CITY COUNCIL.

The City Council met in regular ses-

The committee on police reported ago, and as I didn't want to see the that they had examined the Marshal's train run over him I gave you the six expense bills for September, 1885, and | nal. found them to be correct. The following report was submitted

SALT LAKE CITY, Utah, October 20th, 1885. The Hon, the Mayor and City Council,

Salt Lake City: Gentlemen-The joint committee on they will listen with rapt satisfaction to an overstatement of their possessions or income, will even encourage the inaccuracy by significant silence or a few words of feigned carelessness bury, the owner of the land and water entirely free from vanity, nor is it necessary or even desirable that we entirely free from vanity or even desirable that we waterprivileges, and some two hundred should be; but there is a difference and seventy-eight acres of land, be-Road and First East Street, running the southern boundary of the lami acquired by the city, from the Union upon delivery of a good and sufficient deed; and the balance in three equal prosession, and are quite satisfied if yearly installments, drawing interest at the rate of 7 per cent, per annum from date of completion of purchase

That the Corporation should possess absolute control of the lands occupied by the lied of City Creek, and the waters of said creek, admits of no question. From this source the city looks for pure water for drinking purposes, as well as water for extinguish ing fires and irrigating portions of the city not supplied by the canal. It is an admitted fact that, owing to the great demand upon the mains for water for culinary and other purposes he pressure has been so much re duced as to make it impossible to fur-nish City Creek water to citizens resid ing on the bench lands. To remeath this, and at the same time furnish better and more efficient means for ex-

inguishing tires, it is absolutely neces sary that the water mains be extende further up City Creek Caffon; but water privileges now established on that stream, between the point wher the present mains terminate and that to which it is imperative they be extended, are obstructions, which, unless removed by purchase by the corporation, will not only effectually prevent the further development of the water works system, but render the system as it stands to-day of but little avail for the extinguishment of dres in portions of the city at certain seasons. For these reasons, and that the rights of citizens to the absolute con trol and use of the waters of Cit Creek may be preserved, we recom

mend that the property be at once pur-chased, and that the resolution ac-companying this report be acted upon by this Council without delay. Respectfully,
ROBERT PATRICK,
A. M. McFARLASE, JUNIUS F. WELLA, HEBER J. GRANT, THOMAS G. WEBBER, JOSEPH A. JENNINGS. The report was adopted.

A resolution was then passed au thorizing the purchase, appropriating \$20,000, and empowering the Mayor to execute the three promissory notes o \$10,000 cach; the vote on the resolution stood, ayes 10, nays 1, Mr. Speirs vot ing in the negative. The following sums were appropri
