

## EUROPEAN TARIFF COMBINATION.

Austrian View on the Struggle for Industrial Supremacy.

### TO COPY AMERICAN SYSTEM

The United States Has Set the Example and Other Combined Nations Should Follow It.

New York, June 27.—A dispatch from Washington to the Times says: Consul Mahin, of Eichenburg, Austria, has sent to the state department an article recently contributed to the Munich Allgemeine Zeitung, by Dr. Alexander von Pez, under the title, "The Struggle for Industrial Supremacy."

After reviewing the progress of England and Germany in commerce and manufactures, Dr. von Pez passes to the United States, "rising in the new world with sinister rapidity." He says among other things:

"The three competing countries now suffer from obstacles which hinder their free movement. Germany has China, England has the Transvaal, America the Philippines. From appearances, the United States will be the first to throw off its burden. After that country shall be free from the Philippine war, its industrial advance upon Europe will be fully manifested."

Further on Mr. Pez says: "What should first be done in defense is to follow the example, in regard to tariffs and trade treaties, which the United States has set for us. At the European seashore (England is included herein) a tariff should be established counter to that of the union, while the United States should arrange tariffs touching each other which would not materially differ from those now existing."

"What will the United States do? This is her affair. We only follow her example. A powerful young, acute and rich in future possibilities as the citizens of the union will find boundaries to their aspirations only when they see their attempts at further conquest will be met with vigorous resistance."

### CONSIDINE-MEREDITH TRAGEDY

Slayer of Seattle's Ex-Chief Has Nothing to Say.

Seattle, Wash., June 26.—When seen this morning in the county jail by the Associated Press representative, John W. Considine, who yesterday shot and killed ex-Chief of Police W. L. Meredith, would say little regarding the murder and the charges made against him. "My attorneys wrote Meredith that he must retract the statements he had made which reflected on my character or I would sue for libel. It was that which made him attack me."

The nucleus of a mob was formed last night among Meredith's friends, and wild talk was made of attacking the jail. A committee waited upon the newspapers and asked for support, but were warned that the law must take its course, and the sheriff, Cuddehe, was put on his guard. Thereafter the movement dwindled away and came to nothing.

Considine has engaged ex-Congressman James Hamilton Lewis to act with his attorneys.

The Times today publishes the text of the letter sent Meredith, which was the undoubted cause of Meredith's attack upon Considine. The charges made by Meredith were first published in the Times upon Meredith's authority, and demand was made by Considine and his attorneys upon the publishers of the Times for an apology and retraction. This was four days before the murder. Col. A. J. Bloeth, editor and publisher of the Times, absolutely refused to retract.

An examination of Meredith's skull shows that the blow struck by John Considine would have produced death in a short time even if he had not been shot by John Considine. Such is the result of the post-mortem examination held today.

At least 2,500 persons visited the morgue this afternoon and viewed the body of ex-Chief Meredith. The room where it lay was fairly filled with out-flowers and floral offerings. The internment being made Sunday afternoon.

There is a growing belief that Meredith was not far from insane at the time of the shooting. He had brooded over his grudge against Considine for many days, and his friends had talked with him on the day of the tragedy, saying that he was undoubtedly mentally irresponsible.

Considine's friends and acquaintances say that Considine brothers had not been gunned for Meredith.

Considine is known to have told a prominent county official two hours before the shooting that while he would go to almost any length to obtain redress against Meredith he had no intention of harming him personally, and would not do so. The Considines are still in jail. They refuse to talk by advice of their lawyers.

George W. Houston, a train dispatcher who was a bystander and who was shot during the affray, may lose his left forearm. The second charge of twelve buckshot fired by Meredith passed through the member, completely shattering it.

### LAND LOCATORS INDICTED.

True Bills Found Against 102 Montanans.

Helena, Mont., June 26.—The United States grand jury made final report tonight, returning 102 indictments. They are almost all against land locators in the Missoula land district, and charge perjury in swearing that they filed upon lands for personal use, whereas they transferred them soon after securing title. The lands comprise about 15,000 acres. The persons indicted include school teachers, ranchers, servant girls, and in fact all classes of people.

### OMAHA STOCKMAN ARRESTED.

Charged With Refusing to Have Cattle Inspected in Colorado.

Denver, June 26.—Mr. Ed. H. Reid of the Platte Commission company, Omaha, Neb., was arrested here today on a complaint charging him with bringing into Colorado twenty-seven cattle from below the thirty-sixth parallel in Texas after having refused to submit to an inspection by a Colorado inspector and declining to pay an inspection fee as is provided for by the Colorado statutes, he maintaining that his federal bill of health was sufficient to carry his cattle into or through any state in the Union.

