THE EVENING NEWS.

SATURDAY, JUNE 10, 1873.

PRICE OF GOLD.

Corrected daily by DESERET NATIONAL BANK.

SALT LAKE CITY, June 9, 1873.

Buying at $1.15½. *Selling at* $1.17½.

BUSINESS NOTICES.

☞ FOR Bronchial, Asthmatic and Pulmonary Complaints, "*Brown's Bronchial Troches*" manifest remarkable curative properties. d167-3od

— A Memphis belle allows herself to be reported in this manner: "Words issue from her lips, each in strinct with a separate life and expression of their own, and might almost be likened to bees leaving the calyx of a flower, each charged with its burden of pollen and honey—sense and sweetness."

☞ FOR SALE One hundred and twenty fine Missouri Mules.

by WASHBURNE & LEHY,

California Corral, 2nd South Street.

d138 tf

— The *Graphic* in speaking of the young lady who wrote Mr. Carlton's "Betsy and I are Out," says she was "born of four generations of Baptist ministers." Any one who has been so extensively born as that ought not to be under the necessity of being born any more.

☞ BENEFIT to Mr. W. Derr to-morrow night at the Theatre.

— So far from claiming any back pay, Hiram Logeton, of Meredosia, Illinois, a veteran of the war of 1812, died lately just seven hours before his pension fell due.

☞ ARTISTS' Tube Colors, Brushes, fine line of cheap Albums, Steel Engravings and Chromos, just received at Savage's Art Gallery. d166-1m

Theodore Tilton has sent his photograph to Queen Victoria and asked for an exchange.

☞ CAUTION TO THE PUBLIC.—Whereas a certain music firm in this city, satisfied that their inferior instruments will not sell on their own merits, are constantly resorting to "clap-trap" advertisements, "Bogus Challenges" and "Private Trials," in order to palm their instruments on the public as the *best*, knowing at the same time that they are inferior in Power and Sweetness of Tone, Quality of Material and Workmanship.

We therefore beg most respectfully to inform the public that the Mason & Hamlin organ has never been entered for any "Challenge" or Trial in Utah, but we sell them purely on their own merits, and on the disinterested and unbought recommendation of the Real and *Qualified Judges* of the Territory.

We offer NO BRIBES, BUY NO TESTIMONIALS, nor do we make any reduction to purchasers in order to effect sales. Notwithstanding all this, we sell more organs than all the other Music Dealers combined in the Territory. And we have yet to learn of the first purchaser who is dissatisfied with his instrument.

CALDER & CARELESS,

d135-tf Music Dealers, Salt Lake City.

— The coroner of Cleveland, O., while sitting on a drowned man the other day, trying to identify him, was informed by one of the jurors that "if the corpse had an impediment in his speech, he should say it was one of his neighbors, named Kolsey." A vigilant search failed to discover any impediment. Of course it did. How could any man talk, dead or living, impediment or no impediment, when an aldermanic coroner was sitting upon his air-chest, or his digestive apparatus?

☞ "GRAND Ole" to-morrow night at the Theatre.

— The Iowa editors have given up their excursion to Niagara Falls because they could not get free passes further than Buffalo. A vote was taken to see if they would walk from "Baff" down to the Falls, but a majority being troubled with corns, the motion was lost—says the St. Louis *Democrat*.

☞ CONCORD CARRIAGES and BUGGIES at Bain Wagon Depot. d135

— Admiral Gale is erecting a $200,000 cottage at Newport. That gale must have been very successful in "raising the wind."

☞ TWO CAR LOADS of good American Mares are now on sale at the old stand of Willard & Orr, now Jackson & Randall, Second South Street. Those desiring a bargain will do well to call on Mr. H. J. Randall. d166-1w

— The London *News* says that the partial failure of Capt. Hall's expedition gives greater urgency to the demand that the subject of Arctic investigations should once more be taken up by England, which has for so many years kept the lead in Polar discoveries. The St. Louis *Democrat* inclines to the opinion that if England sees fit to make further expenditures of life and treasure in that manner, she will not find the United States—at least for some years—a troublesome competitor.

