

**UNION PACIFIC**  
**DOUBLE TRACK**  
Contractors Trade Journal Says  
Work Commences Soon.

**10,000 LABORERS WANTED.**

**Employment Agencies All Over the Country Said to Have Been Notified—Railroad News.**

The Dirt Mover, a trade journal published in the interests of railroad contractors and one that secures considerable inside information relative to forthcoming bids and contracts, is the authority for the statement that the Union Pacific will this year commence work on double-tracking the entire main line from Omaha to Ogden. Employment agencies all over the country, it says, have been advised that the Union Pacific will need at least 10,000 men as laborers during the coming summer.

It is said that the Union Pacific directors have authorized the expenditure of \$10,000,000 in new branches, double track and other improvements. Chief among the latter are a number of proposed new stations on the Nebraska and Wyoming divisions and the completion of the work of ballasting the entire system with Sherman gravel.

**STUPENDOUS CAPITALIZATION.**

**Two Groups of American Railroads Represent \$2,800,000,000.**

The national debts of the great nations of the world are being compared with the money controlled by 59 groups of financiers. In the matter of railroads alone the Morgan group with 15 railroads, controls a capital of \$1,000,000,000. By comparison with such a sum the mere millionaire owns a very poor figure indeed. The mileage of the railroads in this group alone aggregates 23,857.

Again, the Kuhn-Loeb group is almost equally powerful. The combined capital of the 13 railroads and industrial trusts known to be under its control exceeds \$1,000,000,000. The mileage of the roads here represented is 35,834. Here is a combined capital which may some day be used in a common enterprise of nearly \$2,000,000,000.

It is scarcely possible to conceive what a genuine warfare between two such powers would mean to the company at large. There have been one or two encounters, trifling in comparison to the possibilities of such a conflict. In the fight over the Northern Securities a few of the war lords of finance found themselves pitted against one another. Their disagreement, it will be remembered, lasted only a few days, but it left its mark upon a thousand interests in all parts of the country.

**CONTRACTORS GONE.**

**Ogden Plans Want to Do Union Pacific Reconstruction.**

Ogden, Utah, Feb. 12.—Managers of all railroad contracting firms of Ogden have gone to Omaha to be present when the contract is awarded Monday for the reconstruction of 20 miles of the Union Pacific track just east of Ogden. The work contemplated will change the road-bed through Weber canyon and materially reduce the grades.

**SPIKE AND RAIL.**

Traveling Freight and Passenger Agent Underwood of the Chicago & Alton at Denver, is in Salt Lake today.

No. 5, Rio Grande train, was annihilated this morning and came in at first No. 1, three hours late. Trouble in Colorado is assigned as being the cause.

Joseph Rice, who recently resigned as foreman of the round house at Pocatello, has entered the employ of the Rio Grande Western in a similar capacity at Thistle.

The old blacksmith shop at Pocatello in Thistle has been torn down, together with the other abandoned sheds. All of them have been purchased by I. B. Perkins of Blue Lake.

Anthony Schneider, formerly of the Oregon Short Line engineering department during the administration of the late J. C. O'Malley, has been appointed chief engineer of the Cerro de Pasco company, of which A. E. Welby is general manager.

In 1887 there were 12,933 miles of new railroad construction. Last year there were 5,549 miles. The total mileage of the United States at the close of 1931 was 158,737 miles, according to Ponce's manual. On the first of this year the mileage was 24,336 miles.

Chairman Nelden of the committee on railroads and transportation of the Commercial club, this morning stated that the news that the club proposed to employ a freight agent to look after rate discriminations as published in a morning paper was all news to him, as no such proposition was brought up at the meeting on Tuesday evening.

On the basis of 2,000 ties to the mile, an eastern statistician has figured out that if all the ties on railroads in America were neatly piled in a heap on the Rio Grande, they would reach the same proportions as a pyramid of the same proportions as the Great Pyramid of Giza, they would form a mass twenty-four miles as great as the Pyramid of the Pharaohs, measuring 2,200 feet on its base and reaching 1,500 feet in height.

E. O. McCormick, passenger traffic manager, announces that the Southern Pacific company has decided to allow at all way points in California excepting San Francisco and Los Angeles five-day stopovers on the low-rate tourist tickets, which will be sold at current rates Feb. 12 to June 15, inclusive. No restriction upon number of stops is made so long as journey is completed by June 30th. By this plan, many sections of California are placed on an even keel and can make an equal bid for settlers and home-seekers.

