

DESERET EVENING NEWS

THE SEMI-WEEKLY NEWS

THE GREAT COUNTRY PAPER OF THE WEST.

Is Issued Mondays and Thursdays and Contains All the Cream of the Daily and Saturday News.

LOCAL BRIEFS.

The corner stone of the new Masonic temple will be laid in November.

Thomas E. Wising has sought relief from debts by going through bankruptcy. He names his liabilities at \$3,191.88 and his assets at \$2,649.85.

The "News" acknowledges with thanks from its Brigham City agent, J. H. Hensley, the receipt of a box of fine pencils the sort that makes "teach day" in Brigham City famous.

Tomorrow evening dedicatory services will be held in the Third ward meetinghouse of this city. President Arthur H. Lund is expected to be present on the occasion. Time of meeting 8:30.

J. J. Myrick, who was arrested by Officer Emil Johnson on Thursday, was examined as to his sanity yesterday afternoon before Judge Anderson. Chief Justice Bartlett stated that the man is a cocaine fiend and the use of that drug was responsible for his apparently deranged condition. When first taken into custody he stated that he was from Indiana, and that he heard that the "Mormons" had Jesus Christ out here and he came out to see him.

The work of moving the state law library into the supreme court room and changing the letter to the room now occupied by the library has been commenced and will be completed before the October term of court. Justice Straup will move into the room occupied heretofore by Clerk Griffiths and Justice McCarty will occupy Justice Straup's present office. The room vacated by Justice McCarty will be used as the office of Clerk Griffiths. Chief Justice Bartlett will remain in his present office. Two new steel book racks will be placed in the library which will also be provided with new carpets and matting. The change will relieve the present crowded condition of the law library.

With the ending of the first week of school last night, Principal Eaton of Salt Lake High school found that he has 300 more students than ever before. The combining of the East Side school with the West Side school for a portion of the sudden increase, but the fact that 400 of the boys and girls are in the freshman class suggests that not all are East Siders. The increase has not overworked the accommodations as a few unoccupied rooms have been pressed into service. At the university the registration is not yet far enough along to suggest heavy I. will be. For Friday the figures show that 146 students registered an increase of 12 over the number for the same day last year. Most of the old students will not register until next week.

The regular Sunday school union meeting of the Salt Lake stake will be held in the Sixteenth ward meetinghouse, Monday, Sept. 18, commencing at 8 o'clock. Interesting exercises will be given in the various departments. In the superintendents' department, a paper will be presented by Supt. Geo. McCallister on the "Division of Responsibility in the Superintendents' Department." A practical illustration of class work under Charissa Beasley will be given in the theological department. The teachers of the Second Intermediate will submit questions to be discussed in the meeting, relative to the things which concern them most in their department. Elder D. O. McCallister will give a lecture on "Key of Power and How to Develop It" to the Kindergarten, Primary and First Intermediate teachers.

Save your money and when you get a dollar's worth of goods from the Bank and Trust Co., Salt Lake City, Utah, ask for Mr. Smith, President; George M. Cannon, Cashier.

C. S. Minnerlin Coal Co.
Rock Springs, Carbonate, Castle Gate and Clear Creek lump, nut and slack.

MR. RICHARD SOLOMON.

The subject of this sketch, is one of Zion's sturdy sons, who has just grown up with the country for all his business life. He has been connected with the business as a useful boy, salesman and retail manager of Hirschman Bros., with the exception of three years when in New Zealand on a mission, and on his return again assumed the management.

The Solomon Bros. wholesale business recently growing, determined them to get the retail and devote their entire time and energy to the wholesale enterprise. The first Hirschman then accepted the offer of the Hirschman Shoe Co. a live firm, ever on the lookout for good men, and is now connected with them.

When he spoke for Mr. Solomon success in his new venture and suggest to friends and old trade and suggest to the Hirschman Shoe Co. are located in the First Shore above the clock corner of 106 South Main, and in addition to a full line of eastern-made shoes are special agents for Solomon Bros. Home Made Shoes.

