Local and Other Matters.

FROM TUESDAY'S DAILY, APRIL 1.

Taken to the Asylum.—Porcher, the crazy man, was taken to the lunatic asylum last evening, where he will remain for the present, to the gratification of all peace-lovers in the community.

Arrived.—The company of salutes from the Southern States, in charge of Elder John Morgan, arrived at the end of the railroad track in Colorado early on the morning of the 28th ult., from whence they proceeded by wagons to Conejos.

New Zealand.—By letters from New Zealand, dated March 1st, we learn that Elders Pearce, Shreeve and Batt were all well and energetically pursuing their labors. Elder Walker and a small company of emigrating saints will leave those islands on the 4th of March, on board bound.

Burglary in St. George.—The courtesy of Elder Erastus Snow furnishes us with the particulars of a burglary which occurred in the St. George Co-operative Store on Saturday night, the 22d inst. The burglar, however, got away with booty, but was caught in the store, and was held to await the action of the District Court.

On the Pacific.—We learn through private letter from Elder Fred. J. Lay, that Elder Samuel Cant and family, Brother Burr and wife, of Melbourne, and Brother Henry Speight, of Sidney, left Australia on the sailing ship *Malay*, Captain Love, about the 20th of February, on their way to Zion. Another small company will be ready in a few months.

Settled.—The case of Lawrence A. Brown vs. Tooele City et al, was settled in the Third District Court on Saturday, the 7th, after a long absence, and we presume, a large amount of ballotin, finally came out court with a verdict for the plaintiff of \$125. The suit was caused by some trivial water difficulty, and the plaintiff was arrested and put to some annoyance and inconvenience by the Tooele authorities, for which he desired the moderate reward of \$8,750.

"Instructor."—We find No. 7 of the ever-welcome *Juvenile Instructor* on our table, and a hasty perusal of its pages shows that the little favorite is continually improving, as the minds of its readers become enlarged and more capable of understanding the interesting truths presented in its columns. The present number contains illustrated articles on "Paul's Defence before Felix," the "Sea Bottom," besides Editorial Thoughts, Curiosities of Human Food, Joseph Smith the Prophet, Travels in India, Dialogues, etc.

Sericulture.—Mr. John Carlisle Mill Creek writes the proceedings of a meeting held there on Sunday, the 30th inst, by Father raves. The subject treated upon was the raising and correct manipulation of the silkworms so as to make the business a source of profit to those engaged in it. He related the fact that in France, where the silk industry is largely carried on,

the national debt had been liquidated by the income from this important branch. He gave some interesting statistics concerning the productions in the Old World, and closed with referring to the facilities possessed here in Utah.

Sexton's Report for March.—Access, 1; acute lung disease, 3; bronchitis, 1; Bright's disease of kidneys, 1; convulsions (infantile), 2; consumption, 1; congestion of liver, 1; diphtheria, 13; fever, enteric, 1; brain fever, 1; scarlet fever, 1; heart disease, 1; marasmus, 2; old age, 6; still born, 1; total for city, 36. (Brought from country places for interment, 7.) sex of decedents, males, 16; females, 20; ages—under 1 year, 5; 1 to 5 years, 5; 5 to 10 years, 4; 10 to 20 years, 3; over 20 years, 15. Nativities—United States, 25; England 9; Ireland, 1; Holland, 1.

JOSEPH E. TAYLOR, Sexton.

Z. C. M. I. Manufactory and Tannery.—This morning, in company with Superintendent W. H. Rowe, we visited the Z. C. M. I. Boot and Shoe Manufactory and Tannery. The latter is situated in the 19th Ward, half a block east of the meeting house. It is a roomy and convenient establishment, containing the latest improved machinery, and possesses every facility for manipulating the hides from first to last and turning out leather to compete with the finest importations. On the first floor, are 32 vats, a coloring wheel, and a hide mill, with a well stocked hide house at the rear. On the floor above are a stuffing wheel, a splitting machine, and grinders. In a side apartment below, is the bark mill, with 2 leeches adjoining, and in still another, a 15 horse power engine, home made, which runs the machinery of the establishment. The full force of hands at this place is 12, superintended by Mr. William Pierce, an expert from Cleveland, an affable gentleman and a man who thoroughly understands his business. Some of the best leathers we have seen are made here, upper, kip, calfskins, buff, harness and some sole leather. Four tons of leather were yesterday sent to the manufactory.