Traveling Passenger Agent Ridd of the Rio Grande returned from Mt. Pecos, Tex. evening. He witnessed the rabbit hunt when Joe Young was accidentally shot by his young cousin, who was following with a shotgun. Mr. Ridd's account of the accident is to the effect that the young man was "breaking" the gun, when it went off and the whole charge entered the leg of Young, who was on horseback. So close was he that he was struck in the chest. Young, who had intended and purpose, died to death.

**TEMPORARY OFFICES BURNED.**

The Keith-O'Brien company had temporary offices in the Atlas block. Their loss amounted to only a few hundred dollars, but in point of inconvenience it is considerable. Invoices, all appli-

cations for positions and many valuable papers are now being replaced. Headquarters have been established at the building which the company will occupy. It is the wish of the management that all applications be rewritten and mailed.

**ORIENTAL PLOT.**

**Threatened Extortionation Among the Japanese of the City.**

If Assistant County Attorney Dana T. Smith, ex-County Attorney Christensen, and Attorneys Daly and Little are seen during the next three or four days holding their hands to their jaws as though suffering from ulcerated teeth, the slight occasion no alarm. These gentlemen, were engaged this morning in settling a dispute among a dozen or so Japanese of the city. If they are suffering from dislocation of the jawline, it is the result of trying to pronounce the names of those concerned. Clerk Bernhart took no chances. In cutting the names of the witnesses, he simply shut his eyes, gritted his teeth and uttered a series of short grunts.

The case is that of the Ogasawara, and Frank Tanaka-Tenagawa, charged with threatening to do something or other to one C. Kalka. Messrs. Smith and Christensen prosecuted and Messrs. Daly and Little defended, and the interpreter was Negeyari Otonaka, or something. The witnesses for the prosecution were called by Mr. Smith as follows: Charles Kalka, George Kelgo, T. Kalka, and Frank Tanaka-Tenagawa. The first witness was Kalka. Asked if he knew Ogasawara, he replied: "Ogasawara?" Interpreted it means "the Ogasawara." Tanaka-Tenagawa threatened to kill Kalka and "all the Japs against him" with muriatic acid. Then it was discovered that the complainant didn't know anything about the case and was excused.

**BAGGED BY MAUS.**

**Murray's Marshal Captures a Gang of Hard Cases.**

The county attorney today issued a complaint against Mike Silversky of Murray, charging him with petit larceny. Silversky, an overcoat, valued at \$15, from D. D. Dixon. Complaint was filed against Dick Donohue, John McCarty, Jack Kaylor, John Williams and Mike Sullivan, charging them with vagrancy. The defendants were all "bagged" by Murray's Mike Mauss of Murray and they will be held here for the Murray city jail.

**SPREAD OF SMALLPOX.**

**Bread Disease Continues to Find New Victims Each Day.**

Two cases of smallpox from this city and one from Murray were reported to the board of health today. Susie Adams, aged 5 years, is the fifth member of that family to be stricken with the disease. Her case was reported today.

The family resides at 872 Fourth street. M. W. Ashbridge, an old man, aged 60 years, is also stricken with the disease. He resides at 341 West Fourth North. The Murray case is that of Anthony O'Malley, aged 35 years.

Smallpox at Herrington is reported to be dying out. Only three families are now under quarantine and they are nearly ready to be released. Five members of Samuel Eastman's family were afflicted with it. There were two cases in the family of William Freeman, and there are now only two cases in Thomas Butterfield's family, although the entire family of five members was stricken with it. All the patients are reported as doing nicely.

**ARRIVAL OF BABY BOYS.**

Joseph J. Daynes, Jr., in a moment of unstrained delight, this afternoon, telephoned the "News" that his family had been added to at 7 a. m. today that it was a case of plus a nine pound boy. The happy sire has been ill for a week with the grip but he says his troubles were entirely forgotten in the arrival of his son. Mrs. Daynes' condition is entirely satisfactory.

Friends of Mr. and Mrs. Alvin Beeley will congratulate them on the receipt of the news that the third boy of the family was born last night at 7 o'clock. His coming was under auspicious circumstances and the mother is improving nicely.

**AN OFFICE BUILDING.**

**That is What the Scott-Strevell Block Will Be.**

The experiences of the Atlas block have changed the plans the Scott-Strevell Hardware company entertained relative to building, and at a meeting held at 4 p. m. yesterday, the directors decided to add a fifth story to their East Temple street building to accommodate the local demand for office room.