AFFAIRS OF THE PUBLIC SCHOOLS.

Clerk's Report Shows That Over \$95,000 Was Expended in Buildings Last Year.

YET MORE ROOM IS NEEDED.

Attendance of Pupils Indicates That Many Were "Missed" at Time of Census Enumeration.

Clerk L. P. Judd, of the city board of education, has completed his annual report for the year ending June 30, 1905, and the same is now in the hands of the printer for publication. The report contains a detailed statement of the financial affairs of the board and shows the disbursements made on each school building in detail. One of the most important items in the report is the amount distributed in building during the past year. That amount reached the sum of \$95,091.98. Of that amount the sum of \$67,249.13 was expended on the new Lafayette school and \$27,470.85 was paid to the state on the basis of the high school property.

A WEAKNESS HERE.

It will be seen by these figures presented that there was nothing in the building fund at the close of the year and the board has nothing to depend upon for that purpose this year except the regular portion of the tax receipts set apart for that fund. Owing to the fact that there are nearly a thousand more pupils in the city schools this year than last and it has become necessary to close one of the large school houses this year on account of its proximity to a new railroad, it is evident that the board will have to do some building. The pupils have been temporarily provided for but a permanent provision will have to be made for them by constructing a new schoolhouse.

MANY OUT OF CITY.

One of the strongest reasons urged for changing the time for taking the school census from the middle of summer to an earlier date is the fact that according to the census taken this year there was only an increase of 51 children of school age in the city, while on the opening day of school there were 301 more pupils enrolled than on the opening day last year. It is evident from that that a large number of children were out of the city when the census was taken.

Hence the city board of education is deprived of the per capita tax for more than 300 pupils which is received from the state school fund. Another attempt will undoubtedly be made to have the time of taking the city school census changed to a date when the children are in the city.

FINANCIAL REPORT.

Following is a summary of the financial part of the report:

Total receipts for the year, \$502,244.75	Total disbursements for the year, 486,473.80
Total balance cash on hand, July 1, 1905, \$15,764.95	Balance on hand in the sinking fund, \$4,861.89
Balance on hand in building fund, 7,306.06	Total, \$15,764.95
Treasurer's cash receipts, \$503,024.89	Treasurer's cash disbursements, 486,995.82
Balance in treasury, June 30, 1905, \$17,029.07	Statement of the Supt. of Schools, showing the board of education for the school year 1904-5 ending June 30, 1905:
Balance on hand per last report, \$17,049.49	Rechts. account county school fund, 67,804.58
City tax, sinking fund, 13,390.09	State school land and interest, 6,234.13
City tax, 1904, maintenance, 196,469.35	City tax, interest on bonds, 32,600.90
City tax, building fund, 68,583.33	City tax, tax sale redemptions, 3,581.08
Sale of the Whittier property, 5,500.00	From tuition non-refundable, 27,987.50
Utah Light & Ry. Co. refund, 20.00	Fines, damages and lost books, 812.29
High school books sold, 32.25	Grade books, 10.25
Free armament, 6.07	Sale of old material, 97.20

CATARRH A UNIVERSAL DISEASE

Catarrh usually begins with a cold in the head, but does not stop there. The mucous membranes all become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and distributed to all parts of the body. The patient is then continually hacking and spitting, the nose is stopped up, the ears have a ringing or buzzing noise, the throat becomes sore, and as the unhealthy matter more thoroughly saturates the blood a general feeling of depression takes possession of the system.

I had Catarrh for about fifteen years, and no man could have been worse. I tried everything I could hear of, but no good resulted. I then began to use S. S. S. and could see a little improvement from the first bottle, and after taking it a short while was cured. This was twelve years ago, and I am as well today as any man. I think Catarrh is a blood disease, and know there is nothing on earth better for the blood than S. S. S. I do not think more of S. S. S. than I do of Local Applications.

