Local and Other Matters.

FROM TUESDAY'S DAILY, JULY 2.

Sentenced.—Yesterday William G. Williams, under conviction for robbing Wells Fargo & Co's. express, was taken before Judge Emerson, in the Third District Court, and received sentence, which was that he be imprisoned in the Utah Penitentiary for ten years.

Mutual Improvement.—Elders Junius F. Wells and Milton H. Hardy left the city on the 5th inst. for an extended tour through Morgan, Summit, Bear Lake, Cache, Box Elder and Davis Counties, in the interest of the young people's mutual improvement associations. They will visit the above places consecutively, as named, and are now in Summit County, expecting soon to pursue their journey northward.

In Duress.—On Sunday the father and two brothers of the late Tambiagi, the Indian who was recently executed at Boise City, passed through Ogden, in charge of a squad of military, on their way to the Leavenworth, Kansas, penitentiary, where they are to be held in duress. The reason assigned for this is that they had uttered some threats indicating that they intended to avenge the death of their relative. So says the *Junction*.

The Randolph Disaster.—William Rex sends us, by letter, a few more particulars of the late disaster at Randolph. The mill was rendered a complete wreck by the explosion and the debris strewn around in every direction. The name of the engineer who was killed was Christian Harma, and that of the man who was badly scalded, besides William Howard, is Parley Pead. The other employees were outside of the mill, and thus escaped. Everything possible is being done for the injured, both of whom are likely to recover.

Returned Missionary.—Yesterday afternoon we received a call from Elder Theodore Braendli, of Richfield, who returned from a mission to Europe with the company of Saints that arrived on the 3rd inst., of whom he had charge. He left here on May 21st, 1876. He labored one year in Germany, as President of the German Conference, and one year in Switzerland as President of the Berne Conference. The work is progressing a little in the former country, making gradual headway, the main obstacle met with being the general indifference of the people to all matters of religion. Elder Braendli, in that part, baptized between forty and fifty persons.

But moderate progress is being made in Switzerland. In that country persecution against the Church rages in almost every quarter, from the press, the pulpit and the rabble. A few here and there of the poorer classes embrace the gospel. In Switzerland Elder Braendli baptized about 120 persons. He returns in good health and spirits.

Base Ball.—The last of the Denver games was played yesterday, between the Brown Stockings of that city, and the Red Stockings of Salt Lake, and was won by the lat-

ter with a score of 7 to 1. The game approached, in merit, as near to that played on the 4th as it could, without equalling it, some excellent playing being made on both sides. The superior strength of the Red Stocking Club may now be considered an established fact, for, notwithstanding the aid rendered the Browns, in the person of Mr. Meyer, of the Deserets, which brought their status to its full excellence, their defeat of yesterday was far more serious than any sustained heretofore. The fact that the Reds were compelled to use substitutes, and that Mr. Barlow, their catcher, from the soreness of his hands, was obliged to play in the field until the last two innings, when he assumed his accustomed position, enhances their victory. The Browns are fine players, but Colorado must yield the palm to Utah in base-ball matters. The gentlemanly conduct of the Denver club has made them many friends, and if they ever visit Salt Lake again they will meet with a cordial welcome. The chief anticipation of base-ball admirers is now the coming match between the Deserets and Red Stockings—Greek against Greek, for the championship of Utah and Colorado.

Serious Accident.—A correspondent, in the *Junction* of the 6th inst., writes from Brigham City, of a terrible accident which befel Mr. Joseph S. Hamson, about 30 years of age, son of George Hamson, of that place, at the Brigham City Co op. Saw Mill, on Monday, July 1st, between 5 and 6 o'clock in the evening. He was in the act of sharpening an axe on a stone run by a belt, from the pulley, on the main shaft attached to a 17 inch turbine wheel, when, on the gate being opened to set the wheel in motion, his foot was caught by a belt and he was drawn into the open space above the wheel, and wrapped around the shaft, which was stopped by his body becoming wedged between the pulley and the penstock. The gate was immediately closed, and the unfortunate man relieved from his terrible situation as quickly as possible, and conveyed to the adjacent boarding house.

Dr. P. L. Anderson, of Ogden, was immediately sent for, and with Mr. H. C. Wardleigh, arrived at the mill 22 hours after the accident.

The right foot was found to be almost severed, the knee dislocated, the elbows bruised, and the left side showed signs of having been tightly compressed, probably to the serious injury of the patient internally.

It was found necessary to amputate the foot above the ankle, and about three inches of the large bone of the leg, which had been fractured. The wound was dressed, the knee set, and the operation completed. Next morning, the patient was conveyed home, and is now doing as well as could be expected.

