, and
continued the case of the Red Wing
Gold Mining company, appellant,

SALT LAKE ROBBER.

Joe Walden Confesses to Burglary in
This City.

(Special to the "News.")

Ogden, July 2.—Joe Walden, who was
arrested in Ogden Thursday evening on
suspicion of having burglarized Rosen's
secondhand store, has confessed to hav-
ing broken into a store in Salt Lake,
from which he secured several pocket-
knives, bearing the trade mark, "Good
Luck." At first Walden claimed to
have bought the knives at Cripple
Creek, but when confronted with evi-
dence, which tended to convict him of
the Salt Lake robbery, he confessed his
guilt. He will be taken there for hear-
ing.

Mrs. Percy Poyer and her sister, Miss
Smith, while driving down Ogden can-
yon last evening from Huntsville, nar-
rowly escaped serious injury near the
Hermitage. The horse they were driv-
ing became frightened, and dashed
down the canyon, throwing the ladies
out of the buggy in such a manner as
to result in their being severely bruised.
They were picked up by campers and
taken to Ogden, where their injuries
were promptly attended to.

A hobo named Sk. Wood was arrest-
ed last night on the charge of distur-
bing the peace, but the more serious
charge of robbery may be preferred
against him. It is alleged that he rob-
bed a boy named Charles Jones of 13,
after giving him a severe beating. Jones
is held as a witness against him.
At a special meeting of the city coun-
cil last night, Mrs. J. F. Gordon, Mrs.

ie library board.

The contract for the erection of an
eight-room schoolhouse on Twentieth
street, has been awarded to C. J.
Humphreys for the sum of \$12,715.
The building to be completed in 70 days.

A telegram received by Sheriff Bailey
from St. Louis states that C. M. Brown,
the man arrested on the charge of ab-
ducting 16-year-old Gladys Christensen
from her home in Newton, Cache coun-
ty, left there this morning in charge of
Sheriff Rigby. Miss Christensen, his
victim, accompanies them.

Harold A. Horspool, died this morn-
ing at the family residence, of diph-
theria. The funeral will be private at
10 o'clock tomorrow morning.

LIKE SALT LAKE BEER.

Local Breweries Are Swamped With
Orders from Other Sections.

An indication of what the Fourth of
July means in a bibulous way is found
in the work being done this week by the
breweries of Salt Lake. Besides the quan-
tity of beer to be consumed on that day
here in the city and at the neighboring
resorts, there have been something like
24 carloads of beer shipped from here to
other points in Utah, Idaho and Montana
within the past 10 days.

The leading brewery of the city is bot-
tling 1,000 dozens of bottles, or 12,000
quarts, every 24 hours, and it is all for
outside customers. The management has
informed some of its largest local patrons
that until the afternoon of the fourth it
cannot supply them with a single bottle
of the amber fluid. The manager in
question was thrown into convulsions this
morning because he tried in his pocket
orders for three carloads of case goods
that the brewery cannot fill. And it is
said that the other local places of the
brewery are running as fast as they can.
They are all working night and day and ship-
ping as rapidly as possible. There is
plenty of beer to be had, because of the
tremendous over-supply kept on hand,
and considering the amount of draught
beer sold on such occasions, adding it
to the condition regarding bottled beer,
one gets some idea of the enormous con-
sumption of the beverage.

Brewers do not claim that all the beer
shipped out will be consumed on Monday,
but liquor dealers find themselves in a
beer famine after the holiday and many
orders are intended to last them through
the week.

ENGINEER TANNER BACK.

Reports on Irrigation Outlook in
Strawberry Creek District.

Engineer C. Tanner of the geological
survey has returned from the Straw-
berry country, and reports that the
Strawberry creek, where the reservoir
is to be located, is running low. The
streams from the Strawberry to the
North Fork of the Duchesne have
shrunk, but the North Fork, Rock
creek, and Little Rock are still running
with large volumes of water. There is
still considerable snow at the head of
Lake Fork and Rock creek. The supply
of the streams are superficial, and not
derived from springs or springs on
account of the altitude. None of the
waters in this country carry sediment,
even when at a high stage, and are
beautiful, pellucid and refreshing—just
the kind of water needed for this city.
On June 25, Strawberry creek was running
1,000 second feet.

POLICE ARE WORKING.

Looking After Men Who Burglarized
Hansen and Other Residences.

The police are looking for the men
who robbed the residence of John E.
Hansen, city editor of the Desert News,
and other houses during the week. Thus
far they have not been able to run
down what appears to be a well organ-
ized gang of burglars.

The Hansen residence was entered on
Thursday between the hours of 2 and 10
p. m. while the members of the house-
hold were attending the Morris family
reunion in Forest Dale. The back door
was forced from its fastenings, though
the work was apparently not done with
a jimmy or crowbar. Every article of
value in the form of silver or jewelry
was carried away. Even the parlor clock
was carried away. To obtain entrance
to the room where most of the valuables
were, one of the lower panels of the
door was cut out. Three houses have
been burglarized in this neighborhood
—64 F street—within a few days and
in each instance the robbers have made
good their escape.

GUILELESS PEDLER.

Chinaman Who Measured Goods in a
Pail Brought to Book.

City Sealer of Weights and Measures
Richards had quite an experience with
a Chinese pedler, named Lou Quong,
this morning in forcing the Mongolian
to secure new measures and have them
properly sealed. The man was found
on Canyon road peddling his truck and
using old tin buckets for measures. Mr.
Richards told him that he would have
to get new measures and have them
sealed or he would be arrested. The
fellow suddenly became very dumb and
could not understand what the sealer
wanted him to do. Mr. Richards after
considerable threats and persuasion
finally got him to a place where he
could buy new measures but the Chin-
aman said that he had no money and
could not buy the required measures.

