ADMITTANCE WAS REFUSED.

Boys From Morris Home Not Permitted to Enter Hamilton School.

The boys who are wards of the Morris iome this morning appeared at the Hamilton school for entrance, but were not received by Principal Barton, who took the position that they are not residents of that school district. Hence the matter is left in abeyance until the board of education passes upon the question as to whether or not the boys are residents of the district and entitled to attend that school. The committee on teachers and school work of the board of education will meet this after-noon and will consider that matter and will report to the board, when final

will report to the board, when man action will be taken.

There are about 15 boys now in the Morris home, having been committed to that institution by the juvenile court of this city, and some way of providing them with schooling must be determined upon. So far the city has not provided a teacher for the home where the boys are confined and the judge of the boys are confined and the judge of the juvenile court is anxious to have them in school, so decided to send them o the Hamilton school as the Morris ome is located in that district. The home is located in that district. The boys, however, reside in various parts of the city and are only temporary reliderts of the home, hence the principal of the school holds they are not entitled to enter that school. Just what the outcome of the matter will be is in doubt, but it may result in a private teacher being provided for the Morris home, which will be satisfactory to all parties concerned. The residents of the parties concerned. The residents of the Hamilton district have protested against the boys being permitted to attend that school and their protest will no noubt be heeded by the board of edu-

Returns After a Long and Futile Search for Robbers.

After having searched Cheyenne, Denver, Omaha and Chicago for some trace of the men who robbed the McWhirter brothers of over \$10,000 in this city on Sept. 18, Sheriff C. Frank Emery returned last night emptyhanded. In each of the cities named the police officers gave him every assistance possi-ble in searching for the men, but their efforts were unsuccessful. Sheriff Emery was weary from his long trip and constant traveling, but he has not yet given up hopes of finding some of the men, and will probably go out on another searching trip. Two other officers are still out in search of the men.

The preliminary hearing of Chief of Police George Sheets, who is charged with protecting and harboring the men who robbed the McWhirter brothers, will be commenced before Judge Armstrong in the district court on Wednesday morning. efforts were unsuccessful. Sheriff Emeday morning.

CHANGES IN M. I. A. OFFICERS.

Latter-day Saints Urged to Give Their Children a Church School Education.

Provo, Oct. 15,-The quarterly conference of the Utah stake of Zion opened Saturday forenoon in the tabernacle with President John presiding. There were present Elder Reed Smoot, Presidents John and Keeler of the stake presidency, President George Osmond of the Stor Valley (Idaho) stake and members of the high council and other local Church authorities.

After the opening devotional exercises of singing and prayer, President David John reported the stake to be in good condition.

President George Osmond made an instructive address and was followed by Elder Reed Smoot, who spoke of the interesting and profitable seini-annual conference just closed in Sait Lake City, and then called attention to the advice of President Smith, given in the conference, that this is the best possi-ble time for the people to get out of debt; the speaker urged that this ad-vice be heeded. He believed that in-terest in the advancement of the Church was never more general among the peo-

SATURDAY AFTERNOON.

At the Saturday afternoon session President Joseph B. Keeler was the first speaker, his theme being the restoration of the gospel and the duties of the saints Patriarch Alexander Gillispie, 59 years a member of the Church; Patriarch John G. Jones, 57 years a mem-ber, and Patriarch Andrew Watson, 54 years a member, all related personal experiences of a faith promoting nature and bore strong testimonies to the truthfulness of the gospel and of God's blessings and goodness to them and to

Elder Leed Smoot expressed great joy in the testimonies of the patriarchs who had spoken, and compared their lives with the lives of those who are seeking the overthrow of the Church. In speak-ing of them he said that for the saints to yield this or that principle would never satisfy them-nothing but complete apostacy from the Church would. SUNDAY FORENOON.

At the Sunday morning session, President Anthon H. Lund and a large number of the stake authorities were present, in addition to those in attendance Saturday, and there was a large congregation. Bishop George M. Smoot, of the Vineyard ward, and Bishop Ralph Poulton of the Provo-Sixth ward reported the excellent con-

dition of their respective wards. Elder M. L. Pratt of the high council made a brief address and was followed by President George H. Brimhall, who re-ported that the Brigham Young university was in a very satisfactory condition, and speke at some length upon its growth. He cautioned the saints to be careful in the selection of mental coods presented to their children, that they might not become unconsciously ed against the truth.

President Anthon H. Lund took up the idea presented by President Brim-hall and urged the saints to bias their The saints children toward the truth. knew the gospel is true and it was their duties to teach it to their children. The Latter-day Saints should not be

duties to teach it to their children.

The Latter-day Sainta should not be discouraged or fearful, for Mormonism is not dying. The world thought it was when the saints were driven to the wilderness; but the Lord blessed them and the country which was considered worthless, had, through the blessings of the Lord, become one of the most desirable places in which to live in all the world. The Lord would continue to bless the people if they were faithful; trials might come, but they would not be greater than can be borne, and those who pass through them with integrity will become stronger, and greater blessings would follow.

President Lund referred to the great organization of the Church, which compelled the admiration of the world—an organization not devised by man, but devised by the Lord. The principles of the Gospel were the same today as those taught by the Savior and His apostles. They were the truth and that is what the saints want, and they should exercise care not to be led away by error, but remain firm and steadfast to the truth which they had received.