Accidentally Drowned.—This morning we received a call from Brothers Hyrum Scott and John G. Morgan, who have just returned from Green River. They, together with William Butterworth and Levi H. North, all of Mill Creek, started, a short time since for the Grand River country, to prospect for farming locations. As the little party, excepting Butterworth, were fording Green River afoot, near the San Juan crossing, the current being strong, North was swept down the stream. He swam bravely for a while, but finally called to his companions that he was giving out. Scott swam to, seized and held him up, and, in this position the two were swept down with the current, Scott still bravely holding on to his helpless companion, trying to save him, at the risk of his own life. He also became exhausted and both sank. When Scott arose to the surface he saw the top of North's head, and his hands above water, and then suddenly disappear, going under for the last time. Scott barely succeeded in reaching the bank, being much exhausted. The party had no means of searching for the body, which has not yet been recovered,

and they returned home to acquaint the relatives of the unfortunate man of what had occurred.

Brother Levi H. North was a son of Brother Levi North, and son-in-law of Brother John Morgan, of Mill Creek. He was about 31 years old, and leaves a wife and five children. He bore an excellent character, and was true in his integrity to the work of God. He was on a mission to Arizona until recently, having been honorably released therefrom.

Should any persons succeed in recovering the body, they will confer a great favor upon his relatives by acquainting them with the fact as quickly as possible, and giving the remains a respectable burial.

The Scandinavian Mission.—We are indebted to Elder Joseph F. Smith, for the perusal of an interesting letter from Elder N. C. Flygare, President of the Scandinavian mission, who writes from Copenhagen, under the date of June 17th. He had just returned from a trip to Sweden and Norway, where conferences were held, had attended 39 meetings during his journey through the three kingdoms, and speaks very encouragingly of the condition and prospects of the cause of truth in those countries. During the six months preceding the 20th of May, 640 souls had been added to the Church of Christ, making the total number of Saints in Scandinavia, at present, 5,134; the largest number ever there before at one time. As a general thing, a liberal feeling had been manifested by the people of the world, the spirit of opposition, as usual, being more strongly exerted in those places where the Elders of the Church had been most successful; and then only to the ultimate benefit of the cause it endeavored to injure. Elder Flygare also speaks of a religious movement in Sweden, headed by a Pastor Walldenstrom, which threatened a schism in the State Church, and the separate establishment of a "free church." The advocates of the movement numbered thousands already, and were holding meetings at Stockholm, to which all denominations, not excepting the Latter-day Saints, had been invited to assist in the discourses.

The publication of the *North Star* and the Book of Mormon in the Swedish language, was an effective movement for the spread of the gospel, and those works were being read by many, with great interest.

Elder Hulgren, who arrived in Copenhagen on the 1st of June, would join Elder Fullgren at Stockholm, and the two proceed in company to Finland.

Brother Flygare speaks commendably of the late efforts of Elder Forsell, in the Finland mission, which were proscribed by the authorities of that province and the Elders banished from the country some time ago. Brother Forsell had since been appointed to labor in Sweden. The second company of Saints from Scandinavia, this season, numbering 400 souls, would leave that country on the 24th inst., bound for Utah.

The general condition of affairs in the mission, were never more prosperous, and Elder Flygare would like the assistance of several Danish, Swedish and Norwegian missionaries, early in the Fall.

FROM WEDNESDAY'S DAILY, JULY 10.

Back Again.—Captain Henry Sewell, well known and respected in this part of the country, has returned to the city, after an absence of four years. He purposes residing here permanently.

District Court.—Tuesday, July 10th.

N. S. Ransohoff vs. Henry M. May; motion by plaintiff for judgment upon the pleadings argued and overruled.

An Act of Heroism.—Yesterday, while Hyrum Scott, of Mill Creek, was narrating the circumstances attending the accidental drowning of the late Levi North, he appeared entirely oblivious to the fact that, in nobly striving to save the unfortunate man's life at the imminent peril of his own, he had done an act of heroism. He made the

statement of the part he took in the attempted rescue with great modesty, and only on being directly questioned. He manifested evident feeling when he stated that when, after being swept down the river over half a mile, both sank, he lost his hold upon Brother North and it was impossible for him to again reach him. Hyrum Scott is thirty-one years of age.

A Beneficent Project.—Yesterday morning, Mayor Little and Watermaster Hyde took a trip up City Creek Cañon, about 11 miles, for the purpose of testing the feasibility of increasing the supply of water from that source, by opening the springs on the sides of the cañon, and causing the numerous little rivulets and drippings to flow into one common channel to contribute to the use of our citizens. The result of their examination was encouraging, and the intention is to send a company of men up the cañon with a team, to-morrow, to begin work on the first spring, and thence up to the very head of the cañon, tapping every place that gives indication of containing water. If the execution of the plan be successful, the benefit conferred on the community will be, indeed, a great one. We commend the enterprise heartily, and hope the result will be as fruitful as the idea is good.

City Council.—The Council met, last evening, Mayor Little presiding.

