

## UNIVERSITY CLUB OPENS TONIGHT.

A Notable House Warming to be  
Given in This City This  
Evening.

WILL BE A FINE AFFAIR.

Preparations Have Been Made for the  
Entertainment of Four Hundred  
Guests—The New Home.

The fine new home of the University club on east South Temple street will be formally opened tonight, with a house warming that promises to be one of the most notable functions ever held in this city. Preparations have been made for the entertainment of 400 guests, and the cream of Salt Lake society will be in attendance. The elegant furnishing of the club has been enhanced by the addition of a wide assortment of plants and palms in the way of special decoration, and with the fine music to be furnished and the choice refreshments, the event will be particularly enjoyable. There has been such a rush for invitations that the lines had to be drawn perhaps rather close, but there has been equity and fair treatment and no intentional slight or oversight.

The University club has been in existence ever since 1886, though during the first years of its existence it had a rather precarious time of it. The move originated in a notice inserted in a local paper June 27, 1886, calling on college men in town who desired to unite in organizing a University club to send postal cards to R. J. Jessup, a Yale graduate then as now a reporter in this city. There were enough responses to warrant a start, though the appearance of a foreign university man named Bredemeyer who was objectionable to a number of local college men, left the move in statu quo for some time. But Messrs. Gage of Amherst, Elliott of Harvard and Jessup of Yale finally took the matter up again, and pushed it through to successful organization. The club met for a time in different law offices, but finally secured rooms in the Raybould building, afterwards on the top floor of the Walker Opera house, and then on the upper floor of the McCormick block. From the latter place, the club moved into the Jennings building, May, 1890, which it has since last fall taken possession of, the elegant new home to be opened tonight.

The new building is of colonial style of light pressed brick with white stone trimmings, and with the basement of four stories and an attic high. A marked feature is a roof garden—the first to be built in this city. The roof, and commanding a fine view of the valley to the south and west. The interior of the house is of old English style. The main floor is in Flemish oak, except the ladies' dining room, which is of the hard-wood floor. The prevailing tints are in dark green, maroon and shades of ochre. The ladies' dining room is tinted in maroon and cream and frescoed ceilings and dainty electric lamps. The ladies' entrance is just off this apartment.

On the second floor are the library, ladies' parlor and dormitories. The parlor, with its wide of the prevailing tints in green and white shades, with carpeted and ornamental wood work and white tiles. A rich green velvet carpet covers the floor, and the hangings are green over white lace curtains. The furniture is mahogany. The library is a very comfortable apartment, suitably furnished, and well equipped with large cases of books, something of a contrast to the ladies' office on East Temple street, where a dozen members of the embryo club met to receive from Prof. L. E. Holden, the first lecturer of a library, a copy of the life of Schuyler Colfax. They somebody gave a dictionary, and presently the library began to grow until finally it has assumed its present proportions. A wide reading room, adjacent library. The upper floor is given up to dormitories.

In the basement are very comfortably furnished sitting, billiard, card and study rooms, the wood of the different rooms being of different kinds and well arranged. Then through the building there are wash and retiring rooms and clothes presses and other desired conveniences. The heating is by steam, and the electric light fixtures generally of the very best and most attractive styles. The kitchen back of the cafe is a special feature, it is commodious and well arranged for every phase of culinary operations, and the ranges, and equipment generally, are of the latest make and most effective designs. This part of the house certainly could hardly be improved upon.

The present membership of the University club is about 200, and the officers are: Frederick Lyon, president; E. F. Perry, vice president; H. B. Winder, secretary; Walter Shoup, treasurer; J. Walcott Thompson, chairman social committee; George W. Ritter, chairman house committee; A. K. Therman, chairman finance committee. These officers, with the officers named, form the board of directors.

Rev. J. Brainerd Thall was the first president of the University club, and his successors have been: George W. Foster, Richard H. Brown, Ellsworth Dacett, H. M. McCartney, E. B. Clinehour, Walter K. Wright, Union Worthington, Walter A. Murphy, William A. Wilson, Clarence E. Allen, Causten Brown, Jr., Charles B. Brooks, A. C. Ellis, Jr., George L. Nye and Frank Peters.

