on the nerves. Almost instant relief can be obtained by taking Dr. Miles Anti-Pain Pills, and without any bad after-effects. Take one on first indication of an attack-it will ward it off. They are a pleasant little tablet, sold by druggists everywhere, doses 25 cents: 25

never sold in bulk. "I was subject to constant head-nches for a period of four years. At times I was almost unfitted for the work in which I am engaged, that of station agent. Through the advice of a friend I tried Dr. Miles' Anti-Pain Pills, and the result has been that I have entirely eradicated my system of those continuous headsches that follow a continuous for me all that is claimed for them."

claimed for them." O. L. RUSSELL, Agt, C. & N. W. Ry., Battle Creek, Ia. "I have used Dr. Miles: Anti-Pain pills for a year now for neuralgia and find there is nothing like them. They surely have been a blessing to me." MRS. M. J. HAMILTON, Upper Alton, Ills. Your druggist sells Dr. Miles? Astle

Your druggist sells Dr. Miles' Anti-Pain Pills, and we authorize him to return the price of first package (only) if it falls to benefit you. Miles Medical Co., Elkhart, Ind

entered and the list will be much larger than that of last year. There are many outside entries. There will be dogs from Montana and Colorado and likely some from Idaho, and the class of dogs en-tered is of a higher order generally than those in last year's show.

AUTOMOBILE NOTES.

Harris county has 200 automobiles, the largest number of any county in Texas. "Chassis" is both singular and plural, according to a French authority, and "chasses" never is correct.

Even Manitoba has caught the speed-ing fever, for a bill to regulate the speed of automobiles is now before the pro-vincial legislature.

The Milwaukee Automobile Trade As-sociation is arranging for a three ays' reliability contest, to be run as soon as the roads are settled.

During 1907 the automobile industry in "the United States gave employ-ment to \$3,000,000 persons, factory hands alone receiving \$5,150,000 in wages.

Provided the public shows proper ap-preciation, several hundred taxicabs will be installed in Boston by the company which has inaugurated a service there.

A steampship line that runs to the West Indies has arranged for tourists, when purchasing tickets, to engage auto-mobile tours of the various island winter resorts.

Automobiles are selling at the rate of four a day in Indiana, according to the secretary of state, who has registered over 5,000 since the new law went into effect.

The Westside Y. M. C. A., New York, claims to teach a man how to run a car in four weeks. Formerly the course in its motoring school was twice that length.

Although Bluefield, W. Va., is a city of 20400 population, with fine, paved streets, there is not an automobile in the place, Apparently the manufactur-ers have overlooked a good field.

Though only entering upon the third year of its existence, the Society of Au-tomobile Engineers already includes in its ranks a large precentage of the most prominent builders in the country.

At the first meeting after the Auto-mobile Club of America, the big New York organization, voted to increase its active membership limit to 1,250, it re-ceiveed almost enough applications to fill the list, Probably the first hospital in the country to have a bed specially en-dowed for the accomodation of victims of automobile accidents will be the new Garretson Hospital at Philadelphia. The craze of Paris motorists to car-ry images in their cars as mascots has been given a humorous turn by a big motor firm, which has manufactured bronze minatures of a gendarme with a bandage over his eyes.

ON ARMOR BELT "Fighting Bob's" Letter to Secretary Metcalf Given Publicity. SAYS POSITION IS WRONG

ADMIRAL EVANS

Adequate Protection Is Not Afforded In Present Design and Some Changes Are Suggested.

Washington, March 28 .- Secy. Metalf today made public the views of Admiral Evans regarding the location of the armor belt on battleships which he has just received in a lengthy re-port from the admiral on this and other subjects connected with the voyage of the Atlantic fleet to the Pacific coast. The admiral says:

"Judging from the figures contained in the several replies from command-ing officers which relate to this sub-ject, it would appear that better pro-tection might have been afforded had those beits been appeared by Ject. It would appear that better pro-tection might have been afforded had those belts been originally placed be-tween six inches and one foot higher; this on the theory that the command-ing officer would admit sufficient water before an action to sink the belt to within about 18 inches above the water-line; but even this is open to question, for it has been noted that even when heavy laden and in the smooth to mod-erate seas which have thus far char-acterized this cruise, the ships fre-quently expose their entire belt and the bottom plating beneath. Under the sea conditions in which battles may be fought a belt of eight feet in width, if considered alone, is too narrow to afford the desired protection, wherever it may be placed, and the question be-comes an academic discussion with cer-tain arguments on each side. It is understood that on the latest ships this question is of little import as the cita-

understood that on the latest ships this question is of little import as the cita-del armor is but one inch less in thick-ness than that on the waterline, and for those ships already built it is be-lieved that when the bridges are re-moved and all weights which will be landed should war break out are taken into consideration, the able will will

landed should war break out are taken into consideration, the ship will rise to the six to 12 inches which is be-lleved to be the maximum that it could be desired to raise them." The report of Admiral Evans is made in accordance with instructions given him by Secy. Metcalf before he sailed from Hampton Roads. The secretary seid it had no reference whatever to

said it had no reference whatever to the criticisms of naval construction which have appeared since the sailing of the fleet.

SENATOR SMITH SEATED AFTER TEDIOUS DEBATE

Washington, March 26.—Although the senate met today with the intention of devoting the entire time of the session to th currency bill, the credentials of Senator-elect John Walter Smith of Maryland early became the subject of discussion that consumed nearly four hours and destroyed all hope of dis-posing of the currency bill before ad-journment today. The result of the debate on the pro-priety of swearing in Mr. Smith was a

priety of swearing in Mr. Smith was a vate of 34 to 29 in favor of receiving his credentials and leaving the regular-ity of his election to be considered by the committee on privileges and elec-tions and by the senate later.