As the size of the building is 25x40, this fifth floor will give quite an area for the purpose intended. Moreover, it is the purpose of the company to remodel the three floors below for office purposes, with the ground floor for a store, as soon as they have put up their new building. The new structure at the corner of Third South and Third West streets. The elevator which is now in the middle of the building will be shifted to adjoining the Main street entrance, and run up the full five floors.

Architect Heudland has been given the job of preparing plans, and as soon as they are ready, bids will be called for and contracts let. The entire expense of the change is estimated at \$20,000.

The idea is to first take care of the physicians who have been burned out, and in fact, building a regular doctors' headquarters. Mr. Scott, in speaking of the improvement, remarked the great strength of the walls of his building. He said that when it is being built, he had plenty of band iron on hand, and had the object work a lot of it into the walls as they were being built, so that they are bound together as walls rarely are, and notwithstanding the disastrous fire, the walls have never weakened.

**One Dose**

Tells the story. When your head aches, and you feel bilious, constipated, and out of tone, with your stomach sour and no appetite, just buy a package of

**Hood's Pills**

And take a dose, from 1 to 4 pills. You will be surprised at how easily they will do their work, cure your headache and biliousness, rouse the liver and take away all your troubles. Sold by all medicine dealers.

**LAND BOARD**  
**IS MADDAMUSED**

**Court Grants Agnes Twiggs the Relief Asked For.**

**SUIT OVER SCHOOL LANDS.**

**Plaintiff Objected to Being Deprived of Rights Acquired by Purchase and Possession.**

In the mandamus proceedings brought by Agnes J. Twiggs against the state board of land commissioners, Judge Stewart today decided that plaintiff is entitled to the remedy asked for in her petition and ordered a writ of mandamus to issue against the board. According to the petition, plaintiff acquired, by purchase from the original settlers, a possessory right to a parcel of land in lot 5, block 13, five acres plus A, located northeast of the city, which she has occupied and improved since assignment to her on about Sept. 24, 1885.

The land is a part of the school lands granted to the state by the United States and plaintiff alleges that she has the preference right to purchase the same from the state. It is appraised value of 25 cents per acre. She claims that she has made application to the land board to purchase the land and to have the improvements appraised and paid for by the state. The board, and that such application was made within the time required by law but the board refused to grant her application.

The writ of mandamus issued by Judge Stewart today, compels defendant to award to plaintiff the preference right to purchase the land and to credit her with the value of the improvements on the premises upon the books and records of the board.

**Estate of Mary E. Robinson.**  
John W. Robinson today filed a petition for letters of administration of the estate of his wife, Mary E. Robinson, deceased, who died in this city on May 18, 1899, leaving an estate consisting of real property valued at about \$1,000. The only heir to the estate is plaintiff. The petition will be heard by Judge Hall on Friday, Feb. 27.

**Judgment for Defendant.**

Judge Stewart today rendered judgment in favor of defendant in the case of Alice Butterworth vs. Henry Check, which is an appeal case from Justice Nielson's court. The action was brought in the court below to collect \$18.75 alleged to be due on an account. Judgment was rendered in favor of defendant, the court today also found for defendant and awarded him costs of suit.

**To Recover on Note.**

Hannah Jacobs has filed suit in the district court against G. T. Jasson to recover \$1,575, alleged to be due on a promissory note, money loaned, services rendered, and merchandise sold to defendant at various intervals between Nov. 3, 1898, and Dec. 31, 1900. Plaintiff also asks that a certain release of such indebtedness which she made to defendant be declared null and void, for the reason that it was fraudulently obtained.

**Suit for Sale of Land.**

Lucy Seely Neff and 10 other plaintiffs have filed suit in the district court against B. L. D. Bragg, Jr. in other defendants for the sale of part of lot 5, block 8, plat A, and a division of the proceeds among the parties to the action, according to their respective interests.

**Argued and Submitted.**

The following cases were argued and submitted before the supreme court today: Wilson I. Snyder, assignee, appellant, vs. J. S. Murdoch, sheriff, and J. W. Clyde, Jr., respondents. The case at Western Union Telegraph company, appellant; Oregon Short Line Railway company, appellant, vs. David M. Fisher, et al.

**TEN STAYED AT HOME.**

Majority of Senate Tries to Do Business—Wishes It Had Gone.