### A WOMAN'S COMPLEXION.

It is rank foolishness to attempt to improve skin or complexion by the use of cosmetics, or "local" treatment, as advocated by the "beauty" doctors. The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures indigestion, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size, 25 cents. At all druggists.

G. G. GREEN, Woodbury, N. J.

There is no Substitute for

It is a Matter of Health

## TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

Congressman Poland introduced a bill in the house providing that in elections in Utah and Idaho all voters be made to swear that they do not belong to the Church of Latter-day Saints.

Congress appropriated \$300,000 for the relief of those who were made homeless by the ravages of the Ohio river flood.

The fall of Sunkat in Egypt occurred. Tewfik Bey, preferring death to surrender, blew up his fortifications and made a sortie. The 700 soldiers were slaughtered.

### TEN YEARS AGO TODAY.

A blizzard struck Kansas City and tied up all streetcars and railroad lines for over 24 hours.

The Annie Pixley case was on in New York. Her husband was accused of knowing something about the actress' death.

### FIVE YEARS AGO TODAY.

A. B. Jones, charged with the shooting of Banker J. M. Stout, was arraigned and given time to plead.

The American troops followed up their two victories with a third between Calocan and Malaban.

The Rio Grande Western branch to Park City became snowbound and the prospect was for a week's tie-up.

### GOLDEN WEDDING.

That of Mr. and Mrs. Robert Ure Celebrated at West Bountiful.

On Tuesday last Mr. and Mrs. Robert Ure of West Bountiful celebrated their golden wedding, a feature of the celebration being the marriage of their granddaughter, Miss Mary Hillhouse of Rockland, Ida., to Mr. Heber C. Allen, a prominent young merchant of that place.

The gathering was characterized by the presence of the 12 children and 30 grandchildren of the aged couple, all of whom sat down to a sumptuous wedding dinner during the afternoon. In the evening the granddaughter was married by Bishop Muir, after which there was a wedding supper, followed by an enjoyable program and a dance. Altogether the affair was one of the most complete of such gatherings ever held in this state.

Robert Ure was born in Scotland, Sept. 29, 1829. He came to Utah in 1849 and located in Salt Lake City, where he met and married Miss Mary Muir, daughter of Stephen Muir and Elizabeth Blackwood. They were married in August, 1854, by Patriarch John Smith. Some years after their marriage the couple moved to Bountiful where they have lived ever since.

Ring 155. Write P. O. Box 406, for distilled water. Its easily done.

### THE NEW BOARD IN.

Recently Appointed Public Works Officials Step Into Office.

Three of the members of the board of public works qualified yesterday by filing their bonds with the city recorder, after which they assumed the duties of their office and met with the old board and formally took charge of the work. The members who qualified are Colonel E. A. Wall, chairman; W. W. Ritter and A. Fisher. The other two members, Stephen Smith and J. D. Wood, were out of town yesterday, but they will qualify as soon as they return.

The old board met at the usual hour yesterday afternoon and transacted some routine business. The most important matter was the approval of the plans for paving east First South street, from State to Second East, with asphalt. The board men adjourned sine die and the new members then took charge. The members of the new board will receive the benefit of the increased salaries provided by the revised ordinance passed by the city council. The chairman will receive \$50 per annum and each of the other members \$20 per annum. The new board will not meet in regular session until the latter part of next week.

### FARMERS WANT HELP.

Owners of Dry Bench Lands Will Petition the Government.