☞ "BETSY Baker, or Too Familiar by Half" to-morrow night at the Theatre.

— A Pennsylvania paper congratulates itself on the fact that Tom Scott can't control the through route to Heaven.

☞ THE attention of photographers and dealers in chromos, picture frames, etc., is directed to the advertisement, on another page, of E. & H. T. Anthony & Co., of New York, manufacturers and importers of photographic materials, chromos and frames, stereoscopes, views, albums, and all goods of that class. This is one of the best houses of the kind in New York City. It does business with the leading firms of this City, and, we believe, with invariable satisfaction to all concerned. Country dealers, and any who may be about commencing in the line of art, would probably find it advantageous to form a business connection with the house of Anthony & Co.

— Miss Anna Dickinson has been more numerously married (in the papers) than any other maiden on the platform.

☞ D. R. ALLEN'S Brand XX Flour for sale at Geo. Manwaring's, 1st South street, half a block west of Kimball & Lawrence's. d169-tf

— Professor Mitchell says that the world will be so cool 1,000,000 years from now that no one can live in it. Let us weep.

☞ TOWN and country lumber dealers, furniture makers, carpenters, &c., will do themselves a good turn by reading the advertisement, in our columns, of Knowland & Doe, of San Francisco, wholesale dealers in Eastern and Sugar Pine, Cedar, Redwood and Oregon Lumber; also in fancy pickets, sash, doors, mouldings, &c. This firm is one of the best in the West, and carries on considerable business with some of the most extensive and reliable firms in this city, and its reputation is A 1.

— T. A. Rhett, formerly chief of Joe Johnston's staff, is now a full fledged Egyptian general.

☞ HO! YE LOVERS OF POULTRY.—Just arrived from the East and for sale at Liddell & Brown's, north of the Post Office, a large consignment of Chickens, Geese, Turkeys, Ducks and Guinea Fowls, all in splendid condition. Hotels, Restaurants, &c., supplied, alive or dressed, on short notice. d169-tf

— One of the Japanese Embassadors in Paris has embraced Christianity and a French bride simultaneously.

☞ "A BIRD in the Hand Worth Two in the Bush" to-morrow night at the Theatre.

— Mike McCoole and Tom Allen are reported to have signed articles for a prize-fight.

— "Cuba; or, The adventures of O'Kelly," is one of the attractions at a Baltimore theatre.

— A New Orleans paper relates that one of the Congressional excursionists was roped into a "bunko" game and lost $80 in that City.

— When Oakes Ames failed he owed $7,000,000. Within two years he paid every dollar, with interest.

LOST.

WEDNESDAY, June 4th, 1873, a small light brown Russian Leather Pocket-Wallet, containing between nine and ten dollars Co-op. orders, one and two dollar bills. Any person finding the same will be handsomely rewarded by leaving it at the DESERET NEWS OFFICE. d169-2

LOCAL AND OTHER MATTERS.

THERMOMETER 85 degrees in the shade, at 1 p.m. to-day. Fine day.

TELEGRAMS at the Western Union office for Joe Faeren, Stephen B. Rosel, and Dr. Lindsey.

EXPECTED HOME.—Brother Willard Young (son of President B. Young), a West Point cadet, is expected in this city, on a visit to his home and friends, in about one week from now.

SHOULD BE LOOKED TO.—There are some bad rumors afloat regarding a brewery a few miles from this city, where, it is stated, numbers of people flock on Sundays for the purpose of drinking and carousing. Some disgraceful disturbances are said to have occurred there last Sunday, two instances being reported of members of the tender sex demolishing their parasols over the heads of two individuals of the other gender, in attempts to batter the craniums on which the attacks were made.

