AMERICAN.

WIRED FROM WASHINGTON.

WASHINGTON, 3.—The light-house board is making arrangements for the erection of a light-house on Northwest Point, Seal Rock, California. Thos. Hallatan will be appointed keeper of life saving station No. 7, Golden Park, California.

The President has appointed Jos. Kirkpatrick Postmaster of Dillon, M. T.

The total amount of bonds offered for redemption in response to the Treasury Department circular, providing for payment of bonds embraced in the 270th call, is $2,900,200. The circular gave notice that $5,000,000 of these bonds would be redeemed on the 4th inst. in the order of their presentation. The total amount of bonds presented since the issue of the circular is only $635,200. The other bonds to be redeemed are those held by the State of New York, amounting to $2,265,200, which were surrendered for redemption with interest to date of payment several days before the circular was issued. The above-mentioned facts are construed by officials of the Treasury Department as an indication that the stringency of the money market was more fictitious than real.

At a cabinet meeting to-day the vacancy in the Postmaster Generalship was under discussion. The President will not leave for Florida until Thursday or Friday, and will probably fill the vacancy to-morrow or next day for Postmaster General.

The President has appointed Wm. H. Pratt collector of customs for the District of Humboldt, California.

Secretary Folger is now undergoing special treatment on account of the condition of one of his eyes; he will be confined to his house two or three days.

The Secretary of the Interior decided that an application to amend homestead entry is a matter of right only when necessary to correct a mistake, clerical or otherwise, which would result in depriving the settler of his actual home or valuable improvements. If allowed in any case as a matter of official discretion it should be to enable him to take the full quantity allowed by law, and to avoid conflict with other asserted claims. The new land sought to be included must be actually vacant, and free from adverse rights legal or equitable, so that no injustice to any other person shall result therefrom.

The cross-examination of Dorsey in thd Star Routs trial was continued to-day.

Death and Disaster.

NEW ORLEANS, 3.—*Times-Democrat* Moss Point, Miss., special: A boiler in one of the Griffin Mills exploded; nine killed, ten wounded. Jim Cooper, of New Orleans, was instantly killed; Simon Lasky and W. Brown, of Mobile, scalded; since died. Five other colored men seriously hurt; also one white man.

Harrisburg, 3.—The upper section of Brown and Reel's foundry burned, containing hundreds of patterns of a valuable character; stock insured.

San Francisco, 3.—There was a gas explosion in the cellar of the Palace Hotel to-day. The fire department and underwriters' patrol were quickly on hand, when a second explosion of greater violence blew out the sidewalk light, and severely burned the following: Engineer Ross, of the fire department; Captain White, of the patrol; John McGarry, driver of truk No. 1; Geo. B. Larson, G. W. Harrison, J. McCormick, Eugene Drew, John Lord and R. Chapman, members of the patrol. It is feared the injuries to Ross and Chapman will prove fatal. Several others were burned less seriously. Damage to property slight.

New Haven, Conn., 3.—The Guilford people are much excited over the failure of Representative Edwin Griswold, merchant; also the Guilford Canning Company, with which Griswold was connected; assets estimated at $2,000, liabilities $30,000 to $40,000.

New York, 3.—The schedules in the matter of the assignment for the benefit of the creditors of J. A. Harty & Son, importers and jobbers in drugs, were filed to-day; liabilities $93,891, assets $60,690.

Montreal, 3.—Leduc & Vallais, of New Scholastique, tanners, have suspended; liabilities $60,000, assets $24,900.

New York, 3.—At 2 o'clock on a morning in February a disastrous fire broke out in the Inman dock. The dock was filled with valuable wares of every description, and in 20 minutes its entire length was a roaring mass of flames. The loses in English and French merchandise amounted to not less than half a million dollars. The consignees and owners abandoned the goods to the insurance, and in removing them for salvage and payment of duty the lightermen appropriated fully $50,000 worth of the salvage. Arrests are now being made by the customs officers, and more are to follow.

The Catalogue of Crime.

MILWAUKEE, Wis., 3.—General T. Reynolds, late pension agent at Madison, who fraudulently obtained $5,000 will escape punishment, the United States Attorney at Madison having received a letter from Attorney General Brewster, authorising him to enter a *nolle prosequi*, when the case comes up, provided Reynolds returns the amount taken. He was accused of collecting pensions of widows who had been dead some years.

Louisville, 3.—Governor Blackburn having declined to interfere with the pardon of David Furguson, he will be taken to State prison at Frankfort to-morrow, to begin his service of five years' imprisonment.