Somewhere in the neighborhood of 200 "dry" farmers assembled yesterday in the West Jordan meetinghouse and took preliminary steps looking to the organization of a canal company for the purpose of receiving government aid. The meeting was presided over by C. M. Nokes, while F. R. Lloyd acted as secretary, and it was the sentiment of those present that if the Utah lake project is carried out, an effort be made to secure sufficient means to build a canal for the purpose of diverting water onto the higher lands on the west bench of the valley and thus reclaim something like 2,000 acres. In his preliminary work on the Utah lake project, the fact that a great area of land on the west bench could be reclaimed by diverting water from the Jordan river, which flows into the Utah lake main project, would be entirely feasible and the water supply would be ample, it is believed. At the meeting yesterday a committee was appointed to circulate among the land owners a petition asking the interior department to construct the required additional canal and pumping plant, and signers representing 5,000 acres of land were secured at once. It is believed that all who are interested will sign as soon as the opportunity is presented to them. Another meeting will be held within the next two weeks.

### THE COUPLE MISSING.

Unnatural Mother Deserts Husband And Four Small Children.

Mrs. Joseph J. Paul, wife of a Salt Lake grocer, and Percy Brunger, a former grocer partner of Mr. Paul, are missing, and Sheriff Emery is trying to locate the pair, who are believed to be in Denver.

ver, Brunger and Paul could not agree in business, so separated, but lately Brunger lived in the same house with Mr. and Mrs. Paul, where Mr. Paul says he was too attentive to his wife, and as a result Brunger finally left, a month ago. Mrs. Paul left Salt Lake a week ago, telling her husband she was going to visit with relatives. The same afternoon, Brunger, who was employed at the grocery of Fowler Bros., departed, after taking a \$1 bill from him, and leaving a note stating what he had done. The fellow told friends he was going to California, but it is not believed he has gone there at all. Mr. Paul became suspicious and presently discovered that his wife had not gone to visit with relatives, but believes that Brunger and Mrs. Paul left the city together. She leaves four small children behind her in a mother's care. Both Brunger and Mrs. Paul are a little over 30.

### PRETTY SAFE RULE TO GO BY.

When there is a feeling that the heart or lungs, blood or liver, brain or nerves are diseased, at once commence to doctor the stomach. That is the foundation of the trouble in 40 cases out of every 100. Commence to regulate the digestive organs, get them in healthy working condition, and the other troubles will leave of themselves. Diseases which have their beginning in the stomach must be cured through the stomach. The medicine for stomach disorders and half the ills of life, is Dr. Gunn's Improved Liver Pills. They are sold by all druggists for 25c per box. One pill is a dose. These pills put all the digestive organs in good condition so that disease has no basis to work upon. For sale by Z. C. M. I. Drug department.

Ring 155. Write P. O. Box 406, for distilled water. Its easily done.

### SALT LAKE BOY DID IT.

Merry Mixup in Cat and Dog Fight Which Ends in Police Court.

Precher's son—bull-terrier—frightened cat—pistol shot—police court—Richard, the son of Dr. David Utter, formerly of this city, and now of Unity Church, Denver, is in some trouble. According to the Denver papers, he has killed a valuable pup belonging to Harry Bohm, a prominent jeweler and a neighbor, and to the charge he must make answer.

Last Sunday, it seems, instead of going

### WELL TOLD.

Doctor Explains Feeding Without Medicine.

"It is a well substantiated fact," says a Maine physician, "that a very large percentage of the ailments of humanity are due to errors in diet causing indigestion and the myriad affections following in its train. It was Dr. Abernathy I believe who said 'One-fourth of sickness we eat keeps us the other three-fourths we keep at our perils.'"

"Loss of flesh from whatever immediate cause is due primarily to nutritional disturbances involving defective assimilation. With these remarks I wish to relate briefly a case of mine, (not the only one by any means), in which Grape-Nuts was the connecting link between disease and health."

"It was a case of chronic gastritis, where the patient had seen the rounds of much stereotyped treatment and where there was much depression caused by long persistence of distress at the stomach—pain, gas and burning soon after eating."

"Though I had been regulating the diet considerably while giving medicine it occurred to me that I would try regulating it without medicine and in looking among the foods I soon found Grape-Nuts was the best adapted to my purpose. Starting in with Grape-Nuts alone I allowed my patient to take it first with hot water and a very little sugar at intervals of three hours. After a few days I instructed the patient to use it with warm milk. (It should have been served with cream on the start.)"