THE WEBER.—Bro. Geo. H. Peterson, of Coalville, called this morning. He reports crops looking well in that country, no grasshoppers nor signs of any, a large breadth of small grain in, up and looking fine, grass and stock looking the same, everything bidding fair for a large crop, two and four legged animals all healthy. High water and prospects of higher, as the hot weather is fetching down the snow apace. Unless care is extended, some bridges on the Weber and portions of the road in Parley's Canyon are bound to go with the stream. Roads good now. The R. R. to the coal beds has for some time been up to the Wasatch (Mitchell or Kelsey) mine. By the middle of this week it is expected to reach Robinson's first bed, and Crismon's and Robinson's second bed the middle of the week after.

Bro. Peterson informs us that he has commenced the business of wagon making, not mending merely, and those already turned out are favorably reported on, by old wagon users, in comparison with the imported article. Success to home manufacture.

A GREAT VOCALIST COMING.—By letter from Madame Anna Bishop, the most celebrated English songstress, and famous throughout Christendom as a vocalist linguist and traveller, we learn that she intends giving a series of vocal and instrumental concerts in this city about the end of this month. No native English vocalist, perhaps, has ever achieved the fame, and been greeted everywhere with as much enthusiasm as Madame Bishop. In every civilized country her concerts have been received with the most unqualified approval, and in listening to her efforts the public will have a rare musical treat, and there is little doubt that her success will be gratifying. The concerts, we understand, will be given in the Theatre. Full particulars will be announced shortly.

FROM AFRICA.—We had a call this morning, from Elder Eli Wiggill, of the 10th Ward, who returned about two weeks ago from the Cape of Good Hope, having left this City Dec. 12th, 1869, to go on a visit to the Cape to see his relations.

While in Africa he paid a visit to the diamond fields, which are still vigorously worked. Some of the claims, especially one called the "New Rush," are very rich. Shafts one hundred feet deep have been sunk on this particular claim, and even at that distance from the surface of the ground the precious stones have been found.

Gold fields have also been opened in the interior of South Africa, and crushing machinery is being imported there from England. Brother Wiggill thinks the next great excitement will be concerning those gold fields, and the tide of emigration will be likely soon to flow strongly in that direction. Near these gold fields, which are about 800 miles further into the interior than the diamond fields, vast ruins of cities, indicating a past advanced civilization, have been found. On the field many old shafts have been discovered, which apparently have not been worked for many centuries. The climate in that portion of Africa is tropical, and is very favorable to the cultivation and growth of fruit and vegetation generally.

ANOTHER CASE OF LYE POISONING.—W. W. Galbraith's son, aged twenty months, got hold of a can of concentrated lye while its mother's back was turned, last Tuesday, at 4 p.m., at Kaysville, and drank a portion of the contents. Medical aid was procured as soon as possible, but without avail: the poor little fellow died on Wednesday at 11 a.m. The parents were greatly afflicted over the sad occurrence. Too great caution cannot be exercised with such dangerous compounds.—*Ogden Junction, June 6th.*

NEW STORE.—The brick-work of a new co-operative store at Bountiful is nearly finished. It is close to the one in which business is now being done, on the west side of the meeting house square. It is a two story building, with capacious basement, and measures 50 by 27 feet. The Bountiful co-operative store is one of the best conducted of the Branch institutions in the Territory, and is under the superintendence of Brother William Thurgood.

THE "ALDINE" FOR JUNE.—Mr. Harrington, of the *Herald*, agent for *The Aldine*, left us the June number, this afternoon. It is superb in every respect. Its magnificent illustrations and its beautifully clear letter press show that there is no flagging, but a determination on the part of its publishers to improve if possible on the past. This work, we think, has no superior among the illustrated periodicals of the world.

SCHOOL MEETING.—In the 10th Ward School District, last night, a meeting was held, to elect three trustees for one year. Notice of the meeting had previously been legally given. Wm. Fuller was called to the chair, and James Woods was appointed secretary of the meeting. A nominating committee was chosen, who nominated Wm. Fuller, James Woods and Robert Miller, who were unanimously elected.

After the school business was disposed of, another meeting convened, when a universal determination was evinced to go ahead and finish the new meeting house.

