In the Seventeenth ward meeting house next Tuesday night a social "handshake" will be indulged in. The purpose of the gathering is to renew old acquaintances and form new ones and thus bringing the members of the ward in closer sympathy with one another. Refreshments will be served.

A party of young people from this city headed by Frank Godbe, ascended the highest peak back of Fort Douglas, Saturday. The climb covered 2,725 feet. The start was made from Emigration canyon, and before the descent was made into Red Butte canyon a barometer showed the height to be 7,000 feet. A small pile of rocks was erected and the spot given the name of Bandanna peak.

A collision of two street cars at the intersection of Second South and Main streets last evening resulted in derailing one car and in badly shaking up the passengers of both. A second street car going west and a Main street car going south approached the intersection at the same time and each motorman supposed the other would apply brakes. This was not done and as a result the main street car struck the other broadside with considerable force, throwing it from the track. Both motormen stuck to their posts and the cars were immediately stopped and little damage was done.

LARGE MEETING AT THE THEATER

Sermons by Four Eminent Episcopal Clergymen.

BISHOP POTTER NOT PRESENT

Bishop Tuttle Expresses Gratitude Over Present Conditions in Utah—Praises War Record of State.

SERMON AT ST. MARK'S.

Bishop Tuttle Makes an Interesting Reminiscence Address.

Bishop Tuttle was the speaker at the St. Mark's cathedral yesterday morning, and he had an audience that stood over the auditorium to overflow.

His remarks, which were warmly followed, were in part as follows:

"I have fallen to my lot to preach before so many of my old friends, and I see before me the dear faces which remind me of those who have passed into the great beyond. To stand here for fifteen years, I stand among those whom I have learned to love so much, is indeed a blessed privilege, and this occasion is made many fold more pleasant by the presence of so many leading spirits of our church from all parts of the country."

"When I first came to Salt Lake the month of June, 1880, I found a small church of 470 and 2300 with which to spread the good word, but the first large gift was from a Presbyterian of St. Louis, who sent me a choir of 12, and I began to sing in a bowing alley back of the Walker house, and on July 16, 1887, I confirmed my first class of twenty-one in Independence hall, the building which was then a school for teachers."

"You all know the history of our trials and struggles from that time until we dedicated this cathedral, and I mean that through love, law, faith and morality, our efforts have been crowned with success. Just the same as a horse, according to the Scriptures, we have advanced rapidly, so we have love and faith. But it is not the gun which is a power of strength and force, it is the man behind the gun. It was not for the reason of her gun that the queen of England was crowned and admired for Victoria. The beautiful qualities of her womanly nature compelled the whole world to love her."

Bishop Tuttle concluded with a warm eulogy of the late President McKinley.

CHILDREN'S GATHERING.

Large Body of Little Ones at St. Paul's Cathedral.

The members of the six Episcopal Sunday schools of the city gathered at St. Paul's church yesterday afternoon to hear Bishop Hare and Rev. Dr. Lloyd. The music was furnished by St. Paul's Sunday school choir.

The services were begun by prayer led by Rev. Millidge Walker, after which Bishop Hare of Dakota was introduced by the choir. He then delivered the sermon, which was well received.

The choir rendered a song, after which Dr. Lloyd of New York, general secretary of the Episcopal missions, talked to the children. He complimented the latter upon their liberal contributions to the mission fund they had made in the past and endeavored to accomplish in the world.

After a few remarks by Bishop Leary and the services were closed. Bishop Hare pronouncing the benediction.

FORGING TO THE FRONT.

The Chipman Mercantile Co. of American Fork is forging to the front among the ranks of the best mercantile houses in the West.

The Hon. James C. Chipman, now president of the Utah National Bank, and who is also president of the Chipman Mercantile Co., and sole owner of the bank of American Fork, commenced business in 1873 on a small scale in a frame building.

Through his own industry and careful management he has schooled his sons in the same line of work, and his business has grown right along until 1892, when the firm was no more known as James Chipman, but the Chipman Mercantile Co. They have erected some spacious brick and stone buildings, and have their business arranged in departments, which are managed over each.

Every department, viz. grocery, hardware, clothing store, dry goods, harness and lumber yard, is filled and running over with good things, and having can be found on every hand. They have a ground floor space of 30x210 feet, and therefore have excellent facilities for displaying goods. In connection with their mercantile business, they have one of the largest lumber yards and flour roller mills south of Salt Lake City.

Their trade is not confined to Utah, but extends through Idaho, Montana, Nevada and Colorado. They have thirty-five to forty regular hands and handle a great deal of merchandise in a year's time. They run close to the light weight, stuff to reject, and expect to out reach it this year. The reason they have such an extended trade and handle so much merchandise is due to the fact of their willingness to sell on such a small margin, also the fair and honest treatment they give to their customers. They are satisfied to do a great deal of work for a small profit. They have recently put in the latest cash and package carrier system in the state, and are well equipped for doing business right and prompt. People who contemplate visiting conference will find it well stopping off a day in American Fork, and visit the various departments of this mammoth up-to-date business house. Those who have a small stock would do well to write them for price list.

WESTERN STOCK MARKET.

Special Correspondence.

Kansas City Stock Yards, Sept. 28.—The combination of high corn and low cattle has been the cause of much figuring since corn returns have reached a point at which reliable estimates can be made. The market is now in a state of uncertainty, the merging of the two into a high priced beef commodity has begun to look like a money making proposition.

The \$50 to 1,000 pound feeders have advanced markedly, the market has been overlooked and neglected. To a man up a tree, it looks like a good time to get in and take some of the feeders, which are not so plentiful and have on hand as ready for use next fall. Yes, next fall is some time off, but unless all signs fail, the man who is fixed to take a flyer on light cattle and feeders will not regret his venture. He tries to buy in a year from now. Corn fat cattle continue at the highest range of the year and talk about seven dollar cattle is not looked upon as a joke. Yes, next fall is some time off, but unless all signs fail, the man who is fixed to take a flyer on light cattle and feeders will not regret his venture. He tries to buy in a year from now. Corn fat cattle continue at the highest range of the year and talk about seven dollar cattle is not looked upon as a joke. The market is now in a state of uncertainty, the merging of the two into a high priced beef commodity has begun to look like a money making proposition.

The \$50 to 1,000 pound feeders have advanced markedly, the market has been overlooked and neglected. To a man up a tree, it looks like a good time to get in and take some of the feeders, which are not so plentiful and have on hand as ready for use next fall.
