FREMONT CANAL SOLD TO FARMERS

Utah Light and Ry. Co. Transfers Valuable Water Rights to Warren Irrigators.

DEMISE OF ASA L. CHILD.

Well Known Resident of Riverdale Answers Summons—Sanitarium and Lagoon Amusements for Summer.

Ogden, March 14.—The Utah Light & Railway company has sold the Fremont canal, together with all of its laterals, to Wm. T. Waymire, J. M. Wade, J. M. Folkman, and T. S. Terry, residents of Warren, Weber county, for \$25,000, and the deed of transfer has been placed on file with the county recorder. The purchasers in order to make the payment for the canal easy, have issued 17 bonds of the par value of \$1,500 each, the bonds to be paid at the rate of one each year, thus giving the purchasers who are representatives of the people of Warren, an opportunity to secure the canal on easy terms. The people of Warren have been using water out of the canal for irrigation purposes for years. The canal carries water sufficient to irrigate most of the land of Warren. The early part of the irrigation season sufficient water runs in the canal to water all the crops, but until a large storage reservoir is built it will be impossible to provide sufficient water for the late crops. The Utah Light & Railway company secured title to the canal in 1895, and has since greatly improved it and acquired additional water rights. The purchase of the canal at this time by these gentlemen is considered an excellent buy, especially on such easy terms, as now the farmers of Warren in 17 years will be able to own the canal with the stock fully paid up.