Mr. Reid was taken before the criminal court, where he was defended by Hon. Ralph Talbot, who represented the National Live Stock association. The prisoner was convicted and sentenced to six months in jail. Judge Hallett of the United States district court will

### ASSAULTED A WOMAN.

Denver Thug Pursued and Brought Down with Load of Shot.

Denver, June 26.—Charles Griffin, about 35 years of age, who claims to be a switchman, is in jail charged with having attempted to assault a woman at a lonely point on Thirty-first street near a bridge over the Platte river. The affair was witnessed by Health Officer A. W. Atha, who ran to the woman's assistance. Griffin ran, but was followed by Atha and a colored man named W. Morgan, who lives in the neighborhood. The latter armed with a shotgun, Griffin was ordered to stop, but paid no attention until Morgan brought him down with a charge of shot. He was not dangerously wounded.

Griffin was lodged in jail, and the police declare that his description tallies perfectly with that given of the man who made a murderous assault on Miss Celestine Coleman last Monday night, and they think he may be the notorious "Capitol Hill" thug.

### CLAIMS FOR LOOTING.

General Heywood, Commandant of Marines, Indignant at Them.

Washington, June 26.—The claim amounting in the aggregate to \$40,000, tals reported to have been preferred by the Chinese Merchants' association on account of alleged looting by the American marines at Tien Tsin will be referred to the military authorities for report. So far it has not been presented to the state department. Gen. Heywood, the commandant of marines, is indignant at the reported intention to prefer this claim, and he cites a telegraphic report from Admiral Diney dated some time ago, upon the general subject of looting, containing the most specific denial of the allegations so far as any of the United States marines were concerned.

If the woman at work should make answer to the other woman, she might, perhaps, say: "You never had to scrub and clean when your back ached so that it seemed that every movement would break it in two." It's had enough for a woman to suffer. But when she must suffer and slave at the same time she reaches the limit of her endurance.

Weak women who have been made strong by the use of Dr. Pierce's Favorite Prescription, recommend it to others as a godsend. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I have been ailing some time now, being troubled with female weakness," writes Mrs. W. H. Johnson, of Avondale, Chester Co., Pa. "Every month I would have to lie on my back I tried many different medicines and nothing gave me relief until I began Dr. Pierce's medicine, using two bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery.' These medicines have cured me. When I began your treatment I was not able to do very much, but now I do the work for my family of nine, and feel better to-day than I have for a year."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache. They do not create the pill habit.

## CAN TAKE CARE OF THEMSELVES.

West Virginia Will Look After Her Flood Sufferers.

### GOV. WHITE TO THE PUBLIC.

He Puts the Dead at Fifty—Others Put It at a Hundred—Distressing Scenes Presented.

Charleston, W. Va., June 26.—Gov. White today issued the following: To the Public—Advises received from personal representatives sent to Key, Stone and the flooded district in the Flat Top region are to the effect that the loss of life will not exceed fifty and that there is no distress which cannot be provided for by the home, people and no need of outside help of any kind. The coal operators and other citizens are, as Cashier Edwin Mann of Bluefields puts it, "plenty able to take care of the people," and desire to do so.

The offers of help from all over the country have been generous and are highly appreciated. If it should develop that aid from the outside is needed, I will take occasion to inform the people of West Virginia of that fact. In any event, I feel sure that the citizens of this state will be willing and able to supply any aid that may be needed.

A. B. WHITE, Governor.

### STORIES OF RESCUE.

Williamson, W. Va., June 26.—There is no longer any doubt that the list of dead, the result of the recent flood, will exceed 100. Parties reached here this morning from the Flat Top region, the first authentic information received from the scene of disaster.

The section visited by the flood was thickly settled, but the population consists chiefly of miners who were at work at the time. The large majority of the dead are women and children, and thrilling stories of rescue are told.

At Beckman a mother climbed a huge pillar of railway trestle, holding to her breast her only child. Her home was washed away, but the mother and child were saved. Fifteen persons are said to have been drowned at Beckman. At Keystone probably thirty persons perished. In one instance persons fled to an island and climbed small trees, only to be swept away by a tremendous wave. Later by the tide, which was filled with debris of every kind.

On Dry Fork the loss of life is great. Bodies are scattered all along the stream, many of which will never be recovered. On saloons at Keystone were washed away, four lives being lost in one of them. Dr. Hatfield's home at this point was not washed away as formerly reported, and his family is safe.

