TRUST COMPANIES WILL CO-OPERATE

Directors Will Lend Personal Fortunes to Meet Immediate Necessities.

MORGAN ENGINEERED SCHEME

Gold Engagements Are Large—Cotton Bills Not Fully Available—Grain to Move Soon.

New York, Nov. 4—The buoyancy of the stock market today reflected the ultimate decision of large bankers to support the two institutions, the Trust Company of America and the Lincoln Trust company, which have been subjected to the most severe runs during the last two weeks. The day was one of doubt and conflicting rumors, and the fact that it passed without adverse development is an evidence that the worst of the situation is probably over. At a late hour this morning an agreement was reached, largely through the influence of Mr. Morgan, by which the trust companies will co-operate in the future for their mutual protection, and the directors will lend the assistance of their personal fortunes to meet immediate necessities.

The assets of two threatened companies were carefully gone over by experts on Saturday and Sunday, and both of them were found to be solvent, with a considerable surplus after paying all claims and providing for the capital stock. Under the circumstances it was thought advisable for the big men to support them cordially if they would adhere to thoroughly conservative methods and direction in the future.

Gold engagements since the beginning of the present movement now amount to $52,000,000, which would more than bridge the loss in surplus reserve last week.

The disturbances which are sweeping over the exchange market and arousing concern in foreign markets were indicated today by the rise of foreign exchange in New York considerably above the point at which gold could profitably be imported. The fact that it is still coming this way indicates the determination of New York bankers to strengthen their position even at a loss. The high rate for bills was caused by the demand for exchange to cover the arrivals of gold.

The cotton bills are not yet fully available because shipments are slow and the bills themselves are subjected to considerable scrutiny before they are taken. The fact that the New York market bid a sufficient premium for gold to absorb £300,000 sterling from the open market and to withdraw an additional amount of £483,000, from the Bank of England, made at a special meeting today, before the opening of the New York market, from 5½ to 6 per cent, was not sufficient to check the gold movement. Hence arose much talk in London that the rate would be advanced to 7 per cent at the regular meeting of the board of governors on Thursday.

This will be the highest rate attained for many years, but with $32,000,000 of gold already on the way to New York or engaged for shipment, even a higher rate at the Bank of England would probably not injure materially American commercial interests.

Reports from Washington indicate that the national institutions throughout the country are sound and the efforts of the comptroller of the currency to get notes into circulation are meeting with considerable success. The calls for bank circulation are so numerous that the mail can hardly be handled promptly by the clerks in the office of the comptroller. In some of them the amounts applied for are small, but they are scattered all over the country, and it is believed will aid materially in relieving the local pressure. The price of United States bonds was firmer today than for some time, showing an increase in several classes of a half of 1 per cent, and indicating that the banks were in the market as purchasers. From Boston came the gratifying news that the legal reserve of the clearing house banks had lost only $1,751,571 during the past week and stood considerably above the legal requirement of 25 per cent. The fact that tomorrow, election day, is a legal holiday in New York will afford time for perfecting further plans for mutual support which were well under way today.

It was stated today that the elevators, boats and warehouses at Buffalo have 2,000,000 bushels of grain and 500 carloads of merchandise and manufactured goods, very largely for export, against which drafts for gold could be drawn the moment it is loaded on vessels that are waiting at Atlantic ports for cargoes.

The magnitude of this accumulation of American products is indicated by the fact that the railways find themselves unable to move it to the seaboard, notwithstanding the enormous development of traffic facilities within the last few years. The New York Central lines have increased the number of locomotives 81 per cent within the last few years, and the freight equipment has been increased 67 per cent, at an expenditure of over $140,000,000. Other lines have made large increases, but their combined facilities are subjected to severe strain in getting these accumulated products from the central west to the seaboard.

GOOD HOME MADE BLOOD MEDICINE

Cures the Kidneys and Makes Them Filter the Poisons From the Blood.

MIX THE RECIPE YOURSELF.

Don't Cost Much, Though Acts Gently And Cleans the Blood of All Impurities—Try it Anyway.

A leading health journal, in answering the question, "What is the best prescription to clean and purify the blood," prints in a recent issue the following: Fluid Extract of Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake well and use in teaspoonful doses after each meal and at bedtime.

A well known local druggist who is familiar with this prescription states that it is harmless, being composed of simple ingredients which can be obtained from any good prescription pharmacy.

It cleans the blood of all impurities and nourishes the blood. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down, debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Kargon and Extract Dandelion works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

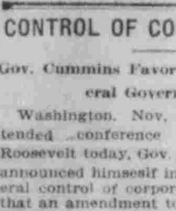
This prescription is better than the usual patent medicines, which are in the most part alcoholic concoctions. The ingredients cost but little and are easily mixed at home. Every man and woman here should make some up and try it if they feel their system requires a good blood medicine and tonic.

The Kargon to clean the kidneys and vitalize them so they can clean the blood, Sarsaparilla to make new rich blood and Dandelion to tone the stomach, clean the liver and make it active and relieve constipation is the way the prescription acts and so mildly and gently that one does not consider they are taking a medicine.

SEVERE ECZEMA CURED IN SOUTH

Suffers Three Years—Hands and Eye Most Affected—Employed Doctor to No Effect—Now Entirely Recovered and Will Recommend

CUTICURA REMEDIES IN ALL PARTS OF PARISH



"My wife was taken badly with eczema for three years, and she employed a doctor with no effect at all until she employed Cuticura Soap and Ointment. One of her hands and her left eye were badly affected, and when she would stop using Cuticura Soap and Ointment the eczema came back, but very slightly; but it did her a sight of good. Then we complied with the instructions in using the entire set of Cuticura Remedies and my wife is entirely recovered. She thanks Cuticura very much, and will recommend it highly in our locality and in every nook and corner of our parish. God bless you for the sake of suffering humanity. T. M. Robert, Hydropolis, La., Jan. 8 and Sept. 1, 1906."

