

FLOATING FRAGMENTS.

Sleighting is still fair to middling. The weather has been clear and bracing all day.

Young People's Conference at the Assembly Hall to-morrow. The Alice Oates Opera Bouffe Company will play on Monday night.

Most of the Legislators from adjoining counties spend Sundays at home.

A dispatch from Aristotle (C. C. Rich) states that he is feeling considerably better again.

The Sunday schools of this city will not hold their usual sessions to-morrow, in consequence of the Young People's conference.

Reflect upon your present blessings, of which every man has many, and on your past misfortunes, of which all men have some.

The audience at the Theatre last night were delighted with the play of "Dionysus," the same in which it was performed. The Lincolns will play for the last time tonight.

Sleighting is good at Richmond, Cache County. The weather has been intensely cold there for several days, the mercury going down occasionally to 20 degrees below zero.

The two "old time" parties lately held in the Social Hall, were so successful that their managers have decided to give another next Friday night. At the next party the supper will be omitted.

Night before last the canvas awning in front of Barr & McTier's store was set on fire by the electric current from the electric light wire. Fortunately it was discovered soon after it ignited, and extinguished.

Next week all qualified electors, whose names are not yet upon the registration lists to enable them to vote at the ensuing city election, can do so at the next meeting, at room No. 7, City Hall, beginning on Monday.

The Utah Central Railroad Company have moved into the new general office, previously mentioned in the News, in the Deseret Bank Building, East Temple Street. It is probably the finest business office in the city.

On Monday, in Leadville, the Rev. J. A. Moore, pastor of the Baptist Church, of that city, was admitted to practice at the bar. He resigned his pastorate, and will at once begin the practice of his new profession.

Mumps continues to have a firm hold upon the juvenile portion of the community. A large number of children are affected with this complaint. A short time since 47 pupils of one school had it. The principal treatment is to keep the patient from cold and damp.

Beginners in the use of the telephone usually get their faces in too close proximity to the instrument, causing the sound transmitted to blur, and be nearly if not quite, unintelligible. The mouth of the speaker should not be nearer the transmitter than eight inches.

A bill to be introduced in Congress providing for the civilization of the Indians, is being prepared. It would not be in order as well to take measures for the civilization of certain classes of the white population, who commit savage assaults upon the Indians and incite them to deeds of retaliatory revenge.

Last season the children of Centerville, Davis County, gave a couple of cents from which they realized \$50, which they donated to the new meeting house fund. Now they are engaged making a new carpet for the floor of that house.

We cannot too carefully guard youth and innocence from the pernicious influence of vicious companions. Yet, when we have secured this isolation, we have performed but a small part of our task. They need the positive contagion of intellectual and moral health, vigor and strength, quite as much as protection from the opposite influences.

This afternoon, a young man about 18 years old, named Albert Weston, was wrestling with another youth in the rear of Morley's restaurant, when he was thrown to the ground. In falling he threw out his right hand to break the force of the fall, when his hand came in contact with a broken glass bottle, when a severe laceration was inflicted to the left of the index finger of the right hand.—Ogden Herald.

On Monday night the body of a man named James Wheatley was taken to Leadville from Aspen. Wheatley was killed on Thursday last in a mine. He put in a shot of giant powder, lit the fuse and then went back to the tunnel. An hour afterwards, supposing the shot had exploded, he descended the shaft. Upon reaching the bottom the powder went off with terrific force, and he was killed instantly.

The days are perceptibly lengthening, and the afternoons are twenty minutes longer than they were in December, while the forenoons are no shorter. The afternoons are lengthening at the rate of one minute a day, and on Sunday last the forenoon began slowly to grow longer, increasing a minute every two or three days, caused by the gradual apparent return of the sun northward.—Ex.

The Battle Inter-Mountain says: "Eighty Mormons were unloaded the other day at Glen station, to lay track on the Utah & Northern from that point down to the Big Hole for a connection between the Northern Pacific at Blackfoot on our west and Gallatin City on the east." If the P. & N. should say that 50 Presbyterians, Methodists, Shaking Quakers, Roman Catholics, or Campbellites had gone up there to do something, some body would have said the editors were "cranky."

Thomas Slight & Co., have opened a trunk and plain and fancy box factory, on the premises formerly occupied by Solomon Brothers, on West Temple Street, nearly opposite Z. C. M. L. Produce Department. They manufacture nearly everything in the box line, from the exquisite fancy valentine article to the big stout box. This morning we saw a specimen of their work in the shape of a common sized trunk, of substantial construction and comely appearance, the retail price of which is only five dollars. Mr. Slight and his partner are working men, engaged in a legitimate home industry, and are worthy of encouragement.

Not Improved.—We very much regret to learn that Mr. Elizabeth Cannon continues seriously ill, her condition to-day being no improvement upon that of yesterday.