ACCIDENT.—This afternoon, at one o'clock, Mrs. Driver of this city and Mrs. Dunbar, wife of one of the proprietors of the Salt Lake *Herald*, were seriously injured by being thrown out of a carriage. They were being driven up the bench when the horses became restless, and as they came around a curve were thrown out of the carriage on account of the quick turn of the horses. Mrs. Driver was badly hurt in the back and shoulders. Mrs. Dunbar, who held a child in her arms, was clinging to her babe and when she fell it was found that she had her left collar bone broken. The sufferers were taken to the residence of Mrs. Driver, where they were attended to with great care.—*Ogden Junction, June 9th.*

We understand that Mr. and Mrs. Dunbar arrived by the train last night, when the collar bone of the latter was set by Dr. J. M. Benedict.

BARRELS AND TUBS.—Mark Lindsey, watermaster for the north-eastern part of the city, says the citizens who live lower down on the water seats are very much annoyed by people who persist in leaving tubs, barrels, etc., in the main ditch, several of which he has been under the necessity of removing. He wishes it to be understood, what everybody ought to understand, that such things must not be left in the ditch, and that whenever he finds them there he will consider it to be his duty as a watermaster to abate them as water-fouling nuisances. Tub and barrel owners in that quarter had better see that such articles are kept out of the ditch. Everybody likes to find the water he uses as clean as possible. Nobody relishes dirty water, and nobody ought to dirty it.

FATAL ACCIDENT.—A man named Mulkay was accidentally killed about twelve o'clock to-day, in a corral, at the rear of Showell's stables, by being dashed against a post, while endeavoring to hold a wild mare by a rope. An inquest was held over the remains of the deceased by Coroner George J. Taylor, at which the following evidence was elicited—

T. TAYLOR.—Being duly sworn, deposed to seeing deceased at Clay Liquor Store last evening. Saw him once previous between this City and Bingham. Deceased told witness last night that he wanted to get a couple of horses to go west. After showing the manic animals he stated that he would give $30 for one of them if witness would ride for him, which he declined doing. He bought the mare notwithstanding, and received a bill of sale for it. Deceased gave witness three $10 bills for the mare, which he (witness) handed to his father. After the purchase was made, witness came to the stable to fix a saddle, deceased commenced "fooling" with the mare, which was wild. The mare had a rope around its neck by which witness had caught it in the corral. The mare started while deceased had hold of the rope, and he was dashed violently against a post while endeavoring to hold the animal. The blow was received on the right side of the breast bone, at the pit of the stomach. In answer to inquiries, by the Jury, witness said he believed Mulkay had a pocket book prior to the sale being made, as he had a slight recollection of seeing it at a liquor saloon.

FRANCOIS BIRD was the next witness. He simply confirmed the testimony of the previous witness.

MARK MCKOOLIS was next sworn and deposed to having known deceased several years. He believed he had a brother in town. Knew nothing of the cause of his death.

DR. TIBBITS was then sworn, and stated that death was caused by concussion of the heart, stopping ventricular action.

The jury returned a verdict in accordance with the facts: George Tringfellow, Geo. Romney and William Groesbeck were the jurymen.

THEATRE.—There will be a performance at the Theatre to-morrow, Wednesday, night, for the benefit of Bro. W. Derr, an old, well known and respected citizen, and a long time, diligent, efficient, and courteous attache of the establishment. Actors, musicians, and attaches render their services gratis on the occasion.

The programme is an attractive one, consisting of "A Bird in the Hand is Worth Two in the Bush," with the following distribution of principal characters—Miss Simons as "Madame Reginald Prodigal," Miss Adams as "Ellen Prodigal," Mr. Cogswell as "Roderick Praiseworthy," Mr. Thorne as "Major Stirmant," Mr. Margetts as "Mr. Caplas Sharke;" a "Grand Olio," including a "Ballad" by Miss Lizzie Davis, "Scotch Hornpipe" by Miss Jessie McGill, "Ballad" by Miss Richards, and song, "I will Stand by My Friend," by Mr. George Teasdale, with chorus by the Orchestra; the performance concluding with the farce of "Betsey Baker," in which Messrs. P. Margetts and J. A. Thompson and Misses Adams and Simons will appear. A good bill and a good benefit.