A petition was received from George Dunford and others residents of the east bench, south of Emigration Creek, setting forth that they had, some years ago, been granted a portion of the water from Emigration Creek, of which, however, they are now deprived, and asking that a decision heretofore made by a former watermaster be ratified or the matter investigated for action. Referred to the committee on irrigation.

A petition was received from Jonathan Chatterton, asking that his son, James Chatterton, be remunerated for injuries received from a chip flying from a water main on which the city laborers were working, and through which injury the boy has lost an eye and is injured in health. Petition received and prayer thereof not granted, the matter having been previously investigated by council committees and decided adversely.

A petition from Wm. F. Pollard and others, set forth that a number of persons were endeavoring to establish small meat markets in the suburbs of the city, and asking that, as they are unable to do equal business with butchers in the heart of the city, graded licenses be established in regard to meat markets. The petition was referred to the committee on license.

Petition of Robert Jones and others, endorsing the petition of William Ridd, for the opening of certain streets in the 19th Ward, and asking that certain other streets, in the same locality be opened also. Referred to the committee on streets and alleys.

George Anderson, of the 20th Ward, asked the privilege of conveying water from the sect to mix feed for his cows. Referred to the watermaster.

A special committee, to whom was referred the matter of the amount paid by the corporation for gas consumed, reported as follows:

Your special committee, to whom was referred the subject of investigating what amount of gas is used in the street lamps of this city, and why the gas mains have not been extended northward, report that we have had an interview with the superintendent of the gas company, and learn from him that there is a fair probability of the company being able to extend their mains northward this fall, as far as their contract requires them to do. We have also had an interview with the president and several of the directors of the gas company, and we learn that by resolution, they have instructed the superintendent of gas works to reduce the price of gas for each street lamp five dollars per annum, from the 1st of the present month. And we learn from the superintendent that their is a fair prospect of their being able to make a still further reduction on

the 1st of January next, owing to the opening of new mines and a consequent reduction in the price of coal. We have made arrangements with the superintendent for him to furnish a meter at the City Hall, and attach it to a street lamp, and place the same in charge of the committee, by which, after a period of time, we can more fully determine the amount of gas used in the street lamps, and the consequent price thereof.

From the best information we could gain, we are satisfied that the present proposed rates are as reasonable as the gas company can afford to furnish the street lamps with gas, therefore would recommend that those rates be accepted until we are able more fully to determine the amount of gas consumed by each lamp.

The recommendations were adopted and the committee were directed to continue their labors.

The committee on claims, to whom was referred the report of the street supervisor, reported that they found the supervisor's account correct, and recommended that \$1,658.36 be appropriated to cover the amount expended over and above his appropriation for the three months ending May 31st. Report adopted and amount appropriated.

The committee on the city cemetery, to whom was referred the sexton's report, recommended that the further sum of \$200 be appropriated to carry on the improvements in the cemetery, as desired by the sexton. Adopted.

On motion, action on the petition of Wm. Ridd, asking for the opening of certain streets, was deferred for one week, until further information should be obtained.

A bill of \$1,129.70 from the gas company for furnishing gas to street lamps and public buildings during the month of June was allowed.

Wm. R. Adkins was allowed \$58 for labor on Union Square.

The ordinance in relation to the city cemetery and sexton was then taken up and considered. The ordinance, after discussion, was referred back to the committee on cemetery, with instructions to confer with the sexton.

Adjourned for one week.

CHAMPION MACHINES.—I shall have but one more car load of the celebrated Champion Machines this season. Call early, or you not find them in the market.

L. B. MATHISON,
Blue Front, near Seventies Hall.

NEW YORK TRADE.

IMPORTANT NOTICE!

Readers and Heads of Families

CUT out this notice and send it to the Graefenberg Company, 56 Reade St., N. Y., together with TWENTY-FIVE cents, and you will receive by return mail, postage paid, a copy of their valuable family medical book, entitled

The Graefenberg MANUAL OF HEALTH.

It contains 360 pages, handsomely printed on fine paper, and is written in language plainly understood by every one.

ESTRAY NOTICE.

I HAVE in my possession: One roan COW, about 6 years old, line back, white under belly some white in face, branded on right shoulder resembling Y, crop off left ear, underbit in right.

If said animal is not claimed and taken away, it will be sold at public auction to the highest responsible bidder, at the District pound, Moroni, Sanpete Co., July 22, 1878, at 10 a.m.

JOHN L. LAILEY,
District Poundkeeper.
Moroni, Sanpete County, July 12, 1878.

SWEET **JACKSON'S BEST** **NAVY**
Chewing **Tobacco**

Awarded highest prize at Centennial Exposition for the chewing qualities and excellence and lasting character of sweetening and flavoring. The best tobacco ever made. As our blue strip trademark is closely imitated on inferior goods, see that Jackson's Best is in every plug. Sold by all dealers. Send for sample, free, to C. A. JACKSON & Co., Mfrs., Petersburg, Va.
