LOCAL AND OTHER MATTERS.

REMARKS.—The acting of Mr. and Mrs. Coultick, last night, in "Dot, or the Daughter of the Healer," was really superb. The much could not be said in its praise, and such magnificent playing has to be seen to be appreciated.

It should be remembered that one of the best things ever presented in this city will be performed to-night, "Old Phil's Birth," and "Milk White," Phil Stapleton, the former piece, is one of Mr. Coultick's great specialties, and in his definition of that character he moves the heart of every one with emotion, so go and see him perform tonight and take your handkerchiefs. The Coulticks are also very charming as Marion Hardacre, in the same piece. As "Milk White," Mr. Coultick is immense. It is to be hoped that the appreciation which is due to the great abilities of Mr. Coultick will be shown tonight on the occasion of his benefit. There should be a bumper house.

TEMPERANCE.—John B. Gough is electing the San Franciscans by his temperance lectures.

DAVIDSON LINE.—We had a call this morning from Daniel G. Major, Esq., U. S. Attorney, who visits this country, under the direction of the Department of the Interior, for the purpose of re-examining the line which has been run between Utah and Nevada, and if necessary rectifying it, also to determine the boundary line between Utah and Idaho. It was thought at first that the South-west corner of Utah would be the best place to make the initial point of the re-examination, but upon consideration, the point where the railroad crosses the boundary between this Territory and Nevada was selected as the best, because of the advantages which telegraphic communication with the East affords in ascertaining the longitude. When work on this line is completed then Mr. Major will proceed to the northern boundary on the Colorado parallel. He will also make the necessary observations to decide whether the position on the U. P. R. line, in this Territory, in Wyoming, from Evansville to the boundary between our Territory and Wyoming, is the true line, that is up to our Northern border. Mr. Major has had considerable experience in this business, having subdivided the California, Nevada, and Arizona boundary lines. The completion of these surveys will be looked for with interest.

ALDERMAN'S COURT.—D. C. Buttsfield, for obstructing the sidewalk, was fined \$10. For being drunk, disturbing the peace and stirring police officers, Pat Dunn was fined \$10. John Johnson was arrested for stealing sundry articles.

GRASSHOPPERS AND CRICKETS AT DEEP CREEK.—Received by W. U. T.

Grasshoppers and crickets have appeared in vast numbers in this valley and are destroying the cattle range and crops.

HAS OUR THANKS.—Mr. Reid, of Redd's, has our thanks for a quantity of most delicious soda water and aerated summer beverages. They are refreshing drinks and very suitable for the hot season.

CORINNE ITEMS.—Signor Farini will shortly give a concert.

The Lilliputian circus of Bartholomew & Co. has commenced giving performances. The troupe will be in accordance to Ogden tomorrow. So says the Corinne Journal of yesterday.

ACCIDENT.—About noon on Wednesday, a little four-year old boy, son of Mr. Joseph J. Taylor, met with a severe accident by falling from a table. Doctors Anderson and Richards were called in to attend him, and who extracted some pebbles which were embedded in the poor little fellow's skull. It was feared at first that his injuries were of a fatal character, but we are pleased to be able to state that he is recovering.

BE CAREFUL.—Great care should be exercised by parents and mothers to keep everything of a poisonous or injurious nature as much as possible beyond the reach of little children. An instance of a child, at Ogden, having accidentally swallowed a quantity of lye was alluded to in yesterday's News. A warning on Wednesday, in this city on Wednesday, with a child of Brother Walter E. Dodge, of St. George, it appears that a box of liquid lye had been laid on a shelf and the child reached up and pulled it over, spilling the contents of the box over the lower part of his face, and his clothing. The tongue and throat of the little one were severely burned and the front of the clothing completely burned from his body.

THAT CAMP MEETING.—It has been announced that it is the intention of certain persons to bring a mammoth tent here not long hence, in which to hold a regular old-fashioned Camp Meeting. There is a tent of this kind which is doing business at the present in this line in California with notable success, we presume it is the same one that has been said to be pitched here. The performances in the tent closed on Monday night on the Alameda, across the Bay from San Francisco, and from there it was moved to the latter city, with the intention of opening on yesterday. Its managers ought to have a successful run at that place, for there is a ample field for the exercise of their talent.

GRASSHOPPERS HAVE COMMENCED their work of destruction in earnest in the lower portion of the county. They have been there for some time, but had not been so numerous as now, however, there are so many of them that their ravages may destroy the crops.

GAMBLING AND ROBBERY at what is termed games of chance, are assuming the character of an epidemic in San Francisco, the city of the Golden Gate, and the community demands that the law be rigidly enforced.

DECEASED.
 At Mendon, Coconino County, May 18th, 1913, of infirmities of the lungs, TURLEY, son of Andrew T. and Mary Newman, aged 5 years, 1 month and 23 days.

More than 200,000 people bear testimony to the wonderful curative effect of Dr. Pierce's Kidney, Catarrh, Medical Discovery. For palpitation or irregular action of the heart, all nervous, or irregular action of the heart, or any other complaint, or "biliousness" it is unequalled. Sold by all druggists.

SEWING MACHINE SALES FOR 1910.

The magnitude to which the manufacture of Sewing Machines has attained is shown by the return of the manufacturers for the year 1910 to the owners of the leading patents, on whom they pay a royalty. According to these returns, the number of machines sold by each manufacturer in 1910 is as follows:

The Singer Manufacturing Co. 157,333
 Wheeler & Wilson Manufacturing Co. 52,305
 Howe Machine Co. 75,156
 Grover & Baker Sewing Machine Co. 37,403
 Wood Sewing Machine Co. 35,093
 Wilson & Gilson Sewing Machine Co. 35,990
 American Sewing Machine Co. 490
 Florence Sewing Machine Co. 14,573
 Gold Medal Sewing Machine Co. 5,513
 Vins Sewing Machine Co. 5,500
 Pinkie & Lyon Manufacturing Co. 2,430
 Parham Sewing Machine Co. 1,766
 Wilson Sewing Machine Co. 490
 Hamilton Sewing Machine Co. 490
 Martin & Fenlon Manufacturing Co. 490
 Lamb Knitting Manufacturing Co. 490
 McKay Sewing Machine Association. 130
 C. F. Thompson. 100
 And several other companies who sold a few machines.

It will be seen by this table that the popularity of the Singer Machine far exceeds that of all others, their sale being one-half greater than even that of the famous "Wheeler & Wilson" Machine. This is owing to the fact that the Singer Company have lately commenced making, besides their old and well established manufacturing machine, what is known as their "New Family Machine," which is selling at the rate of nine to ten better than their old style. Their total sales for 1910 were 157,333 machines against the 127,333 of 1909, showing an increase of one-half in the latter year.—New York Sun. d191