We would like to describe the process of leather-making, as we witnessed it, but space is lacking at present. We may at another time, however. Returning, we went through the Boot and Shoe Manufactory, which opened yesterday in the Z. C. M. I. warehouse, at the rear of the Emporium Buildings. In this commodious apartment 50 hands are employed, which number will, in all probability, be increased to 100 within a month or so. In the cutting room four men are at work, in the fitting and machinery room, six women and three men, and in the rough cutting room four others. In the rivetting and finishing department, 24 hands are busily employed. The other rooms are the treeing and packing department, and the stock room and office. The enterprise starts out with brilliant prospects. All their goods are of excellent quality and are handled exclusively by Z. C. M. I., and so successful have they been in times past, before the consolidation with Z. C. M. I. in competing with importations, that the trade of eight or nine lines of foreign made boots and shoes has been stopped. Their aim is, of course, to stop outside importation in their line altogether, furnish the trade of the Territory and export the surplus. We are confident this will yet be done. Mr. Rowe is a live and successful manager, and his hands are enterprising and ingenious workmen. The institution is receiving the best aid and encouragement of President Taylor, Messrs. Jennings, Hooper, Eldredge and others, and we predict for it a bright and prosperous career. It is worthy of the patronage of all classes of people, and as a first class institution, which Utah has long needed, we wish it every success. More anon.

FROM WEDNESDAY'S DAILY, APRIL 2

An Interesting Discourse.—From an Ogden correspondent we learn that Elder Samuel W. Richards ad-

ressed the congregation in the Tabernacle at that place last Sunday morning. The attendance was good and the discourse pleasant and instructive. The people were glad to see Brother Richards once more in their midst.

Fillmore News.—Advices from Fillmore state that the Spring is the driest known for 20 years. Apple, pear and peach trees are in blossom already, and the scarcity of snow in the mountains, more remarkable than for years, predicts a summer of unusual drouth. A number of families are leaving for Arizona.

Utah Southern.—The extension of the Utah Southern is now being crowded along with great speed. Tracklaying commenced on Monday last, the ties are or will shortly be on hand, and the grading is so far advanced, that it is expected by June 1st the road as far as Chicken Creek will be completed. That point is to be the terminus of the U. S. R. R., and from there the new company will proceed with the extension.

Kicked by a Horse.—A little five year old son of Mr. Robert Anderson, of the 18th Ward, met with a severe accident about noon to-day. A stray horse had entered the yard, and the little fellow was trying to drive it out, when the animal threw up its heels and kicked the child in the eye, inflicting a severe hurt. Mr. Anderson promptly drove the horse to the stray pound, which, next to the owner's barn, is the best place for all such animals.

Going North.—The anticipated Spring travel to the northern mining region has begun. Parties are leaving every day for the Snake and Salmon River countries, with the hope of making their fortunes in mining or merchandizing in those newly made popular localities. If the exodus drains Salt Lake of tramps and bummers, though it may appear selfish toward Idaho, we will be more than gratified that the north is the magnet for the present.

Arrived.—We were favored with a call, to-day, from Elder C. C. Rich, who arrived last evening from Bear Lake. He is in good health, though somewhat fatigued. He reports the prospects good in the upper country for a favorable season. Considerable snow has fallen by which the ground has been well saturated, and the supply in the mountains will be sufficient for this season's irrigation. The general health is good, and the people are busy and prospering.

Honor to Whom, &c.—In a report of a ladies mass meeting at Coalville, which appeared in the News a short time ago and which was condensed from a lengthy report written by Mrs. Davis of this city, we are informed that the name of Mrs. Anna Cluff was omitted from the list of speakers. This was done inadvertently. Mrs. Cluff, who is first counselor to the President of the Relief Society for the Summit County stake, took an active and prominent part in the meeting, and read a very interesting address on that occasion written by herself, which we take great pleasure in announcing, although at this late date.

City Council.—Proceedings at the City Council on Tuesday evening, April 1st, 1879, Mayor Little presiding:

John T. Thompson petitioned the council to open a certain street east of the city wall, on the 19th Ward bench. Referred to the committee on streets and alleys.

The assessor and collector asked that the time for returning the assessment roll for 1879 be extended till June 10th, in accordance with requirements of the city charter. Granted.

The committee on irrigation, to whom was referred the petition of B. T. Mitchell, asking that he be supplied with irrigating water, reported that the petitioner is not entitled to City Creek water, and that his recourse will be to assist in the Eighth West Street Canal Extension, and thus secure a right to irrigating water.

The committee on water supply reported that they had consulted with the directors of the East Jordan Canal Company, and the latter were willing, if the corporation would purchase one-half of the stock of said company, to let the city have one-third of the water flowing in the company's canal; or if the city would obtain from the county the right to one-eighth of the water of the Jordan, then the company would grant to the corporation one-half the water flowing in the canal. The committee had made no arrangements, and were still making inquiry and investigations within the scope of their powers and instructions from the council.