"Improvement was marked from the first. The eructations of gas were at once greatly diminished and the terrible burning and distress were lessened in proportion while the spirits brightened. At the end of two weeks my patient had so far improved that she was allowed some chicken broth which digested perfectly. It has been over two months and she has gradually increased her diet in variety until it now includes all that is needed to avoid monotony and maintain health."

"Grape-Nuts however still holds a prominent place on her table as it will continue to do for she realizes that it is a salutary agent." Name of the physician given by Postum Co., Battle Creek, Mich.

Look in each box for the famous little book, "The Road to Wellville."

## WAITING FOR CHIEF LYNCH TO SIGN.

Red Union Proprietors Must Get  
Signature of Police Department Head.

### WILL THEY WAIT IN VAIN?

Believed They Will as it is Not Thought  
He Will Defy Public Opinion—  
Other Matters Considered.

One of the proprietors of the Red Union saloon, Mr. Yancy, appeared before the committee of the city council last night and made a plea for the renewal of the license for the resort. He denied that Bruce Johnson was in any way interested in the saloon. He was informed that until Chief of Police Lynch approved of the renewal of the license the council could do nothing whatever in regard to the matter. Several of the councilmen who are especially desirous of granting a renewal of the license, have used every effort to get Chief Lynch to approve the license, but their efforts have been in vain, as the chief intends to respect the wishes of the mayor in this matter.

The finance committee, in compliance with the opinion of the city attorney, heretofore published in these columns, decided to deny the claim of Fire Chief Devine for \$450 for services as inspector of street lighting for 30 months. The chief will probably bring suit against the city to recover the amount he claims as due him.

The same committee considered the proposition of purchasing 5,000 copies of the book being published by R. W. Sloan and George E. Blair for distribution at the Louisiana Purchase exposition at St. Louis. The title of the book is, "The Mountain Empire—Utah," and it will contain about 175 pages of descriptive matter and illustrations showing the resources of this state. The cost of the 5,000 copies will be \$2,500. It is proposed to publish 50,000 copies of the book for distribution at the fair. The committee postponed action on the matter for one week.

Whereupon the dog's master swore to a complaint, but as water had been poured on the dog's head, the charge is discharging firearms within the city limits.

### DESTROYED BY FIRE.

Residence of Prof. Bradford Reduced to  
Ashes Yesterday Afternoon.

The home of Prof. William Bradford, principal of the Lowell school, and located on Capitol avenue on State street between Tenth and Eleventh South, was destroyed by fire yesterday afternoon. The house was a total loss and will cost \$27,000 to replace, while the loss on contents, the most valuable of which were saved, will reach the sum of \$500, fully covered by insurance. The loss on the building, however, will be \$17,000, as there was but \$1,000 insurance. The fire department made a speedy response to the alarm, but as water had to be taken from a ditch, practically all that could be done was to save the adjoining buildings, some of which were but a few feet away. The fire was due to defective wiring and was well under way before it was discovered. However, the firemen rendered valuable aid, as did also the neighbors, to whose efforts the fire was finally brought under control. Prof. Bradford's library was badly damaged.

### FAMOUS WORK OF ART REPRODUCED.

The famous bust of Washington made by the illustrious French sculptor, David D'Angers, which was destroyed in the burning of the Congressional library in 1857, is to be reproduced in bronze by the order of the French government and presented to the American congress. The gift is designed to show the appreciation of the members of the mission which represented France at the recent unveiling of the statue of the Count de Rochambeau in Washington and as an expression of the gratitude of France because of that act.

The Washington bust has been made from a plaster cast of the original marble. It will be appropriately received by a joint committee of the two houses of congress, and a suitable site will be selected for it in the capitol.

The average number of visitors in New York city is estimated at 269,000, and their stay is ten days.

KINDLY TAKE NOTICE that Ely's Liquid Cream Balm is of great benefit to those sufferers from nasal catarrh who cannot inhale freely through the nose, but must treat themselves by spraying. Liquid Cream Balm differs in form, but not medicinally from the Cream Balm that has stood for years at the head of remedies for catarrh. It may be used in any nasal catarrh. The price, including a spraying tube, is 75 cents. Sold by druggists and mailed by Ely Brothers, 56 Warren St., New York.