There are 10 members of the senate who don't believe in side trips when there is business to do. In fact they don't believe in them very much at all. They think, and aver, that they are simply excursions got up for out-of-town and fun purposes, and that the proper course is to stay at home and attend strictly to legislative knitting. These gentlemen are Allison, Bamberger, C. P. Larsen, H. S. Larsen, Lawrence, Lewis, Love, McKay, Murdoch, and Sherman. There is no dissenting opinion, some of the goavays say, when the trip is not in the direction of Provo. Accordingly he is not in attendance at the session today. While the senators are holding with indifference to business this afternoon, neither is he in Logan, but he is absent on special leave. The result is that one man can block any and all business in the senate. It is a bare majority of the senate. It was nearly 3 p. m. when the senate was called to order and the transaction of business commenced in a desultory sort of way. One of the members' authority for the statement that "we are all wishing we had gone to Provo, instead of being here, is that it would have been a good thing."

**AMUSEMENTS.**

In spite of a thermometer which dropped almost out of sight last night, at the hour when people usually attend the theatre, the Grand was well filled with an appreciative audience. The attraction was the famous old play, "The White Slave," a drama fashioned after the lines of "The Octoroon," dealing with slave life in the south, and centering around the woes of the heroine, a white girl, who is falsely accused of having negro blood in her veins, and runs the risk of being sold into slavery. The play was excellently rendered by the company, headed by Miss Helena Collier, a clever actress, and a sister, by the way, of Willie Collier. The villain was played by Mr. Garrick, who established himself as a person not at all grateful to the galleries from the beginning. The chorus singing and negro dancing were of a good average, while the scenic effects, notably of the storm and wreck scenes, were excellent.

**THEATRE TO BE OPENED TOMORROW.**

The theatre will be opened tomorrow

afternoon and evening, the attraction being the University Dramatic club in "The Amazon," given for the benefit of the Swedish famine fund. We are assured the piece will be rendered on this occasion without "vegetable" trimmings.

**WANTED TO BE A "YANK."**

Would Rather be a Subject of Uncle Sam Than King Edward.

Hue A. McMillan, formerly of Ireland, now of this city, was admitted to citizenship this afternoon, by Judge Stewart. When McMillan was being asked by County Clerk James if he was willing to forego all allegiance to King Edward, the candidate for citizenship promptly replied: "You bet yer domed life I will. I want to be a yank."

**GENERAL CHURCH NEWS.**

A small company of missionaries was set apart today for the Pacific Islands. They will sail from San Francisco on the 19th.

Elder J. M. Tanner of the general Sunday school superintendency, will represent the school of Wellsville on Sunday.

Church Reporter Arthur Winter has returned to his desk after a month's absence.

Elder Joseph H. Merrill of Smithfield, Cache county, returned yesterday from Samon, where for the past 15 months he has presided over the Samon mission. He reported the mission in a flourishing condition and says they have 22 Elders and two sisters in the field laboring energetically for the spread of the principles of salvation. There are also a number of deacons at work and their faithfulness has been productive of much good, the Saints in that mission now numbering 1,470 souls.

Quite recently a new concrete house was built at Panguitch, Utah, and another is being erected at Tuleville, Nevada. These add much to the attractiveness of the mission and are a great comfort to the Elders and Saints who meet together from time to time. Elder Merrill was released on account of failing health, as was also Elder George Walter Bramwell of Ogden, who is now at the University of Utah. He is now presided over by Elder Martin F. Sanders of Chihuahua, Mexico. The volcano on Savail, says Elder Merrill is still active, but there is no apparent danger of future eruptions. As to those which disturbed that section some time ago. The brethren had a very stormy passage, the South Pacific sea being high and uncomfortably rough. The entire party had about a wave on the Tuamotu group they did not witness.

The missionaries were passengers on the delayed S. P. train which, when coming down the Malad hill yesterday morning, met with a mishap. It was the smashing of the center driving wheel of the engine, delaying the train one hour and a half. The accident demolished the steam pipes and might have resulted in a serious case, if it had not been for the quick action of the crew. It was a great relief to the passengers, as it was nobody was hurt, although the delay caused some inconvenience.

**IMHAUS IS OUT.**

**"Corianton" Manager Quits Company—Coming to Salt Lake.**

Manager Imhaus, that is, manager until recently, of the "Corianton" company is expected to arrive in Salt Lake some time tomorrow. He will be accompanied by Miss Lizzie Vikreux, formerly engaged to play the part of Zola Isobel. It is stated on good authority that Mr. Imhaus has had trouble with the managers of the Deseret theatre syndicate, who they are now quits. Who is at the helm at the present cannot be learned this afternoon. The company plays in Spokane this evening.

**AFTERNOON CALL.**

Only Continued to Decline in the Pit On 'Change.
