Gambetta intriguing-German Railroad system Demoralized.

Paris, 9.-The correspondent of the London Times, August 27, referring to the intrigues of Gambetta for the ascendancy, says that he has been surreptitiously stirred up the country to agi-tate and petition for an immediate dis-solution of the National Assembly. The New York, 9.—The allusion to the abortion business in Judge Bedford's charge to the grand jury has been the means of directing public attention to the New York statutes upon the subject of these crimes, especially as they affect newspapers in which the advertise-ments of practicing abortionists appear. There are found to be statutes existing which prohibit the advertising of these practitioners, and it is believed steps solution of the National Assembly. The effect of this agitation, all through the country, seems to have pricked the conscience of Faidherbe, and he tendered his resignation. The significant feature of this is, that it is the first step towards the resignation of the whole extreme "left" en masse, for it is thus that they hope to force the chamber to a dissolution. This step gained, their project is for Gambetta and Faidherbe to come forward as candidates of all the practitioners, and it is believed steps will be at once taken to have them rigidly enforced.