St. Louis, 3.—Albert Wing, younger brother of Rumsey Wing, who was U. S. Minister to Ecuador under Grant's administration, shot and killed Joe Glenn, a clerk in a dry goods store, in the presence of Essie Davis, a woman of the town; jealousy.

Peterburg, 3.—The second trial of Isaac Booth, indicted for the murder of his infant child, resulted in conviction. The jury fixed the penalty at eighteen years in the penitentiary. Booth at the conclusion of the first trial was sentenced to be hanged.

New York, 3.—James A. Burnett, arrested at Silverton, Col., on a charge of embezzlement, arrived to-night in custody.

Washington, 3.—Frederick De Fronville, who was formerly a member of the Signal Service, to-night shot and killed his wife, and then killed himself at his wife's home in Washington. De Fronville and his wife separated about eight months since, the woman refused to live with him on account of his intemperate habits. Drs. De Fronville, who was a Dane, has been employed as translator in the Agricultural Department, and lived alone. This evening De Fronville went to her house and demanded admittance. Being refused, he started to break in the door, when his wife sent a man who was in the house through the back entrance for a policeman. Before the return, De Fronville had broken in the door and had killed his wife and himself. No one witnessed it, but when the neighbors, alarmed by the pistol shots, entered the house, there they found Mrs. De Fronville dead, shot through the brain, and her murderer lying dead beside her, with a revolver in his hand. The motive for the dead is supposed to be the jealousy of De Fronville, and his wife's refusal to live with him.

Boston, 3.—The committee on public charitable institutions resumed inquiry into the management of the State alms-house at Tewksbury. E. Alderman Dudley testified that when he detected Marsh, Marsh told him to keep still about what he had seen of loading bodies at the dead house. Marsh said, "We have got to have some pay for our trouble in taking care of these critters." The witness gave the details of the case of a man who was put into a cell intoxicated and died in four days from neglect. He saw a light in the trunk room at night several times after the inmates had retired, and going in quietly one night saw Captain Marsh's wife opening the trunks and taking out clothing. Mrs. Pope, housekeeper, now in Middleton, told him she had seen the same thing, and that the most valuable dresses were taken by Mrs. Marsh to her private store room, and made over for the Davis girls; 20 children in one ward were heard to cry at night because of hunger. One night, out of curiosity, he went to the burying ground and saw four bodies resurrected and driven off in a wagon. The State food for the inmates and insane was always very poor, the allowance of other food very slender. A man who drove the hospital team told the witness that he had taken up 68 bodies in eight months. The man was dissatisfied then, but next day showed a "few hundred" which he said Tom (Marsh) had given him. Witness was afterwards appointed with his wife to take care of the female insane. The trunks of the insane had been taken away. The beds of straw were in a rotten condition, with insufficient clothing. The cells were filthy. One insane woman was in a dirty cell in the attic, entirely without clothing, and almost starved. The assistants said she was violently insane, and would tear her clothes. She had only one meal daily, carried to her by an idiotic girl who had always taken care of the woman. He watched, and found that the girl threw the food away and came back with the empty plate, and said that the woman had eaten all the food. In five or six weeks he had the woman out of the cell, and in the sitting-room, so changed that her husband did not know her. Her name was Mary Barron.

Gov. Butler—What was her husband's name?

Witness—I don't know. He lives in Boston.

Gov. Butler—Never mind; the newspapers will bring him to me to-morrow morning.

On cross-examination, witness said of 73 children who came there in a year, only one lived.

Political Points.

CHICAGO, 3, 10.15 p.m.—The indications are the entire democratic city ticket is elected by 5,000 to 8,000 majority.

The election returns from Madison, Wis., show the same result, and the municipal elections generally throughout the country have resulted in the election of the democratic candidates.

Cincinnati, 3.—Unofficial returns show the democrats have elected the mayor. But five precincts of 60 in the city are yet fully reported. These show republican gains. Official reports gathered at the Lincoln Club indicate that the vote is close between Sadler and Stephen's for mayor. E. Shelby's election is assured by 3,000 to 5,000.

Denver, 3.—Incomplete returns indicate that ex-Gov. L. Routt is elected mayor, together with the whole city republican ticket, with the probable exception of city attorney. Routt was compelled to accept the nomination, as the only man who could unite the republican factions, and beat both oppositions. He received a majority over all.