Local applications cannot cure Catarrh, because they do not reach the seat of the trouble. They allay the inflammation and temporarily relieve the disease, but as soon as they are left off the trouble returns. The only way to cure Catarrh is to treat it through the blood. S. S. S. soon clears the blood of all Catarrhal matter and purges it of all irritating poisons, checks further progress of the trouble and completely cures the disease. S. S. S. keeps the blood in perfect order so that it can eliminate from the system all waste matter that will produce Catarrh. Nothing equals this great vegetable remedy in the cure of this disease. Write for our book and any medical advice you wish. We make no charge for either.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

TEA

Good tea is so cheap, it is folly to drink poor tea.

Go by the book.

Your grocer returns you money if you don't like Schilling's Tea.

Rent of Thirteenth ward property	444.00
Total	\$592,044.75

Westminster Presbyterian Church, 159 South Fourth West street, between First and Second North, Rev. McLaughlin W. Davis, Pastor. Morning services at 11 a. m.; sermon by Rev. Richard Wake, Sunday school, 12:15 noon; C. E. meeting 7 p. m. No evening service tomorrow. Prayer meeting Wednesday 7:45 p. m. Subject, "A Praying Church." Acts, chap. 1, verses 12-14. All cordially invited.

English Lutheran church, 334 South Fourth East. Services 11 a. m. Sunday school 10 a. m. and Young People's society of Christian Endeavor, 6:30 p. m. H. A. Hanson, pastor.

SAMOA'S LATEST LAVA SPOUTER.

"News" Correspondent Describes It at Sea While En Route To His Home.

NATIVES ARE MUCH ALARMED.

Eruption is in a New Place About Twenty Miles From Old Outbreak—Writer Has a Close Call.

Special Correspondence.

At Sea, Sept. 4.—As the "News" is a friendly visitor to Samoa, where I have been laboring as a missionary, I shall endeavor to contribute to it, by describing in part, the active volcano which is the feature of the day, on German Samoa.

On Friday, Aug. 21, after a hard climb of 10 miles, Elder Charles Latta and the writer visited the volcano and viewed the flowing lava, which is cutting its path through the dense forest, on its way to the ocean. Notwithstanding the fact that the flow is not rapid, it has at the present writing covered several square miles, threatening great damage, if not entire loss to valuable plantations. The German trading station at Matalau, as well as surrounding villages, is in great danger thus causing much agitation to natives as well as to the natives. A few homes in Lafane have been sprinkled with ashes and the natives are saying "of lava lava." They are also fasting and praying that God will spare their homes and their dear old island Laval.

Belief is current that if the present flow continues until the middle of September that the lava will reach the ocean, thus making an iron bound coast on the Matalau side.

IN A NEW SECTION.

The present eruption is in a new place about 20 miles from the old volcano on Laval, which has also broken out afresh, sending the natives from their homes at Apoo. The earthquake which followed the breaking out of the new volcano, was tremendous and the shock was distinctly felt 30 miles away. The report resembled thousand ton guns booming a city, and was heard at Apia, on the adjacent island of Upolu.

HAID TO APPROACH.

The day on which the writer viewed the smoking mountain being very warm, it required some effort to approach the lava flow, but to reach the mouth of the crater was impossible, owing to the stifling smoke and melted rock. The nearest possible point to be reached was within three-fourths of a mile of the crater, but its work could be plainly seen by climbing trees or cooled rocks, but to remain long in one place at a time was not safe, as the ground seemed to be giving way and huge boulders were being hurled down the mountain.

TWO HUNDRED FEET HIGH.

The mouth of the crater is built up to a height of possibly 200 feet. Our position was watching the hot, slowly-moving mass of earth, rocks and trees, was a dangerous one, as we were standing on a narrow plateau of about 50 feet in width, with the lava flowing on either side and in front of us filling deep ravines and smashing enormous trees as though they were mere stubble.

AFTER A RELIEF.