By Deseret Telegraph.

Murder and Suicide—First District Court.

BEAVER, June 10.—On Saturday, the 7th, Pat Rolly, of "North Star," without provocation, shot and killed W. G. Robinson, at Beaver Lake, twelve miles from "North Star." Rolly suspected Robinson of being connected with some horse thieves, who had stolen his horses, and accused him of being so allied. Robinson denied the charge and a few words passed, when Rally fired. Robinson ran twenty-five feet and then fell dead. Rally followed and fired twice, but the first shot only took effect. Rally returned to "North Star" and gave himself up. The same night he took morphine and died at 3 p.m., yesterday.

At 10 a.m. the District Court opened session, Judge Boreman presiding. The following officers were present: Z. Snow, Attorney-General; J. D. T. McAllister, Territorial Marshal, with deputies R. W. McAllister, Isaac Bullock and John Hunt, on the part of the Territory. On the part of the United States, deputy H. L. Duncan. The court was opened for United States business by deputy Duncan. Judge Boreman addressed the members of the bar, in his remarks declaring that the Supreme Court of Utah, setting aside jurisdiction of the Territorial Marshal, by order, having not been annulled and the office having been declared vacant he would proceed to appoint two elisors one from each side. The court then appointed L. C. Duncan and John Hunt. John Hunt stated to the court that he served several times under the U. S. Marshal and received no pay, and he would not accept office unless some provision were made for his pay. Judge Snow stated to the court he had no doubt the legislature of the Territory would make provisions for persons so appointed, whereupon the elizors were sworn in. The Territorial Marshal being ignored, he and his deputies started for home. The jury were called and a challenge to the array interposed, which is set for hearing to-morrow, at 10 a. m.

In the afternoon seven aliens were naturalized.

DEPARTED.—It will be seen by an obituary notice, in another column, that John Daly Campbell, son of Mr. Robert Campbell, City Recorder, died yesterday, at the early age of eighteen years, lacking a few days. He is spoken of as having been an intelligent and promising youth.

CONCERT.—The Fourteenth Ward Choir Concert, at the Assembly Rooms, last night was a pleasant affair. Those who took part in the exercises acquitted themselves very creditably.

BEAUTIFUL SANDSTONE.—The following was handed in this morning:

"JUNE 10, 1873.

"*Editor Deseret News:*

"Please receive specimens of a jaspery sandstone, from the West Mountains, discovered many years since, by Mr. Thomas Fenton, of this city, and now located within a view to recording. The mineral is abundant, is found in large boulders of sandstone and conglomerate, that have been metamorphosed by heat, and converted into a banded quartzite of great beauty. It has a cleavage apparently at right angles to the original layers of the sandstone, which is colored by metallic oxides. I shall be pleased to give any information respecting this rock, with regard to its probable use. Yours Very Respectfully,

"JOSEPH BARFOOT,
"Museum."

The specimens alluded to in the foregoing are of the most beautiful sandstone we have ever seen, being, as stated by Professor Barfoot, "jaspery." The veins running through it are of several colors, being purplish, cream-colored and whitish. The stone is said to be very abundant. A building composed of it would certainly look very handsome.

MESSAGES.—There are messages at the Deseret Telegraph Office for Joel Parrish, Jacob Haas, Freeman & Brown, and J. F. Evans.

CASE OF SUNSTROKE.—The other day, while a young man, named Meik, son of Dr. Meik, was at work, on the street railroad, he was sunstruck, and has been seriously ill ever since. He made an attempt to leave the house this morning, but was compelled to return almost immediately, and he is now in a complete state of prostration.

FROM CAMPBELL AND PATTERSON'S.—From the book store of those gentlemen we have the "American Builder and Journal of Art," for June; "Peterson's Magazine" and "Leslie's Pleasant hours," for July; and "Harpers' Weekly," "Wild Oats," "Leslie's Newspaper," and a couple of German papers, one of them illustrated, all for June 14th.