The police court report for March was presented and adopted. Following is a brief statement of the showing made by the report. Number of cases tried during the month, 65; fines collected in cash, \$1,091.90; in labor, \$90.60.

The following regular expense bills for March were presented and allowed: City marshal, \$586.60; chief engineer of the fire department, \$149.80; gas, \$1,063.90; Dr. Young, board and care of three insane patients, \$79.05; J. A. Wright, lighting oil street lamps and guarding water tanks, \$45; medical treatment of prisoners, \$30; G. C. Ferguson, regulation and care of City Hall clocks for three months, \$22.50; S. Rogers, janitor at City Hall, \$15; collecting dog tax, \$14; C. M. Evans, clerical work in auditor's office, \$24.75; services of five assistant watermasters in March, \$212.50.

The bill of W. Hyde, jailor, for boarding city prisoners (1,500 meals at 10c.) \$150, together with a statement of the jailor that he was losing money by boarding the prisoners at the present prices, and proposing to furnish meals at the following rates: When the number of meals in the month does not exceed 1,500, the price to be 15c. each; above 1,500 and not more than 2,000, 12c.; above 2,000 10c.; was referred to the committee on city prison.

The following appropriations were made: \$500 contingent, to be drawn by the city watermaster, in payment for water gates, etc.; \$500 to pay interest on borrowed money; \$6,000 to reimburse the supervisor for work done on the streets.

The committee on municipal laws was instructed to present a bill for an ordinance providing for a license tax on billiard tables.

The Council adjourned till next Tuesday evening, at 7 o'clock.

FROM THURSDAY'S DAILY, APRIL 3

Arrived.—Hon. Geo. Q. Cannon, Utah's Delegate to Congress, arrived here from Washington last evening, on leave of absence. He is in excellent health and spirits, and will most likely remain here about a week.

Returned.—Mr. T. E. Taylor, of the DESERET NEWS business department returned home on Tuesday evening from a trip to the chief cities of the East. He greatly enjoyed his visit, and looks much improved by his rest and change of scenery.

"Woman's Exponent."—The April 1st number of this interesting periodical contains considerable good reading. "Charity," a poem from the gifted pen of Emily H. Woodmansee, adorns the first page, while "The Voices," another by an anonymous writer, is found within. "Noble Work for Women," is an editorial of elevated tone and philosophic tenor, well worth perusing, while Mrs. King's historical effort, "Joe's Letter," Dr. Pratt's "Work for Women," etc., are of equal interest to all lovers of useful and entertaining literature.

Deseret Museum.—Official catalogues of the Centennial Exhibition and papers on ethnology have been received from C. R. Savage, Esq. The Agricultural Reports for 1875 and 6 have been received from our Delegates office, and a set of pamphlets on scientific subjects have been presented by the curator, all of which have been added to the Museum Library. A contribution

of Indian relics from Brother Stookey and other brethren of Johnson settlement, and an Indian cranium from the mounds, presented by Wm. Husbands, Esq.; with fragments of obsidian from the mounds west of Jordan River, have been added to the ethnological department of the Museum, by Geo. C. Lambert, Esq.

"Junction" Items.—Some of Ogden citizens are leaving for different parts in Idaho.

A stranger died on board the U. P. train, coming into Ogden Tuesday night. The railroad company will attend to the burial to-day.

Ogden wants an opera house and a race course.

Funeral services over the remains of the late Ephraim Poulter were held yesterday afternoon, in the Fourth Ward school-house. Elder David M. Stuart preached the sermon.

The Berger Family and Sol Smith Russel will appear in Ogden next Thursday evening. The troupe now consists of 15 artists.

Last evening a pleasant gathering took place at the residence of Elder F. D. Richards, in honor of his 58th birthday. Many happy returns.

J. X. Ferguson, Mont Ferguson and Charley Moore left Ogden for Salmon River, yesterday morning.

Yesterday, before Commissioner McNutt, Wm. Clark was bound over in \$200, to answer to the grand jury on a charge of obtaining money under false pretenses. He was remanded to the custody of the sheriff.

NEW YORK TRADE.

Graefenberg "Marshalls"

CATHOLICON

AN INFALLIBLE REMEDY FOR ALL FEMALE COMPLAINTS. PRICE \$1.50 PER BOTTLE. THE EXPERIENCE OF MANY YEARS AMONG THE MOST CULTIVATED AND REFINED HAS RESULTED IN STAMPING THIS REMARKABLE PREPARATION AS THE ONLY RELIABLE REMEDY FOR THE DISTRESSING DISEASES OF WOMEN. SOLD BY DRUGGISTS.