Cincinnati, 3.—*Commercial Gazette's* special: Republicans elect candidates in Forstois, Lebanon, Van Wert Galion and London, Ohio; a divided ticket is elected at mansfield, Pomeroy, Newark and Akron. The Democrats elect the entire ticket at Chillicothe, Findlay and Xenia. Ohio has elected a democratic Solicitor.

Little Rock, Ark., 3.—The municipal election resulted in the election of Dramer for Mayor; Griffith, police judge, Hudson, treasurer; all democrats, though political lines were not drawn. Dr. Theodore Linde is elected Mayor of Hot Springs.

St. Louis, 3.—Of five councilmen elected to-day, two were democrats, two republicans and one independent. The proposition to fund the city debt carried.

Leavenworth, 3.—Dr. S. T. Neely, democratic candidate for mayor, is elected to-day by a larger majority than any mayor for years.

Evansville, Ind., 3.—Indications at his hour are that the whole democratic city ticket, and four out of seven and perhaps five out of seven Councilmen are elected.

Cincinnati, 3.—The Common Council on joint ballot stands, democrats 42, republicans 38. The official returns will be necessary to shew the majorities of the officers elected.

Omaha, 3.—The city election to-day has been hotly contested, and the count is unfinished at midnight. It is believed that Champion I. Chase, republican nominee and liquor interest candidate, is elected by about 40 votes over ex Judge Savage, the candidate of the democrats and citizens.

12:30 a.m.—The republicans concede the election of the entire democratic city ticket by 6,000 to 10,000 majority. The democrats claim 12,000 to 14,000. This is a decided democratic gain compared with the election last fall, when it was practically a tie, the result depending on the personal popularity of the candidates: half democrats and half republicans were elected. Two years ago Harrison was elected mayor by 7,200 majority. The ticket elected to day is as follows: Carter H. Harrison, mayor; John M. Dunphy, Julius S. Grinnell, city attorneys; John G. Neumaster, city clerk. The council will be overwhelmingly democratic; of 18 old members who held over, three are democrats.

FOREIGN.

British Briefs.

LONDON, 3.—In the Commons, the Under Foreign Secretary, in reply to Kennard, who questioned him with regard to certain strictures in New York newspapers on the manner in which the United States had dealt with the Geneva award, said it was contrary to the usage and inconsistent with the dignity of the House to base a discussion on paragraphs in a foreign newspaper, destitute of official character and only representing the opinion of its own writers. He said the Alabama question was now only of historical importance, and the government had no interest in the manner in which the United States government disposed of the money.

Jacob Bright, member from Manchester, offered a motion declaring that in the interest of the growing commerce of Great Britain in South-west Africa, no treaty should be made by the government sanctioning annexation by any European power of territories on and adjacent to the Congo, or interfering with the commercial freedom hitherto enjoyed in that region by Great Britain. Bright subsequently withdrew his motion in favor of an amendment offered by Edmond Woodhouse, member of Bath, to the effect that no treaty should be made affecting the territory on the Congo that would not afford adequate securities to all agencies working there. Woodhouse's motion was carried, the government agreeing thereto.

Late reports from Coomassie, Upper Guinea, say the King of Ashante has relinquished the throne, and retired. The coast of Western Africa is in a state of confusion. No details.

Victor Gully, notorious in connection with the Bravo case, is dead. Charles de Louncey Turner Bravo, barrister, died suddenly and mysteriously at Balham, Surrey, in April, 1876. Suicide was first suspected, but the verdict of the jury was wilful murder, by the administration of tartar emetic, but the perpetrator was not sufficiently evident to fix the guilt.

Germany and Spain have come to a final agreement in regard to the conclusion of a treaty of commerce. Each made concessions.

The *Standard* says on account of the threatened division of the Irish party, it is probable Parnell will not go to America.

Cork, 3.—Documents were found on Featherstone, the American who was arrested with O'Herlihy, and said to be a newspaper writer, showing him to be in direct communication with O'Donovan Rossa. Letters were seized from Rossa, giving elaborate orders with regard to the mode of using explosives, similar to those found in the box carried by Dennis Deasy, arrested at Liverpool on Thursday on his arrival from this city.

General Items.

Berlin, 3.—A telegram from Kiel announces that Herr Volmer, socialist, was arrested there this morning.

Vollmar was returning from the Socialist Congress at Copenhagen, wherein resolutions strongly denunciatory of Bismarck were passed.

The Emperor took an hour's drive to-day, the first since his recent illness. The drive benefitted him greatly.

