Hundreds of Persons Flock There To Assist in Identification Of the Dead.

# NOW NUMBER FIFTY-THREE.

Blame for B. & O. Wreck Not Yet Fixed-Gen. Supt. Galloway Exonerates His Company.

Washington, Dec. 31 .- The Baltimore & Ohio wreck at Terra Cotta last night grows in magnitude as the hours pass. The most conservative estimate of the dead tonight is 53, with three score of injured in the hospitals or at their homes suffering from wounds and fractures sustained in'the rear-end collision which completely demolished the two day coaches and the smoker attached to the local Frederick express No. 66. Several of the most seriously injured are expected to die during the night, and the death list may yet reach 60 or

Heart-rending and pitiful were the Heart-rending and pitrini were the scenes at the city morgue today, where hundreds of persons have flocked to as-sist the police in the identification of the dead. Women, girls and even men with iron nerves shricked, sobbed and fainted as their relatives or friends were found among the 32 corpses strewn about the floor. sides. Officials of the Baltimore & Ohio rail-road are conducting an investigation of the wreck in Baltimore for the purpose of placing the responsibility for the ter-rible disaster. Gen. Supt. Todd exon-erated Milton W. Phillips, the tele-graph operator at the Tacoma block station, the last signal station that the equipment train passed before crashing into the passenger train at Terra Cotta. The superintendent de-clared that Phillips was obeying in-structions when he went home at 6:30 o'clock, leaving the "double green" sig-nal burning. While making no positive charge. Supt. Todd intimated that the burden of the blame would fall upon the engineer and crew of the extra. The sive members of the crew, who were as-rested shortly after the accident, are now being held to await the result of the official investigation. They are Harry H. Hildebrand, engineer; Ira C, McClelland, fireman; Frank F. Hoff-meyer, conductor; Ralph Rutler, brake-man, and William A. Norris, baggage-master. Officials of the Baltimore & Ohio railmaster

He declares that he notified the operator at Univer-sity station that the train had taken the block against orders. His statement is corroborated by the University station operator, who says that he received the message. Flagman A. Kennedy, sta-tioned at Tacoma park will testify that he saw the signal light in its proper place and that Hildebrand drove past the signal. Fred Lemkum, gate keeper at Tacoma, makes a similar statement. C. W. Galloway, general superinten-dent of transportation of the Baitimore & Ohio raliroad exonerated the com-pany from all blame and put the re-sponsibility on the engineer of the equipment train or the operator at Ta-coma block. "If the coroner's jury fails to hold the engineer or the block opera-tor," he said, "we shall not consider the matter settled. We shall go to the bottom of the wreck. This horrible ac-cident should have been avoided. Some one is responsible, and we intend to leave no stone unturned until the re-sponsibility has been fixed." Chairman Knapp of the interstate commerce commission tonight said to the Associated Press that the commis-sion today considered the advisability of making a special investigation into the causes of the wreck. No decision has been reached, he says, as to when this investigation will be made. J. W. Kelly, trainmaster of the Balti-more & Ohio for this division, is in Washington to make further investi-gation into the cause of the wreck. ### FAMINE GROWS WORSE,

FAMINE GROWS WORSE. Pekin, Dec. 31.—Owing to excessive rains and consequent failure of the crops, the famine in the north of Anhua province, in the east of Honan and in the whole north of Klang Su is worse than at any time during the last 40 years. It is estimated that 4,000,000 persons are starving. Tens of thousands are utterly destitute and wandering over the country. The dan-ger is increased by the activity of the secret societies, as the wanderers are gladly joining them in order to ob-tain rice. About 50,000 refugees have reached the vicinity of Nanking in a pitiable condition. The authorities are unable to cope with the situation.

# Scheme Is.

Scheme Is. London, Dec. 31.—Israel Zangwill, in an Interview today regarding the col-inization scheme of the Jewish terri-torial organization, said they would start a propagarda in Russia for the purpose of explaining to wouldbe emi-grants, to most of whom the words New York and Ameica are synony-mous, the advisability of making Gal-veston instead of New York their port of arrival, as from Galveston no fewer than six railroad lines lead out to all the best points for immigrants. "There is no idea whatever," Mr. Zangwill continued, "of these immi-grants remaining even a single day in Galveston. The object of establish-ing an information bureau at Galves-ton is that immigrants immediately

Ing an information bureau at Galves-ton is that immigrants immediately upon arrival may learn the best places where work at their particular trades can be obtained, and there has not been the faintest idea of establishing a colony in Texas. The whole matter reduces itself to a moral guidance of those emigrating with their own re-sources and to the simple facilitation of their embarkation for Galveston instead of New York. Once the immi-grants arrive in New York the mis-chlef is done, as they never proceed further."

Chicago, Dec. 31 .- A new year's gift of nearly \$3,000,000 was presented by John D. Rockefeller to the University of Chicago today. This is the largest contribution of Mr. Rockefeller to the institution, and brings his total benefactions to the university up to \$19,-416,922,

### SENATE SUB COMMITTEE FAVORS HIGHER SALARIES.

Washington, Dec. 31, -The sub-com

miltee of the senate committee on ap-proriations, which for the last week has been considering the legislative executive and judicial appropriation has been considering the legislative executive and judicial appropriation bill, has considered the question of in-creasing the salaries of senators and representatives, and now it seems probable that the sub-committee will recommend an advance of 50 per cent, on congressional salaries. The sub-committee is practically unanimous in the opinion that such an increase should be made, but there is a general feeling that the house should have in-serted the provision. It also looks as if the committee would recommend that the provision for increasing the salaries of the vice president, speaker and cabinet officers should be elimin-ated unless a corresponding increase is secured for senators and members. Many members of the committee think the senate should be given an opor-tunity to pass on the subject and will advocate the incororpation of an amendment in the bill by the commit-tee covering the entire subject.

## BEAT ROBBERS OFF.

### Burlington Night Agent at York, Neb., Bests Two Men.

Bests Two Men. York, Neb., Dec. 31.—C. C. Morris, night agent for the Burlington, grap-pled with two musked robbers and bent them off at an early hour this morning. One stood guard over him while the other rified the cash drawer. Grabbing a fire shovel, Morris struck his guard a stunning blow, rendering him sense-less. Then he grappled with the robber at the drawer, who had his hands ful-of money. They fought their way to te platform and were engaged in a terrific struggle when the other robber ecovered. He came to the platform, called to his companion, and they ran off in the darkness. As they left they fited two shots at the agent but he was not injured. The robber at the drawer secured a few dollars and left much more on the floor, where it was struck from his hands by the agent. The rob-bers escaped. One was injured, how-ever, for he left a pool of blood where he dropped to the floor.

The radium sait spread over the carpet and became invisible. Dr. Abbe sought the help of Mr. Pegram who vis-lied the hospital with several photo-graphic, plates covered with black paper. These he placed on the carpet where the radium was thought to be. Development of the plates showed him the exact pos-tion of the radium on the carpet. He then had that part of the carpet taken up and with the dust under it conveyed to his laboratory. In the laboratory Mr. Pegram shook all the dust out of the place of car-pet and then by simple chemical process recovered about 60 miligrammes of a mix-ture of barium and radium bromide, which he believes contained most of the sailt that was lost.