Every Movement Hurts. When you have rheumatism, Muscles feel stiff and sore and joints are painful. It does not pay to suffer long from this disease, which may be cured so promptly and perfectly by Hood's Sarsaparilla. This medicine goes right to the spot, neutralizes the acidity of the blood, which causes rheumatism, and gets an end to the pain and stiffness. Rheumatism is cured by Hood's Pills, 25c.

MR. WHITNEY IN 1855. A RACE TRACK SHOOTING OF MR. WHITNEY IN 1903.

## WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of the Uterus, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

### WHEN LOVE INVITES

The woman follows the man of her choice though the path leads out of Eden into a world untrod and untried. What is her reward? Many a time when her health is broken by the burdens she has borne for the man's sake, her reward is to see him turn from her to seek rosy cheeks and brighter eyes. It is man's nature to crave beauty in the wife as in the maid. And what woman is there, who would not be happy to keep her maiden bloom from motherhood, has crowned her with happiness? Some women seem to have found this secret of perpetual youth. "Age cannot wither them." They have learned that fairness of face and form depend upon the health, and that the general health depends upon the local womanly health. They establish regularity of the periods. They dry the

disagreeable drains which draw the luster from the eyes and the vermilion from the lips as well as sap the body's strength. They quell the internal fires of inflammation in which the very elements of beauty are consumed. They heal the ulcer which gnaws into the very life. They walk the world as wonderful women exempt from the sacrifice to love. How have they done this? By the use of Dr. Pierce's Favorite Prescription, which makes weak women strong and sick women well. It matters not how weak the woman is, or how sick she is, "Favorite Prescription" will cure the womanly ills that vex her; will round out the sunken curves of her form, put light in her eyes, tint her cheeks with health's carnation, and make her a glad and happy woman. Hundreds of thousands of women testify to the truth of these statements. Let every ailing woman read the two testimonials given below and remember that these two women speak for more than half a million other women cured by the skill of Dr. Pierce and by the use of his "Favorite Prescription." There is no alcohol in "Favorite Prescription," neither has it any opium or other narcotic.

"Two years ago I began to gradually lose my health," writes Mrs. Nellie D. Stark, Vice-President Bethesda Society, 30 Gardner Street, Worcester, Mass. "Became nervous, lost my appetite, and

it seemed impossible to obtain a good night's rest. I became emaciated, hollow-eyed, and suffered with frequent heart palpitation. Complexion was bad and "muddy" looking and I had a haggard expression. I felt as though life had lost its charm; did not care to live, for life without health is simply a living death. Dr. Pierce's Favorite Prescription changed all this. It came as a blessing into my home; I felt better a short time after starting to use it, and within a month I was like another woman. New life, health and vigor returned and my husband fell in love with me all over again, and a new light and happiness came into my life. Your medicine did all this for me, and it is certainly worthy of praise."

"I was a great sufferer for six years and doctored all the time with a number of physicians but did not receive any benefit," writes Mrs. Geo. Sogden, 641 Bouda Street, Saginaw (South), Michigan. "I had given up all hope of ever getting better, thought I would write to you. When I received your letter telling me what to do I commenced to take your 'Favorite Prescription' and follow your advice. I have taken ten bottles in all, also five vials of the 'Pleasant Pellets.' Am now regular, after having missed two years and suffered with pain in the head and back. I was so nervous, could not eat or sleep. Now I can thank you for my recovery."

## Complete Showing of Ladies' and Misses' Underwear Lines.

Thoroughness of workmanship, shapes, fit and finish are features of all our underwear, irrespective of price, and will give satisfaction and be much appreciated by the most particular.

DRAWERS—Made of good muslin, tucks and embroidery trimmed, 25c.

DRAWERS—Made of good quality muslin, tucks, lawn ruffs, lace trimmed, 50c.

DRAWERS—Very full, deep dounce, eight hemstitched tucks, 65c.