He did find enough money in his
clothes to purchase a hand saw and
began to cut him to a place where he
would have to go with the sealer to his
office to have the measure sealed. This
did not suit the Chinaman and he made
several attempts to escape. Mr. Rich-
ards had his own horse and buggy and
was handicapped in trying to head the
fellow off so he called a policeman and
had Quong taken in custody until he
could put his horse and buggy in a
place of safety. The Chinaman was
then taken down to the city and coun-
ty building and an interpreter was se-
cured. Quong was then made to have
his measure sealed. After that work
was done Mr. Richards then sold his
prisoner a new pair of trousers and the
man did not have any difficulty in find-
ing enough money to pay for it and
also for having both measures sealed.
He was then allowed to go, but will no
doubt be better able to understand such
matters in the future.

CRICKETERS, ATTENTION.

Englishmen, Canadians and Others to
Meet at Liberty Park Monday.

An effort to revive the long-defunct
Salt Lake cricket club will be made on
Monday when wickets will be pitched
in Liberty Park at 11 a. m. and Eng-
lishmen, Canadians and other ex-
ponents of the British game are invited to
don their "flannels" and participate.
A. Collis, whose address is care Mr.
Thompson, 121 1/2 Main street, is the
prime mover in the scheme and has
secured the consent of members of the
city council to play in Liberty Park on
a stretch of turf which makes an
ideal "pitch." As soon as the game there
is an effort made to organize a
club with the object in view of playing
Colorado Springs and other eleven
anxious to get beaten. The stumps,
bats, balls, pads and other offensive
and defensive weapons which were ac-
quired by the old club are in the
possession of Mr. Collis and will be
utilized in Monday's game.

ANOTHER BURGLARY.

Rooming House Entered—Harry Wil-
liams Arrested on Suspicion.

A roominghouse, conducted by Mrs.
Crommel at 158 North East Temple
street, was entered by burglars last
night, and from one of the rooms two
razors and \$20 in cash were taken. This
morning Sergt. Hempel arrested one
Harry Williams on suspicion of being
one of the burglars. He was caught
trying to sell the razors, and could give
no reasonable explanation of how they
came into his possession.

HITCHCOCK'S SONG.

The song that Hitchcock sings best in
"The Yankee Consul," possibly because
he doesn't sing it at all, but "patters" it,
is called "Ain't It Funny What a Differ-
ence Just a Few Hours Make?" One
stanza and the chorus run as follows:

My old bunk is the place when I seek its
soft embrace,
Whence my troubles and my cares take
flight.

And I regularly say as I tumble out each
morning,
"Now I'm going to get a lot of sleep to-
night."

I resolve without doubt to cut dissipation
out,
But I make my resolutions all in vain,
For it ain't any use—there is always some
excuse.

It's a problem that I really can't ex-
plain.

Refrain:
Ain't it funny what a difference just a
few hours make?

All my clothes look mighty seedy in the
mornin',
But when evening shadows fall I'm a sec-
ond and berry well!

All the wrinkles and the grease spots
fade away.

Then I shake my tired feeling and I find
my friends,
And I "hit it up" till dawn begins to
break.

But when nighttime comes along I'm for
prohibition strong—
Ain't it funny what a difference just a
few hours make?

THE ELECTRIC FAN MAKES YOU SNEEZE

Doctors Say That the Modern
"Cooler" is Bad for
Health.

BREEDER OF "SUMMER COLDS"

What Dr. Beatty of the State Board of
Health Has to Say Regarding It—
Talk is Interesting.

"He who sits with his back to a draft,
sits with his face to a coffin."
So runs an old Spanish proverb, and
one that undoubtedly expresses a great
medical truth.

The electric fan season is here. The
public is sneezing frequently and more
strenuously. The delicate lunged con-
tingent is coughing more violently, and
those who are compelled to work regu-
larly under these implements of torture
are deploring their luck with more
vigor than before.

That the electric fan is a menace to
individual health, Salt Lake doctors
agree. Opinions obtained from the
medical fraternity for the "News" were
all alike, and to the effect, notwith-
standing scorching weather, the elec-
tric fan should be abolished. It was
stated by one physician that not less
than 75 per cent of "summer colds"
were unquestionably due to the electric
fan.

"A man leaves his business during
the noon hour, for example," said Dr.
T. B. Beatty, secretary of the state
board of health, "and rushes up the
street to get a bit of lunch. He works
himself into a free perspiration and
seats himself at a table in the cafe,
and imagines he is obtaining a boon in
allowing a fan to play on his over-
heated body, whereas, as a matter of
fact, he may be contracting an illness
that will terminate fatally."

"No person can deny the detriment-
ality of the electric fan," reiterated
Dr. Beatty, "and I speak from knowl-
edge as well as medical belief. I had a
fan in my office one summer and al-
most within a week was suffering from
a severe cold, attributed only to the
draft. And there is a scientific princi-
ple in the proposition, as well. It is
the same as getting the feet wet, in
contrast to a shower bath or plunge.
That is, one is fanned by a draft only
on one portion of the body and that
will usually result in illness."

While patrons of cafes, buffets, ho-
tels and other public places are contin-
ually subjected to the dangers of the
fan, the hardest sufferers, perhaps, are
the employees who work hour after hour
under the cooling devices. A young
man employed in a cafe as a cleaner
was sent home ill a few days ago, hav-
ing contracted a serious throat affec-
tion by scrubbing the floor under the
fans, the work causing him to perspire
freely.

Although the fan is regarded as a
great and welcome gift by the person
who may have been on a sweltering
business trip, the day may come, physi-
cians say, when it must be abolished as
a menace to health.
