INCER'S

New Improved Silent

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly

THE SINCER NEW

Has been brought to perfection, regardless of time, labor or expense and is now incompar-ably the best Sewing Machine in existence.

It is simple, compact, durable, beautiful, quiet, light-running, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking, Quilting, Feiting, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases. New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate patiern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

The volume of new business for the past year exceeded that of the 2d Company (Mutual Life, of New York), by over Thirteen Million Dollars and was greater in amount than that of any other Company in the world.

Whosoever wants the Best and Cheapest ever offered, call at the DESERET NEWS OFFICE and send for "The King and the surred, New Business, 1869:

The volume of new business for the past year through the Machine in the natural direction, namely, from the operator, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the everse, compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch. In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires me eil, and does not soil the thread or goods. Other Machines drive their Shuttles, in a race, thus causing great wear, and requiring oil, soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages,

The SINGER is the Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements, It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those who utterly fait on other Machines.

SINGER'S New Manufacturing Machines Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable to all kinds of heavy and light manufacturing in Cools, Leather, etc., and run in the most perfect and reliable manner without trouble to the

Without any previous advertisement, the Demand for the Singer Machine is so Great that we have been unab e to retain even one Machine to exhibit. All sold, but a large number are new on the way from New York, and

WILL ARRIVE IN A FEW DAYS. They will consist of the Different Varieties made by the Singer Manufacturing Company and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

For the convenience of our Patrons we have engaged the services of a gentleman who has engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the fostitution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill toeir orders. and are compelled to still extend their Gigantic Works. We having been so fortunate as to secure the

General Central Agency

For this Territory, we extend a cordial invita-tion to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you ex-amine the Singer. We Guarantee every Machine we

sell to give entire satisfaction THE SINGER BUTTON-HOLE MACHI Is the only Practical one in the World.