At Brooke the loss of property is also severe, but only three lives are said to have been lost there. The residence from Brooke to Davy, forty-three miles, is completely in ruins. Hundreds of mine miles can be seen in heaps of wreckage with human bodies.

Near Davy a horse was found hauled in a drift and a human body hanging from the saddle, the man's feet having hung in the stream. A report has just reached here that fifteen bodies are lodged in a drift at a point below the tunnel, twenty miles east of this city.

No bodies have been recovered today. One of the latest reports of drift was set on fire last night by some unknown person. The current was so swift that the drift was estimated to have been at least twenty-five bodies. The heap is now a pile of smoldering ashes.

### HUNDREDS STARVING.

Lager, W. Va., June 26.—Early this morning an Associated Press correspondent reached this point, which is in the central part of the northern section of the scene of Saturday's flood. Here Dry Fork enters Tug river. The loss of life here is even greater than at first reported. It is safe to say that 100 dead will not be far from fact. The inhabitants are desolate and hundreds are starving.

There is no way of conveying provisions along the Dry fork of Tug river save on muleback. This afternoon, in one drove, twenty mules loaded with provisions made the start across the mountains to Bradshaw, fifty miles away. It is said that many families have had no food since Saturday.

At Panther a large county bridge was swept away. A number of cabins occupied by lumbermen and two large commensals were also swept away. One of the latter floated down the river like a steamboat, and was not wrecked until turning a bend half a mile below. Forty box cars were carried away from sidings hereabouts. The current was so swift that all the soil is washed from many small bottoms to bedrock. Even the graves of the long dead were robbed by the raging torrent.

Near when last evening in a pile of drift was discovered a coffin. It is supposed that it came from the graveyard below Beckman, which, it is said, was about half cut away by the tide, leaving exposed many skeletons.

Just below Welch a bridge was swept away with six people on the structure. How many of these perished is not known. From four miles east the remains of a bridge were seen.

My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick nine weeks and we tried everything. She became so emaciated that it was painful to take her and we thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk.

Well it worked like a charm and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible and on Grape-Nuts.

Sometimes a number of the family were stricken with La Grippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us.

We all appreciate what your famous food has done for our family.

### FAMILY FOOD.

Crisp, Toothsome and Requires No Cooking.

A little boy down in N. C. asked his mother to write an account of how Grape-Nuts had helped their family.

She says Grape-Nuts was first brought to her attention on a visit to Charlotte, where she visited the mayor of that city who was using the Food by the advice of his physician. She says: "They derive so much good from it that they never pass a day without using it. While I was there I used the Food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in the family regularly."

### A FIRE AT SEA.

Terrible Experience of the British Mule Transport Monterey.

Chicago, June 27.—A special to the Tribune from New Orleans says: The British mule transport Monterey, from Capetown, has arrived in port after a terrible experience with fire at sea. Twelve days out from St. Vincent damage were discovered in the after hold and gained such headway that the heat prevented the use of the usual means of extinguishing fire on shipboard.

Flames and clouds of smoke poured out from the hold and when the officers and crew were about to abandon hope First Officer Reid and Fourth Officer Harrison volunteered a daring plan. They proposed to tie the wire cables around their bodies and have their companions lower them down the side of the ship until they were abreast the port opening into the burning section. It was a desperate expedient, but after a short consultation was adopted.

As the fire and heat the water lines. Reid and Harrison were lowered down until they were submerged in the sea nearly up to their waists. Hanging thus under heavy ropes, the ship was hauled up. A hose was then lowered to them and for several hours they hung, swimming outward and inward, pouring a stream into the blazing hold. In this way they finally checked the flames. The vessel was badly damaged.

### IMPERIAL FEDERATION.

Important Conference Held at the British Colonial Office.

New York, June 27.—An imperial conference has just been held at the colonial office, says the Tribune's London correspondent, and preliminary arrangements have been made for taking up the question of court apparel, Canada, Australia and other colonies were represented, but nothing decisive was done. This conference is one of the sequences to the Australian commonwealth settlement, which was arranged by a compromise between Mr. Chamberlain and Mr. Barton and which left Canada and other colonies in an anomalous position.

The question lies on the fringe of the whole fabric of imperial federation, the wool of which few English statesmen understand. Mr. Chamberlain and Lord Milner are perhaps the only two Englishmen who have the power of forecasting the trend of a force of public opinion throughout the empire. They know that the time will come when there will be a parliament for the empire in which the United Kingdom may be outvoted, and which will order customs relations on business principles for the welfare of all dependencies including an imperial Zollverein.

### How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season. It is everywhere admitted to be the most successful medicine in use for the most common complaints of children and adults. No family can afford to be without it.
