PROF. CUMMINGS' LECTURE. "Greek Architecture and Statuary" is Described Before the Art Institute.

Prof. Byron Cummings, of the University, gave a lecture on "Greek Architecture and Statuary" at the University laboratory building under the auspices of the State Art Institute, it being the second in the series of lectures to be given in this city. Mr. Culmer, in in troducing the lecturer, expressed regret at the meagre audience and hoped the future more interest be exhibited in the work the institut public, in the way of art, gratuitously Prof. Cummings handled his subject like one who was perfectly familiar with it, and it was listened to with intense interest throughout. The various periods of Greek architecture were taken up and described minutely, from the introduction of the art down to the ime the Roman architecture time the Roman architecture was adopted. The lecture was embellished with stereopticon views of the architecture of all these periods, and also reproductions of the statuary and figures in bas relief, which greatly enhanced the interest of the lecture.

The next lectures of the series will be given Friday evening, April 27th, by Mrs. Alice Merrill Horne, whose theme will be "Home Decorations, and Mrs. McCune, who will speak on "Art as Related to Manufactures."

# FEW WOOL SALES ARE BEING MADE.

Report of a Salt Lake Dealer Just Home From Boston.

THE MARKET VERY QUIET.

Only Western Wool Men are Making Any Sales at All and They are Doing So at Forced Figures.

"In all the years of my experience as a wool buyer I have never seen the wool market as quiet as it is at the present

This was the way Robert Morris, of Rowe, Summerhays & Morris, expressed himself today after a sojourn of nearly a month in the wool markets of the East, particularly in Boston, which is the recognized wool buying and selling center of the country.

"There seems absolutely no disposition on the part of manufacturers to buy wool at all," continued Mr. Morris, "unless they can get it at a figure far below what it is really worth under present conditions; and as to dealers, they are simply sitting around in their offices awaiting a change of some kind. When purchases are made at all now they are made in small lots from persons who are compelled to make large concessions. There are always some wool men from the West who have con-signments in the big commission houses of Boston and it is this class that is making an occasional sale in order clear out what they have before the present year's clip has to be taken care of. Of course all the wool now on the market is last year's product, none of this year's having been sent East as

Mr. Morris on being asked as to whether or not the condition of the market was likely to improve, replied tirely problematical. This he said was a presidential year and presidential years were always full of uncertainties.

### SHEARING INTERRUPTED. The Recent Cold Weather Has Made a Halt Necessary.

As soon as the weather clears up. shearing on a large scale will commence and continue until the nearly two million sheep in Utah have been deprived of their coats. This work will last until almost if not quite the middle of July. In many parts of the State regular sheep shearing associa-tions exist. The prices paid to the shearers range from six to seven cents and shearers will clip all the way from fifty to one hundred head each day. It will thus be seen that good shearers can make fancy wages for the next two or three months,

### THE PRICE OF WOOL.

Newly Shorn Clip is Being Bought Around Fifteen Cents Now.

Advices from southern Utah today are to the effect that there are several agents for wool buying companies in that section and that sales have been made at around fifteen cents per pound. One or two sales for sixteen cents are reported as having occurred. This is regarded by local wool dealers as being a top notch figure under prevailing conditions, although no dealer who was seen today would admit that prices might not go higher within the next few weeks or months. Still the most notable feature of the conversations with the wool men today was the profound uncertainty that seemed to pre-vail in their minds as to the turn the market might take in the near future.
The shearing of flocks in southern
Utah has been interrupted by the recent storm and will cause a delay of at least a week or two, though it was stat-ed today that fleeces were still being clipped at Millford and Blackrock on the Oregon Short Line in Beaver county and at one or two corrals in Sanpete.

# THE PRICE OF MUTTON.

Grain Fed Article Brings a Little More Than Four Cents.

The local market is well provided with first-class grain fed mutton at the present time, and the prices are very satisfactory to the producer, ranging from four to four and a quarter cents

er pound, live weight. Sait Lake, Provo, Grantsville, Kaysville, Leht, American Fork and some Sanpete county towns constitute the sources of supply from which local butchers draw. Dealers here are ship-ping a good deal of mutton to outside uch as Pocatello and various other Idaho towns as well as some to Wyoming cities and a few points in Nevada. Mutton is retailing at from eight to fifteen cents per pound on the Salt Lake market.

### WHAT LAMBS BRING.

Owners Are Now Getting From \$2.75 to \$3.25 Per Head.

Spring lamb, always choice, tender and succulent, is on the market at the usual fancy figures, though a good deal of it is being sold. The raising of spring lambs has come to be a very profitable calling and more sheep men are finding that out, and governing themselves accordingly, than ever be-fore. Year after year the demand for this article has grown with the growth of the city, until a considerable number of sheep owners are now reaping goodly profits out of it, while many a farmdollars than any other branch of the business. He now gets from \$2.75 to \$3.25 per head for all the lambs he can

The business man who sends home a The business man who sends home a quarter of lamb for Sunday dinner now has to pay from a dollar to a dollar and a half for it. If he takes a few toothsome chops home he must pay 30 cents a pound for them. It will thus be seen that they come high bevertheless Salt Lakers must have them.

# BOOST FOR UTAH MAN.

Jesse Smith Suggested for Presidency of National Wool Growers.

Jesse N. Smith is looked upon in Utah as one of the best informed sheep men in the State; and it appears that his reputation in this respect is now quite generally conceded throughout the country, he always having given a

DESERVES IT.

Remarkable Success of a New Treatment for Piles. For many years it has been supposed

that the only absolutely sure cure for piles was by surgical operation, but the danger to life and the pain and expense has been so great that many thousands suffer for years rather than submit to this last resort; or they seek the temporary relief in the many remedie claimed to relieve piles and rectal trou bles, salves, cintments and similar sim-ple remedies which give only slight and

very temporary relief.

A new preparation which is painless and harmless, but which affords immediate relief and in many cases a complete cure in a very short time, is sold by druggists under the name of Pyramid Pile Cure mid Pile Cure.

It is in suppository form used at night and its regular use has cured thousands of obstinate, long standing cases, and it seems to be equally effective in all the various forms of piles, whether itching, bleeding or protruding.
The Pyramid Pile Cure allays the in-

duces the tumors, and its astringent properties cause the enlarged blood vessels to contract to a normal, healthy A Baltimore gentleman relates his experience with the Pyramid Pile Cure in

Growers' Association of the United States, recognizes in him good timber for the presidency of that large and

influential organization and says: 'He is regarded as an excellent gen tleman to be put at the head of the national association. There is no doub that he would come nearer to pleasing all parties concerned, some of whom naturally have very different views on the matter of wool. It is no scoret that in view of Senator Warren's retirement from the field, Mr. Smith's candidac; from the field, Mr. Smith's candidacy seems at present to be the most formidable one, and men in Washington thoroughly familiar with the inner workings of the industry claim that Mr. Smith's choice would be a most happy selection for the succession to the office recently held by the late Judge Lawrence of Ohlo."