The general and stake church officers were sustained at the Sunday afternoon session. Superintendent Hickman of the Y. M. M. I. A., having gone east to study, and Second Asst. Myron E. Crandall being about to leave the State, were released with a vote of appreciation for their setvices, as was Miss Vilate Elliott, second assistant in the presidency of the Y. L. M. this being one of the greatest gifts the parents could give their children.

President Lund read from page 343 of the Doctrine and Covenants, the declaration from the Lord that He was not pleased with many who were mem-bers of the Church, because they had not repented of their wickedness, the pride of their heart and their overtous, ness, and that if they did not forsake their wicked ways He would chastise them. This revelation was given about a year before the Kirtland temple was a year before the Kirtland temple was dedicated; and the chastisement came to the people as the Lord had threatened. The Prophet Joseph, in the dedicatory prayer, in the Kirtland temple, prayed for great power to accompany the servants of the Lord, who were to go from Kirtland, to proclaim the gospel. The prayer was a prophery and go from Kirtland, to processing the pel. The prayer was a prophesy and it had been fulfilled. President Lund further referred to the dedication of further referred to the dedication of further referred to the prophecies and further referred to the dedication of the temple, and the prophecies and blessings connected therewith, all of which had been fulfilled. The saints had come here and had been blessed with peace, although here they had at times felt the chastening hand of the Lord, and they should be guided by the experience of the saints before the experience of the saints before coming here, and carry out the will of the Lord, honor their callings and labor continuously in th various duties of the Church, and render obedience to the laws of God, that they might receive the blessings promised by the Lord.

ARTICLES TO BE FILED THIS WEEK

Instructive Addresses by Prest. Salt Lake & Garfield Interurban Line Will Incorporate Here Possibly Thursday.

OPTION ON SALTAIR GIVEN.

Money Put up by Promoters to Bind The Sale of Big Resort Properties.

On Wednesday or Thursday articles of incorporation of the Salt Lake & Garfield interurban line will be filed with the secretary of state. The date has not been definitely fixed, however, as one of the prospective incorporators, who, it is understood, is also connected with the Electric Operating Coustruction company of Broadway, New York, has yet to arrive in Salt Lake before the company is formally and definitely launched. He is expected here on Wednesday.

In the meantime the projectors of the company are not idle. In addition to securing the option on the Sanpete valley road, as outlined in the "News" exclusively last week, they are now seeking to purchase the Salt Lake & Los Angeles road and Saltair pavilion outright from the present holders.

Mr. A. D. Bowen, the chief repre-sentative of the crowd which promises effective and cheap interurban service for Salt Lake, is quoted this morning as saying the deal has been already This is denied by the owners of these valuable properties, Joseph Nelson, secretary and treasurer of the company and eashier of the Utah Na-tional bank, this morning said to the

You can deny without any reservation that either the Salt Lake & Los Angeles or the Saltair pavilion have been sold by us. We are not offering, nor have offered, these properties for sale, because, instead of us losing money on them, we think that they are good investments. Last season are good investments. Last season we netted over \$70,000 from these propwe netted over \$40,000 from these properties over and above all expenses, and next season we anticipate that the net earnings will go up to \$100,000. Three parties have been after us to sell. They came to us. We did not go to them. Before the properties are sold the purchasers must pay our price. If we get what we think they are worth we might sell, but as yet there has been we might sell, but as yet there has been

"I also desire to correct some wrong impressions that have been printed regarding the Saltair properties. They are owned exclusively by C. W. Nibley, J. E. Langford and myself. The transfer from the Church to us was not a ronninal one, as a morning paper in-sinuates. It was a purchase outright. We own a third of the stock each. Col. Nephi W. OPTION MONEY PAID.

Mr. A. D. Bowen when seen and asked arr. A. D. Bowen when seen and asked regarding the option paid on Saturday afternoon said: "Our plans are not yet in shape to give out. Money was paid on Saturday to bind the sale and we intend to purchase the properties."

INTEND TO ELECTRIFY.

Mr. Bowen stated that it was the in-tention to electrify the road and ex-tend it to Garfield. An up-to-date ser-vice to and from the beach all the year round will be inaugurated, together with a number of improvements along the amusement line and the erection of a large hotel for the accommodation of

WILL DOUBLE TRACK.

If the property is purchased the line will be double-tracked in time for the opening of the season and Salt Lake opening of the season and Sait Lake will be given a taste of what interurban rapid transit really is. With electric cars running frequently out to the lake all the excitement and discomfort of scrambling for the train will be a thing of the past. The scheme of the past of the past of the care of the past comoters is to make Saltair the Coney siand and White City of the west. The only question is, will they pay the price at which the beach is being held by its three owners?

PRESIDENT CASTRO.

Port of Spain, Island of Trinidad, Oct. 15.—According to the latest advices received here from Caracas, Verzuela, the condition of President Castro, who has been ill for some time past, has grown worse. It is asserted that he can no longer speak or move, and his death may occur in a few days. In order to conceal the facts in the case, the newspapers of Caracas have been publishing rejorts of acts of elemency on the part of the president, and texts of numerous telegrams of congratulation, purporting to have been received by him on/his reported complete restoration to health.

In connection with the critical state of President Castro's health it is asserted that an uprising, which is likely to become general throughout Venezuela, is certain to occur on the announcement of his death. The signal for the outbreak, it is further stated, will be given by the inhabitants of the western state of the republic, who already are armed. The inhabitants of the rest of the interior of Venezuela are described as being undecided owing to their ignorance of the actual condition of the president, which is carefully concealed by those in immediate attendance upon him.
