

NEWS OF THE WEST.

Five-Year-Old Boy Killed by Bald
Rat Over.

ACCIDENTALLY SHOT HIS FRIEND.

Drowned in an Irrigating Ditch—Idaho
Sheep Law Unconstitutional—A Fatal Fall.

The new sheep law in Idaho has
been declared unconstitutional in that
part which requires heavily sheep to
be dogged.

Monday's hailstorm in western
Idaho did considerable damage. A
hailstorm struck up at Salmon, measured
11 inches in circumference.

Tuesday night A. Patterson, a pioneer
of the Helena, Cal., fell into an open
fireplace at his home and was
heavily burned about the head and
shoulders. The old man is very feeble.
He is in a serious condition.

A mass meeting called in Butte,
Montana, for Tuesday evening, to
consider the celebration of Independence
Day, only fifteen persons were
present. There will be no Fourth of
July celebration there this year.

John R. Capron, a California pioneer
who crossed the plains in 1849, and
was one of the founders of Nevada,
died on Tuesday, by shooting
himself in the head. He had been
dependent because of illness.

A few days ago while little Nell
Bills, the daughter of Mr. F. W. Bills,
was out with the child of D. L. Lacy at
San Francisco, near Santa Cruz, Cal.,
the latter started out on the railroad
track just as a train was rounding a
curve. Miss Bills called to the child,
but the little one did not heed the
warning, and she rushed into the
train and pulled the child from the
track an instant before the train flew
by.

A 3-year-old child was drowned in
an irrigating ditch, near the Idaho-
Boise, Tuesday afternoon, on Pine-
creek. The child was the daughter of
a man who works for Thomas Upton.
The child was found floating in the
water from the ditch and was found
dead. The child was about 3 years old.
The stream was about 10 feet deep
and the child was found in the ditch
which was explored the body of the
child was found.

Louis, the 5-year-old son of M. M.
Boyer, who lives at Helena, about
fifteen miles from Butte, Cal., was
killed Tuesday by being run over
by a wagon. The man on the
wagon was engaged in hauling bar
in the barn, and the little fellow climbed
upon the wagon loaded with hay. He
lost his hold and fell, the hind wheel
of the wagon passing over his head,
and crushing his skull. Death was
instantaneous. When the body of the
boy was brought in, the mother was
prostrated, but is now recovering.

Herman Wehrman, a fruit grower
near Winters, Cal., met with an accident
last Monday evening when he
fell from a ladder while pruning
apples in his home, in the neighborhood
of Loma Prieta, about 1000
feet above the sea level. He was
working with Wm. Edwards, his wagon
was upset while going over a very narrow
stretch of road known as the "hog's
back." Wehrman was thrown down
over a rapid ledge of rocks for a distance
of 175 feet, sustaining a very
severe fracture in the back of his head. A
small sharp stone was imbedded in his
skull, which had to be removed by
the surgeons at Santa Cruz, where he
was taken.

The accidental discharge of a shotgun
in the hands of Nicholas Reinisch
caused the death Tuesday of his
son, Edward Louis, at Alameda,
California. Louis had been employed
for some weeks near Reno with
Reinisch, N. Beckman and O. F.
Westman, together with the families
as was the custom each year. At the
time of the accident Louis was sitting
on a bench in the camp, while Reinisch
was near him cleaning a shotgun.
There was a defective cartridge in the
gun, and while trying to extract it,
it was discharged in coming way, the
entire charge striking Louis at the
hip and bowels. Reinisch, the day and night, Mrs.
Louis and Mrs. Reinisch were sym-
ptomless of the occurrence.

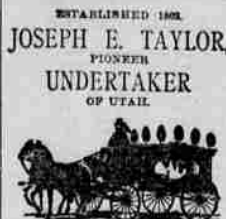

Arthur Pierce, a young sheepman,
was accidentally shot on Billy Creek,
Idaho, Sunday morning. He dropped a
45-caliber revolver upon a rock, the
bullet struck him almost in the center
of the breast, to the right of the nipple
and ranged up, coming out at the
back of the neck, just to the right of
the vertebrae. The accident the
young man was employed to work
four miles from the summit of
Crater's mountain to the diamond
on Snake river, where he found a
sheep. At the latter place he became
fatigued, and was carried nearly
a mile in a rocking chair to the river,
where he was placed in a shed and
brought to Lewiston. He is now resting
easily. At the time of the accident
Mr. Pierce was in the act of
shooting a coyote, when he slipped
and fell, dropping the revolver.

Thomas Norzani, the 10-year-old son
of Victor Norzani of San Francisco,
died on Monday morning, and as the
physicians had not been called within
twenty-four hours of his decease, they
could not give a certificate as to the
cause of death. The boy's father is
wealthy, and his mother has made
charges that the family was due to the
boy's being some time given him by
a neighbor. Between this neighbor,
Mrs. Norzani and Mrs. Norzani there
has been trouble, which resulted about
a week ago in the arrest of Mrs. Norzani,
but the charge of assault
was dismissed on the complaint.
Mrs. Norzani says she was suffering from a
throat trouble, but was taken violently
sick on Saturday night after eating the
cake. Mrs. Norzani gave it her own
opinion that Tom Norzani's death
was caused by mistake, and she
opinion in which she is upheld by all
the children in the block, who declare
that the child was an inveterate eater
of cake.

Thimbles Don't Like Money.
Models are said to interfere, as there is
little chance that thimbles will be
fired on. A scientist says that at a
temperature of 80 to 100 degrees F., which
is common in the pockets where money is
carried, the destruction of microbes oc-
curs within three hours.

THE REAL THING.

There is no pretence about a good,
old-fashioned toothache, and there is no
pretence to our claims to cure an aching
tooth, to stop it in the happiest possible
way. If your tooth can be saved we
save it at a reasonable cost. If it has
to go we tell you so and send you home
rejoicing.

DR. E. M. KEYSOR
162 MAIN STREET,
Rooms 200 and 201 Auerbach Building

Horses Kick

In self-defense. It is their most vigorous
form of protest. It is the same of dogs
barks that are driven into their teeth to hold
on their heels. Blacksmiths often use
each side in ignorance of the danger
that is in kicking.

What is what happens? One part comes
and a part goes. The other part goes into
the other side of the head. Such
kicks are the result of the Cold-Headed
Shearing Process.

By which the fibres of the scalp are
cut and when the head is shaved the
scalp is left in a state of inflammation
and is easily distinguished by the rough edge
along the side near the point.

Putnam Nails
are especially fast, forged and flame-
proof. They are the only nails that
will hold in the most difficult places.

**The
Waverley
Bicycles**

Thousands rode
last year's Waverley
Bicycles, and
were satisfied.

We offer the same wheel this season, greatly
improved, and better than many higher-priced
bicycles, at a greatly reduced price. A saving
in the cost of new machinery is alone respon-
sible for this financial benefit to the public.

We, however, make a wheel of a better grade—better
than them all. The expensive methods in its con-
struction will not allow us to sell it for less than \$100.