Burned Out of House and Home.—Lewis D. Spencer, of Portage, Box Elder County, with his wife and children, left his house at 9 a. m. on Tuesday. In the evening, as they were approaching home, on their return, they observed a light in the interior, and soon discovered the place to be on fire. Brother Spencer opened the door just as a can of coal oil burst and spread the flames in every direction. Seeing their way out the slightest opportunity of saving anything by his own exertions, he drove, with his family, to the nearest house, about one mile distant. Before help reached the place, everything was consumed but the cook stove. Bro. Spencer lost all excepting what he and his family stood up in, including his grain, which was burned.

As our informant, Brother W. R. Anderson, states that Brother Spencer left his house in the morning, the cause of the burning is somewhat mysterious.

An effort was being successfully made among the neighbors to collect sufficient bed clothing, furniture and other goods for the purpose of giving the unfortunate family another start in housekeeping.

A Methodist Light Extinguished.—One of the great lights of the Methodist Episcopal church has gone out, and the Congregationalist domination has been correspondingly illuminated. Who would have thought it? The great expounder of Leviticus 15, 18—the doughty J. P. Newman, who was so disastrously routed in the discussion with the Apostle Orion Pratt, has tumbled a religious summer to the Methodist and the Congregationalist Church. Doubtless it was done for a valuable consideration.

Speaking of the doctor's apostasy, the Pittsburgh Christian Advocate says: "When a man, whose mother has nursed him tenderly, comes to the conclusion to slay her, because there are some things she sees fit to withhold from him, the poignancy of her grief will be somewhat dulled by the consideration of the ingratitude he manifests."

He is now pastor of the Independent Congregationalist Church, and the St. Louis Christian Advocate understands that some of his richer Methodist sheep will go with him.

A Goop Coal Mine.—Yesterday afternoon Mr. Wm. Boyer, discoverer of a valuable bed of coal at Chalk Creek, about nine miles from Coalville, brought some specimens of the carboniferous article to our office. Having tested it we are enabled to say that it is of a quality between the ordinary Weber and Rock Spring, a very superior article for household use. The vein is seven feet thick, with a descent of only about six inches to the yard, and is therefore easily mined. If the coal from this extensive bed can be got upon the market, there can be no doubt about the success of the mine, owing to the desirable quality of the coal. Messrs. Jesse W. Fox and Hyrum S. Young are interested with Mr. Boyer in the enterprise.

Danger of Accidents.—We draw the attention of the police to a danger of accidents from the coasting of a crowd of boys in the northeastern part of the city, especially on the dividing street between the Eighteenth and Twentieth Wards. A crowd of boys are so infatuated with the sport in that locality, that they keep it up to a late hour of the night, some of them carrying lanterns with them. One accident has occurred already, which came near being disastrous. As it was it involved considerable loss to the victim.

The Tuber Trade.—This morning Mr. Isaac Sears, the First South Street, produce dealer, left for Denver, expecting to be absent about two weeks. He took with him three carloads of potatoes (about \$5,000 worth) for the Colorado market. To prevent the tubers from freezing he has a stove in each car, in which a fire is kept constantly burning. He took a similar precaution last winter, landing his freight at its destination in excellent order, and making a success of the business, while other dealers suffered severely from having their produce spoiled or injured by the frost.

Accidentally Hurt.—We regret to learn of an accident which occurred yesterday morning to Father Thomas Fisher, of Bountiful, Davis County. It happened at Oxford, Oneida County, Idaho, at which place he was on a visit to his son William F. Fisher, who is county assessor of that section. The old gentleman slipped from the platform of the U. & N. R. R. station, which is considerably elevated, to the ground, causing a severe shock to his system.

Theatre.—The play of "Divorced" gave greater satisfaction than any yet presented by the Lincolns. The acting of the two centres of attraction, William Horace and Alice Dunning, was apparently faultless. The fine comedy gives them excellent scope for the exercise of their peculiar abilities.

To-night, this excellent company will give their last performance. "Our Boys" and the grand act of "Stolen Kisses" constitutes the bill.

Birthday Anniversary.—This is the 78th anniversary of the birthday of Sister Eliza R. Snow Smith. The long life of the most estimable lady has been one continuous round of usefulness. Her name is known throughout the hosts of the Church, as a synonym of purity of purpose, combined with a superior order of intelligence. We offer our heartfelt greetings and best wishes.

Association Meetings.—Yesterday Sisters E. B. Wells and M. I. Horne went to Centerville to attend the Relief Society and Primary Association meetings of that place. The former was held in the earlier part of the day, Sister Sarah I. Holmes presiding, and the young folks' meeting was held in the afternoon. It was an interesting occasion.

LOCAL AND OTHER MATTERS.

Not Improved.—We very much regret to learn that Mr. Elizabeth Cannon continues seriously ill, her condition to-day being no improvement upon that of yesterday.

Able to Be About.—Brother David Hilton, after being confined to his home for about a week, from injuries received through being accidentally thrown out of a wagon, is now able to be about again.

Young People's Conference.—The Young People's Conference will open to-morrow, at the Salt Lake Assembly Hall. Meetings will begin at 10 a. m. and 2 p. m. The afternoon session will take the place of the usual Sunday services.