Copenhagen, 3.—The German socialists have just concluded a three days secret congress. Sixty members were present including Babel, Liebknicht, and Havenclever. All members of the Reichstag, together with delegates from Paris and London decided to oppose at the elections in 1884, Bismarck's policy chiefly in regard to his social programme, and force the fight against capital. The German police believed the congress was held in Switzerland.

Catania, 3.—A severe shock of earthquake occurred at Riposto. Oscillations continue. Two slight shocks were felt here.

BRIEF TELEGRAMS.

Washington, 3.—A storm of considerable energy has developed in the Rocky Mountains, being central in Colorado. It is moving slowly eastward.

San Francisco, 3.—Eureka dispatch: The Albion mine began paying off lien holders to-day; work on the mine begins to-morrow by the new management.

Halifax, 3.—It is reported Princess Louise will not leave the Bermudas until May, when she will come to Halifax in the flagship Northampton.

Ottawa, 3.—The Privy Council came to an adverse decision on the application of American distillers to admit whisky in bond in packages of less than 100 gallons. It is probable, however, that some modifications will be made in existing regulations.

New York, 3.—Nature smiled on the hills of Tarrytown as its inhabitants revived the memories of the pioneer of American literature. It was the centennial of the birth of Washington Irving, who was born in William Street, in that city, and who spent the last year of his life at Sunnyside, near Tarrytown, where he died November 28th, 1859.

Peter Cooper, the philanthropist, was taken ill a few days ago, and soon nearly recovered. Venturing out, however, he caught a fresh cold, which settled into pneumonia. To-night his condition is pronounced dangerous, his advanced age, 93, makes his recovery a matter of extreme doubt.

Charlottesville, Va., 3.—B. Cobenjamin, colored lawyer, applied for and obtained license to practice law at the Albermarle County bar, the first colored man who ever applied for license.

Yokohama, 2.—The exhibition of marine products and fishing implements opened the 1st of March, in Tokio; 15,000 varieties of fish were shown with other productions from lake and river.

New York, 3.—Louisa Warner Evarts and Dr. Chas. D. Scudder were married to-day. The bride is a daughter of ex-Secretary of State Evarts. After the ceremony a wedding breakfast was given at the residence of the bride's parents.

Dubois, Pa., 3.—In a prize fight here last evening between Mike McLaughlin and Martin Linkey, miners, six rounds were fought. In the last round both men clinched and fell, Linkey breaking his neck in the fall, which resulted in instantaneous death. McLaughlin gave himself up to the authorities. The participants in the fight were not over 18 years of age.

St. Louis, 3.—The Legislature passed the bill that no railroad company in this State shall advance freights without first giving 20 day's notice of the proposed change, by posting the new schedule in three conspicuous places on each of its freight and passenger depots, penalty for violation, $500.

Philadelphia, 3.—Eight hundred hands in the shoe factory of John Mundell & Co., referred to arbitration by a committee of Knights of Labor a proposition for 10 per cent. reduction of wages.

It has been arranged that Mundell's shoemakers shall return to work at the old rate for four weeks. If business is not then improved, ten per cent. reduction of wages will then take place or the 800 men will be discharged.

Buffalo, 3.—A petition signed by a large number of capitalists is presented to the Council, asking a grant to build a tunnel under Niagara river; to receive 25 per cent. profits on the same when completed.

Boston, 3.—Jordan, Marsh & Co., for 30 years one of the largest dry goods jobbing concerns in the country, retire from the wholesale business on the 15th inst.

New York, 3.—The immigration commissioners, after inquiry into the charge of steerage passengers on the English steamer *Viking*, that they were beaten, illy fed and compelled to live in filth and squalor, will ask the U.S. District Attorney to preceed against Capt. Topper of the *Viking*.

Omaha, 3.—A train of nine coaches of people left Denver this morning via the Union Pacific for the Pacific Coast. They bought 250 tickets, and there were a large number of children. The emigration from Colorado to California, Oregon, Washington Territory and Idaho is beginning to increase very rapidly, will be immense this spring.

New York, 3.—Long before 8 to-night the "Temple," of Salmi Morse was thronged. A few minutes before 8, Capt. Williams and Inspector Thorne of the police, made their way to the back of the stage, and served upon Morse an injunction sued out by the Society or the Reformation of Juvenile Delinquents, restraining the production of the play. Morse sent for his counsel, and on his arrival went before the curtain and informed the audience of what had occurred. The announcement was received with hisses. Morse stated that the society had plenty of time to serve the injunction, but had meanly waited till the last moment before serving it. The money will be returned in the morning.
