WARRANT FOR ATTAS.

Charged That Greek Agitator Practises Medicine Unlawfully.

The struggle between Louis Skirlis and Dr. P. G. P. Attas for the leadership of the Greeks of this community has resulted in a warrant being issued for the arrest of Dr. Attas, charging him with practicing medicine without a license.

Dr. Attas was held before County Attorney Whitaker yesterday afternoon by Mr. Skirlis, and the warrant was issued. It is charged that the defendant on July 25 last practiced the profession of medicine without first appearing before the state board of medical examiners and taking the examination and securing a certificate from the board, as required by law.

The details of the trouble between Dr. Attas and Mr. Skirlis have appeared in these columns heretofore, and it is believed that the arrest of Dr. Attas is the outcome of the clash between the two, which has been the topic of conversation among the Greeks for some time past.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

Consumptives Made Comfortable.

Incipient consumption is cured by Foley's Honey and Tar, but we do not hold out false hopes by claiming that it will cure this dread disease in the advanced stages; but if the lungs are not too far gone Foley's Honey and Tar will give comfort and relief. Under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump in my side. I don't think that I could have lived over two months longer. I was induced by a friend to try J. W. Davenport's Snow Liniment. The first application cured my cough, and the second cured my side. I am now well and strong. It is a wonderful medicine and I recommend it to suffering humanity." See box, \$1.00. Sold by Z. C. M. I. Drug Dept.

Life Insurance Man Relates Stirring Story to the Police.

Another holdup was reported to the police last night. The latest victim is M. H. Ralston, agent for the Des Moines Life Insurance company. He claims he was held up and robbed of \$200 on Sixth East between second and Third South streets about 11 o'clock last night.

According to this story, he was in that part of town to see some one, and as he was walking down the street he was suddenly confronted by a man and told him to throw up his hands. Ralston said he saw something in the man's hand, and that he tried to comply with the command he put up a fight. The highwayman, he said, began slashing at him with a knife or razor, and Ralston exhibited several cuts in his chest. He said that the highwayman then knocked him down and drew a revolver, threatening to kill him if he did not get up.

"As I lay on the ground," said Ralston, "the man said he would kill me if I called for help. He then went through my pockets and took what money I had but did not take my watch. He ran west along the block and that was the last I saw of him."

The many friends of G. H. Hansen, Engineer L. E. & W. R. Sold by F. J. Hill Drug Co.

SOAKED THEMSELVES.

In This Way Two Miners Escaped Being Burned to Death.

Foreman Williams of the Albion mine, and John Hatfield, a miner, were slightly injured by a gasoline fire yesterday afternoon. The men entered a deserted tunnel on the Albion mine to inspect the water tank. While groping about in the dark with their candles, they came onto a can, and one of the men broke it open. Immediately a fire broke out, and the two miners, who were carrying candles, were badly scorched. The gasoline had been stored in the mine for at least four years.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy in hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

The low "differential" rates made by the Erie Railroad effect a marked economy for those who travel much, and a single trip. Yet the service is strictly first class. The rate between Chicago and New York is considerably less than two cents a mile. Reasonable, isn't it?