Accidentally Hurt.—The Ogden Herald says that yesterday forenoon, Isaac Shupe, 17 years of age, was putting in load at the rear of Dea & Horn's establishment, on Main Street. While pulling up a block of ice, the rope slipped, jerking his hand into the pulley, by which two fingers of the left hand were torn almost entirely off.

Disastrous Runaway.—This afternoon, a runaway horse and sleigh, in the central part of the city, first collided with a wagon and then fled along the sidewalk, on First South Street. The next collision was with the front of Mrs. Madison's millinery store, a few doors east of the Reform Club rooms. One window of that establishment was broken and the other literally smashed to fragments. The horse and driver must have suffered severely also. We failed to learn the name of their owner, as the animal still continued to run.

Another Brass Band.—The members of the Young Men's Mutual Improvement Association of the 18th Ward have shown considerable enterprise of late. By their own exertions they have raised sufficient funds to procure a set of instruments, with a view to organizing and training a first class brass band. The set has arrived, and is the most uniform of any in the Territory. It comprises twenty-one pieces, of the celebrated make of Henry Gunckel, from whom they were procured by the agent for Utah, Mr. David O. Calder. The instruments are on display in the show window of Mr. Calder's music store. They were at his request, specially selected and tested before shipped, and they were also tested this morning by Prof. Thomas and other local musicians. The brass band of the Theatre orchestra have a set of instruments of similar style, only of smaller size.

Frozen Feet.—Yesterday a man named VanHartley, was brought to the city from Camas, Idaho, for medical treatment, having had both his feet frozen. The Pilot gives an account of the manner in which he got into that deplorable plight. It appears that on Friday last, he started from Camas Prairie to go to Camas Station, on the road, a distance of nine or ten miles. When out some distance he was thrown from his horse and the animal got out of his way so that he could not catch it, and there was nothing else for him to do but to walk. A dense fog and some falling snow soon made him lose his way, and he wandered around all night, traveling in a circle much of the time. The next day he could not see the country any better and still wandered around until he heard the whistle of an engine on the road, when he started in that direction. Arriving at Camas about 2 p. m. on Wednesday, he found that his feet were frozen.

How It Happened.—The Logan Leader gives the following details as to the manner in which Mrs. Rachel Thatcher, wife of Brother John B. Thatcher, met her death by an accident, in Gentle Valley, last Tuesday, the fact of which was published in the News: "Soon after breakfast, Sister Thatcher heard a crackling sound in the kitchen, which is a large room. Hastening into the room she saw that one of the timbers of the roof was about to fall. Several of her children were in the room, and she told them to run out of it, which they did. At this juncture, it seems, one of the long beams or stringers of the roof fell to the floor. Sister Thatcher also fell prostrate on the floor, with her head on the fallen timber, before she could recover herself, another heavy long timber fell parallel with the first and fairly on top of it. Sister Thatcher's head thus received the weight of the second timber and was thus plioned between the two. Death was almost, if not quite, instantaneous. Three men tried to lift the upper log, but could not, and it had to be cut in two before the remains could be released."

Ninth Ward Entertainment.—On Thursday and Friday evenings an entertainment was given in the Ninth Ward Hall by a number of young ladies and gentlemen of the Ward, who have organized as a Dramatic Club. The comedy of "The Toodles" was presented in a manner that would have done justice to much more experienced players. Timothy Toodles was impersonated by Mr. A. H. Woolley, Charles, the sailor, by Mr. L. Tuft, George Acorn, by Mr. Merwin Woolley, Lawyer Glib, by Mr. Jas. Mair, Farmer Acorn, by Mr. W. Taylor, Farmer Fenton by Mr. I. Brown. Miss Ella Woolley played Mrs. Toodles, and Miss Susan Woolley took the part of Mary Acorn. They all played exceedingly well, and gained great applause, and exhibited more histrionic talent than any one expected. The farce of the "Elopement" by the same performers, followed and made lots of fun. Considering that these were their first performances, our young friends are to be congratulated on their success. A good house attended each evening. The Ninth Ward can now make its own dramatic fun, and have it of a good quality.

SENEFACTORS.

When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most other remedies could be dispensed with, many were sceptical, but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverer of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

A SENSIBLE LADY.

Not long since one of our principal physicians was called on to visit a patient who was suffering from a severe cold, and which had become seated on her lungs. He continued for some time prescribing expensive prescriptions for the lady, and she, poor thing, gobbling down the same, without getting any improvement. At last she was induced by her uncle to try Hale's Honey of Horehound and Tar, and before she had used one bottle of this wonderful medicine, she could see a decided improvement, and three bottles cured her. Cost only 50 cents a bottle at all druggists. Depot, Crittenton's Patent Medicine Warehouse. The dollar size is the most economical for general use.

Pike's Toothache Drops cure in one minute.

NOTICE.

Early in October we bought two solid car loads of goods designed largely for holiday trade. Every variety of fancy furniture is included. A few nice pictures, music racks, ladies desks, firecreens, etc. These goods we are hauling from the depot, and we mean to sell them between now and the 1st of January, 1893.