Once, when some hot stones rolled close to us, the writer picked one of them up, and hurriedly running back to escape being buried up in a hot rock slide, fell over a tree and lost the candle, but deemed it unsafe to venture back a second time, and instead filled a bottle with cinders, which will soon be in America.

PHOTOGRAPHER'S NOTES.

Prior to leaving Apia for the journey, the writer interviewed Photographer Tattersall, who in company with many of the German officials, visited the volcano later. The following are his notes:

Saturday Aug. 26.—There is only one crater now, (there were three) but it is becoming very large, and is fast filling out of feet on the lava flow, threatening all villages under that slope. It is only six miles to the lava on the Matalau side. Lava has covered about four miles during the past few days, showing the tide comes in, the booming comes and resumes its thundering when the tide goes out.

PEOPLE ARE ALARMED.

The people at Apia are unable to sleep at night, and talk of nothing else by day. It is a very beautiful sight to watch the action of the volcano by night, as large stones many tons in weight are shot hundreds of feet into the air, and when alighting they resemble falling stars. It was very difficult to get a good picture of the volcano owing to the dense smoke, but two views of it were secured, showing the crater and mountains built up over 200 feet. No. 1, showing the lava, was a most beautiful sight, and is where a poor old chief was buried, the same day the writer viewed the scene. This unfortunate chief ventured too close to the flowing mass and was buried alive. No. 2 was taken under a great disadvantage, as the heat was something awful, and trees and smoke cut off

This Day In History.

Sept. 16th.

- 1812—Burning of Moscow, over 90,000 buildings destroyed, loss, \$150,000,000.
- 1864—Captain John Hanning Speke, the famous African explorer, accidentally killed by the discharge of his fowling piece while hunting at Neston Park, England.
- 1882—Dr. Pusey, famous high church man, died, born 1800.
- 1890—The famous palace of Alhambra in Granada, damaged by flames to the extent of \$20,000.
- 1898—General Joseph T. Haskell, U. S. Army, received three wounds at El Arroyo, died at Columbus, O.
- 1901—State funeral over the remains of William McKinley held at the Capitol in Washington.

Don't Let This Day In Your History

Pass without fitting up your office with Blank Book and up-to-date office devices from Deseret News Book Store.

The view. The photographer climbed a tree and took a sharp shot of the two mountains, and the crater in the distance. The volcano has built two mountains of rock, while lava, melted, has run down each side, seeking its level. Mr. Tattersall was unable to get a picture of the real action of the volcano. All the trees are stripped of their foliage, due to the dense heat, and ashes. The wood songsters have flown to the west end and just what the future has in store for Laval is the much talked of topic in German Samoa.

The writer is a returning missionary from the islands who reached Salt Lake yesterday in route to his home in Alameda, Ida.

WHAT YOU WANT

Is a telephone that talks or you don't want any. Some day you will have a known volcano on Laval, which will wonder why you didn't have it long ago. You can talk to 5,000 people over the independent now.

Six cents a day, individual line, unlimited service.

S. L. OPERA COMPANY

TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

Hans Canon, the famous Austrian artist, died.
Frederick Kiel, the well known composer of church music, died at Berlin.

TEN YEARS AGO TODAY.
John M. Butler, a noted lawyer of Indianapolis, and for many years a partner of Senator Joseph McDonald, died in New York.
Martin Hayken, agent of the Andrews & Co. Furniture Co., arrived in Salt Lake and was immediately placed under arrest on the charge of boodling, in connection with the county building affairs.

FIVE YEARS AGO TODAY.
Word reached Washington of the killing in self-defense of Capt. Charles McQueen, in the Philippines. In a fit of temporary insanity he attacked men of his company, who were compelled to shoot him.
Joseph E. Taylor, Jr., son of Undertaker Joseph E. Taylor, died from injuries received while lifting a heavy weight.

CARD OF THANKS.

Sept. 14, 1905. I return my sincere thanks to all those who assisted me in my late bereavement.