SOUTHERN MAN CURED

Of a Terrible Eczema by Cuticura in Six Weeks.

"Some time ago I suffered terribly with eczema, and I had the best medical attendance, but the more medicine I took the worse it seemed to get. I kept on with medicine for about five weeks until I saw the Cuticura Remedies advertised, and I at once purchased the Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent, but had not the slightest hope of them curing me. After I had used the first set of the Cuticura Remedies I saw the improvement, and in just six weeks my skin was as smooth as ever. I advise any one suffering from this terrible disease to use the Cuticura Remedies. Henry J. Stelljes, 132 Spring St., Charleston, S. C., June 12, 1906."

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), or in the form of Chocolate Coated Pills, 25c. per vial of 60, to Purify the Blood. A HARD DEBT TO PAY.

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by Z. C. M. I. Drug Store, 112-114 S. Main St., druggist. 50c and $1.00. Trial bottle free.

SIX MEN HELD FOR ROBBING EXPRESS CO.

New York, Nov. 4.—Six men were today held for examination, charged with robbery from the Adams Express company, which, it is alleged, will aggregate between $30,000 and $60,000. The prisoners were Charles McCarthy and Max Pope, employes, and Jacob Levy, Wolf Levy, Charles Zuckerman and Henry Moskowits. It is charged that when McCarthy or Pope handled packages addressed to persons outside of this city they pasted another address over the one on the package, sending the package to one of the other four.

U.S. STEEL CO. MAKES BIG DEAL

Secures Controlling Interest in The Tennessee Coal, Iron And Railway Co.

GOT IT THROUGH J. P. MORGAN.

Got Twenty Million Dollars Worth of Stock at Outlay of Seventeen Millions.

New York, Nov. 4.—The United States Steel corporation has secured a controlling interest in the Tennessee Coal, Iron & Railroad company. The deal was concluded today, and is traceable to the conferences held at the home of J. P. Morgan Saturday and yesterday. It is understood that the price paid is a little above $85 a share. The holdings of a pool controlling some 70 per cent of the stock of the Tennessee Coal, Iron & Railroad company were transferred in the sale.

This sale cannot fail to do much to relieve the present financial stringency as large amounts of the stock of the Tennessee Coal, Iron & Railroad company are now held as collateral for loans by the local banks. The taking up of these loans by the new owners of the stock will add materially to the cash resources of the financial institutions.

In the absence of an official statement, it is estimated that the steel corporation, acting through J. P. Morgan & Company, has secured about $20,000,000 of the Tennessee Coal & Iron stock at an outlay of some $17,000,000. This important deal has had the effect of strengthening the Trust Company of America, which held considerable of the stock of collateral and will alleviate the financial conditions that have tended to retard the return of confidence generally. The Tennessee Coal & Iron company is a manufacturer of open-hearth steel and about two months ago received all the orders placed by the Harriman roads for rails needed by them in 1907 and 1908.

Last January it became generally known in banking circles that several institutions were carrying considerable Tennessee Coal & Iron stock.

It was subsequent to this that the loans were scaled down to $80 a share. Early in the following April, John W. Gates announced his retirement from Wall street and a portion of his holdings was taken over, it is said, by the other members of the pool. A short while after Col. Payne, Harry S. Black and George Kessler retired. The trust company then, it is said, lent its resources to prevent the stock from coming on the market at a time when it would have caused general demoralization. The loan by this company is said to have comprised a substantial portion of the pool's holdings at a price around $80 a share. At yesterday's conference at Mr. Morgan's house, steps were taken to assist the trust company, which resulted in an agreement for today's sale. Those at this conference with Mr. Morgan included Henry C. Frick, Elbert H. Gary and Secy. Richard Trimble of the United States Steel corporation, and Oakleigh Thorne, who is a director of the Tennessee company, as well as president of the Trust Company of America.

The total outstanding stock of the Tennessee Coal, Iron & Railroad company is $29,500,000. There is also $248,200 of preferred stock outstanding. The bonded debt consists of $14,000,000 mortgage, 5 per cents, due July, 1951.

GOOD BLOOD

NATURE'S PROTECTION AGAINST DISEASE

The preservation of health and prevention against disease is almost entirely dependent upon pure, healthy blood; every organ, tissue, nerve and sinew of the body draws on this vital fluid for nourishment and strength. Poisons, humors and germs from various sources often get into the blood, and then this great life-stream becomes a source of infection and disease, instead of a nourishing, health-sustaining fluid. Heredity is likewise an important factor, regulating the quality of the blood. Some persons are born with tainted blood from diseased ancestry, and Scrofula in one of its numerous forms is sure to crop out some time in life. Not only poisons in the blood are responsible for disease, but when the circulation is run down and becomes poor and weak in quality, then we see the effect in a general bad condition of health, such as weakness, sallow complexions, boils, and various skin eruptions. All blood troubles require a tonic and blood purifier, and none other equals S. S. S. It goes down to the very foundation of the trouble, and removes every particle of the poison or impurity from the blood. And not only does S. S. S. antidote the poisons, humors and germs, but it possesses health-giving, tonic properties, which build up and strengthen weak, impoverished blood, and fortifies the system against disease. S. S. S. permanently cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Eczema, Tetter, and all other skin diseases and disorders. Book on the blood and any medical advice free.
